ANOTHER JUNE WEDDING.

Nuptials of Mr. Wm. Galbraith and Miss Maud McConkey.

The residence of Mr. A. R. Nicholls, 208 Dalhousie street, brother-in-law of the bride, was the scene of a very quiet wedding yesterday afternoon at 4 o'clock, when Rev. J. J. Rae, pastor of the Charlotte street Methodist church, united in marriage, Mr. Wm. Galbraith, of Napanee, and Miss Maud McConkey, daughter of Mr. Richard McConkey of Selwyn. The occasion was a quiet affair only the immediate friends of the bride and groom being present. The bride who is most favourably known and has many friends in town, looked charming in a gown of gray silk, with white silk trimmings, and the bridesmaid was attired in cream cashmere with cream silk lace trimmings.

At the conclusion of the ceremony, the party sat down to an elegant wedding breakfast, after which the bride donned a travelling costume of brown serge, trimmed with black velvet and jet trimmings, and bonnet to match, and the bridal pair embarked on the five o'clock G.T.R. train for Toronto. Before returning they will visit Niagara and other summer resorts. Mr. and Mrs. Galbraith will reside in Lakefield. The many friends of the happy couple extend cordial congratulations and warm wishes for a happy married life.

Saturday Night Trip.

The steamer Mary Ellen will run a special trip Saturday night from Lakefield to Stony Lake, connecting with the G. T. R. train from Peterborough. 3d

His Wheel Disappeared.

Mr. Lambe, of the Street Railway Company, left his wheel on the corner of George and Charlotte streets, yesterday, for an hour or so and in the interval elapsing before his return for it, the bicycle disappeared. It is a Brantford with steel rims. The case has been placed in the hands of the police.

A Railway Picnic.

Arrangements have just been completed for a grand union G.T.R. picnic for the Midland and Northern division employees, represented by Lindsay and Allandale stations. The date selected is Saturday, July 20th, and Orillia is the choice of the committee for a meeting place. A grand programmee of sports and games is in the course of preparation.

Wholesome Summer Beverages.

I have the sole agency here for Huckle's (of Ottawa) Aerated Waters—Ginger Ale, Cream Soda, Vanilla Seltzer Lemonade, Seltzer Water, Bicarbonate of Soda, Lemon Sour, Ginger Beer in stone jars, etc.—second to none in the market.

COUGH BROS.

The Progressive and Victorious Leaders in Clothing, secured the T. Dolan & Co's stock of Clothing, Cloths, Gent's Furnishings, Hats and Caps, &c, at 60c on the Dollar, and will flood the town and county with trumpet-tongued bargains to all the people, commencing Saturday morning, June 29th.

Conferring Degrees.

There was a large attendance at the meeting of Peterborough Lodge No. 111, I.O.O.F., last night. A number of members of Bobcaygeon lodge paid a fraternal visit, and for the purpose of two of their members having the second and third degree conferred upon them. After the work was performed an adjournment was made to the dining hall, where strawberries, ice cream and cake were served by Bro. Hooper. The visitors were delighted with the way in which the work was done. Amongst the visitors from Bobcaygeon were Messrs. W. J. Reid, H. Thompson, M. Johns, John Blok, Andrew Braden, Jas. Copestock and Morgan Johns.

Trip to the Thousand Islands.

The excursion which will be run to Kingston and the Thousand Islands on Dominion Day, under the auspices of Lindsay Lodge, I. O. O. F., promises to be well patronized by Peterboronians. The special train will leave here at 8:00 o'clock in the morning and calling at intermediate points will reach Kingston at 12 30, noon, where a fine palatial steamer has been chartered for a cruise of five and a half hours through the beautiful islands of the St Lawrence. Returning, the train will leave Kingston at 5.30 p. m., reaching Peterborough at 10 p. m. The sail is one which every one should take as the Thousand Islands are world renowned for their picturesque beauty.

J. J. Brealy Released.

About two months ago it will be remembered that Mr. J. J. Brealey was convicted of pointing a gun at a Mr. Downer, and sentenced to one month's imprisonment, and required to give an undertaking to keep the peace for the usual period. He refused to give such an undertaking and was retained in confinement. About a week ago he appeared before Judge Weller, and still refusing, he was sent back to gaol with the intimation that when he had changed his mind he could express as much. Yesterday Mr. Brealy sent word to the judge, through Mr. E. A. Peck, that he was ready to yield, and this morning he was brought before His Honour, and giving the necessary undertaking, was released.

Also that the treasurer be paid the sum of fifteen dollars for petty cash.

Adopted on motion of Messrs. Ferguson and McKee.

Mr. Peter Hamilton, chairman of the

PROPERTY COMMITTEE

reported as follows :

As instructed by a resolution of the Board, the Property Committee advertised for tenders for the addition of four rooms to the South Ward School as per plans and specifications supplied by Wm. Blackwell, Esq. We met on Monday 24th, and opened the different tenders which we received, of which there was five for the complete work, which is very completely specified for. The whole work is included in the plans and specifications excepting the Smead-Dowd furnaces for heating and the painting or colouring of the brick walls on the outside. This will be a separate tender. The lowest tender was received from Thomas Rutherford, offering to do the whole work as per plans and specifications for the sum of $5,625.00, and we would recommend the Board to accept this tender, and that the Secretary be instructed to have the contract with Mr. Rutherford completed agreeably to and including conditions specified as to securities and time of completion required by the Property Committee.

Mr. Hamilton in speaking on the report stated that an alteration in the plans was responsible for a somewhat greater expense than was anticipated. In company with Mr. Blackwall, Miss Warner had visited several of the Toronto kindergartens and they had seen that a separate class room was absolutely necessary in connection with the work of this department, in order that the best results might be obtained. The plans therefore had been slightly altered to meet the requirements, entailing a little addditional expense. The plans were now drafted on the most modern lines as considered necessary in the work of a kindergarten.

After the members had looked over and commented favourably on the plans of the addition, the report was adopted on motion of Mr. Peter Hamilton and Mr. J. J. Hartley.

There were five tenders in all, submitted as follows : R. Clinkscale, $6,450; T. Rutherford, $5,525; J. E. Burgess, $6,310; H. Carveth and G. Douglas, $8,400; T. H. Carveth, $6,750.

The Board then adjourned to meet at the call of the chair.

THE ROSA'S BRIDGE MATTER.

The Ontario Government's Grant Forthcoming—The Necessary Funds Guaranteed.

Mr. Stratton was in Toronto on Thursday and interviewed the Ontario Government in reference to the conditional appropriation made towards the construction of Rosa's Bridge. It will be remembered that the condition attached to the Ontario grant of $2,500 was that of the Dominion Government appropriating $4,000, and the township of South Monaghan $2,000. The Dominion Government refusing to give $4,000 brought into effect the condition in which the Ontario Government grant was made. The latter Government, in view of the interest taken in, and the importance of, the bridge, has decided that it will hand over the $2,500 grant to the township of South Monaghan, to be applied in payment of the construction of the bridge, when the latter is completed to the satisfaction of the township council and the council of the town of Peterborough. The Ontario Government is entitled to credit for its promptitude in meeting the wishes of the people of South Monaghan and the town, and in waiving the condition on which its grant was made and in paying over its grant, accepting as equivalent to the deficiency which was expected from, but not contributed by, the Dominion Government, the grant made by the town and private contributions. There is no reason now why the contract should not be closed and the work proceeded with at once and the committee should have no hesitancy in guaranteeing the payments. The Ontario Government grant is sure, the Dominion Government grant is sure, the township grant is sure and the contributions by the Peterborough business men are sure. It is to be hoped that the work will be so pushed that this most desirable bridge in the interests of the town and township, may speedily be available for public traffic.

ENTRAIN FOR PICTON TO-MORROW EVENING.

The Peterborough Rangers Off on Their Annual Outing at 9 p.m. To-morrow Night.

The various companies of the 57th Battalion are all now well filled up and will present a most creditable appearance to-morrow evening when they entrain at the station for Picton at eight o'clock. Arrangements have been made in Picton for the holding of a grand promenade concert on Monday evening for the amusement of the men and non-commissioned officers.

The following orders were issued last evening at the conclusion of parade :

HEADQUARTERS,
PETERBOROUGH, June 27th, 1896.

Orders by Lieut. Col. R. W. Bell, Commanding the 57th Battalion of Infantry, Peterborough Rangers.

The Battalion will parade on Saturday evening at 8 o'clock, June 27, and entrain for Picton.

Every non-commissioned officer and man must provide himself with soap, towels, blacking brushes and cleaning utensils.

The order for entraining will be under the direction of the adjutant.

On entering the train the men will place their rifles with care on the floor.

Each company will mount a guard at the doors of the car which it occupies. The sentries to be relieved every fifteen minutes until Picton is reached. The sentries will not allow any but officers pass from car to car.

On arrival at Picton each company will form up facing the train, and will send out a guard and marker when the bugle sounds for markers.

During the camp a guard of one sergeant, one corporal and twelve men will be mounted by successive companies, which will take all duties of the camp. The tour of duties will be as follows :

From arrival in camp until 8 a.m. Sunday, E Company; from 8 a.m. to 3 p.m., F Company; from 3 p.m. to 10 p.m., A Company; from 10 p.m. to 8 a. m. Monday, B Company; from 8 a.m. to 3 p.m. C Company; from 3 p.m to departure, D Company.

The officer of each company will take the duty of officer of the day during their respective turns of duty.

On arrival in camp the Orderly Sergeant of each company with a fatigue party of six men, will parade at the Quarter-master's tent for issue of blankets.

The commanding officer has been pleased to make the following promotions :

C Company—To be Sergeant Corporal, Wm. Fowler, vice F. Metheral, left limits. To be Corporal, Private W. Metheral, vice Fowler, promoted. To be Corporal, Private G. Green, vice Letts, resigned. To be Corporal, Private LeBar.

By order,
E. F. MASON, Capt.,
Adj. 57th Battalion.

Major Langford, Quartermaster, left early this morning for Picton, with six men to pitch tents and make arrangements for receiving the rest of the Battalion when it arrives in Picton early on Sunday morning.

C. P. R. SPORTS AT THE DRIVING PARK.

They Were Most Successfully Run Off.

NOT A HITCH IN THE PROCEEDINGS OF THE DAY.

Football and Baseball Matches, Bicycle Races and Sports of all Descriptions —A List of the Prize Winners—The Great Annual Tug-of-war.

The thousands of visitors to Peterborough yesterday amused themselves in various ways during the day. Some five hundred went down the river and a few visited the parks, but by far the greater majority visited the Driving Park and witnessed the sports which were conducted under the able management of the following committee:

J. Drinkwater, W. C. King, T. Milne, E. J. Salisbury, D. Montgomery, T. Batter, W. Code, W. B. Bamford, A. McAuley, C. Fanning, J. Malloy, D. Hunt, J. Carey, J. Scott, B. McAllister, D. J. McDonald, Geo. Spencer, A. Gordon, L. L. Ross, J. E. Rouleau, T. Kimberley, A. McGuire, H. J. White, W. S. Dodd, W. Taylor, D. R. Bell, R. Preston, J. S. Pearson, W. H. Kirkby, P. Cavanagh, E. Purcell, T. E. Boddy, G. Johnston. A. K. Kirpatrick, Chairman; R. A. Bennett, Treasurer; G. W. Thornton, Secretary; Geo. Weeks, Asst. Secretary; J. Fogg, Official Starter.

Special judges for tug of war contest—W. J. Green and Geo. J. Horkins.

Referee for bicycle races—George Spencer; Official timer—George J. Horkins.

As official starter, Mr. John Fogg, of Toronto, did his work as usual in the most satisfactory manner. He has officiated in this capacity for the last eleven years for the C. P. R. games. The entire series of events were conducted with that admirable promptitude and system that characterize the operation of "the greatest time on earth."

The events were run off in the following order.

Quoits.—1st prize, subscription Daily Morning Times, R Sellers; 2nd, stiff hat, George H Giroux; 3rd, subscription Toronto Daily Star, W Hendry.

BICYCLE RACES.

One mile open (Class A.)—1st prize, pair of gold sleeve links—Gordon of Toronto; 2nd, brass clock—Cotterell, of Toronto. Time, 2.53.

Three mile open (Class A)—1st prize, 3 day bicycle clock Cotterell, of Toronto; 2nd, silver mounted walking cane—N. Lush, of Peterborough. Time, 9.46.

One mile (employees only)—1st prize, gold medal—Hutchins, of Toronto; 2nd, silver shaving cup and brush—Cotterell, of Toronto.

Half mile dash (Class A)—1st prize gold medal—Gordon of Toronto; 2nd, gold locket—F J Smith, of Campbellford.

In the first event of the bicycle races Lytle, Lush, Hall and Evans were the local men entered and all did well considering that this was the first race for them. There were nine entries. Smith, of Campbellford, set the pace in the first lap and the second quarter was a fast one. Cottrell shortly afterwards took the lead but was easily passed at the last quarter pole by Gordon, who proved himself a hard rider indeed. Smith came under the wire third with Lytle lapping on his wheel.

The three mile event brought out the same riders with the exception of Gordon. Cottrell took the race and Lytle would have probably made a good second if he had watched himself closely, but he allowed Lush to creep up on him and beat him out in the stretch with a quick spurt.

In the half mile bicycle dash the pace was a hot one, but Gordon again carried off the honours, although Smith, of Campbellford, was close on his heels.

The preparation for the

TUG-OF-WAR

between the Trainmen and Locomotive men were watched with interest. The teams were composed as follows:—Trainmen.—George Spencer, captain; Angus Carmichael, Wm. Cole, James Beatty, George Dart, John McWhorter and S. Johnson. Locomotive Dept.—B. Perrin, captain; P. Cavanagh, T. Barnes, R. Nolan, T. Noonan, T. Moriarty and J. Mayloon.

The trainmen were never in it for a minute when the locomotive department started to pull and so the magnificent challenge cup goes to the latter.

Whilst these events were being run off a large crowd watched with interest

TWO BASEBALL TEAMS,

hailing respectively from Smith's Falls and Havelock, striving for supremacy. The two nines were made up as follows:—

Havelock.		*Smith's Falls.*
Dart	catcher	Scott
Black	pitcher	Pennett
Hicks	1st base	Rook
Patten	2nd base	McAndrews
Hogan	3rd base	Boyd
Mullett	right field	Bowes
Carey	left field	Woodmark
Ford	centre field	Muldoon
McGuire	short stop	Stewart

Umpire—Martin Connors.

Havelock was entirely too strong for the eastern team. Although the first innings resulted in a score of one to one, when Havelock next went to the bat seven runs were batted out and they kept this up till the end of the game, winning by a score of 18 to 4. Black and Dart composed Havelock's battery and they did exceptionally well. The score was as appended:

By innings:									RUNS
Havelock	1	7	0	3	7	—			18
Smith's Falls	1	1	1	0	1	—			4

Prize—$25; $5 to losers.

As Smith's Falls had lost at baseball against Havelock, a great deal of rivalry between the two towns had been aroused, and when representative football teams from the two places came together, the excitement ran high, but Havelock again asserted its supremacy, winning the match by a score of 1-0 after an hour's hard play. The teams lined up as follows:

Havelock.		*Smith's Falls.*
Lewis	goal	Hewitt
Stewart, Grant	backs	Gibson, Hooper
Fennet, McAndrews, Stitt	half backs	Kindred, McGuire, Ashby
Haight, Pearce, Small, Green	forwards	Ormiston, R Watson, J Watson, F Hendron, B Hendron

Referee—H B R Dryden.

The combination work of the two teams was excellent, and the close score is a proof of how evenly the teams were matched. Havelock won its goal in the first half, and though every player was on his mettle, this was the only goal scored in the match.

The selections which the Fire Brigade Brigade Band played during the day were greatly appreciated, many of the visitors openly expressing their pleasure, when a piece was executed in particularly praiseworthy manner.

The railroad boy in the past received the name of being one who was at times apt to let his love of fun run to boisterousness, but without doubt the excursionists of yesterday were the most orderly crowd which has ever picnicked in the town, and the C.P.R. employees won golden opinions from the citizens by the way in which the whole affair was carried out. The police and special constables were on the grounds but there was no need of them, as a Sunday School excursion could not possibly have been quieter.

Restaurants and hotels reaped quite a harvest in the way of meals furnished to the visitors, as there was not a score of baskets brought into the town. The merchants, too, were liberally patronized and Peterborough will make a strong bid to have the picnic come this way again next year.

The two trains for the east were joined together and under the escort of two locomotives moved homewards at about seven o'clock, with happy faces looking out of every window. The west train also pulled out at the same time as cheers rang from the platform and coaches. The Fire Brigade band was also down at the depot, and its sweet strains of music were the last sounds the visitors heard as they steamed away to their homes.

SACRED RECITAL IN ST. JOHN'S

A Delightful Hour of Sacred Song and Music.

The sacred recital given in St. John's church last night under the auspices of the Ladies' Auxiliary, was a charming success. There was a good attendance, the ladies largely predominating, and a programme of classical excellence was artistically presented. Previous to the beginning of the recital Rev. B. C. H. Andrews explained that sacred recitals were not at all unprecedented in churches. The custom had been in vogue for a great many years in the Mother country, especially in the cathedrals and large parish churches. He remarked that the very fact of the sacred nature of the edifice preventing applause was of itself a strong recommendation in favour of all sacred concerts being conducted in consecrated buildings. The chief attraction was, of course, the boy soprano from St. Simon's church, Toronto, who furnished three numbers, one of them a double number—"O for the Wings of a Dove!" "He Shall Feed His Flock," Come Unto Me" and "The Holy City." Master Young is a remarkable singer, has a voice of singular purity, in some parts of its wide register of exquisite sweetness and roundness. His method is, considering his youth, artistic to a degree. He seems to sing with a sympathetic appreciation of the expressive requirements of his theme. His beautiful singing throughout was most enjoyable and the wonder at his vocal range and executive ability reached a climax when in closing the cadenza of his last number, "The Golden City," he soared up to D flat in alt. Master Young's accompaniments were played by Rev. Ernest J. Wood, of Toronto, brother of Miss Alice Wood, of Hunter street, with fine judgment and taste. Rev. Mr. Wood also contributed two excellent baritone solos. His robust yet mellow voice was heard with fine effect especially in his second number Shelley's "Resurrection." Not the least pleasing feature of the programme was the sweet singing by Mrs. Geo. V. ("Dod.") Clementi, Chicago, who gave two numbers, Millard's "Ave Maria" and "I will give you Rest," Pinsuti. She sang with charming taste and delightful feeling and phrasing. Miss Vink, organist, furnished sympathetically played accompaniments to Mrs. Clementi's and Rev. Mr. Wood's numbers, as well as three organ solos which were rendered with a virile breadth and spirit decidedly unusual in a lady organist.

The ladies are to be congratulated upon the success of their recital as well as upon the neat sum which the offertory yielded —$20.35.

The recital closed with devotions, conducted by Rev. B. C. H. Andrews, including the singing of the hymn "Sweet Saviour Bless us Ere We Go," which as heartily and well sung by the congregation of ladies, was a very appreciable addition to, and pleasant conclusion of, a most successful sacred recital.

MODELLED ON THE LATEST PLANS.

The New Kindergarten Will be Ahead of the Toronto Schools in Conveniences.

The plans and specifications for the South Ward school show that when the contemplated improvements are carried out it will be most complete. Externally its appearance will be pleasing, and the trustees claim that the interior arrangements will be almost perfect.

In the new addition the basement will be floored and the walls plastered. Lunch rooms for the boys and girls have been arranged and a large play room for the girls. The rest of the space in the basement will be used for the furnaces, which if the Smead-Dowd system is put in will cost $800. The basement will be well lighted and ventilated.

The kindergarten department is on the ground floor and is composed of two rooms. One will be 26x32 ft. in size and the other 12x20. A wardrobe 10x12 adjoins the class room. A room for the next grade above the kindergarten is also on this floor and is so arranged that on special days, huge sliding doors can be thrown open and the whole floor turned into an assembly room for the accommodation of visitors coming to witness the kindergarten exercises. None of the kindergarten departments in Toronto schools will equal this one, when the contemplated arrangements are carried out.

On the next floor there will be two large pleasant class-rooms, the principal's room and a room for the teachers, with several large wardrobes in connection. The halls are all spacious and altogether the remodelling of the school will greatly increase its usefulness.

As stated elsewhere, the contract for the work has been awarded to Mr. Thos. Rutherford at $5,025. The lowest tender for a new school was $8,315—nearly $3,000 more, without taking into account the extra cost entailed in the purchase of the land, which would have been necessary.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames. We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. EARLY DISSOLUTION.

The Only Point in Lord Salisbury's Policy.

THAT HE WILL MAKE PUBLIC

Parliament Expected to Close on July 8—An Insult to Campbell-Bannerman for Which the New Premier Apologizes—Behring Sea Bill Amended To.

London, June 28.—In the House of Lords yesterday the Premier, the Marquis of Salisbury, announced that he hoped to obtain the Queen's consent to the dissolution of Parliament on July 8.

Lord Salisbury said the time had not yet arrived for a declaration of policy to be made in behalf of the Conservative party. The latter, he added, only had one policy at present, and that was to dissolve Parliament as soon as possible. Lord Rosebery expressed surprise at the Government declining to disclose its policy.

Continuing, the ex-Premier asked for an explanation of the Marquis of Salisbury's strange proceedings in sending to H. Campbell-Bannerman, the Secretary of State for War, on Tuesday morning, for the seals of the latter's office. The Marquis of Salisbury said that Lord Rosebery's statement was incorrect. What occurred was, he explained, that after Friday's vote in the House of Commons, he (the Marquis of Salisbury) thought it desirable to appoint a new Minister of War forthwith, and therefore he sent to Mr. Bannerman to ask him if it was convenient for him to deliver his official seals to the Sovereign earlier than the other Ministers, and if he did not desire the trouble of going to Windsor himself he could deliver them to the private secretary of the Marquis of Salisbury.

The Earl of Kimberley, late Secretary of State for Foreign Affairs, asserted that the Marquis of Salisbury had sent his secretary to Mr. Bannerman for the seals just as he would send a footman on an errand, and he thought the action of the Marquis was extremely discourteous. In reply, the Marquis of Salisbury said that if Mr. Bannerman thought he (the Marquis) had acted discourteously, he begged to express his extreme regret for the occurrence, and felt very sorry for it.

Lord Rosebery accepted the apology of the Marquis of Salisbury on behalf of the late Secretary of State for War.

Royal assent was given to the Behring Sea Bill, and it thus became a law.

Lord Rosebery's Cabinet held its final meeting in Downing-street this afternoon, with the object of arranging for the approaching campaign.

The Daily News says that when Mr. Campbell-Bannerman, Secretary of State for War in the retiring Government, returned to his home Tuesday, after presiding at a meeting of the committee of the unemployed, he found standing on the pavement a man, who asked him for his official seals. Mr. Campbell-Bannerman did not know his accoster, but on enquiring who he was learned that he was Mr. McDonnell, Lord Salisbury's secretary.

The retiring War Minister suggested that conversation be continued within doors, whereupon Mr. McDonnell repeated his message. Mr. Campbell-Bannerman refused to deliver the seals, saying that he had received them from the Queen and would surrender them to Her Majesty when he was commanded to do so.

The Daily News, commenting on the circumstance, says: "Lord Salisbury's action violated precedent and decency. It is only when a Minister is dismissed for misconduct or bad behavior has disqualified him from admission to the presence of the sovereign that such a course as that followed by Lord Salisbury is adopted."

The paper, which is the organ of the Liberals, says it understands that the Queen took official leave of Lord Rosebery last Sunday at Windsor Castle very graciously. She intimated that under no previous Government had the arrangements in which she was personally concerned been better made.

The Post makes the statement, for which it claims to have authority, that Lord Halsbury will be Lord High Chancellor in the new Government, vice Lord Herschell.

The Pall Mall Gazette says the Hon. Henry Chaplin has been offered and has accepted the Presidency of the Local Government Board.

John Redmond (Parnellite) member for Waterford city, has issued a manifesto, in which he argues that the Parnellite prophecies made at the time of the split in the Irish Parliamentary party have been fulfilled to the letter. He attacks the anti-Parnellites for resting on their oars when the House of Lords rejected the Home Rule bill and for allowing the Liberals to launch the Newcastle program. The Parnellites, like Mr. Gladstone, wished to appeal to the country, but the anti-Parnellites went with the Liberal intriguers. Mr. Gladstone resigned and since then there has been no Irish question before Parliament.

Mr. Redmond declares that the Irish must return to Mr. Parnell's policy and have a National party, absolutely independent of any of the English parties. The manifesto concludes with an appeal for funds.

Scrimmage at the Cork Election.

Cork, June 27.—The election to fill the vacancy in the House of Commons caused by William O'Brien being declared a bankrupt, was held to-day, but the result will not be known until to-morrow. The counting of the votes was postponed until then, owing to a scrimmage that took place in the counting room in which James Flynn, anti-Parnellite, M.P. for North Cork, P. O'Brien, an Ex-M.P. and others took part. The trouble was not serious.

Toronto Markets.

Toronto, June 28.—Flour—Dull; straight rollers quoted at $4.25 to $4.50, Toronto freights.

Bran — Bran is steady, at $12.50 for car lots, Toronto freights. Shorts are quoted at $15 to $16.50.

Wheat—The market is dull, with buyers holding off owing to decline in States markets. White wanted at 89c. but a sale is reported at 85c. No. 1 Manitoba hard is nominal at 97c to 98c, Toronto freights.

Peas—Trade is very dull and prices easy at 59c to 60c, outside.

Barley—Trade dull and prices nominal at 53c to 55c for feeding qualities.

Oats—The market is quiet, with prices unchanged. Car lots of white sold outside at 36c.

Rye—No business doing and prices purely nominal.

Oatmeal—Market is dull, with prices unchanged at $4.10 to $4.20 on track for ordinary qualities.

MONTREAL MAN EARL OF STIRLING.

Charles Alexander, a Confectioner, Proves to Be the Lawful Heir to the Earldom.

Montreal, June 26.—Mr. Charles Alexander, confectioner of St. James-street, and the promoter of a dozen charities in Montreal, has been proved, after years of research, to be the lawful heir of Alexander Earl of Sterling, and although the respected Montrealer and ex-M.L.A., is almost four score he may yet enter into possession of the vast estate in Scotland, including the famous Stirling Castle, all of which has been in Chancery for many a long year. Mr. Alexander says very little about the matter, and any one seeing the old gentleman at his daily work in the St. James-street establishment would scarcely believe him to be the lawful possessor of these rich Scottish estates, the value of which runs up into the millions. A Montreal lawyer will proceed to London in a few weeks and it is generally believed that this great property of the noble Earl of Stirling will be soon taken from Chancery and placed at the disposal of a man well worthy of such magnificent possessions.

Several of the Montreal shipping men are about to draw the attention of the Ottawa authorities to the early completion of the Illinois River Canal, and they state that this scheme will lower the level of Lake Michigan. It cannot but have a bad effect upon navigation on the St. Lawrence and Canadian lakes.

La Minerve publishes the following: "We are among those who doubt the opportuneness of publishing the documents that were in Bishop Gravel's possession, but have those who make much of that publication the pretence for a violent campaign against the Roman Catholics ever reflected that the resolutions of the Presbyterian Synod and Methodist Conference were not only more inopportune, but were expressly intended to deprive these very same Roman Catholics from having justice?"

The name of the cattle foreman who died so suddenly yesterday was James Kearney instead of Harkins, as at first supposed. Deceased was born in Toronto.

Japan Fortifying Ceded Territory.

London, June 27.—The Times publishes a despatch from Tien-Tsin saying that alarming rumors are being circulated there to the effect that the Japanese are fortifying the Liao Tung frontier. France's convention with China, the despatch says, sanctions the unlimited extension of Tonkin railways in China.

Sick Headache

CURED PERMANENTLY

BY TAKING

Ayer's Pills

"I was troubled a long time with sick headache. It was usually accompanied with severe pains in the temples, a sense of fullness and tenderness in one eye, a bad taste in my mouth, tongue coated, hands and feet cold, and sickness at the stomach. I tried a good many remedies recommended for this complaint; but it was not until I

Began Taking Ayer's Pills

that I received anything like permanent benefit. A single box of these pills did the work for me, and I am now free from headaches, and a well man."—C. H. HUTCHINGS, East Auburn, Me

PARIS' GAYEST HOUR.

The Climax of Adventure and Excitement is Reached on the Day of the Grand Prix.

The spirit of adventure and excitement that has been growing and feeding upon itself throughtout the day of Grand Prix reaches its climax after the dinner hour, and finds an outlet among the trees and Chinese lanterns of the Jardin de Paris. There you will see all Paris. It is the crest of the highest wave of pleasure that rears itself and breaks there.

You will see on that night, and only on that night, all of the most celebrated women of Paris, racing with linked arms about the asphalt pavement, which circles around the band stand. It is for them their one night of freedom in public, when they are permitted to conduct themselves as do their less prosperous sisters, when, instead of reclining in a victoria in the Bois, with eyes demurely fixed ahead of them, they can throw off restraint, and mix with all the men of Paris, and show their diamonds, and romp and dance and chaff and laugh as they did when they were not so famous. The French swells who are their escorts have cut down Chinese lanterns with their sticks and stuck the candles inside of them on the top of their high hats with the burning tallow, and made living torches of themselves. So on they go, racing by—first a youth in evening dress, dripping with candle grease, and then a beautiful girl in a dinner gown with her silk and velvet opera cloak slipping from her shoulders—all singing to the music of the band, sweeping the people before them, or closing in a circle around some stately dignitary, and waltzing furiously past him to prevent his escape. Sometimes one party will storm the band-stand, and size the musicians' instruments, while another invades the stage of the little theatre, or overpowers the woman in charge of the shooting gallery or institutes a hurdle race over the iron tables, and the wicker chairs.

Or you will see Ambassadors and men of title from the Jockey Club jostling cockney bookmakers and English lords to look at a little girl in a linen blouse and a flat straw hat, who is dancing in the same circle of shining shirt-fronts vis-a-vis to the most talked of young person in Paris, who wears diamonds in ropes, and who rode herself into notoriety by winning a steeplechase against a field of French officers. The first is a hired dancer, who will kick off some gentleman's hat, when she wants it, and pass it round for money, and the other is a companion of princes, and has probably never been permitted to enter the Jardin de Paris before; but the are both of the same class, and when the music stops for a moment they approach each other smiling, each on her guard against possible condescention or familiarity; and the hired dancer who is as famous in her way as the young girl with the ropes of diamonds is in hers, compliments madame on her dancing, and madame calls the other "mademoiselle," and says, "How very warm it is!" and the circle of men around them, who are leaning on each other's shoulders and standing on benches or tables to look, smile delightedly at the spectacle. They consider it very chic, this combination. It is like a meeting between Madame Bernhardt and Yvette Guilbert.

But the climax of the night was reached last year when the band of a hundred pieces struck buoyantly into the most reckless and impudent of marches and comic songs, "The Man Who Broke the Bank at Monte Carlo." The symbals clashed, and the big guns emphasized the high notes, and the brass blared out boastfully with a confidence and swagger that showed how sure the musicians were of pleasing that particular audience with that particular tune. And they were not disappointed. The three thousand men and women hailed the first bars of the song with a yell of recognition, and then, dancing and strutting to the rythm of the tune, and singing and shouting it in French and English, they raised their voices in such a chorus that they could be heard defiantly proclaiming who they were and what they had done as far as the boulevards. And when they reached the high note in the chorus, the musicians, carried away by the fever of the crowd, jumped upon the chairs and held their instruments as high above their heads as they could without losing control of that high note, and every one stood on tiptoe, and many on one foot, all holding on to that highest note as long as their breath lasted. It was a triumphant, reckless yell of defiance and delight, it was the war cry of that class of Parisians of which one always reads and which one sees so seldom, which comes to the surface only at unusual intervals, and which, when it does appear, lives up to its reputations, and does not disappoint you.—Richard Harding Davis, in Harper's Magazine for June.

Blondin and His Rope.

His baggage when on tour consists of the following: A main rope of 300 feet; circumference, 6 1-2 inches; weight, 300 pounds; twenty-eight straining ropes, fifty guide ropes, eighty tying bars—the average weight, not including poles, being five and a half tons. The freight of his fixings, we suppose, a huge traveling tent, which can encompass 14,000 people—amounted to £1,000 between Southampton and Melbourne. About three days are consumed in making his preparations, with the aid of a dozen assistants. The due adjustment of his rope is his principal care, and he superintends every detail.

In a fragment of autobiography written some years ago, Blondin tells us that the rope he generally used was formed with a flexible core of steel wire covered with the best manila hemp, about an inch or three-quarters of an inch in diameter, several hundred yards in length, and costing about £100. A large windlass at either end of the rope served to make it taut while it was supported by two high poles. His balancing poles, of ash sections, vary in length and are in three sections, and weigh from thirty-seven to forty-seven pounds. He is indifferent as to the height at which he is to perform. Blondin has never confessed to any nervousness on the rope, and while walking he generally looks eighteen or twenty feet ahead and whistles or hums some snatch of a song. The time kept by a musical band has frequently aided him in preserving his balance. Blondin is something of both carpenter and blacksmith, and is able to make his own models and fit up his own apparatus.—Chamber's Journal.

PATENTEES OVERCHARGE.

Their Great Mistake in Putting Fancy Prices on New Ideas.

A new article of domestic hardware has been put on the market which is a staple in all families and competes with a similar utensil which is sold for 15 and 20 cents. The price of the new article is $1. Before it can be in demand and generally adopted to the displacement of the old utensil, a great deal of work will have to be done, which is very much hampered by the prohibitory price put upon the goods. The number of persons who will be willing to pay the price of four or five of the old style goods for one of the new style, will not be large, we think, and a wiser policy would have fixed a lower price. This leads us to say, says the Cincinnati Enquirer, that every year there are large numbers of similar articles put on the market, which would have a large sale if they were sold at mercantile prices. By this we mean a consideration of the first cost of the goods when ready for delivery to jobbers, the jobbers' profit and the retailers, as well added, for these things are considered by buyers, both wholesale and retail, before there is any demand for goods. Last year we went into a store where a filter was on sale. Upon asking the price of one of half a gallon capacity, we were informed that it was $20. It was a plain casting with no fittings or fixtures and with some porous material inside of it of no particular money value. The casting may have cost 50 cents, and an outside figure for the cost of the utensil would be $1, yet $20 was the price to the buyer. We demurred at the price and gave the same reasons for doing so that are given above, but the seller's argument in favor of the high price was that it would filter some fabulous number of gallons of water per day. This had no connection whatever with the cost of the goods; a frying pan will turn out 500 pounds of cooked material a day and a 25-cent faucet will permit thousands of gallons of water to pass through it daily. These are the functions of the article sold; they are expected to be efficient, but there is no reason for adding 2,000 per cent. to the cost of them.

The fact that articles are patented leads many persons to feel that the public expect to pay stiff prices for them, but we believe this to be erroneous. Nowadays those who have money to spend consider prices very carefully, and if they are unreasonable they simply go without the goods.

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born today. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

MRS. JOHN GERRIE.

R. Phillips, jr., Druggist Witness.

"My six-year-old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind her ears. I tried almost every remedy I saw advertised, bought innumerable medicines and soaps, and took the child to medical specialists in skin diseases, but without result. Finally, a week ago, I purchased a box of Dr. Chase's Ointment, and the first application showed the curative effect of the Remedy. We have used only one-sixth of the box, but the change is very marked; the eruption has all disappeared, and I can confidently say my child is cured. (Signed) MAXWELL JOHNSTON.

POINTS THE WAY TO PERFECT HEALTH.

SOUTH AMERICAN NERVINE

The Great Health Restorer of the Century.

Sickness Cannot Cope With It—Has Cured the Worst Cases on Record—Cures at the Nerve Centers, and Thus Cures Permanently—A Wonderful Specific in All Cases of Indigestion, Dyspepsia, Sick Headache, Nervousness and General Debility—Has No Equal as a Spring Medicine.

There is a great deal of uncertainty in the methods adopted to remove disease. Doctors are not free from this kind of thing themselves. The poor patient has to put up with a good deal of experimenting. The discoverer of South American Nervine takes too serious a view of life to play pranks of this kind. He does not think that these human bodies of ours should be fooled with. He has recognized that they are subject to disease, but by scientific methods he has learned that just as the watch is to be put in perfect repair only when the main spring is kept in running order, so with the individual, he remains in perfect health, only when the nerve centers are kept healthful and strong.

What disease is more distressing than indigestion or dyspepsia? Some simple remedy may be given to cause relief for the moment. Nervine is an indisputably successful remedy for the worst cases of indigestion, because it reaches the source of all stomach troubles—the nerve centers. Indigestion exists because the vital forces have become diseased and are weakened. Nervine builds up the nerve centers, from which comes these forces, removes the causes of indigestion, and then builds up the health completely.

How many systems are run down through nervousness. A stimulant may give ease, but it will not cure nervous troubles. Nervine has cured more desperate cases of nervousness than any other medicine anywhere. And it does so for the same reason that it cures indigestion. The nerve centers are deranged, or there would be no victims of nervousness. Nervine rebuilds and strengthens the nerve tissues, and hence its marvellous powers in diseases of this kind.

In the spring of the year the strongest suffer from general debility. The blood, through neglect, has become impoverished and the whole system gets out of order. We speak of it as a spring medicine. Nervine restores the exhausted vital forces that have led to this tired, don't-care, played-out, miserable condition. No one can take a bottle of Nervine at this season of the year without disease quickly giving way to abounding health.

The moral is plain, simple and readily understood. If you would not trifle with disease, then you will take South American Nervine, which will not trifle with you.

CRICKET.

The cricket team from Mr. Sheldrake's school, at Lakefield, came down for a return match, Wednesday, and met with an overwhelming defeat at the hands of the eleven which Mr. Drope looks after and takes such an interest in. Since their defeat at Lakefield a couple of weeks ago the Peterborough boys have practiced most assiduously, and received their reward yesterday by winning by the score of 99 to 53.

The score was as follows :—

The low average of the Peterborough bowlers rebounds not a little to their credit.

The boys should now try to get on a match with the Trinity College School III. team.

The members of the local club are urged to turn out for a scratch match to-morrow afternoon. Play will begin at three o'clock.

THE WHEEL.

The cyclometer fad bids fair to outrival Napoleon, and even threatens to give great and only Trilby a close run for first place.

"Why," said one of our local cyclists, half the pleasure of wheeling now is to be found in comparing these bloomin' little registers and being able to tell the boys the exact distance it is from here, there and back, and how many minutes you made the run in, and how many thousand miles you have run since the season opened, etc., without having to go by the *promiscuous signs* that adorn the road, or taking out a tape line and measuring it."

And of course the cyclometer is by many accepted as being an honest, truthful little contrivance that would be horrified if anyone so much as suggested the possibility of its not being in every way a machine to be depended upon, whatever else goes wrong.

And, equally of course, it has become a ready tool in the hands of unscrupulous man who has lured it from the path of rectitude and makes it tell shocking untruths for the glory of its owner, which is manifestly unjust.

We have all heard of the local sport who, out on a run—one of those century runs we read about and which are proven beyond all doubt by the tales of things seen en route and the evidence of the unerring cyclometer—stopped for dinner at a village inn and hired a bright boy to spin his front wheel for two hours while he dined. This was all right, for he had to pay a quarter for his services and as the the money was his own, it was obviously no one's business.

But everyone may not be aware of the scheme worked by another local sport, upon a little, poor, unsuspecting and defenceless cyclometer which cannot even present a bill for services rendered.

The scheme in question is a scorcher and worthy of special mention.

Everyone who knows anything of the ways of the calculating cyclometer knows that every time the front wheel goes around a little rubber spool registers the fact.

That's all perfectly proper and just as it should be, but when it comes to putting up a job on the thing and having an array of several spools attached to the spokes of the wheel, each jogging the register and urging it on to a gait of a mile or more a minute, that's downright meanness and the practice should be discountenanced.

* * *

So far so good, but while new fangled devices are being put on the bicycles, how would it do for some one to suggest the advisability of having bells or horns or something of that sort on the wheels with which to notify pedestrians of their noiseless approach? This is compulsory in other cities and the necessity of a similar course being adopted here is gradually but continually growing, as wheel after wheel is sold to the young men. Fortunately—though in some few instances, more by good luck than management—no accidents have occurred yet; but I for one have no desire to wait until I have been killed by a half dozen of the things nor even, by one, before saying that signals are needed.

* * *

While I've got wheels so badly, it might not be out of order to call the attention of the public generally to the fact that even wheelmen have some rights which must be respected. One of the most universal fallacies regarding wheels is the belief, upon which too many act, that a buggy or other conveyance, meeting a bicycle, is entitled to the undisputed possession of the whole road.

This, as before remarked is all a mistake. A bicyclist has as much right to his half the track as another buggy would have, as some hog-of-the-road—a genus not unknown—will discover in case of a collision arising from said hog's neglect to recognize that right.

* * *

This is all wheels; but now to veer about on another tack, how about canoeists?

Have they, also, not some rights?

Many persons—from the small boy having no better sense, to the older ones, supposed to have—are in the habit of dropping stones and other bric-a-brac of varying size and weight, into passing canoes from the *different* bridges; and of throwing similar objects, from their posts as silent fishermen or noisy bathers along the shore.

These missles and the language which too frequently accompanies them are not at all pleasant to the occupants of boats or canoes, and it is said that the prospects of the police reporter are good for a grist of cases from this cause.

* * *

Another grievance of boatsmen is that in spite of the law to the contrary, boys will bathe within the town *limits* wearing only an air of naughty defiance. Even this were not so bad if done after dark, or if they would swim and keep swimming—but they won't do that.

When they see a boat or canoe coming with a lady in it, they must needs climb up on the logs, or an the bank if there are no logs convenient, to see her go by; and—well, its embarrassing, you know.

This is not often carried to such extremes as this, though violations of the law in respect to swimming au naturel, as it were, are by no means scarce.

LACROSSE.

Mr. T. McDonough, secretary of the Athletic Lacrosse club, received a telegram this morning from the Independents of Toronto, stating they would be down for a game on Dominion Day. The Elms could not come to Peterborough, having arranged to go to Orillia.

The Madoc team plays its return match here on Thursday next, and the game should be liberally patronized by all those anxious to support lacrosse and see it prosper in the town. The Peterborough's will put a very strong team on the field, and the game, which will take place in the Driving Park, promises to be a fast one.

FOOTBALL.

At seven o'clock this evening representative football teams from the respective townships of Otonabee and Smith will play a match on the Exhibition grounds. No charge will be made at the gate and the public is cordially invited to be present.

COTTLE'S KIDNAPPER.

Hatched the Diabolical Plot in Toronto.

WHERE HE HAS LIVED FOR YEARS

Emery, a Fugitive From Justice, Had Paid the Buffalo Attorney $17,000 to Secure a Pardon—$5000 Paid to Emery Before Cottle Was Released.

Toronto, June 29.—The man who planned and successfully carried out the astounding abduction of the Buffalo attorney, Octavius O. Cottle, the facts in connection with which were published yesterday, has for two or three years past been a resident of Toronto. His name is John C. Emery. He is a son-in-law of an ex-postmaster of Cincinnati, and a fugitive from Ohio justice for violation of the postal laws, and resided until two weeks ago in a furnished room in Church-street. His room is still being kept for him.

It was in Toronto that the scheme to abduct Cottle was concocted, and it was here that he met George Allen, the companion who assisted him in executing the daring and successful kidnapping.

Emery came from Cincinnati. He was conducting an electric belt business there and he became involved in serious trouble through a violation of the United States postal laws and was indicted by the Federal grand jury and locked up. Friends went on his bonds. Emery, who saw prison staring him in the face, for he felt incapable of putting up a good defence, fled to Toronto.

As his offence was not extraditable, he made no secret as to who he was. He rented apartments in Queen-street west and speedily became acquainted with the men-about-town. A few months after his arrival here his wife followed him to Toronto. They had a lively meeting at one of the hotels, and she returned to Ohio.

A week or two afterwards Emery rented an office in the Pythian Block, Queen and Victoria-streets, employed a couple of typewriters and wrote a book of 60 pages, purporting to give an account of his persecution in Ohio. Two hundred thousand copies of the book were printed, one mailed to every resident of Cincinnati, and a few distributed in this city. Emery set forth in his brochure that he was married to a daughter of the then postmaster at Cincinnati, that he had used the mails with the knowledge of his father-in-law, that he had trouble with his wife and commenced an action for divorce, and that her father had then informed the Washington authorities of what was going on. Emery continued to reside in Toronto. He had plenty of money, and always carried it on his person in a belt. He was an inveterate smoker, consuming from 15 to 20 cigars a day. He usually emerged from his rooms about 10 o'clock in the morning, and spent several hours daily in fine weather seated on the benches in the Metropolitan Church grounds. Of medium height, florid complexion, with heavy moustache of light color, and with a habitual scowl on his face he attracted general attention. He invariably kept to his rooms at night, and could never be induced to go down town after sunset by his few intimates, explaining that as he carried considerable money on his person it would be unsafe to do so.

A few weeks ago Emery was observed to have a companion, also a stranger in the city. This man was constantly in Emery's company, and roomed with him in Church-street, and those who knew Emery's history concluded that he was likewise a fugitive from across the border.

It appears, however, that Emery did not enjoy his forced exile in Toronto. He longed to return to Cincinnati. Before settling in Ohio, he had been a resident of Buffalo, and while there formed the acquaintance of Attorney Octavius Cottle. A year ago he wrote to Cottle asking that the lawyers settle in such a way that he might come back. The only way to accomplish this end was to have the indictment quashed, or to secure the promise of a pardon from the President in case Emery returned, pleaded guilty and was sent to prison. The bond that Emery had jumped was heavy, and he would have to settle it with those friends who had supplied it. The negotiations with Cottle were continued and Emery began to send on such money as the lawyer needed to push the case.

It is not exactly known how much money passed into the attorney's hands, but it is said to have been between $15,000 and $17,000. This was to pay all expenses, including the reimbursing of the bondsmen and the fee of Cottle. Emery, with the aid of wealthy relatives in the west, was able to place large quantities of cash in Cottle's hands. Emery's friends, who had been working hard to have him released, ceased their efforts when they learned that they Buffalo lawyer had taken the matter up. Months passed, and Emery began impatient. There were no signs of a release for him. He wrote to Cottle, but the replies were unsatisfactory. He was continually put off. He wrote to his friends, and finally learned that he was no nearer freedom from his offence than he had been on the day he first entered Canada as a fugitive.

Almost broken-hearted at thus being foiled, yet full of rage at the treatment he had received from the man he had so trusted, Emery wrote to Cottle demanding the return of all the money he had poured into Cottle's lap. His funds had run low, and if he could neither recover his $17,000 nor his liberty to go home the future was dark indeed. He wrote letter after letter, pushing his demand for the return of the money which he believed had never been expended in his behalf. The answers were few, far between and unsatisfactory. Finally, Emery threatened force, but this did him no good, for Cottle did not fear a man who was likely to be thrown into prison the minute he stepped on American ground.

Two weeks ago, Emery, desperate, left Toronto with his companion.

A little over a fortnight ago a family named Bernston, who had occupied the little brown cottage at No. 36 Bayness-st., Buffalo, left it and moved a few blocks away. A week ago last Saturday a nicely-dressed young man, of perhaps 25 years, called upon Dr. Hill and engaged the house. Next day a wagon load of furniture arrived, accompanied by two men. In a moment the door of the house at No. 36 closed on John C. Emery and his young friend, George Allen. The wheels had begun to turn.

On Monday morning a young man drove to Cottle's office. He was George Allen, alias Charles O Wilson. He carried a note to the lawyer. It invited him to drive with the bearer to a house in Chenango-street, to visit a man who wished to consult him about important legal business. Cottle got into the buggy with the man, and was whisked away to the little brown house in Bayness-street. His companion hurried him into the house, the door of which was not locked. Cottle was ushered into the sitting-room.

If he recognised Emery at once the terrible irony of the missive must have occurred to him. If he did not know him, there is no doubt that his client, in the zenith of his revenge's triumph, must have revealed himself.

There is little doubt but he was at once frightened or forced into silence and dragged to the cellar. He was cuffed, shackled and encased in the dog-collar chain. He was placed in a chair before the post to which the collar-chain was tied.

If John C. Emery was a man for gloating, he must have surfeited himself. He had in his power the man who had sneered at his threats, and who had practically dared him to cross the border and make a try for the big fee. Nor until John C. Emery is captured, or until Octavius O. Cottle admits the whole truth, will the events that occurred in the dingy cellar of the Bayness-street house be known. Emery may have threatened him with instant death as a means of furthering his purpose. He may have held out to the aged lawyer the prospect of slowly starving in an empty house, gagged and tied in a cramping position. Perhaps he went at his business immediately, and told Cottle that he held him hostage till the money that had been drawn from him was paid back.

At any rate, the captive's hands were freed and he wrote a letter, dated Niagara Falls and signed by himself. It was addressed to his wife.

About noon on Monday Emery took this letter and left the house. He came direct to Fort Erie and put up at the American House. When the little bus arrived from Victoria, he button-holed the old negro who drives it, and offered him lucrative work for a few hours. The negro was to take the letter and drive to Buffalo, delivering it at the Cottle home in North-street. He was to wait for an answer, and bring back the person who should desire to go. It was so done. The driver delivered the note, and in a few minutes Edmund P. Cottle, very pale, came from the house, and told the negro to drive him to the man who had given him the note. Within the hour, young Mr. Cottle and John C. Emery were in the latter's room at the American House.

Their conference was long. It is known that Emery demanded an immediate payment of $5000 as a respite for the elder Cottle.

"You had better decide quickly," he said, "I will hold your father prisoner until noon on Wednesday. If by that time you have not consented to my terms, you will never see your father alive."

On Monday afternoon E. P. Cottle returned to Buffalo from Fort Erie. On Tuesday the Cottles raised $5000 in cash, and in the afternoon Edmund crossed to Fort Erie with it in his pocket. He went to the American House, but there learned that the wily Emery was not there. He knew there was a possibility that the son would return for him with detectives who might be able to carry him by force across the border. He left a letter for Cottle, telling him to come at once, and alone, to Hammond's Inn, which is in a lonely region three miles back of Fort Erie. Cottle went thither and delivered up the $5000. Emery made another demand, when the first payment was in his pocket. Just the amount is known only to the two. Emery demanded that it be paid at Hammond's early on Wednesday morning, promising the release of the prisoner at noon. He left Edmund have no inkling of where his father was secreted, but told him he was in a place where the police could not find him and where his vengeance would be speedily and safely wreaked should the money be not forthcoming.

Young Cottle returned to Buffalo. There is little doubt but that Emery would have secured another wad had not accident intervened. Late on Tuesday night he called at the Baynes-street house and called off Allen. The pair went away, whether because they feared the police were working on the case or because they wanted to confer secretly is not known. There is no reason to believe that they intended to leave the house entirely and let the captive work out. They left at 10 o'clock, and at 2 o'clock Cottle was discovered by Patrolman Schen. The police immediately set a watch on the place, but they had foxy men to deal with. Emery and Allen never came back.

After Asst.-Supt. Cusack's conference with the Cottles, he had the younger send a message to Emery at Hammond's telling him that he had consented to his demands and would meet him at noon. Emery had become aware in some manner that his bird had flown, and he, too, had taken wing. When Cusack and Cottle went to keep the engagement, they found their telegram unsealed for and unopened.

John C. Emery and his confederate were gone. They had $5000. Octavius O. Cottle had had a terrible experience. The police, handicapped by the delay, were outwitted.

Yesterday morning Mr. Cusack, armed with warrants, which had been sworn out by Cottle, went to Niagara Falls. There he enlisted the aid of Chief Young, who promised a careful watch for the conspirators should be made in all the border towns in the vicinity.

Headquarters' Detectives Devine and Muckler, accompanied by E. P. Cottle, went to Fort Erie yesterday, as though expecting to find Emery and Allen sitting on the wharf with fishing rods in their hands. Of course, they returned without a prisoner. They had found plenty of traces of the men there. They had stopped at the American House for several days preceding the abduction. The crime is one on which prisoners may be extradited, but Emery and Allen seem to have had a good start and profited by it.

BANK ROBBER RUTLEDGE CAUGHT.

Arrested at Red Cloud, Nebraska—May Be Brought Back

Red Cloud, Neb., June 28.—Frank Rutledge, a well-known crook, who has operated in the Eastern States and Canada, was arrested here last night for theft. Rutledge was connected with a big bank robbery at Clarksburg, Ont., last August, and is supposed to have had a hand in recent crooked work at Toledo. Canad an authorities have wired the Sheriff to hold him, but the claim here will probably be first honored.

Jumped to Die, But Still Lives.

Camden East, Addington County, Ont., June 28.—A young man, aged about 20, named Arthur Darlington, attempted suicide here last night by jumping from the bridge into the river. When found he was unconscious, but has since recovered.

DA GAMA CUT HIS THROAT.

Preferred Death at His Own Hand to Being Taken and Shot

New York, June 28.—The Herald's Buenos Ayres special says: From one of the rebels who escaped capture by the Government troops after the insurgent defeat near Santa Ana, Rio Grande Du Sol, Brazil, the following details of the last battle in which Admiral Da Gama took part, and of his suicide were obtained: The Admiral, at the head of 400 sailors was engaged by a brigade of Government soldiers numbering 1200. The battle lasted five hours, and at least 300 men were killed or wounded. Some of the insurgents advised Da Gama to retreat, but he refused, and they abandoned him. With a handful of men the Admiral repulsed five charges of the Government cavalry, but the struggle was hopeless, and, seeing that all was lost, Da Gama ordered a retreat, and then cut his own throat.

Da Gama's body was taken to Santa Ana by the Government troops, and there horribly mutilated. He also asserts that the throats of many of the captured rebels were cut by the victorious soldiers. The rebels say they will continue the struggle.

"Go Ahead and Electrocute Buchanan."

Albany, June 27.—Attorney-General Hancock said to-night that he had advised Warden Sage of Sing Sing Prison to go ahead and electrocute Dr. Buchanan on Monday in case no new proceeding in law, such as has not already been disposed of, arises.

Moslem Outrages in Syria.

Berlin, June 27.—The Tageblatt publishes an appeal from the European colonists at Iskanderun, in Northern Syria, asking the western powers to protect them against the Moslem mountaineers, who are daily pillaging them and menacing their lives.

A Good Story.

A story is going the rounds at the expense of one of the best known men of this place. We shall not mention his name, but you know him. Of rather determined mien, he has of late been showing signs of mental agitation. He wears a full beard, but a few days since, his wife, much to her alarm, found him sharpening a razor. She thought his mind was unhinged and went into hysterics. Explanations followed and it was found that life had for him still some charm. He intended to use the razor upon painful corns. A friend who has used Putnam's Corn Extractor with success, advised its use, with the following results: Man quite happy, wife ditto, razor sent away. Use Putnam's Corn Extractor.

SATURDAY, JUNE 29, 1895.

DOMINION DAY.

On Monday all loyal Canadians, and that means all Canadians, will celebrate the 28th anniversary of the birth of the Dominion. There are, no doubt, very few except the teacher in active employment or the school boy or girl, that can tell us off-hand much about the Dominion of Canada. The term Dominion of Canada covers all the British possessions in North America except the island of Newfoundland. It has Alaska and the Pacific ocean on the west, the United States on the south, the North Pole on the north and the Atlantic ocean on the east. The area of Canada is 3,315,647 square square miles. Canada is a big country physically, but what is better it is a good country, and though the population compared to its area is small, compensation is made to a large extent by its superior quality. Now the birth of the Dominion was in this wise. About 1864 there was practically a dead lock, and party government became impossible. As a remedy for the existing difficulties, the Reform leaders made overtures to Sir John Macdonald for a coalition to bring about a federal union of the several provinces. This patriotic proposal was met in a patriotic spirit. A hasty and shallow grave was made for the party hatchet, and a coalition government brought about the scheme of Confederation which came into effect on July 1st, 1867. Since that time there has been great onward progress, not only in population but in material conditions. Our great natural resources have been developed, our civil institutions improved, but, above all, the national spirit has been very largely developed. Canada has become Canadianized—and the name Canadian is recognized the world over as the synonym of hardy enterprise, indomitable spirit, honourable dealing and reliability, and they are proud of their country and inclined and able, as they have shown on many an occasion, to defend its rights and the integrity of its territory. Canadians are well justified in celebrating their national anniversary with that quiet, though sturdy enthusiasm which springs from the deep-seated love for their native or adopted land. God bless the Dominion.

A Man Who Has Falsely Represented Himself as Agent for Messrs. T. Milburn & Co. of Toronto.

The firm of T. Milburn & Co., manufacturers of proprietary medicines, have for some time past been in receipt of letters from correspondents in and about Orangeville and Meadowvale, stating that a man has been operating in those districts, representing himself as their agent, and has been peddling medicines from house to house offering them as the medicines—Burdock Blood Bitters, etc.—put up by this well-known and reliable firm.

A Globe reporter, having been placed in possession of these statements, called at the office of Messrs. T. Milburn & Co., on Colborne street, and was shown a number of communications from merchants in the localities indicated, all of which confirmed the information at first received and as given above.

Not only had his firm been in receipt of communications, Mr. Milburn said, but some of his customers from Peel County had called at the office in Toronto and had informed him that this bogus agent had sold stuff at several houses which had necessitated the calling in of the doctor to treat the members of the families who had had used his compounds.

In closing the interview, Mr. Milburn, the head of the firm, said: "We have no such agent, nor do we sell our medicines through peddlers or agents other than druggists and general merchants, and on this account we are desirous that farmers and others buying our remedies should understand that any persons peddling from house to house cannot represent us. They should, therefore, be on their guard against buying medicines being foisted on them as those of our manufacture. I may say that we are willing to defray any expenses incident to the detection and conviction of this man, or of anyone falsely representing himself as our agent."

THE "LADY" QUESTION.

To the Editor of F. C. C.

MY DEAR SIR,—Though only a man I read with much interest the lady's letter in your last column. Anything addressed to the girls I eagerly devour; for thereby one obtains a great deal of information about them without the embarrassement of personal intercourse—so painful to a man who is not at once worshipful and shy.

There is only one thing in that excellent letter which I could wish otherwise said. By the mis-use of a word, the writer has, I think, encouraged in her girl readers a tendency which she would be the first to deplore. I should perhaps only say that she has left out of view something which I think very much to the point. It is the "lady" question—a very delicate matter to deal with, and now where angels might well fear to tread allow me to rush in.

Of course you may define the term "lady" any way it suits your particular pride or fancy; but the word has after all a definite meaning, and we must look for that meaning to the best literary usage. Let us exercise a little conscience about the use of words, and not make them say what they were never intended to say. The writer evidently would define a "lady"—that is the ideal lady—to be a woman possessed of all the moral and spiritual perfections, in other words she would say a perfect lady is a perfect Christian, and vice versa. She thus makes the word descriptive of moral quality. Now, I maintain that the distinctive meaning of the word, the honest received, meaning of to-day has no reference to moral or spiritual perfection. The term "lady," though originally confined to women of rank, is now properly applied to all women of refinement and cultivation. The distinctive reference is not to moral quality, but to deportment, manner, bearing in society. A woman enters a drawing-room; everybody at once recognises the lady. Another immensely her superior in what is vital enters, and "society" says at once, "not a lady." And they are right in both cases is probably right. Nobody dreams of making it a moral question, and the whole thing is decided at a glance.

To-day there is a kind of girl who is never quite happy unless she can think that she is "just as good as anybody else," that is just as much a lady as anybody; and so the word has out of complaisance to this unwholesome feeling got to be loosely applied to almost all reputable women, and has taken on in the popular view a moral signification.

Now this is not a mere matter of words; there lies here a great moral and social question. Foolishly thinking that to be esteemed and of consequence they must be called "ladies," many girls waste their pure affections and earnest effort to play at precedence with each other. Let them once grasp the idea that "lady" is a term of comparatively superficial meaning, by no means an eternal word, expressing vital or lasting distinction, then they will, I believe, strive less in vanity and pride to raise themselves by dress, affectation and scorn of their sisters, to the rank of "lady," and more to acquire those moral and mental graces, which the writer (wrongly, I think) expresses by that term. That outward refinement, that finished grace of bearing and speech, that delicate perception of social duty and courtesy, so pleasing and so beautiful, which are the distinctive marks of the lady, are rarely acquired in the highest degree of perfection by the noblest women. Noble women generally have noble manners, but not necessarily cultivated manners. The greatest refinement requires much leisure and is generally found among the idle. It is not always good; a lady can be too refined. The most polished nations are often the most corrupt—their refinement being in fact the very cause of their corruption. Certainly, a noble woman is not necessarily a lady. Who would not have been proud to have had "Margot Howe," or Jean Paton for friend or mother? But they were not ladies; they were peasant women, and would have with a certain "proud humility" acknowledged this themselves. True, under different circumstances they would have been ladies. This is equivalent to saying that the term expresses no more vital destinction than the terms "scholar," or "clergyman."

"Ladyhood" is a superadded thing, beautiful and admirable; but it often goes with the cold heart and the shallow brain, and my earnest word to girls is:—Do not envy this in your sisters, if you have it not. Rejoice in and honour it, and call it beautiful, being assured is a thing "that will be added unto you also," according to your capacity, without your painful seeking. Frankly acknowledge in your dress, manner, and conversation your station in life, and be glad if you fill it well, however humble. Then the finest lady will rejoice to call you "sister," and will honour you as a true woman; for she knows that if you are not all glorious without, you are indeed a king's daughter "all glorious WITHIN."

GRANDPAPA.

[The subject under discussion is one of such general interest and importance at the present day that we gladly publish the letter of "Grandpapa." But we think it open to friendly criticism at one or two points.

1. Has he not given a too restricted definition of the word, lady. If "refinement" is a necessary mark of a lady, then there can be no question that a moral element must be admitted into our definition. Courtesy is a mark of refinement, and courtesy implies respect and sympathy. That that is the case is clearly proved by the fact that there are many who have enough money or clothes, or external culture, to be admitted into the ranks of what is termed the best society, of whom we may hear the frequent remark that "she is not a lady," and the same is true mutates mutandis of men. The Century Dictionary distributes its definitions under nine heads, the most pertinent of which to our present discussion is the following: "A woman of good breeding, education and refinement of mind and manner." Thus defined, we cannot agree that "lady is a term of comparatively superficial meaning."

2. We cannot agree that "a lady of Peterborough," either said or implied that the term "a perfect lady," was synonymous with "a perfect Christian." Let us suppose that Lady Aberdeen or some other distinguished woman of "good breeding, education and refinement of mind or manner" were to give a lecture on the subject "What is a lady," we can scarcely doubt that she would begin with the inward sources from which true and durable refinement of mind and manner must spring and the quotation with which "a lady of Peterborough opened this part of her subject was certainly most appropriate—"The King's daughters is all glorious within."

3. It seems to us that "Grandpapa" is astray in saying that to-day "in popular use" the word "lady" has taken "a moral signification." The contrary would appear to be the case. The term is applied to anybody and everybody, good, bad or indifferent, well-mannered, bad mannered or no-mannered. So much is this the case that ladies are beginning to prefer to be called women. Lowell in the Biglow papers writes, "I admit that our abuse of the word is villainous. I know an orator who once said in a public meeting where peanuts preponderated, that "the ladies were last at the Cross, and first at the Tomb." The advice contained in the conclusion of grandpapa's letter is admirable, and will, we trust, be by many laid to heart. To those who aspire to be ladies in deed, as well as in word, we will add this: Find out from the best models of "ladyhood" what are the highest marks of a lady and seek to acquire them both inwardly and outwardly.

We are sure that all women refined in mind and manner will agree with a "Lady of Peterborough" that promenading of public streets on Saturday and Sunday evenings is a habit highly detrimental to any claims of ladyhood, and likely to be most injurious to both the inward growth and outward manifestation of the qualities of a lady.

French Canadian

Citizens of Montreal Speak With Candor and Honesty.

They Say Paine's Celery Compound is the World's Best Medicine.

Mios Julia Valliere is Cured.

Hundreds of her Friends Speak Feelingly About the Wonderful Cure.

The best French Canadian citizens of Montreal freely admit that Paine's Celery Compound excels all other medicines in the world. They recognize its marvellous virtues in the cure of rheumatism, sciatica, dyspepsia, liver complaint and kidney troubles, neuralgia and all nervous diseases. Hundreds have given the most important testimony after having been raised from beds of suffering. The fact is, that thousands of prominent French families now keep Paine's Celery Compound regularly in the ome for use when emergencies arise

The recent cure of Miss Valliere, of 89 Dorchester street, Montreal, who for years was tortured with inflammatory rheumatism, has caused much talk in many homes where she is known, as well as much discussion in medical circles.

Miss Valliere's testimony should deeply impress every man and woman who is a martyr to rheumatism. It plainly means that sufferers should not spend their money for medicines that have no power over such a terribly dangerous disease as rheumatism. Miss Valliere strongly advises the use of the only medicine that can "make people well"—Paine's Celery Compound. She writes as follows:

"I think it is my duty to advise you of what Paine's Celery Compound has done for me. I was terribly afflicted with inflammatory rheumatism, and could not do work of any kind. I tried a vast variety of medicines, but all proved failures; I also spent much money with doctors, but never got any relief. I took the counsel of a friend, and used four bottles of your Paine's Celery Compound, with the result, that I am now perfectly cured. I think it is the best remedy in the world."

SIX FIREMEN KILLED.

Disastrous Blaze in Minneapolis Last Night—Many Injured.

Minneapolis, June 28.—The most disastrous fire in this city in point of loss of life since The Tribune fire in 1889 broke out at 11 o'clock to-night in the five-story building at 240 and 242 First-avenue south, occupied by [illegible] Brothers, wholesale crockery dealers. Six firemen were killed and many injured.

The first alarm was shortly followed by second and third alarms, and a general call for the entire department.

Big Blaze at Frisco.

San Francisco, June 28.—The worst fire San Francisco has ever had in 30 years, started shortly before 6 o'clock to-night. An explosion of powder, stored in the railway warehouses, whirled heavy timbers for blocks, and the firemen were hemmed in. The burned district covers three acres and includes a large number of factories.

The total loss is $1,500,000, 50 buildings being burned, 300 families homeless.

UNIONIST MINISTRY.

The Premier Will Issue a Manifesto on Wednesday.

FULL LIST OF THE NEW CABINET

Ministerial Appointments Officially Announced—Rosebery Decorated With the Order of the Thistle—Timothy Healy Will Support a Tory Irish Policy.

London, June 28.—The following Ministerial appointments are officially announced:

Lord Halsbury, Lord High Chancellor.

Viscount Cross, Lord of Privy Seal.

Sir Henry James, Chancellor of the Duchy of Lancaster.

Sir Matthew W. Ridley, Home Secretary.

The Marquis of Lansdowne, Secretary of State for War.

Lord George Francis Hamilton, Secretary of State for India.

Right Hon. Charles T. Ritchie, President of the Board of Trade.

Earl Cadogan, Lord Lieutenant of Ireland.

Lord Ashbourne, Lord Chancellor of Ireland.

Lord Balfour of Burleigh, Secretary for Scotland.

All of the foregoing will be members of the Cabinet. In addition to these, Mr. Robert William Hanbury, M.P., has been appointed Financial Secretary to the Treasury, and Mr. George Nathaniel Curzon, Under Secretary for Foreign Affairs.

The other Cabinet appointments previously announced officially are:

Lord Salisbury, Prime Minister and Secretary of State for Foreign Affairs.

The Duke of Devonshire, Lord President of the Council.

Right Hon. A. J. Balfour, First Lord of the Treasury.

Right Hon. Joseph Chamberlain, Secretary of State for the Colonies.

Right Hon. Sir Michael Hicks Beach, Chancellor of the Exchequer.

Right Hon. George J. Goschen, First Lord of the Admiralty.

It is stated to-night that the Cabinet is now complete, and that the Chief Secretary for Ireland, the President of the Board of Agriculture and the Postmaster-General will be included in the Ministry.

The Pall Mall Gazette says Lord Salisbury will issue the manifesto of the new Government on July 8.

Lord Rosebery went to Windsor this afternoon. He was granted an audience by the Queen, and later took luncheon at the castle. Her Majesty approved the outgoing Ministry's list of royal honors submitted by the retiring Premier.

The Queen, at the farewell audience she gave Lord Rosebery, invested him with the order of the Thistle.

McCarthyites Hold Cork.

Cork, June 28.—The election to fill the seat for Cork City, made vacant by the retirement of Mr. William O'Brien, was held yesterday, and resulted in the return of Mr. James F. X. O'Brien, by a vote of 4,309 to 4,133 for Mr. Roche, the Parnellite candidate. The McCarthyites thus save the seat.

Tim Healy Would Support the Tories.

Dublin, June 28.—Speaking this evening at a political gathering in this city, Timothy Healy, anti-Parnellite member of the House of Commons for North Louth, said that if the Tories approached Ireland with a suitable program he would support it, but he did not believe that the Tories would submit such a program. He did not approve of the resignation of the Liberal Government, which had thereby left the Irish to the mercy of Mr. Balfour's police.

The Chronicle says that Mr. Thomas Sexton, anti-Parnellite member of the House of Commons for North Kerry, has finally decided to re-enter politics.

LORD RIPON THANKED.

By Colonial Representatives for His Courtesy to Them.

London, June 28.—The representatives in London of the various British colonies called in a body upon Lord Ripon at the Colonial Office to-day. Sir Charles Tupper, Canadian High Commissioner, acted as spokesman, and upon behalf of his colleagues and himself expressed the sense of their obligation for the courtesy and attention they had invariably received during his lordship's tenure of office as Secretary of State for the Colonies.

Speaking of the developments of Lord Ripon's administration, Sir Charles Tupper referred to the two innovations which his lordship had assisted to introduce, both calculated to promote the unity of the empire. The first was the extension and recognition of the time of honorable services, as an indication that services rendered in the colonies will in the future be regarded as Imperial services, and the second was the inclusion of the judges of the great colonies in the Judicial Committee of the Privy Council.

Lord Ripon thanked Sir Charles Tupper and his colleagues for the help accorded him in the work of his administration, and said he would always continue to feel great interest in colonial questions.

AN ILLINOIS SENSATION.

A Lady of Union County Recovers Her Health in a Marvellous Manner.

Anna, Illinois, June 17—A very interesting case of recovery from a very complicated form of kidney trouble has taken place here, and the details are gradually being made public. The sufferer was Miss M. T. Loomis, who for a long time has been a victim of severe pains in all parts of the body. She consulted a number of doctors and was treated for a great variety of complaints, the diagnosis all proving faulty. At length she determined to try Dood's Kidney Pills, having read and heard much of their efficacy and found her expectations justified in a complete cure.

Severe Diarrhœa Cured.

DEAR SIRS,—I was in a very low condition with diarrhœa when Dr. Fowler's Extract of Wild Strawberry was given me. One bottle cured me, and I cannot praise it too highly. ISAAC TAYLOR, Rothsay, Ont.

PLEASE LET US SEE IT

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

Entrance Examinations.

There are 178 candidates ploughing through the papers in the Entrance examinations, or more strictly speaking 176, for two are trying the new examination, the Public School leaving. Of the candidates, all except 40 are from the town Public and Separate schools. The examiners consist of Mr. Principal Tessendien, Mr. M. O'Brien, Mr. G. Yeomans and Messrs. Drope and Jeffers. These candidates are the raw material from which the attendance rolls of the Institute are recruited.

A European Grain Dealer.

Mr. Louis Houedrey, of Bretagne, France, is spending a few days in Peterborough with Mr. J. B. Larocque. Mr. Houedrey is probably the largest grain merchant in Europe, having American agencies at Philadelphia, Detroit, New York and all the principal grain centres on this side of the water. He is visiting the country with the object of ascertaining the adaptation of the soil for the growing of peas. At the great French Exposition in 1889 Mr. Houedrey received the gold medal for the finest samples of grain shown.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. GOD SAVE THE QUEEN.

Agonizing, Transfixing Pain.

The most excruciating pain known is perhaps caused by Agina Pectoris, which is most to be dreaded of any disease of the heart. It distinguishes itself especially by pain, and by pain which is best described as agonizing. The pain literally transfixes the patient, generally radiating from the heart to the left shoulder and down the arm. The face shows the picture of terror, and is either deathly pale, or livid. To a person suffering from this species of heart trouble or from palpitation or fluttering of the heart, shortness of the breath, or smothering spells, the value of Dr. Agnew's Cure for the Heart cannot be estimated, as it will give relief in 30 minutes in every case, and if judiciously used effect a cure. Dr. Agnew's Cure for the Heart is the greatest life saving remedy of the age. Sold by H. S. Macdonald.

THE RESULT OF MR. MCGILL'S APPOINTMENT.

"A Good Name is Better than Riches"—At Least in This Case it Amounts to Much the Same Thing.

Confidence is the sheet anchor of financial transactions. The confidence begotten in the public mind by the appointment of Mr. Charles McGill as General Manager of the Bank of Ontario is shown by the marked advance in the quotations of the stock of the bank. On Monday, Ontario was quoted at 82 with a downward tendency. To-day, (Saturday), Ontario is quoted at 90 with numerous transactions at 88.

NEWS NUGGETS

Paragraphs Picked Up and Pencilled for Public Perusal.

—Monday evening Dominion Day, there will be no issue of the EXAMINER.

—Reeve Casemen of Lakefield, is learning to ride a bicycle. He was in town to-day.

—The scholars of the Douro school picnicked in West Nicholls Park yesterday afternoon.

—No typhoid has been heard of in the town so far this summer. Last year the epidemic set in at just about this time.

—St. Paul's church Sunday school picnic to Bobcaygeon, Wednesday, June 3rd, per G. T. R. and steamer "Columbian." 2d

—A large number of surgical operations have been successfully performed at the Nicholls' Hospital within the last month.

—The large residence on George street occupied by Mr. Mahern is being painted and otherwise renovated for its new owner.

—Messrs. J. J. Turner & Son received this afternoon a telegraphic order from Picton for two large marquee tents. They will fill it. 1d

—A diphtheria case from the country was received at the Nicholls' Hospital this morning. There are no other cases in the infectious wards at present.

—Henry Sharp, the Hastings desperado, has had another addition of months added to his days of incarceration in the Central for conspiring to escape from the Cobourg gaol.

—The Methodist Sunday schools of Millbrook, Gardenhill and Fraserville ran a joint excursion to-day through town to the lakes. The return trip will be made via Lindsay.

—The Josephine Kid Glove Cleaner is unlike any other—that's the good of it. Ladies will not do without it at twice the cost once they use it. Sold by Robt. Fair, sign of the Golden Lion, headquarters for Perrin Freres' celebrated Kid Gloves, in newest styles for all occasions. d

—It is estimated that the grape crop of the province, leaving out Pelee Island, will not be more than a quarter crop this year, owing to the severe damage done the vines in the month of May by frost. On Pelee Island the vines escaped the frost, and the yield of Catawba or wine grapes will be a good average. What is not crushed for wine will command a good price. Winter apples are likely to be scarce, while the summer varieties will be a good crop.

THE DAVID COLLIER TRAGEDY.

The Grays, With the Children, Expected Here Next Tuesday.

Hessie and Thomas Gray have consented to return to Canada from Florida without extradiction, in case their children are brought with them.

The Attorney-General's Department have considered the question, and decided that as the cost of bringing back the whole family would be considerably less than extradition costs, they would, and have instructed Detective Murray to bring back father and mother and children.

It is expected, therefore, that the party will reach Peterborough on Tuesday next.

COLD SPRINGS—OTONABEE.

Patrons of Industry Strawberry Social.

(From our own Correspondent.)

The Cold Springs Patrons of Industry had a strawberry social on Friday evening, June 28, to which they invited a number of their friends. Strawberries and cream and other refreshments were served by the ladies in their usual excellent style, after which an excellent programme was presented. The following is a synopsis of it : Music, vocal and instrumental; reading, Mr. J. H. Beer; club swinging, Miss Emma Long; reading, Miss L. Bennett; address, Mr. D. Kennedy; address, Rev. W. C. Beer.

The President, Mr. Thomas Sisson, presided in his usual happy and efficient manner. The society is flourishing, and deserved and received the hearty thanks of the guests of the evening. The only regret was that the strawberry season comes but once a year.

THE CAVANAGH CASE.

The Secretary of the I.O.G.T. forwards the following item for publication :

We the members of City Lodge, I.O.G.T. have passed the following resolution :

Resolved that this lodge views with alarm the late action of our town council in reference to the Cavanagh case, and earnestly hope that all temperance and Christian men will at the next Municipal Election use their votes and influence to secure men to sit at our council board who will not use the power given them to assist law-breakers to escape, instead of having the law carried out as the government intended the Liquor Law should be. We hope the attention of the local government will be called to the matter, and the eight councillors who voted for the resolutions in favour of Cavanagh be compelled to resign or be punished.

Y. M. C. A. NOTES.

Workers meet to-morrow morning at nine, to study Galatians and Ephesians. All interested are invited to be present.

Rev. Orr Bennett will give a practical talk to men on Sunday afternoon at 4.15, and we hope to see a large attendance at each of these meetings.

Miss Pakenham, who has had charge of the Part Second Class, is going to attend the Normal School, where she will, no doubt, acquit herself well, as she is an excellent teacher.

Miss Burt, who taught the Third Class, is going to England to enter upon a course of study in the Pharmaceutical College, where she intends to write next summer for the degree of M.R.P.S.

The other members of the staff remain.

The classes who did not receive their reports for June before school closed will get them when school re-opens on Monday, August 26. Parents and guardians are requested to see that pupils are present—if possible, on the opening day, supplied with all the necessary books, etc. Absence at the beginning of the term seriously retards the work of the class and of the individual pupils who are absent. Pupils have received a list of the books, etc., which they will require.

DOCTORS AND FLY BLISTERS FAIL.

But one Dose of South American Rheumatic Cure Relieves, and Half a Bottle Cures.

Robert E. Gibson, Pembroke's well known merchant:—"I contracted rheumatism in a very severe form in 1888, and have suffered untold misery each spring since. I have repeatedly applied fly blisters with but little success. Doctors whom I consulted likewise failed to relieve. I was induced to try South American Rheumatic Cure by Mr. W. F. C. Bethel, of the Dickson Drug Company. The first dose gave instant relief and a half bottle cured."

As a cure for rheumatism this remedy is certainly peerless. Sold by H. S. Macdonald.

DOMINION DAY CELEBRATION.

What the Sons of England will do on Monday Next.

The preparations for the Sons of England Demonstration on Monday are now complete. All that is necessary to make the undertaking a success is fine weather.

The local lodge will meet in their rooms at 9 o'clock, form in procession and meet all trains. The procession will then proceed up town, disperse for dinner, to meet again at Central Park, where addresses will be given by Geo. W. Clotworthy, Esq., of Toronto, Supreme Grand President of the S.O.E., and other prominent members of the order, after which a procession will be formed and proceed to the Driving Park, where an excellent programme of sports will be run off.

The lacrosse match will take place between 2 and 3 o'clock and the baseball match between 3 and 4. The other special attractions will take place during the afternoon. The equestrian events should attract many competitors, as the prizes are valuable. The concert manual drill by the Toronto Naval Brigade, and the May-pole dance by the children, are events worth seeing. It is expected that the tug of war between the Sons of England and the Oddfellows of Toronto for a cup presented by Mayor Kendry will create great interest. The bicycle races, foot races, and all the other sports should have many competitors as the prizes are valuable, especially in the foot races, the first prizes being $10 cash.

A dancing pavilion will be erected on the grounds and a first-class orchestra will be in attendance to supply music for dancing. Refreshment booths will be stationed at the grounds to supply the needs of those present. The committee have at a great expense secured a souvenir badge, which will be sold during the day. It is the nobbiest thing in the badge line ever presented in this town. A great deal of trouble was evinced in securing a suitable place to put off the fireworks; it was found impossible to have the exhibition in the town. The committee thought it best, therefore, to have them put off in the Driving Park. The public will understand that this firework display is free to all. Everybody desiring to see a magnificent display will avail themselves of this opportunity. Those desiring to take in both events could not do better than bring a lunch basket along and stay at the grounds. The fireworks will be put off between 9 and 10 o'clock. The Citizen's band, of Port Hope, and the Sons of England band will furnish music for the day.

The local Sons of England are deserving of the greatest credit for the enterprise and patriotic public spirit they have thrown into this demonstration. They have in the general programme shown their patriotism to their adopted home, in the next place they have shown their loyalty to the town—especially its material interests—by bringing a big number of visitors to enjoy themselves and spend their money in Peterborough. The citizens should show their appreciation of the Sons of England's enterprise by extending them a liberal patronage. When native Canadians have so good an example of patriotic enterprise set them by adopted Canadians, they should show their approval of it in a practical manner.

THE WHEEL.

Over a hundred members of the bicycle club will journey to Waterloo for the great C.W.A. meet on Dominion Day. A special rate has been made by the C. P. R., and the club will go up on the early train tomorrow morning, returning Tuesday. The boys will all wear the Peterborough colors, red, white and blue, and badges upon which will be printed "What's the matter with Peterborough for 1896," and "Are ye wid us?"

The local bicycle club has leased the Driving Park for the month of August, and will have the track in excellent shape for the meets on August 15th and 30th. On the latter date the fast American riders come here, and over $1,500 will be hung up in prizes which will all consist of unset diamonds.

The race programme will be as follows:

CLASS A.

One mile—Novice.
Quarter mile dash—Open.
One mile—Handicap.
One mile—Open.

CLASS B. (Professional).

One mile—Open.

SPRINTING.

In reference to the challenge of M. Bird to W. McLean, of Windsor, offering to run a five mile race for $25 a side, on Dominion Day, McLean declines to meet Bird on Monday, and the latter hereby offers to give McLean 300 yards start on a three mile race for $25 a side, to be run at the Driving Park on July 1st. McLean is in town at present, and has a chance to accept. In addition to the 200 yards start, Bird will bet $25 in addition to the stake money that he can beat McLean.

CRICKET.

The Lindsay cricketers come over for a game on Dominion Day and a match will be on all afternoon at the P.A.A.A. grounds. The public is cordially invited to witness the game.

The following players will represent Peterborough in the cricket match on Monday at the P.A.A.A. grounds against Lindsay: Messrs. C. M. and A. C. Pousette, R. B. Rogers, Guy Rogers, W. J. Montgomery, Chas. Hall, Hal Burnham, W. Stocker, N. St. Gurd, W. J. Drope, Edmonds, Harry Deacon and H. Lewis.

OUR BEAUTIFUL PARKS.

The Improvements Still Going on at Jackson and Nicholls.

The two big parks presented by the Nicholls estate to the town are still being improved and every week marks magical changes.

In that portion of the Nicholls Park east of the river and south of Smith street, extended, the avenues have all been graded and nicely gravelled. At present the big town roller is being used to pack the gravel down into a compact roadbed.

The grass on the cricket oval has been newly cut and the sod is forming nicely. The sowing of the little white clover seed would be very beneficial at this stage, as it forms a most compact velvety sod. The grass is being well cared for as water encircles the entire oval and taps have been put in at distances of about 30 feet apart.

The park north of the road has been left in its beautiful wild state, and as such affords a shady retreat of surpassing coolness.

West Nicholls Park or Inverlea, as it is better known, still continues to be a most popular resort for families in the afternoon. Yesterday at about four o'clock there were scores of little ones playing along the beech, where it was most cool and shady.

The roads in Jackson Park are too sandy for wheeling, but for riders, drivers and pedestrians a prettier spot could hardly be found in the province. The roads on the east side of the park are just being made and are arranged in the magnificent sweeps which characterize all the drives in connection with the parks. The underwood is being rapidly cleared out and the park is consequently losing much of its primitive roughness.

The pretty rocked bridge of Japanese architecture at the dam of the artificial lake has been newly painted in drab and dark crimson and looks prettier than ever. An army of men are employed in making the sides of the lake and in preparing the bottom by removing the snags and rushes before the water is turned on.

Still another fancy bridge is being built over the creek below the large one by the bathing house. It will be for foot passengers only, and will be completed by next week.

THE MOONLIGHT.

Mr. Sparham Sheldrake contributes the following lines to the Empire:

Mooning in the moonlight
By unfrequented ways;
Mooning with my darling
While moonlight on her plays.
Mooning in the moonlight,
Mooning near and far,
Our "weather eyes" kept "lifting"
For the coming of papa.
And the moon-rays on her quiver
As she gives the startled shiver,
"Crying," "Do be careful, Harry,
I am sure I heard mamma."
"Don't be frightened," I implore her
And I haste to reassure her
In the manner that is legal
In Cupid's court of law,
"I am sure, our love confessing,
We shall gain our parents' blessing,
Then we'll moon together, darling,
In the moonlight evermore."

But my love is further sighted;
She replies, "When we're united,
And the holy bonds of wedlock
Commence to chafe and gall,
Depend upon it, Harry,
If we're weak enough to marry,
We shall squabble in the moonlight,
And we'll never moon atall."

—The "Saratoga" is the special summer make of the P. N. Corset ladies grow so enthusiastic over. Its intrinsic value as a cool, comfortable corset is the sum and substance of its success. No stiff unyielding parts anywhere. Light and ventilated, yet combines the supporting and protecting qualities so essential. R. Fair, Golden Lion, sole agent. d

Speaking from over twenty years' experience, I can sum up in a few words some of the results of indiscriminate use of glasses. In the case of odd eyes—gradual weakening of the good eye and making it much more susceptible to disease, such as glaucoma, iritis, etc. In cases of astigmatism unsuitable glasses will cause neuralgic pains in the eyes, frontal headache, nausea, paralysis of the accommodation, resulting in permanently impaired vision which no skill can restore. What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames. We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. GAINED A POUND A DAY.

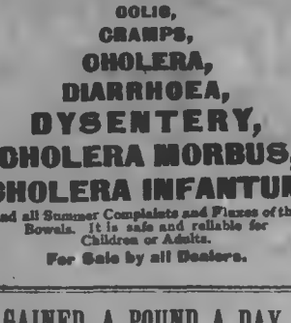
A LANARK COUNTY FARMER'S REMARKABLE CURE.

Taken with Bilious Fever, the After Effects of which brought him Almost to the Grave—He Gladly Speaks for the Benefit of Other Sufferers.

Smith's Falls Record.

Mr. Joseph N. Barton, who lives about a mile from the village of Merrickville, is one of the best known farmers in the township of Montague. Up to the spring of 1894 Mr. Barton had always enjoyed the best of health. At that time, however, he was taken with a bilious fever, the effects of which left him in a terribly weakened condition. When the time came around to begin spring operations on the farm he found himself much too weak to take any part in the work, and notwithstanding the fact that he was treated by an excellent physician, he was constantly growing weaker and his condition not only greatly alarmed himself but his friends. Having read so much concerning Dr. Williams' Pink Pills, he determined to give them a trial, and without consulting his physician he began their use. He only used one box, and, not feeling better, he discontinued the use of the pills. This was where he now admits he made a serious mistake, as he not only felt back to his former weakness, but became worse than before. He could now do no work of any kind, and the least exertion left him almost helpless. Life was a misery to him and he



I gained a pound a day.

was on the point of giving his case up as hopeless when a friend strongly urged him to again begin the use of Dr. Williams' Pink Pills. He agreed to do so, and by the time he had used three boxes there was a marvellous change in his appearance, and he felt like a new man. He still continued to use this life-saving medicine with astonishing results. During his illness he had fallen in weight to 135 pounds but he soon increased to 160 pounds. In fact, as he says, the increase averaged about a pound a day while he was taking the pills. He is now able to do any kind of work on his farm, and it is needless to say that he is not only a firm believer in the efficacy of Dr. Williams' Pink Pills, but loses no opportunity to sound abroad their praise, with the result that others in his locality have benefitted by his experience and advice.

To those who are weak, easily tired, nervous, or whose blood is out of condition, Dr. Williams' Pink Pills come as a veritable boon, curing when all other medicines fail, and restoring those who give them a fair trial, to a full measure of health and strength. They will be found an absolute cure for St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature. Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper (printed in red ink), and may be had of all druggists or by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes for $2.50.

Saved From a Watery Grave.

Grimsby Park, Ont., June 28.—While unloading goods from the steamer Eurydice to-day H. Ryckman of Jordan was struck by the pole of a wagon and knocked into the lake, and was only saved from drowning by the timely aid of Mr. Low S. Bradshaw of Buffalo.

Serious Damage by the Storm.

Glen Huron, Ont., June 28.—Yesterday's violent thunderstorm caused thousands of dollars damage to property in this vicinity, and a number of barns were wrecked. Curtis Neff was injured by the falling of his barn. B. Curtis had 11 cattle killed by a falling barn, and the contents of Hamilton's lumber yard were washed down the river.

Many a man, who has been sent to an early and even suicidal grave by the tortures of dyspepsia, would be alive and well to-day, had he tested the virtues of Ayer's Sarsaparilla. This is no temporary appetizer, but a radical, scientific remedy. It makes life worth living.

Hagyard's Pectoral Balsam cures coughs, colds, asthma, bronchitis and all throat and lung troubles.

QUEBEC POLITICAL SHUFFLE.

Hon. Mr. Chapleau to Resign—Mr Taillon to Succeed Him.

Montreal, Que., June 28.—Political rumors from Quebec were more than interesting to-day, and although none of the principals were in the city to confirm or deny the fairly well authenticated story, there has been a positive statement that a meeting will be held here next week, when the matter will either come to a head or be declared off. It is no secret that Hon. Mr. Chapleau is more than restless at Spencerwood, and that his friends are exceedingly anxious that the Lieutenant-Governor will again enter public life either in a Ministerial capacity or as a private member. Those who generally read the cards aright state that His Honor will be succeeded by the Hon. C. Taillon, who tells everyone he has no taste for public life, and that the whole business is irksome and distasteful. The present Premier would make a most popular successor to the "man of destiny," and the position would not be against the Premier's quiet tastes. It is learned that if Mr. Taillon takes the position, his successor will either be Hon. George E. Nantel or the Hon. L. P. Pelletier, the French clergy favoring the claims of the Provincial Secretary. If, however, Hon. Mr. Chapleau had a hand in the deal, he would show his influence in favor of Mr. Nantel. Then, if Hon. Mr. Taillon should retire, a new French member of the Cabinet from Montreal would be in order, and it is learned that Messrs. Descarries, M. L. A., for Jacques Cartier, and Beauchamp for Two Mountains are the chief aspirants.

A good many comments are heard here over the manner the inquest in the Demers murder case is being carried on. As a matter of fact the French theory of presuming a man guilty until proved innocent, has completely superseded the British idea of presuming a man innocent until proved guilty. The husband of the murdered woman, although suspected by some, was a witness to-day, and Coroner McMahon said, "Demers, was it you who cut your wife's throat before leaving for work Thursday morning? What have you to say to this," and again, "which of the members of your family was it you told you cut your wife's throat? All this took place to-day in open court before 500 people, and the representative of the Crown sat beside the coroner without uttering a word of protest.

TWEED BADLY SCORCHED.

Many Buildings Destroyed—The Loss Very Heavy.

Tweed, Ont., June 28.—Fire started in the Albion Hotel stables here last night about one o'clock last night, destroying the following: Albion Hotel and stables, owned and occupied by P. L. Clairmont, loss on buildings about $5000, insured stables $1,000, on hotel $1,800; Thos. McCann's livery stables and store, loss about $4000, no insurance; Craig's law office, loss unknown; Busby's shoe shop; Hugh Colter's harness shop, loss about $300, no insurance; Alex. Turcott's shoe shop, loss on shop about $200, stock saved, no insurance; George Esterbrook's barn, loss about $300; Felix Dyoumes' barn, badly damaged; Felix Dyoumes' outbuildings, destroyed, shop and dwelling badly damaged by fire and water, loss about $500, covered by insurance in the Globe Company; several other buildings and property slightly damaged; John Shaw, grocer, plate glass front badly damaged, loss $75, no insurance.

A CAREFUL STUDENT OF SOCIAL REFORM.

Rev. W. Galbraith LL.B, Pastor of Elm Street Methodist Church, Toronto, Has a Good Word to Say of Dr. Agnew's Catarrhal Powder.

The Rev. Wm. Galbraith, LL.B., is one of the thoughtful preachers of the day. The active interest he has taken in questions of social reform has given him wide influence outside of his own church, where his influence is undisputed. His mind is of the kind that thinks out a problem, and then he is able to speak with force and intelligence. He is to be credited with examining into the merits of Dr. Agnew's Catarrhal Powder, with the same bent of mind. And what does he say? That in this medicine he has found a remedy that gives quick relief for cold in the head which is so uncomfortable to everybody, and giving relief there it helps perhaps more than any other remedy to stave off the ill effects that come from catarrhal trouble.

One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves in ten minutes, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis and Deafness. 60 cents. Sample bottle with Blower sent free on receipt of two 3 cent stamps, S. G. Detchon, 44 Church street, Toronto. Sold by H. S. Macdonald.

A JUGHANDLED TREATY

In Which Canada Gives All and Gets Nothing.

THE FRENCH TREATY A BLUNDER

All the Colonies and a Dozen Countries Can Send Their Goods in Here at a Minimum Tariff, But Tax Canada to the Hilt.

Ottawa, Ont., June 28.—Another ministerial blunder, even greater than that which injured the credit of Canada by making it appear in Great Britain that the Government had guaranteed the Atlantic and Lake Superior bonds, was brought to light in the House to-day. Because the Government of Great Britain would not consent to the exchange of ratifications with France until legislation had been actually passed by the Dominion Parliament, extending the benefits of the convention to all nations entitled to most favored nation treatment to Canada and to the rest of Her Majesty's Dominions, Mr. Foster pressed his bill respecting the French Treaty of 1894. As originally introduced the bill was general in its character, but the minister, after consideration, determined to limit its application to the French Treaty, leaving Parliament to legislate as it sees fit in respect to any future treaties that may be made. The French Treaty question has assumed a vastly different aspect to that which it had when two years ago the Minister of Finance, even with the limited understanding of its obnoxious features that he then had, thought so little of the arrangement that he would not ask Parliament to ratify it. At that time it was believed to be simply a reciprocal arrangement between Canada and France for the exchange of a few of the products of the two countries. Even upon that understanding it was vigorously denounced by the temperance people and by the native wine producers, who, for entirely different reasons, united in opposing it. The Government had no inclination to put the convention before Parliament, realizing how devoid it was of advantage to Canada, but the personal vanity of one greater than the Government, the High Commissioner, was at stake, and last session a bill was brought down confirming the treaty. The bill was severely criticised, but it got through.

Mr. Foster thought this was all that was necessary to the exchange of ratifications between Great Britain and France. It was not until Lord Ripon, on Oct. 22 last, cabled over that the Austrian Ambassador had complained of the discrimination against Austrian plums under the French treaty, in violation of England's treaty with Austria, signed in December, 1876, and later that the Imperial assent to the French treaty was given on the distinct understanding that the reduction of duty granted to France would be extended to the nations entitled to the benefit of the most favored nation clause in Canada and to the rest of the British Dominions, that the Government here became aware of the fact that additional legislation was necessary.

The extraordinary nature of the whole business is that while the ratification bill was believed by Mr. Foster to be sufficient to bring about the exchange of ratifications between Great Britain and France, both the Minister of Finance and the Minister of Justice declared in the House to-day that it was thoroughly understood during the progress of the negotiations that the favored nation clause would apply. If that were true the question arises how came it that the ratification bill of 1894 omitted to grant the advantages bestowed upon France to the other countries enjoying favored nation treatment and to the British Colonies?

During the discussion of the supplementary ratification bill to-day the fact was mentioned by Mr. Edgar that the following foreign powers will, under treaties with Great Britain become entitled to like privileges in Canada as granted to France: Argentina, Austria-Hungary, Belgium, Bolivia, Chili, Columbia, Costa Rica, Germany (Zollverein), Muscat, Russia, San Salvador, Sweden and Norway and Uruguay and probably Egypt, Montenegro, Mexico, Persia, South African Republic, Venezuela and Zanzibar, not to speak of the British colonies. The result will be that while Canada will secure the advantage of the minimum tariff on a few articles of export in the French market, she will give the advantages of the treaty not only to France, but to 16, and possibly to 28, other foreign countries, and to the sister colonies, which give her absolutely nothing in return.

Though the correspondence that had passed between Canada, Great Britain and France on the subject was not available to-day, the Opposition members who took part in the discussion succeeded in showing what a jug-handled arrangement the treaty is.

Strong protests were made against the measure by Mr. Allen, Mr. MacGregor and Mr. Gibson on behalf of the wine producers of western Canada. Mr. Maclean of York and Mr. Davin also objected to the treaty on similar ground, and Mr. Macleau made the suggestion that the Government should compensate the native wine makers by supplying them with alcohol free of duty with which to fortify their product.

The discussion was also taken part in by Sir Richard Cartwright, Mr. Edgar, Mr. Mills, Mr. Bain, Mr. McMullen. The bill was given its second reading and put through the committee stage.

HERE IT IS AGAIN!

The Hairy-Headed Old Sea Serpent With Wings and Fangs.

Traverse City, Mich., June 28.—A resident near Traverse Beach, a resort three miles from here, was greatly alarmed yesterday morning at the appearance of what looked like a monster serpent. It was discovered by the children of Mrs. Whiting. The monster first appeared a hundred feet from shore. It raised its head from the water about six feet, showing a flowing mane and huge flappers on the neck, and long hair on the back. Mrs. Whiting went to the shore and examined it through opera glasses. It gambolled about for an hour, but its entire length could not be seen.

Frank Durfee fired his shotgun at the creature without perceptible effect. Several shots followed, and finally the serpent, after rearing its great hairy head into the air and flapping its wings, disappeared, creating a wild disturbance in the water. Some who saw the object declare it was sixty feet long, and that its jaws extended a foot, with long fangs in the upper and lower jaws. All the witnesses are well known and reliable.

REMARRIED TO HIS WIFE.

Thought He Had Been Lost at Sea and Took Another Mate.

Camden, N.J., June 26.—Fourteen years ago Mrs. Marie Wall, believing her husband to have been lost at sea, married Joseph Taylor, a carpet weaver of Charles-street, Kensington, Philadelphia. Mrs. Wall was then 50 years old. Eight years later Taylor died. Her first husband, Richard Wall, took her to Camden yesterday, and they were re-married by Justice of the Peace Baldwin.

Eighteen years ago Wall sailed from Philadelphia for East Indian ports, and after an unprofitable voyage of three years went to South America. A sailor told his wife he had been lost. Within a year Capt. Wall returned to Philadelphia, and was shocked when he found out that his wife had married Taylor. He refused to call on her, but sent word of his arrival and then sailed away.

A few years later he returned from seafaring and settled in Philadelphia. In the meantime Taylor had died.

ILLINOIS NEW LIBEL LAW.

Plaintiffs Against Newspapers to Get Only Actual Damages.

Springfield, Ills., June 27.—Gov. Altgeld signed the libel bill to-day. It provides that in any action brought for the publication of libel in any newspaper in this state the plaintiff shall receive only the actual amount of damages, if it shall appear at the trial of such action that such publication was true, or that its falsity was due to mistake or misapprehension of facts and that in the next two regular issues of the newspapers after the mistake or misapprehension was brought to the knowledge of the publishers, whether before or after action has been brought, a correction or retraction was published in as conspicuous a manner and place in the paper as was the libel.

Two Killed on the Track.

Bridgeport, Conn., June 28.—The eastbound express struck and killed Arthur Middlebrook, an agent for the Barnum estate, and Patrick Noonan, a gardener.

Took an Overdose of Chlorodyne.

Berlin, Ont., June 28.—J. C. Patterson of Moorefield, found dead in the Grand Central Hotel, purchased two ounces of chlorodyne in town that day, and death was due to an overdose of the drug. The coroner's jury found death was accidental.

Drowned in the Saugeen.

Paisley, June 27.—James Schmidt found the body of his two and a half years old child floating in the Saugeen last night. The infant had wandered away and fallen into the river.

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

Consumption Was Feared.

DEAR SIRS,—Over three years ago I was troubled with a nasty cough and really thought I would go into consumption. "The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

"SUN" LIFE

Assurance Co'y of Canada.

Explanation of the Company's System of Profit Distribution.

The method of profit distribution of most companies is to give a bonus or profit on the sum assured, irrespective of the premiums paid. The Sun Life of Canada allots its profits to policies in proportion to the premiums paid, which is considered to be the more equitable system. This accounts for the variations in the percentages of the accompanying results. The lower rates given below are, in most cases, on young lives. The examples are taken from the Company's claim register as at the end of 1894, for the first 5 years.

CHEMONG PARK POINTERS.

The Beauties of the Place—The Prospects for the Summer.

Again your humble correspondent lifts his pencil and hence throughout the summer at Chemong Park, will do his best to interest the readers of the EXAMINER with the little happenings of this delightful spot. But, should through those gleanings anything be put forth that would tend in the slightest to wound the feelings of any person we shall be sorry to know of it, and you can readily attribute it to rural innocence.

How the seasons roll around! It does not seem that to-day the Park Hotel enters on its fifth year doing business in this leafy place. Yet it is really so: nor has it lost one whit of its popularity during these past years, but rather gained in favour, as shown by the return, season after season, of the same tourists, accompanied by increased new comers. The hotel structure, from the swarded eminence, surrounded by girding oak and spicy pine, looks just as kindly as ever down through leafy avenues on the sparkling lake below, where fish abound in plenty and white sails flutter to and fro.

Just now over the Park, here and there among the trees, where cottages partly reveal themselves, glimpses of solid comfort may be seen. Cooling breezes play among the branches and gladsome voices and interest to the scene. Far as the eye can reach, climbing woods grouped in ideal beauty, lift upward to the sky and often through shifting openings glimmering water flashes in the sunshine. The fresh pure air has long been known favourably for its bracing qualities, acting as an antidote to fever germs which are quite prevalent in city life; so visitors at the Park readily find relief in its buoyancy. The bathing beach, too, is much appreciated. Its white velvety stretch of sand cannot fail to please the most gentle indulger of the bath. Of course boating and fishing are two of our foremost sports at Chemong; and who would not venture to endure blistered hands to working up a muscle so necessary in landing those great beauties with which our lake is teeming.

The pavilion is now open; the store with its shelves all laden with campers groceries and refreshments, is up to date; the boat house, the steamer, the summer girl, the story-teller and all that can make outing pleasant at Chemong Park this summer, will soon arrive, if it is not already at the place.

The steamer Dawn which has been thoroughly overhauled, will give the Park better service this season than any previous boat had done. Trim and tidy, it plies speedily between here and Barleigh, making close connection with Chemong trains. Mr. Jos. Rodman is the careful engineer, with Capt. McDonald at the helm. Two popular boatmen they are, so we feel sure that all who take a sail about the lakes in this craft cannot be otherwise but delighted with their trip.

This, it is expected, will be the liveliest season Chemong Park has ever seen. Even already Mine Host Fobert is entertaining doubts as to whether he can find accommodation for all who contemplate summering here.

As a proof of the splendid fishing now to hand we give too instances in the persons of Wm. McCue and Henry Taylor. It was shortly after four o'clock yesterday afternoon when they approached the hotel with their baskets slung over their backs. It was found on examination that Mr. McCue had six lunge and ten bass, and Mr. Taylor possessed five lunge and twelve bass, all fine, large beauties, and actually their own catch. All of them were captured in this lake not far distant from the Park. Now, we have mentioned only two of our latest instances of our fishing; but there are others, numerous, too, that could be drawn out in a long string to show that fishing is unsurpassed at Chemong Park.

PROVINCIAL BOARD OF HEALTH.

The Tenth Annual Meeting to be Held in Belleville in August.

The Association of Executive Health Officers of Ontario has sent out a preliminary announcement of the tenth annual meeting of that body which will be held in Belleville. The circular states that the executive council, having received a very cordial invitation from the authorities of the city of Belleville to hold the next annual meeting of the association in that city has, after consideration, accepted the invitation.

Arrangements have been made by a local committee, comprised of representatives of the city council, the local board of health and the Belleville board of trade, with the concurrence of the executive council, to hold the meeting on Wednesday and Thursday, Aug. 14 and 15. The general arrangement of the programme for the meeting is as follows, the details appearing in the final programme:

Morning session, Wednesday, August 14.

Afternoon session, Wednesday August 14.

Morning session, Thursday, August 15.

Afternoon, trip to Lake of the Mountain.

Evening, sail to Massassaga Point, where a complimentary banquet will be given the Association.

Dr. Clarke, of Petesborough, will attend the meeting and has been asked to read a paper on sanitation.

The following subjects have been selected by the council as forming the basis of papers and discussions, but papers on other subjects, if received in time, will be given their place in the programme:

1. School sanitation.
2. Public water supplies of Ontario as sanitary and economic agencies.
3. The chemical and biological training of medical officers.
4. What should be classed as dangerous, infectious diseases.
5. The sanitation of places where food is prepared and stored.
6. Susceptibility, immunity and serum therapy.
7. Diseases of men and animals as spread by water.
8. Climate in relation to certain classes of disease.

A COSTIGAN SCANDAL

How the Minister Improved His Mining Property

BY GETTING A SUBSIDY OF $134,000

The Money Built a 25-Mile Railroad to Plaster Beds Owned By the Minister—But the Plaster Trade Being Bad the Road is Hung Up.

Ottawa, July 2.—The disgraceful condition of affairs as regards the relations between the Government and the Fredericton and St. Mary's Bridge Company, and the association of Minister Foster's name with that very shady transaction, finds a twin scandal, as far as misappropriation of public money goes, in the Tobique Valley Railway.

When in these letters I brought to light the fact that Minister Foster had for years permitted the Fredericton Bridge Company to default their interest account, now amounting to $72,000, to say nothing of the $300,000 loan to that company, [illegible] had been sunk in Lake Superior, the Government press made light of it, but when the search light of the Public Accounts Committee was thrown upon it even the Government press admitted that Minister Foster had acted indiscreetly in dealing with the Temple Bridge scheme.

As regards the Tobique Valley Railway, the name of the Hon. John Costigan, Minister of Marine and Fisheries, through whose county it runs, has become closely identified, and for the following reasons:

Acting under a provincial charter from the New Brunswick Government, the Tobique Valley Railway Company applied to the Dominion Government for a subsidy. There was a strong opposition shown in Parliament to the granting of a subsidy to this little railway of only 28 miles in length, as it was shown that owing to the sparsity of population along the projected route there could be but little or no passenger traffic. This was in 1887.

The expenditure was justified by Costigan on the ground that there were valuable plaster or gypsum deposits at the terminus of the road, the construction of which would develop these mines. After a determined fight John Costigan got his subsidy through the House. So interested was he to secure the Dominion subsidy that everyone remarked the energy he was throwing into the job he had on hand.

He was not satisfied with small favors, but again came to Parliament for more subsidy, and yet again until the total subsidy he scooped in out of the treasury for the Tobique Valley Railway aggregated $134,000. During the discussion in Parliament over the proposed subsidy, Mr. Costigan, when asked who owned these plaster deposits the railway was being constructed to accommodate, said they were owned by the Provincial Government. Pressed further, he admitted there were individual parties who had a lot or two in the locality, but he mentioned no names.

This statement of the Minister appears to require explanation, in view of the fact that in the record office of Victoria County, N.B., there is an entry which shows that on May 12, 1890, J. W. Arbuckle deeded a quantity of plaster rock, known as the Arbuckle rock to John Costigan. To be exact, the record of the transaction is in Book N, pages 751-2, and is dated May 15 of that year. According to the record in the same office, this property was transferred by Costigan to the Tobique Valley Gypsum Mining and Manufacturing Co. in 1894. The Arbuckle rock is the most considerable and profitable of plaster quarries in the Tobique Valley.

I have said that this railway received $134,000 out of the Dominion Treasury. Now, let us see to what extent it has benefited the taxpayers of Canada and to what extent it has or is calculated to benefit John Costigan.

The road was completed in 1893, and in April, 1894, it was leased to the Canadian Pacific Railway Company on condition they would run at least one daily train over it.

When I state that the total gross earnings of the road have only been $3,000 since it was completed, some two years ago, it will be seen that its advantages to the country have been nil.

Neither has the Tobique Valley nor the Canadian Pacific Railway been obliged to operate the road in accordance with the terms upon which the subsidy was granted, and there must have been some very powerful influence at work near the throne to prevent the enforcement of the law by the Railway Department here.

It is true the plaster trade has been dull for some time past, but is that any reason why the road that has pulled $134,000 out of the Dominion Treasury, and Costigan is a member of the Treasury Board, should be hung up?

But we read of a charter having been granted the Tobique Valley Gypsum Mining and Manufacturing Company and the transfer of a lease to this company by the Hon. John Costigan of other lands he held in the plaster or gypsum district at the terminal point of the Tobique Valley Railway.

Such was the case, for the lease John Costigan acquired of a certain area in the plaster district in 1893 was transferred to the company in 1894, and the petition to the Dominion Government asking for incorporation by the Tobique Valley Gypsum Mining Company shows that out of the total shares subscribed, 250, the Hon. John Costigan held 225 shares, while another member of the Costigan family held a smaller number.

John Costigan is a pretty level-headed fellow, and deserves great credit for the way he put that $134,000 subsidy through. In the Tobique Valley Gypsum Mining Company he has just $22,500 stock.

As I have before stated, owing to the dullness of the gypsum or plaster trade, this interesting little railway is hung up, not even compelled by the Government of which Costigan is a member to afford the people residing in the country through which it passes either passenger accommodation or a means for the transportation of their farm produce to the market.

The question is now asked whether the Government, after paying $134,000 of the people's money to this railway, intend allowing the company to hang up their trains until there is a demand for John Costigan's plaster, or whether they will take this hint and force either the original company or the Canadian Pacific to carry out the terms, as regards train service, upon which the subsidy was voted.

This is certainly a matter that should be investigated. Let us know the relations between Costigan and the Government in this deal. Let us hear what influence he brought to bear upon his colleagues to secure the subsidy for this railway that has never been operated because the plaster trade is dull.

Between Foster's loan of $300,000 to the Federation Bridge and Costigan's gift of $134,000 to the Tobique Valley Railway, the Province of New Brunswick has not fared very badly, as regards Government aid to enterprises that can hardly lay claim to being works for the general advantage of the Dominion.

While it is held that Foster has secured a safe entry for himself into York over the Fredericton Bridge, what have the good people of Victoria to say about Costigan having secured a safe pass into his old county over the Tobique Valley Railway, as well as having improved his own [illegible] property?

[illegible] of the Government's determination to choke off the meetings of the Public Accounts Committee, and do you wonder when you take into consideration the fact that it is for the purpose of investigating scandals like the Fredericton Bridge and the Tobique Valley Railway, where hundreds of thousands of public money is squandered, that these meetings are held? An effort will be made to get Costigan in the witness box before the session is over to tell his little story about the Tobique Valley Railway.

MILES OF WRECKAGE.

Evidence of a Disaster in the English Channel.

London, June 27.—The tug Albert Victor returning to Weymouth, reports that twelve miles southwest of Portland Bill, in the English Channel, she passed through two miles of floating barrels, boxes, loose oil and wreckage. A carved mahogany stanchion four feet long and a quantity of wreckage have come ashore at Godnor

It is presumed that the vessel to which the wreckage and floating cargo belonged was sunk in collision with some other ship.

Cuban Insurgents Supported From Florida

New York, July 1.—Segulnda Alvares, Mayor of Havana, arrived on the steamer Orisaba to-day. He said: "The United States neutrality laws are being openly violated every day. The Government of your country is either blind or ignorant of what is going on. Military drills are held daily in Tampa and Key West Fla., and the only support of the insurgents come from the United States."

Russia and the Chinese Loan.

London, July 2.—The Standard publishes a despatch from St. Petersburg, saying it is now confidently expected there that the Russo-Chinese loan will be successfully arranged. The same paper will also publish a Paris despatch, saying that hope of the ultimate success of the loan has been revived, but that the chief ground therefor is the fact that the delegates of the French banks have not yet left St. Petersburg.

The France-Russian Alliance Denied.

Paris, July 1.—The Estafette, in an article refuting the current assertions that the Russians and French have entered into an offensive and defensive alliance, declares that no treaty whatever has been concluded between France and Russia since the military convention signed in 1893 by M. DeGiers and President Carnot.

Brakeman Killed. Fireman Injured

Pittsburg, Pa., July 1.—The Cumberland accommodation on the Baltimore & Ohio Railroad collided with a shifting engine at Laughlin Station. Brakeman Harvey Louther of the shifter was instantly killed. Fireman McBeth was badly injured.

British East Africa Transferred.

London, July 1.—The formal transfer of the territory of the British East Africa Company to Great Britain was effected at Mombassa to-day.

Prof. Huxley Dead.

London, June 29.—An Exchange Telegraph Company's telegram published in The Globe announces the death of Prof. Huxley at Eastbourne at 8.40 p.m. Saturday.

BUCHANAN ELECTROCUTED.

Second Application of the Current Necessary to Ensure Death.

Sing Sing, N.Y., July 2.—When Dr. Robert W. Buchanan, the wife poisoner, awoke yesterday after [illegible] hours of troubled sleep he realized for the first time that the day of his doom had arrived. Several times in his remarkable fight for life he had been as near the hour set for his execution as he was last night, but always some act of Executive clemency or some new legal manœuvre interfered to grant him a new respite. While the doomed man slept the following message came to Warden Sage, and made his duty plain: "I do not think the last proceedings operate as a stay. Have no further advice to give. T. E. Hancock, Attorney-General."

It was just 11.20 o'clock when the iron door of the death chamber was swung open to admit him. Buchanan walked firmly, but had his arm linked in that of Prison Chaplain Wells, who led him to the chair. The condemned man had his eyes closed when he entered the execution room, and did not again open them. The current was applied at first at the full intensity of 1740 volts, and after seven seconds was reduced to 400 volts, where it remained for 50 seconds. When it was turned off the physicians immediately sought for evidence of life, and after a hurried examination announced that Buchanan was not dead. They were able to detect a slight pulsation of the heart, and the current was turned on at full force. It was not reduced this time, but was held at 1740 volts for 25 seconds. At 11.22.55 the current was again turned off, and this time the victim was pronounced dead.

The autopsy showed the usual changes in the condition of the brain and arterial system. The most remarkable feature was the size of the brain, which weighed but 21 3-4 ounces, or less than three-fourths the average.

CANADIANS IN LONDON.

Seven Hundred Guests Attend a Dominion Day Party.

London, July 2.—The Dominion Day party given by Sir Charles Tupper, Canadian High Commissioner to London, and Lady Tupper, was a great success. The invitations exceeded 700, and it is probable that so many were never assembled in London. The guests dispersed very late. Among those invited were all the colonial representatives in London, the Marquis and Marchioness of Ripon, Mr. and Mrs. Joseph Chamberlain, the Earl and Countess of Jersey, Lord and Lady Playfair, Baroness Macdonald, Lord and Lady Kelvin, Sir Richard Webster, Mr. and Mrs. Edward Blake, Sir Oliver and Miss Mowat, Gen. and Mrs. De Winton, Sir Ambrose and Lady Shea, Sir George and Mrs. Baron Bowell, Justices Hall and Street, etc.

MURDER BY DROWNING.

In His Third Attempt Mason Killed His Wife and Another.

Pittsburg, July 2.—Henry Mason and his wife attended a picnic at Ross Grove Saturday afternoon, and crossed the Allegheny River to a boathouse where liquors were sold. There Mason accused his wife of unfaithfulness, and said he would kill her. While recrossing the river Mason upset the boat, but a passing boat rescued his wife. In the evening they started across again with Isaac Adrian and William Barbour. Mason again attacked his wife, but the others pulled him off, whereupon Mason deliberately upset the boat, drowning his wife and Adrian. Mason is in jail. OTTAWA

Sir Herbert Murray Leaves The Government Paying All Claims

St. John's, Nfld., July 1.—Sir Herbert Murray, the British Relief Commissioner, left for England aSturday night, after a three-months' stay. His relief operations include the whole country. It is estimated that he distributed $120,000.

The Government is paying all claims of debenture-holders and its obligations of every character to day.

General discontent exists over the reforms. It is alleged by the Opposition press that Newfoundland offered to give Canada the whole of Labrador as a security for a loan of $2,000,000, thus giving Canada full control of the principal fisheries.

Money Never So Cheap.

New York, June 30.—The Sun's London cable says: It is doubtful if money was ever loaned at lower rates than during the current week. It is necessary that the British Government should renew Treasury bills amounting to $6,000,000. The tenders amounted to $60,000,000, and the lowest price, which was accepted, fixed the interest at a trifle under eleven-sixteenths of 1 per cent.

Football Championship for 1895.

The knowing ones are speculating on the football possibilities of the season. Ottawa is not likely to retain the honours of the championship, as Queen's will put in a team sure to smash all records. It is often the case that very slight causes will lose a victory. It is stated that a painful corn made useless one of the best American players. It follows that no team can hope to win this year that neglects to supply its members with Putnam's Painless Corn Extractor, the only safe, sure, and painless remedy for corns.

THE FESTIVE FIRST OF JULY.

Celebration of Dominion Day.

OUR 28TH NATIONAL ANNIVERSARY.

The Sons of England Loyal to Their Adopted Home—A Successful Celebration of Canada's Natal Day—The Various Events—The Civic Welcome in Central Park—The Afternoon of Enjoyment at the Driving Park—The Various Sporting Events—The Maypole Dance and Other Attractions—The Pyrotechnic Display.

Peterborough is a live town, and it has not been so much alive for a long time as it was on Dominion Day. The weather was simply glorious, a warm sunshine, tempered with a fresh breeze and cool shade. Points of glowing colour streamed from hundreds of flagstaffs and flaunted their redness in the moving breeze. From church tower and hotel cupola the Union Jack gayly streamed, and from the private home and the public building the blazon dear to the loyal eye threw out its crimson folds. Scores of business places were bright with bunting and flapping flags. Everything was on fete, the streets were thronged with citizens in holiday attire, and our country cousins garbed in their best were in abundant evidence.

The expected visitors from Toronto were not quite as numerous as anticipated. Excursion trains by the C. P. R. brought in about a thousand excursionists, and the regular and special trains from Port Hope brought in a large additional contingent. The incoming visitors were met by the local Sons of England and the newly organized band of 20 pieces, and escorted up town. Among the visitors were Mr. Geo. W. Clatworthy, Toronto, Supreme Grand President of the Sons of England, and Ex-alderman Swaite.

THE SPEECHES IN THE PARK.

At one o'clock the Grand President, accompanied by the chaplain of Lansdowne Lodge Rev. H. Symonds, and by the Mayor and local parliamentary representatives arrived at Central Park, where from a carriage brief addresses were made to the large number that had assembled.

Mayor Kendry, on behalf of the corporation, cordially welcomed the Sons of England, extended to them the freedom of the town, and wished them a pleasant visit in Peterborough.

Mr. Clatworthy, in a few graceful terms, acknowledged the welcome of the mayor and remarked that the Sons of England had a warm appreciation of kindness extended them on former occasions. He pointed out that it was the duty of the Sons of England as well as all other citizens to celebrate Dominion Day in a becoming manner, for all Englishmen were as enthusiastic in celebrating the day as they were in observing their own anniversaries specially dear to the English heart. He referred to the distinguished deeds of Canadian statesmen in consolidating the Dominion on which account the day should be most heartily honoured; and he felt sure that he voiced the sentiments of every Son of England when he exclaimed "The maple leaf forever." (Cheers.) He again acknowledged the kindly hospitality of Peterborough and said that a particular proof of the high esteem in which Peterborough was held was the decision of the Grand Lodge to hold their next grand session in this town in March next.

Mr. John Burnham, M. P., said that while Canadians celebrated Dominion Day, it was gratifying to see Sons of England, joining as heartily in the observance of the occasion as native Canadians. The development of a national spirit was a most important matter, yet he hoped the day was far distant when Canadians would cease to think as highly of the Empire as of Canada. (Cheers.)

Mr. Jas. Stevenson, M. P., endorsed the welcome of the Mayor, and was sorry that the gathering had not been convened in one of the other parks, of which we had several in different parts of the town. He closed by paying a warm tribute to the greatness of the Empire and of Canada.

Mr. J. R. Stratton, M. P. P., said that as a citizen of Peterborough, and a loyal citizen of Canada, a country of which we, whether native or adopted citizens, had great reason to be proud, he was glad to be present, because it was a country of illimitable material resources, blest with the best government and the most liberal institutions in the world. (Cheers.) He closed his brief remarks by intimating that the best way of concluding his address and paying a tribute to the greatest and best ruler of the world was by asking the band to play "God Save the Queen." His suggestion was received with applause, and as the band struck up the national anthem the multitude broke forth in the ringing strains of the great hymn whose grand tones wake the echoes under every sky upon the face of the globe

With cheers for the Mayor and the Supreme President the assemblage separated and a

PROCESSION

was formed, headed by the Naval Brigade of Toronto, followed by the Sons of England Band and the Citizens Band, of Port Hope, which had accompanied the Port Hope excursionists; by the grand officers and the party of representatives in carriages and the local and visiting members or the Sons of England society. The procession made its way to the Driving Park, where it was accompanied by thousands of citizens in street cars, carriages and on foot. Here the fine programme of sports and games were run off. The two bands stationed in the grand stand, furnished liberal supplies of excellent music during the afternoon.

PROGRAMME OF SPORTS.

About two o'clock the first event that was called was the lacrosse match between the Independents of Toronto and our own Athletics. The game was played out in the centre of the field, where it was watched by hundreds of people.

At the same time the lacrosse match was being played, the other attractions were being contested on the track. The starters were Mayor Kendry, R. Tivey, J. Downing and F. Foot. A number of the events failed to secure entries, and therefore were not run off. The following is the result:

Bicycle race, one mile—1st, cup presented by W A Sanderson, T Southam, Toronto; 2nd, cigar tie holder, presented by C LeGros, value $3, G O Evans.

Bicycle race, boys, half mile—1st, medal presented by committee, Norman Lewis; 2nd, shirt presented by H LeBrun & Co, value $1.25, Frank Bradburn.

Running Hop, Step and Jump.—1st, DAILY EXAMINER, presented by J. R. Stratton, value $4.00, W. Jackson; 2nd, tea, presented by F. J. R. Mitchell, value, $2.00, W. Dagger; 3rd, rocking chair, presented by A Comstock, value, $1.00, A H Jones.

Running Long Jump.—1st, 100 lbs flour, presented presented by Moldrum & Co., value $2.75, W Jackson; 2nd, tea presented by Brown Bros., value $2.00, A H Jones; 3rd, tea, presented by M Legault, value $1.00.

CUTLASS DRILL.

This interesting exhibition by the S. O. E. Naval Brigade, of Toronto, drew a large crowd. The brigade looked quite gay in their sailor uniforms as they lined up in position, and were received with rounds of cheers at the close of each of their pretty and effective series of exercises.

Among the special events, that which evoked the greatest interest and was, without doubt, the finest spectacle of the day, was the

MAY POLE DANCE,

which was presented under the direction of Miss Rosa Taylor, daughter of "Daddy" Taylor, the veteran Son of England. The May pole with its bright hued ribbons was planted on the green, and was the centre of a thronging multitude. At a given signal the little dancers, brightly clad in national colours, with skirts flounced with red, white and blue, trooped into the ring and the quaint ceremony of crowning the May Queen was proceeded with. Then the dancers, like so many little fairies, tripped in and out to the music of the orchestra, weaving the gay hued strands into a chequered mosaic upon the pole, and as deftly and unerringly unwove the bright braids. Miss Taylor is deserving of the greatest credit for her successful training of the little girls in the intricate evolutions and involutions of the dance, and the following little girls are deserving of great credit for the graceful precision with which they responded to her instruction and performed their several parts.

Alice Curtis,	Ellen Taylor,
Bertha Parnell.	Cora Mowry.
Dorothy Darke,	Maud Libby,
Kate Green.	Sarah Booth,
Alice Boyes,	Maud Lush.
Alice Woods.	Mabel Doulton,
May Taylor.	Harriet Downing,
Flossie Fewer.	Violet Chambers.
Nellie Gibson,	Bertha Mowry,
Ada Sabine.	Sarah Booth.

The May Queen was Miss Alice Barlow and the maids of honour were Aggie Sabine, Beatrice Tovey, Beatrice Harris and Mabel Lush.

The little dancers performed their dance most successfully, and were rewarded with liberal applause. They were photographed in front of the maypole by Mr. Richard Gray.

THE LACROSSE MATCH.

It is a decided misnomer to call the exhibition of the game a lacrosse a match, for the Independents, of Toronto, were not for a moment, a match for the home twelve. They were outplayed and outstayed. Toronto wants to send out her best lacrosse team to make it interesting for the Athletics. The teams lined up as follows before referee Cerise LeBrun:

Independents.		*Athletics.*
Grogan	goal	Dobbin
O'Farrell	point	Boland
Giroux	cover point	McMahon
O'Neil	1st defence	Hickey
Laird	2nd "	McDonough (J)
Leeson	3rd "	Thompson
Milner	centre	McDonough (T)
Whalen	3rd home	Rubidge
Laird (N)	2nd home	Galley
Giroux (L)	1st home	King
Upton	outside	Glover
Sullivan	inside	McDonough (J)

The first game was taken by King in two minutes, the second by Rubidge and the third by Jack McDonough and the fourth by King. The time occupied in actual play was not over fifteen minutes.

BASEBALL.

The baseball match between the Dauntless men of Toronto and the local nine attracted more attention than it would bring on its merits, from the fact that the teams had played a tie at the Riverside Park in the morning, when practically the same players scored each 13 at the end of the ninth innings.

The teams in the afternoon match were as follows:

Lytle	c	Gordon
McCabe	p	Spencer
Stacy	1b	Smith
Edmunds	2b	Simpson
McGill	3b	Newbury
King	ss	Amor
McAuliffe	cf	Leslie
Paxman	rf	Poole
Cathcart	lf	Stoneham

The game, though purely agricultural in its character, was not without its good play and its excitement. At the end of the first three innings the score stood ten to two against Peterborough, but the home boys rattled half a dozen out of the visitors on the fourth innings, and in the 6th, 7th and 8th they got one, four and three respectively, putting their total up to 16. The visitors only added two runs after the third innings. McCabe struck out eleven men in this game and had eight struck outs to his credit in the morning game. A couple of beautiful and difficult catches by King in left field were also features of this game. This is the score by innings:

	1	2	3	4	5	6	7	8	9	
Peterborough	2	0	0	6	0	1	4	3	0	—16
Dauntless	6	2	1	0	0	0	1	1	0	—12

The day's enjoyment concluded in the evening with a magnificent display of fireworks at the Driving Park. There were thousands in attendance.

The committee will meet in the Sons of England hall to-morrow evening to wind up the affairs of the Demonstration.

Weak, Tired, Nervous

Women, who seem to be all worn out, will find in purified blood, made rich and healthy by Hood's Sarsaparilla, permanent relief and strength. The following is from a well known nurse:

"I have suffered for years with female complaints and kidney troubles and I have had a great deal of medical advice during that time, but have received little or no benefit. A friend advised me to take Hood's Sarsaparilla and I began to use it, together with Hood's Pills. I have realized more benefit from these medicines than from anything else I have ever taken. From my personal experience I believe Hood's Sarsaparilla to be a most complete blood purifier." MRS. C. CROMPTON, 71 Cumberland St., Toronto, Ontario.

Unvarying Popularity.

With each recuring heated term the verdict is the same. Straw Hats have the palm for popularity. Why perspire, when you can get a first-class Straw for 75c and a good one for 50c, at Fairweather's. But there are many who prefer the neat, soft drab and pearl Hats with wide, slouch brims. They are the favourite wear with tourists and for all outdoor sports and functions. They will be much in evidence on Dominion Day. They not only look cool but are of lightweight Felt and very comfortable for hot weather. Fairweather's prices for these standard Soft Felts of newest shades are $2.00 $2.50 and $3.00. Only, at Fairweathers. Can these goods be had at these prices.

WEST PETERBOROUGH FARMERS' INSTITUTE.

Report of the Annual Meeting—Secretary's and Financial Report—Half a Hundred in the Treasury—The old Board of Officers Re-elected.

The annual meeting of the West Peterborough Farmers' Institute was held in the Council Chamber, Peterborough, on Saturday afternoon, June 29th.

There was a good attendance. Mr. J. Fred Davidson, President, occupied the chair and gave an interesting summary of the proceedings at the meeting of the Central Farmer's Institute at which he was one of the delegates from the local Institute Then followed the reading of the report of the Secretary, Mr. J. A. Davidson, which is printed below:

To the President, Officers and Members of the West Peterborough Farmers' Institute:

GENTLEMEN,—In presenting the annual report for the year ending 30th June, 1895, I am proud to have to state that our membership has increased and our meetings have been better attended than heretofore, and a greater interest taken in Institute work.

The deputation consisted of C. A. Zavitz, B. S. A.; J. F. Beam, Vice-President Good Roads Association, and D. E. Smith, B. A. The following subjects were discussed at Peterborough: "The Best Varieties of Grain to Grow," by C. A. Zavitz; "Good Roads," by J. T. Beam; "Essentials in Successful Breeding," by D. E. Smith. At North Monaghan,—"Dairy Farming as a Business," by J. F. Beam, "Ontario Agricultural College," by Geo. Y. Payne. "Experimental Work at the College," by C. A. Zavitz, "City versus Country Life," by D. E. Smith. The High Park Band assisted nobly at this meeting.

At Lakefield the subjects for discussion were "Experiments in Growing Roots and Potatoes," by C. A. Zavitz; "The Dairy Cow," by D. E. Smith, "The Cultivation of Small Fruits," J. F. Beam, "Succulent Food for Live Stock," by C. A. Zavitz, "Silo and Ensilage," by Geo. T. Payne, "Cultivation of the Soil," by J. Fred Davidson, "Dehorning," by J. F. Bean.

The evening session was a decided success. A delightful programme was rendered and an enjoyable evening passed off pleasantly with the citizens of Lakefield.

Our annual Union Picnic was held down the river to Jubilee Point on June 13th. The day passed off pleasantly, and everyone enjoyed themselves. Great praise is due to the committee and also to the Navigation Company for their kind and courteous treatment.

We have also the Travelling Dairy in our midst, educating the people in the making of butter, under instructions from the Minister of Agriculture and management of Ontario Agricultural College.

All of which is respectfully submitted.

JOHN A. DAVIDSON, Secretary.

The report was received and adopted.

Mr. Dawson Kennedy, one of the auditors, read the report and financial statement as follows:

ELECTION OF OFFICERS.

The old board of officers were re-elected as follows:

President—J. Fred Davidson.
Vice-President—Dawson Kennedy.
Secretary—John A. Davidson.
Treasurer—John Stothart.
Directors—Messrs. H. C. Garbutt, Wm. Rutherford, Geo. E. Elliott, James Davidson, J. G. Armstrong, G. Y. Payne, John A. E. Fitzgerald, M. E. Sanderson, R. H. Braden and Wm. Collins.
Auditors—J. H. Garbutt and J. A. E. Fitzgerald.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

CURED OF DYSPEPSIA.

A Severe Case Cured By Burdock Blood Bitters After Other Treatment Had Failed.

GENTLEMEN,—After being treated by three doctors for Dyspepsia I decided to try Burdock Blood Bitters. By the time I had taken two bottles of the B.B.B. I was completely cured and have since been strong and well. When I was suffering from dyspepsia I was so weak and thin I could hardly walk, but I now weigh over 160 pounds and feel as well as ever I did in my life. OLD LAND POLITICS.

Gerald Balfour To Be Secretary For Ireland.

CABINET MINISTERS RE-ELECTED.

The New Ministers Take Their Seats in the House—Expectation That the Factory Bill Will Be Passed Before Dissolution—H. M. Stanley to Contest Lambeth.

London, July 2.—The sitting of the House of Commons yesterday was marked by the very small attendance. As is customary upon the occasion of a change in the Ministry, the leading members of the Opposition and their followers changed their seats, taking the side of the House formerly occupied by the leaders and members of the majority. The Afghan Prince, Nasrulla Khan, occupied a seat in the Speaker's gallery.

In the House of Lords, Baron Halsbury, the new Lord High Chancellor, took his seat upon the woolsack for the first time, as the presiding officer representing the new Government. The galleries of the House were well filled, and a number of ladies, the wives or daughters of Peers, were present in bright costumes.

Prince Nasrulla, after leaving the House of Commons, went to the House of Lords, where he was seated in the gallery set apart for dignitaries. The business conducted in both Houses was merely formal, and they both adjourned after brief sessions.

Cabinet Ministers Re-Elected.

London, July 1.—The Right Hon. Joseph Chamberlain was re-elected to represent the West Division of Birmingham. The occasion of re-election was the appointment of Mr. Chamberlain to the Cabinet office of Secretary of State for the Colonies.

The Right Hon. Arthur James Balfour was re-elected to represent the East Division of Manchester.

The Right Hon. Sir Michael Hicks-Beach was also re-elected.

Sir Henry James, the newly-appointed Chancellor of the Duchy of Lancaster, has written to his constituents in Bury, which district he represented in the House of Commons, a farewell letter upon his acceptance of a Peerage.

The Yorkshire Evening Post announces that Mr. Gerald William Balfour, member of Parliament for the Central Division of Leeds, has been appointed Chief Secretary for Ireland.

Mr. Balfour is a brother of the Right Hon. Arthur James Balfour, the newly-appointed first Lord of the Treasury, to whom he has for some time past been private secretary.

The announcement of the appointment has created a great deal of surprise, but the authority for the statement is apparently beyond question, The Post being his present organ. Mr. Balfour is unknown in political circles, except as a young and promising politician.

The Post will say to-morrow that Walter Hume Long, M.P. for the West Derby Division of Liverpool, has been appointed President of the Board of Agriculture.

William St. John Broderick, M.P. for the Guilford Division of Surrey, has been appointed Under Secretary of State for War. It was Mr. Broderick who made the motion in the House of Commons to reduce the salary of Mr. Campbell-Bannerman, Secretary of War, in order to call attention to alleged deficiencies in the war supplies, the adoption of which led to the resignation of the Liberal Ministry.

In a speech to his constituents in West Bristol, Sir Michael Hicks-Beach, Chancellor of the Exchequer, said the Government hoped to carry through the House of Commons before dissolution the Factory bill introduced by the late Liberal Government.

Sir Charles Dilke, Henry Labouchere and other Radicals have issued a manifesto demanding a reform in the registration and franchise laws, so that one man will have only one vote. They also demand a reform in Parliamentary procedure, so as to prevent wilful obstruction and to bring about the abolition of the legislative powers of the House of Lords. The manifesto declares that the coalition Government, all the forces of monopoly, privilege and reaction are combined. Against them must be evoked the moral courage and strength of the free electors.

Henry M. Stanley, the African explorer, will again contest the North Division of Lambeth in the coming general election for member of Parliament. In the last election Mr. Stanley, who is a Liberal-Unionist, was defeated by Francis M. Coldwell, a Radical. Joseph Chamberlain, the new Colonial Secretary, will speak in Mr. Stanley's behalf next Saturday.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

Good for the Band.

The Sons of England band created a splendid impression yesterday. Their playing was much admired. This is remarkable seeing that they have only been in practice three months. The leader, Mr. Pennington, as well as the members, deserve great credit for the great progress they have made.

At the Agricultural College.

The closing exercises at the Ontario Agricultural College, Guelph, took place on Saturday. The scholarships, presented to the college by Mr. Geo. A. Cox, and awarded for the first time in the history of the college, were presented to the winners by Mr. Cox. Diplomas were awarded, among others, to Mr. G. Y. Payne, of North Monaghan, and Mr. W. H. Taylor, of Douro.

The New S. O. E. Band Uniforms.

The members of the Sons of England band wore their new white summer uniforms for the first time yesterday. They were supplied by Messrs. Grafton & Co. and give entire satisfaction. This firm also supplied the white vests for the Fire Brigade band which were first worn on the 24th of May. They have also an order for supplying Orangemen with outfits for the 12th of July.

Harvesting Already.

Mr. Wm. Eyres informs us that he witnessed fall wheat being harvested in June this season, the first in his long farming experience. While driving through South Monaghan on the 28th June he observed fall wheat standing in the stook and three men pulling peas in an adjoining field. This season is in advance of previous years about two weeks. Owing to the warm sun and want of rain, the harvest is ripening very fast and is not up to expectations.

A Sadly Sudden Death.

This morning Mr. Charles Brown, father-in-law of Mr. E. W. Cox, died suddenly in Toronto. He was a highly respected citizen of Toronto, and his sudden demise was a shock to the community. What adds a melancholy interest to the circumstances is the fact that Mr. Geo. A. Cox's youngest son, Mr. Bert Cox, was to have been united in marriage at the Sherbourne street Methodist church to-morrow to the late Mr Brown's youngest daughter.

The Secret of Success.

It is not difficult to arrive at the Secret of the Success which has made the firm of Pete Simons & Co the leading ordered clothing establishment in town. They buy at rock bottom prices for spot cash. This is an advantage not possessed by many in the same business. Then Mr. Simons cuts and superintends the making of all garments entrusted to the firm's care—which is also an advantage that other tailors have not got. Again, they import the latest, newest and best material the market affords, which enables them to turn out the stylish clothing which has made this house famous. One trial is all they ask to make you a regular customer. Go and see them.

ANNUAL OUTING OF THE RANGERS.

The Trip is now a Thing of the Past.

BUT IT WILL NOT BE FORGOTTEN FOR MANY MONTHS.

The Courtesy and Hospitality of the Pictonians Could not Have Been Excelled—They Entertained the Rangers Admirably and the Day was a Red Letter One for the Town Hundreds of Soldiers in Parade—Incidents That Occurred in Picton.

All Peterborough turned out on Saturday evening to see the gallant 57th entrain for Picton. Hundreds of citizens gathered at the drill shed, hundreds more assembled on the different streets along the line of march to the station and at the depot were hundreds more.

The troops embarked at the Simcoe street crossing, as it would have been next to impossible to have filed through such a crowd as was gathered at the station.

In all there were two hundred and ninety seven men in line, and as they marched along the streets cheer after cheer was sent forth by the enthusiastic citizens who are so proud, and justly so, of the appearance of the crack local corps.

LT. COL. BELL

was in command, with the following officers on the staff:

Major—E. B. Edwards.
Major—Dr. Brennan.
Surgeon—Dr. Halliday.
Adjutant—Capt. E. Mason.
Quartermaster—Wm. Langford.
Honorary Quartermaster—R. M. Denistoun.
No. 1 Company—Captain, A Stevenson; Lieut., —. Ames.
No. 2 Company—Captain, G. B. Schofield; Lieutenant, R. B. Clegg.
No. 3 Company—Captain, W. H. Hill; Lieutenant, V. Eastland.
No. 4 Company—Captain, K. G. Lech; Lieutenant, Vernon McGill; (Capt. Snider attached.)
No. 5 Company—Captain, E. W. Miller; Lieutenant, G. W. Bennett.
No. 6 Company—Captain, L. M. Hayes; Lieutenant, Jos. Mills.

THE NON-COMMISSIONED OFFICERS

attached to the different companies were as appended:

Sergt-Major Peters.
No. 1 Company—Col.-Sergt. Heathcotte, Sergt. Davidson, Corp. Fleming, and Corp. Francis.
No. 2 Company—Col.-Sergt. W. F. Green, Sergt. Edwards, Sergt. Bridgewater, Sergt Phillips and Corp. Langford.
No. 3 Company—Col.-Sergt. Lloyd, Sergt Gaskins, Sergt. Fowler, Corp. Metheral, Corp. Green and Corp. Baker.
No. 4 Company—Col.-Sergt. Distin, Sergt Coveny, Sergt. Smith, Corp. Evans and Corp. Tremain.
No. 5 Company—Col.-Sergt. Thompson, Sergt. Roberts, Sergt. Lannin, Sergt. Johnston, Corp. Murphy, Corp. Bish, Corp. Boomer and Corp. Hendren.
No. 6 Company—Col.-Sergt. Robt. Hillar, Sergt. Bell, Sergt. Matthias, Corp. Green and Corp. McNealy.
Ambulance Corps—Sergt. Connal.
Pioneer Corps—Sergt. Wm. Donelly.
Bugle Band—Sergt. Sharp.
Battalion Band—Bandmaster Miller.

The rear car was reserved for the use of the officers and each of the companies had a coach set apart for its use. As the train steamed by the crowded depot at half past ten o'clock, cheer after cheer went up from those assembled.

The trip was made via Belleville and Trenton, at which latter station the train was switched on to the C. O. R. line. The run from Peterborough to Belleville was made in the quick time of two hours and ten minutes, but the rest of the trip was somewhat tedious, as Picton was not reached until about half past four.

The time flew quickly, however, to the men in the cars who amused themselves with story and song and the slumbering residents in the villages through which the train sped quickly must have wondered as to the source whence so much merriment proceeded.

AT THE PICTON DEPOT

the train was met by Lt.-Col. McDonnell, Major Horrigan, Major Lighthall, Adjutant Wycott, Capt. Adams, Capt. Ferguson and the local 16th Battalion Band. There was also a number of citizens on hand to welcome the popular Rangers, amongst them being Lt.-Col. Bog, who was formerly commanding officer of the 16th.

Too much stress cannot be laid on the geniality of the greeting extended to the Peterborough corps. Nothing was left undone, and the carefulness which was paid to even to the details will never be forgotten by the Rangers. The kindness of the forethought which suggested the watering of the street from the station to the camp ground was greatly appreciated and freely commented upon.

As the battalion marched along the streets, headed by the 16th Band, which played alternately with the band of the Rangers, window after window was raised and the residents appeared in every possible kind of babilment, thrown hastily on for the purpose of witnessing the entry into the town of the visitors, in whom so lively an interest had been awakened.

ARRIVED AT THE CAMP,

which was admirably located in the agricultural grounds, coffee and light refreshments were served to the men, after which they indulged in a few hour's rest before being summoned for church parade.

The band escorted a large number of the men over to nine o'clock mass at the Roman Catholic church where they were most cordially welcomed by Rev. Father McDonagh.

The church parade took place for the eleven o'clock service in St. John's Episcopal church, when the rector, Rev. Mr. Loucks, delivered a powerful and appropriate sermon to the men.

On the march to and from church the Battalion ascended and descended a long hill and the sight was an inspiring one indeed. Every man was in step, the rythmic swing of the body together with the corresponding movement of the long line of helmets and the glitter of the buckles and sidearms was a vision most stirring, and one which awoke in every heart the inate fire which courses in every descendant of Great Britain to be ready at a moment's notice to take a place in the ranks, and strike for St. George and the Empire.

THE DECORATIONS

of the streets and places of business may well be spoken of as magnificent. No expense, apparently, had been spared to give the town a gala appearance, and certainly a grand success was scored. Cost was no object. Every business house was lavishly draped from top to bottom with bunting, artistically looped, and relieved with mottoes conveying a welcome to the Rangers.

Great arches of evergreens spanned the principal streets at almost every intersection, and the labour entailed in their erection must have been great indeed.

On Sunday afternoon crowds of visitors called at the camp and were courteously shown over the parade ground by the officers, many of whom remained in the camp all day, although a number drove out to the Sand Banks. Scores of privates also took advantage of the opportunity and visited this beautiful summer resort during the day.

In the evening a grand sacred concert was given by the 57th Band, and for miles around the farmhouses were vacated and the owners thereof, together with their families, drove into town to hear the music, which was discoursed in the evening before an audience of several thousand people.

By half past ten o'clock the grounds were about clear of visitors and

THE WEARY 57TH

sought their couches, not however, in every case to sleep, as a number of the more high spirited of the men indulged in just sufficient merriment to keep their near neighbours awake. At intervals with a muttered imprecation an officer would gingerly go into the night in his bare feet and robed in a uniform not mentioned in the regulations, in the hope of detecting the culprits, but protestation of innocence met him on all sides. Every man was as grieved as he over the occurrence and some launched out into invective against the disturbers of the peace. Although the irate officer had his suspicions he could do naught in the face of such sympathy and had only to retire with the best grace that he could and reported a resolve to grin and bear his troubles rather than again have to receive sympathy from a source so doubtful.

At six o'clock on Monday morning

THE KINGSTON REGIMENT

arrived on the steamer Hero and marched up to the camp, where they were warmly welcomed.

The 14th Battalion from the Limestone City was almost two hundred strong and was officered by the following staff:

Major Shannon, commanding officer.
Major Skinner.
Major Galloway, acting adjutant.
Surgeon—Dr. Garrett.
No. 1 Company—Captain Dupries and Lt. Skinner.
No. 2 Company—Lt. Strange, Acting captain, and Lt. Cunningham.
No. 3 Company—Lt. Strange, acting captain.
No. 4 Company—Capt. Hora.
No. 5 Company—Capt. Hora.
No. 6 Company—Lt. Sutherland, acting captain.

At eight o'clock the steamer Merritt brought in the 15th Battalion, of Belleville, almost 200 strong, as well as a large number of excursionists from the Bay City. Headed by their

ADMIRABLE SILVER BAND

the new arrivals also marched to the camp, evoking general admiration by the manner in which they stepped out and the neatness of their appearance.

THE FOLLOWING OFFICERS

were with the Battalion: Lt.-Col. Henderson, Major Ponton, Major Halliwell, Adjutant Dunlop, Quartermaster Donald, Chaplain Rev. M. W. McLean.

No. 1 Company—Capt. Muir and Lieut. Hulme.
No. 2 Company—Lieutenant Osborne in command.
No. 3 Company—Capt. Dalmsley.
No. 4 Company—Capt. Gibson.
No. 5 Company—Capt. Vermilyea and Lieut. Hulme.

At ten o'clock a march out of the three battalions took place and the superiority of the gallant 57th was plainly apparent, although in saying this no disparagement of the other two regiments is intended. They marched well, but lacked the long swinging soldierly stride of the Rangers, and that perfect unism which has always been manifest in the 57th and which has characterized them as the crack volunteer corps of the Dominion. Many of the visitors, by mistake, attributed their remarkably fine appearance to the fact they were regulars

IN THE IMPERIAL SERVICE

and certainly one would be led to think so. Each company was formed in two parallel lines which swept the street from curb to curb and as the men, with heads erect and shoulders well back, wheeled the corners like a piece of mechanism; the enthusiasm of the people knew no bounds and hats were thrown high in the air as huzza after huzza was given for this most popular of Battalions.

The officers of the day were:

Brigadier ————, Lieut. Col. Henderson, of Belleville.
Brigade Major—Lieut.-Col. McDonnel, of Picton.
Aide-de-Camp—Major Horrigan, of Picton.
Brigade Sergt—Major ————, Sergt.-Major Peters, of Peterborough.

UPON THEIR RETURN

to camp the men were dismissed, and resorted to various means of amusement. Without a doubt the buglers and drummers enjoyed themselves to the full limit, and at the same time they furnished endless amusement for the Pictonians by their pranks. Having good voices, the boys made the town fairly ring with their songs as they marched in procession through the streets, surrounding a huge May pole from which depended long streamers with a bugler at the end of each.

Numbers of the officers and men patronized the excursion to the Lake on the Mountain, Glenora, during the afternoon and were more than delighted with the sail on the water.

ALL DAY LONG

the Pictonians and excursionists to the town thronged the camp grounds, and just here it might not be amiss to describe the camp.

There were forty nine of the regulation tents occupying a large square. Each company occupied a row of seven tents, and as No. 1 Company occupied the first row, No. 2 the second, and so on, it was easy to locate anyone whom you wished to find—provided he was in his tent. The officers had a large marquee for a reception tent, and the band and sergeants' mess had each large pavilions placed at their disposal.

Refreshments were served at the sergeants' mess, and scores of visitors thronged the tent of the genial Non-Coms. all day. The band, too, was a source of great delight to the citizens, who thoroughly enjoyed the sweet music which was discoursed. The Belleville band was superior to that from Kingston, but neither of them bould compare with the band from Peterborough.

Games of various kinds were engaged in during the afternoon, when the grounds were again crowded with visitors. Most of the men, however, amused themselves on the street.

A GOOD STORY

is told of the pet of the ambulance corp. It appears he has a very tender spot in his heart for the weaker sex, and laid himself out to amuse the lady visitors to the camp. One fair buxom lass, in particular, took his eye, and for over an hour he devoted himself to her, and flattered himself that he was making quite an impression. His dismay may be imagined when his fair friend excused herself in order that she might meet the boat, which was bringing her children to town—she was married, and the castles in the air which the gallant ambulant had been building about the pleasant time he would have in the evening were rudely dispelled.

Although several cases of cramp occurred only one incident of note in this line took place. Bugler English entered the bay for a swim when in too heated a condition, and when out of his depth suddenly sank. He was most heroically resued by Mr. Will Borland, who was with him, and plunged in to the rescue.

IN THE EVENING

there was a "cooks' parade," which was ludicrous in the extreme, and convulsed the spectators with laughter. The buglers and drummers had also a prominent hand in this affair, and were gotten up for the occasion in a manner "quite regardless."

Later on a ball was held for the occasion in the large Crystal Palace, and it was conducted on a magnificent scale indeed. The lavishness of the decorations surpassed description. An orchestra was there from Kingston and the partners provided for the visitors were such as to prove without question of doubt that Picton deserves the name it carries of being the home of some of the prettiest and most graceful of Canada's daughters.

At midnight the assembly was sounded on the bugle and the officers taking leave of their fair companions hastily repaired to the camp and superintended the arrangements for breaking up. By one o'clock the battalion was safely

ESCONSCED IN THE TRAIN

and was steaming away homewards with many pleasant recollections of the most enjoyable trip which they had ever undertaken. On the line of march to the station the citizens assembled in throngs to wave adieu to the smart red-coats who had won such golden opinions for themselves during the day.

The committee which entertained the 57th was composed of Lieut-Col. Bog, Mr. Dunmard, Mr. Hepburn, Major Horigan, Major Biggar, Mr. Shannon, Mr. Beringer, Captain Wycotte, Mr. Widdifield and Mr. Barker. Mr. H. E. C. Melrose was the honorary secretary for the occasion and most agreeably did he perform his arduous duties.

Lieut.-Col. McDonnel, Mr. Drummond, Major Horigan, Mr. H. E. C. Melrose and Mr. Frank Beringer, placed themselves entirely at the disposal of the visitors, and no trouble seemed to them of any consequence if it would tend to heighten the enjoyment of their guests.

NOTES.

The crew in charge of the train which conveyed the Rangers to Picton was composed of Conductor S. Bapry, trainmen C. Drewry and C. S. White, Engineer T. Pratt and Firemen E. Algar.

The celerity with which the 57th boys sprang to "attention," and saluted when an officer approached, was provocative of much favourable comment.

The regimental plate was admired by the visitors to the camp. It was all displayed in the officers marquee and was a further proof, if any was needed, of the fact that a crack corps was visiting the town, as the plate consists mainly of trophies won in competition.

By the many kindnesses extended by the Pictonians to the Rangers up to the moment of leaving it was apparent that if the Peterborough corps ever decides to again re-visit the town there will be a warm welcome awaiting them. But the welcome will not be any warmer than the feeling of pleasure with which the boys would hail the announcement of another trip to the prettiest and most hospitable of Canadian towns.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames. We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. THE WATERLOO MEET

Success of the C.W.A. Dominion Day Meet.

GREAT RACING, NO NEW RECORDS

Several New Fast Men Come to the Fore—Sarnia Captures Two Championships—The Five Mile Race Won By Less Than An Inch.

Waterloo, July 1.—The 18th annual meet of the C.W.A., which is being held here, is, the officers say, without doubt the most successful in the history of the association. There are nearly 2500 wheelmen in town, clubs from all parts of the Dominion being well represented, while there are thousands of visitors in town from neighboring places.

The Waterloo club have more than redeemed all the promises made to the Canadian Wheelmen's Association, and have fully justified their claims to the meet.

Cyclists have been arriving here continuously since Friday night, and the Billeting Committee is taxed to its utmost efforts to find room for visitors, many of whom are putting up three and four in a bed in private houses. The cyclists own the town and also the neighboring town of Berlin. They are doing whatever they please, but no one has yet had cause to complain of their behavior.

There was a procession to-day of the wheelmen from Berlin to Waterloo, a distance of two miles, all the clubs participating. When the leaders of the procession reached Waterloo the tail enders had not left their starting place. All of the Toronto clubs have large turnouts, that of the Wanderers being particularly noticeable, their brass band and the ludicrous attire of some of its members being very conspicuous.

The races were all of an exciting nature, but were unfortunately marred by several accidents, Colin Harbottle being among the unlucky ones, he falling in the mile class B championship and carried off the track unconscious. He was badly cut about the knees and arms. Other unfortunates were Mitchell of Montreal, Smith of Campbellford and Barber of Guelph, who fell in the novice, all of them sustaining nasty cuts. In the two-mile Waterloo Handicap, Wilson of Galt went over the bank. In the first lap of the second mile in the 5-mile championship race Logan, Wells and Gibbons went over the bank into the crowd at the same spot. Two or three of the spectators were injured by the riders' mishap, but the cyclists came out of it unharmed, excepting scratches and bruises.

No records were smashed, and the time all round was rather slow.

It was Sarnia's day, they winning two of the three championships. McLeod took the mile, class B, and Lougheed the half mile, class A. The five mile championship went to McIntosh of the Wanderers, who beat out Harley Davidson by half an inch. The novice went to Toy Miller of the Tourists B.C., Hamilton. He beat Bounsall, whom all expected to win, by a foot.

Coulter, the fast rider from Toledo, who left the American circuit purely to win the $1000 horse put up by Mr. Seagram as the first prize in the mile international class B, accomplished the trick in 2.09. Summaries:

Mile, novice, class A, first heat—George H. Doherty, Toronto BC, 1; C. G. Kenrick, Woodstock, 2; Herbert McClutcheon, Guelph, 3. Time 2.47. F. G. Smith, Campbellford; W. H. Schmidt, Mount Forest; W. C. Barber, Guelph; S. A. Amen, Kingston, also started.

NEW EARLS, BARONS AND BARONETS.

Honors Conferred by the Queen on the Retirement of the Rosebery Government.

London, June 30.—The list of honors conferred by the Queen on the occasion of the retirement of the Rosebery Government has been published. Lord Houghton, the retiring Lord Lieutenant of Ireland, and Lord Carrington, the retiring Lord Chamberlain, become Earls.

The following are created Barons: Sir Henry Brougham Loch, recently Governor of Cape Colony; the Right Hon. Herbert Gardner, M.P., the retiring President of the Board of Agriculture; Mr. Sydney James Stern, M.P., and Mr. James Williamson, M.P.

The Baronets include the Lord Mayor of London and Mr. Leyland, an ex-M.P.

The Right Hon. Henry Fowler, Secretary of State for India in Lord Rosebery's Cabinet, is made a Knight Grand Commander of the Order of the Star of India; the Right Hon. H. Campbell-Bannerman, the retiring Secretary of State for War, a Knight of the Grand Cross of the Order of the Bath, and Mr. Giffen, a Knight Commander of the same order.

The Daily News says that it must not be hastily assumed that Lord Rosebery has suddenly become inconsistent, and hints that the peerages just conferred were promised prior to his speech at Bradford against the House of Lords.

The Post and The Graphic remark upon the illogical creation of peers by a government upon whose program the political extinction of the House of Lords is prominently inscribed.

AYER'S Sarsaparilla

A MEDICINE

WITHOUT AN EQUAL.

Statement of a Well Known Doctor

"Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action, and effects so many permanent cures as Ayer's Sarsaparilla."—Dr. H. F. MERRILL, Augusta, Me.

SHOT FOR A TWO DOLLAR BILL.

An Affray in Hamilton That May Be Murder.

Hamilton, June 28.—A row occurred this afternoon about 3 o'clock in the Tremont House, in Stuart-street, which in all probability will result fatally. James Neelon, a young man who resides with his mother, Mrs. Ellen Neelon, 256 Bay-street north, was shot in the stomach by James Wall, the proprietor. The row is said to have originated over the change of a two-dollar bill. Wall claims to have done the shooting in self-defence. He says Neelon and three other men threatened to do him up.

Wall has been in a shooting scrape before. Several years ago he shot at a young lady who had rejected his addresses. He is well known as a clog dancer, being the best in the city.

At a few minutes before 3 this afternoon the lady bookkeeper for Chisholm & Logie, barristers, was on her way to the bank with a deposit for the firm of over $2000 in cheques and $25 in cash, when a thief snatched it from her and ran off. He has not yet been captured. The payment of the cheques has been stopped.

KICKING FOR EXTRA PAY.

A Row in the Newfoundland Legislature That May Disrupt the Government.

St. John's, Nfld., June 28.—There is serious trouble in the Whiteway (the Government) party in the Legislature. The rank and file want the regular sessional pay and a bonus besides, because the session has been seven months long. The Ministry refuses to sanction this, holding that they are in honor bound to carry out retrenchment. The unofficial members of the party retort that the Cabinet officers are getting their full salaries to the end of June, and that the other members of the party are entitled to receive some consideration.

The Ministry threaten to discharge the Contingencies' Committee and replace it with another committee composed of members of the Executive alone. The malcontents have dared them to do this, knowing that the Opposition would support them against the Ministry in the hope of disrupting the Government. The situation is threatening. Premier Whiteway thretens to resign unless the malcontents submit, but the latter are still stubborn. The adjournment of the House has been postponed until next week in order to allow of a settlement being reached.

Toronto Markets.

Toronto, June 29.—Flour—Dull; straights rollers quoted at $4.25 to $4.50, Toronto freights.

Bran — Bran is steady, at $12.50 for car lots, Toronto freights. Shorts are quoted at $16 to $17.

Wheat—The market is dull, with buyers holding off. White is nominal at 55c at western points, and No. 1 Manitoba hard at 97c, Toronto freights.

Peas—Trade dull and prices easy at 57 1-2c to 58c, west.

Barley—Trade dull and prices nominal at 52c to 55c for feeding qualities.

Oats—The market is weaker, there being sales outside of white at 34 1-2c to 35c, the former for high freights.

Rye—No business doing and prices purely nominal.

Oatmeal—Market is dull, with prices easy at $4.10 on track for ordinary qualities.

DAN WHALE PARDONED.

The Former Well-Known Toronto Hotel-Keeper Who Killed His Wife Released From Custody.

The Minister of Justice has ordered the release from Kingston Penitentiary of Daniel Whale, who was convicted of wife murder at Mitchell about 4 years ago.

Whale, for many years, conducted the hotel at Richmond and Church-streets, but about five years ago removed to Mitchell.

A daughter of the prisoner, Mrs. Seldon of Chicago, has been at Ottawa for the last six weeks, urging her father's case. It appears that at the time of Mrs. Whale's death Whale had been drinking, and, although the evidence showed that he struck her, there are grave doubts for believing that the blow was the cause of death.

Mrs. Wale was subject to heart disease, and this, it is claimed; was the principal cause of her demise. A very strong case was presented to the Minister of Justice, and, as a result of efforts put forward on Whale's behalf, he has been relieved from working out his life imprisonment at Kingston. It is understood he has gone to Chicago with his daughter.

WILL EXHUME THE BODY.

Suspicious Circumstances Attending Mrs Scott Campbell's Death.

London, June 28.—A sensation has been created by the issuance of an order from the office of the Home Secretary for the exhumation of the body of Mrs. Scott-Campbell, widow of an army captain of that name, who died suddenly on June 18 at her home in a fashionable quarter of the city near Grosvenor square.

The lady was out riding on a bicycle on June 16, and appeared to be in the best of health.

The utmost secrecy is being observed in regard to the reasons for issuing the order for the disinterment of the body.

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

Great Faith in it.

DEAR SIRS,—I have used Dr. Fowler's Extract of Wild Strawberry when required, and think it is the best remedy to be had for all kinds of Summer Complaints. It has never failed in our family to cure any summer complaint, so we have great faith in it. MRS. FRANK STEPHENS, Chatham, Ont.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalizer 'saved my life,' I consider it the best remedy for a debilitated system I ever used." For dyspepsia, Liver, or Kidney trouble it excels. Price 75 cts. Sold by John Nugent, 389 George street.

"The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

A LADY OF WATERFORD COMPLETELY CURED.

Suffered for Two Years from Indigestion and General Debility.

Unable at Times to Attend to Her Household Duties.

Treated by Nearly All the Doctors in the Town Without Relief

"Six Bottles of South American Nervine Cured Me," Says Mrs. D. A. Gray, of Waterford, Ont., Over Her Own Signature.

MRS. D. A. GRAY, OF WATERFORD, ONT.

Certain dates are epoch making. They mark transitions in the individual life that are never forgotten. Their impress may be pleasant or sad, or both. As Mrs. D. A. Gray, of Waterford, Ont., an estimable and highly respected resident of that community, goes back in memory to the year 1893, her recollections are not of the most roseate character. Can there be anything rosy to one who is a victim of indigestion? All is sombre and sadness. But there was a silver lining to the cloud, as we shall see. Previous to 1893 Mrs. Gray tells us she had been troubled very much with indigestion and general debility for a period of nearly two years. Hers was no ordinary case. At times she was prevented altogether from attending to her household duties. Waterford has a number of skilled physicians in its midst and their services were called in, but in her own language, "I cannot say that they relieved me in any way." An era of joy was ushered in when her mother read the story of a cure by South American Nervine in a case whose the symptoms, as Mrs. Gray says, "seemed to be exactly like her own. I bought a bottle and found much relief. After taking six bottles I was cured." The date was an epoch making date in this lady's life.

What the symptoms of Indigestion are, too many know. What the trouble is in its worst forms thousands know. People lament the spread of insanity in the present day. How far removed from loss of reason is a case of aggravated indigestion? The world to every such victim is blue enough, black enough, so uninviting and depressing that no wonder they are beside themselves. And yet the remedy is within the reach of all. That great discovery, Nervine, will cure the most desperate case of indigestion, debility or nervousness. You ask for evidence. A cloud of witnesses in the Dominion of Canada are saying, amen, and amen, to the testimony of Mrs. Gray. Why suffer, fellow-citizens, friends and brethren?

ST. JOSEPH'S PICNIC.

The Usual Annual Picnic—How the People Enjoyed Themselves—List of Winners in the Sporting Events.

The annual picnic of the congregation of St. Peter's Cathedral in aid of the funds of St. Joseph's Hospital took place on the hospital grounds as usual, and was a gratifying success in every respect.

The different committees having the management of the picnic in hand were on the grounds at an early hour and had everything in readiness for the event. The grounds during the day presented a busy scene. Refreshment booths dotted the grounds, and all did a brisk business together with a shooting gallery and also a merry-go-round. A miniature representation of the shrine of St. Anne de Beaupre under canvass in charge of Mr. P. Begley, attracted a large number, while the dancing platform, in charge of Mr. M. Costello, was crowded the entire day with young people who tripped the light fantastic to the music, supplied by Butcher's orchestra.

The ladies of the different wards prepared an excellent spread at noon and the tables were lined time and again with scores of picnicers.

After dinner the crowd in attendance had increased largely owing to the arrival of a large number from the surrounding country. The following clergymen were noticed on the grounds during the day: His Lordship Bishop O'Connor, Ven. Archdeacon Casey, Rev. Fathers Collins and O'Connell, of the Cathedral; Dumochel, of Toronto; McColl, of Ennismore, and Fitzpatrick, of Norwood. During the afternoon the following list of sports was successfully run of:

G. Johnston, burned on Saturday and Sunday nights. He said he did the act to secure his return to prison.

Lake Superior Earthquake.

Sault Ste. Marie, June 30.—Assistant Engineer Glenn E. Balch of the United States Lake Survey, who returned this week, reports finding appearances of an earthquake on Batchewanna Island, Lake Superior. The affected strip is 200 to 300 feet wide and 1,200 feet long. The crack and upheaval, with trees torn up and rocks broken to pieces, show the effect of the mighty shocks. Batchewanna Island is isolated and uninhabited.

MAISONNEUVE IN BRONZE.

Monument to Montreal's Founder Unveiled By Hon Mr. Chapleau.

Montreal, Que., July 2.—The great feature in the celebration of Dominion Day was the unveiling of the Maisonneuve monument, erected in Place d'Armes, midway between the Bank of Montreal and Notre Dame Church, to the memory of the founder of the commercial metropolis, Paul Chomedy de Maisonneuve sailed away from France almost 250 years ago, a lover of his country and a patriot in every sense of the word. Yesterday the splendid bronze statue erected to his memory was shrouded by a Union Jack, and today the same was unveiled, while the meteor flag of England waved from the towers of Notre Dame. Judge Pagnuello, Lieutenant-Governor Chapleau, Mayor Villeneuve, the French Consul, Rev. Abbe Colin (Superior of St. Sulpice) made speeches in French, and Sir William Hingston delivered the English address. The addresses were extremely Canadian in tone, and Maisonneuve was extolled not on account of what he had done for his native land, but rather for the services he had rendered the colony of Montreal.

"What does it matter," exclaimed Hon. J. A. Chapleau, in a burst of patriotic eloquence, "if a man be English or French, Protestant or Catholic, as long as he works away for the upbuilding of Canada and for the advancement of the Confederation?" a sentiment that was cheered to the echo by the vast multitude present. Rev. Superior Colin, the old man eloquent of St. Sulpice, claimed that the principles which French-Canadians had learned from such heroes as Maisonneuve had fortified them in their unswerving devotion and loyalty to British rule. After the ceremony was over the Governor and party and about 200 ladies and gentlemen were invited to take lunch in the Seminary Garden, and it was the first time in 200 years that a woman had ever crossed these grounds. The company passed in through the very door where Rev. Father Carrol, afterwards Bishop of Baltimore, entered as George Washington's emissary, 120 years ago, and tried to enlist sympathy for the revolutionary cause. The loyal sons of St. Sulpice quickly listened to the propositon of their co-religionist from over the border, and when he had finished they indignantly showed him the door.

Pastures Sprinkled With Poison.

Comber, Ont., June 29.—Robert Ford, living on the 7th concession of Tilbury West, had four head of cattle poisoned this week. Yesterday Mr. Ford had his suspicions aroused and summoned a veterinary, who, upon examination of rock salt found in the pastures, pronounced it saturated with paris green. There is no clue to the perpetrators.

Death the Wages of Foolishness.

Quebec, Que., June 30.—Maurice Roche, a butcher, lost his life while he was crossing the river in a rowboat. To make quick time he attached his boat to the stern of one of the ferry steamers. In midstream he got up to go to the bow of the boat. While doing so the steamer sheered around to make for her landing, capsizing the boat and throwing him headlong into the river.

Tried Twice and Succeeded

The Scandal to be Investigated by Parliament.

NO HUDSON BAY RAILWAY VOTE.

Mr. Foster Expects Prorogation Next Week "If" Remedial Legislation is Not Introduced—Caron Produces the Papers He Declared Were Lost.

Ottawa, Ont., July 3.—It was expected that Mr. Foster would be in a position yesterday to relieve the tension that has been felt, not only in political circles, but in the country generally, for some days by telling the House what course the Government will pursue in consequence of the refusal of the Legislature of Manitoba to comply with the order of the Dominion Government to restore the separate schools that existed prior to the legislation of 1890. But Mr. Foster, who is master of the art of equivocation, succeeded in concealing the real intention of the Government. His excuse for not speaking with more definiteness was that the papers had only reached the Government that morning. But he said that in a very short time the Government would be able to intimate what course it proposes to pursue. Making a single reservation as to the question, he stated that all the legislation that the Government will propose this session is on the order paper and that the adjournment should take place early next week. This statement takes away the last ray of hope from the promoters of the Hudson Bay Railway. The Government had not the courage in the face of the strong opposition that manifested itself in its own ranks to propose that the House should ratify its order in council granting the railway company a loan of $2,500,000.

Mr. Foster's announcement was made in the course of a discussion upon a motion to take Wednesday's for Government business for the remainder of the session.

The proposition drew protests from several members, promoters of legislation, which will now have little opportunity of being discussed this year.

Mr. Casey called the Government's attention to a number of bills dealing with the safety of railway employes and passengers. Those which were standing in the names of other members were no doubt suggested, as had been those which he himself was promoting by organizations of railway employes and this class of legislation ought, he thought, to receive an opportunity for consideration by the House. Dr. Sproule made similar remarks with reference to a bill standing in his name, dealing with the adulteration of honey in a manner urged for years upon the Government by honey producers.

Mr. McCarthy asked the Government to combine his bill to amend the Elections Act with one which the Secretary of State was promoting, dealing with the same act. His bill, he said, was not controversial in its character. It was simply to make the law clear with reference to railways carrying voters to the polls and with reference to personation. As to the motion of the leader of the House, Mr. McCarthy said he thought that the House should know at this stage whether to expect any legislation with reference to the Hudson Bay Railway, and also whether to expect remedial legislation.

Mr. Bryson intervened for a moment between this interesting query and the response to it. He had a bill for which he asked the Government's special attention.

Mr. Foster, in the course of his reply, said: "There are some bills which have been spoken of by honorable gentlemen since this motion was made. The Government will look at these and see whether there are any which it will be possible for them to take up this session. With reference to some that may be possible, with reference to others it may not be possible to have legislation this year. Some of these, however, may embody principles of so much importance that the Government may take them up with the view of thoroughly looking into them and seeing what legislation may be advisable another session, when we come back again to Parliament. So far as the business of the House is concerned, I think it is all upon the order paper. If anything else is to go upon the order paper it will be something not very important, but which may come up by way of incident and with reference to which it may be found necessary to have some legislation incidentally. This I say in order to show the House what is about the state of business so far as the business of the Government is concerned. I make one reservation, and that is with reference to remedial legislation. We have been blamed for coming so near the end of the session and having no legislation or announcement with reference to that. It was scarcely possible that we could have reached it. The papers from the Manitoba Legislature and Government came into our hands only this morning. They will be taken up and the Government will be able I hope in a very short time to intimate to the House what course it proposes with reference to that subject. With that single limitation what I have stated holds good. We are through fully two-thirds of the main estimates, and the most contentious portions have been voted, judging by the discussions which have arisen in former years. I have no doubt, looking at the state of the bills, many of which will not cause lengthy discussion, that it is quite possible for the House to get through with the business on the order paper and be ready for adjournment, I should think, early next week. All this subject to the proviso I mentioned a minute ago.

Mr. Martin: Do I understand that the statement means that there is to be no legislation connected with the Hudson Bay Railway Company or the company known under that name in reference to the order-in-council that was passed?

Mr. Foster: I made my declaration as inclusive as it is possible to do, and I think it is sufficient to satisfy my hon friend.

Amid great Liberal applause Sir Adolphe Caron laid on the table of the House the report of the Postoffice Inspector, upon which Postmaster Loiselle of Ste. Angele de Monnoir was dismissed and which the Postmaster-General persistantly refused to bring down, despite the order of the House, until he was rapped over the knuckles by Mr. Foster. Sir Adolphe presented the report and then made a speech to show that it should not be presented. As the Postmaster-General simply desired to let himself down easy the House gave him a charitable hearing.

A debate upon the Franchise Act was brought on by a motion moved by the Secretary of State on the second reading of his bill to postpone for 1895 the annual revision of the voters' list called for by the Franchise Act.

Mr. Laurier suggested to the Secretary of State that, as he was new in his office, there was a chance to distinguish himself and at the same time to do his country and his party a service by abolishing the act. He reminded the Secretary of State and the House of the bill introduced last session by Sir John Thompson proposing to adopt the provincial franchise, with the provision that in provinces where public officials were disfranchised their names should be added for the Dominion lists. The Secretary of State would do much better, therefore, if instead of proceeding with the present bill he would take up again the late Premier's bill.

Dr. Montague replied that the advance which had then been made to the Provincial Governments for the harmonising of Dominion and Provincial franchises had not been received in a conciliatory spirit, and he declined to renew it.

Mr. Mulock moved in amendment that it is desirable that the Government introduce a bill providing for the repeal of the Franchise Act. The House divided on the question with the result that the amendment was defeated by a vote of 82 to 39, the Government majority being 43. The House went into committee and reported the bill.

The extraordinary spectacle of a Cabinet Minister appearing before the Public Accounts Committee, and demanding an opportunity to vindicate himself, was presented by Hon. John Costigan to-day. Hitherto members of the Government, against whom accusations have been made, have evaded investigation rather than courted it, notably when the Section B charges were preferred against Mr. Haggart, and when Sir Adolphe Caron was charged with milking railway subsidies. Correspondence has been sent out of Ottawa reflecting on the course of the Minister of Marine and Fisheries in connection with the subsidizing of the Tobique Valley Railway, a short line which runs through his county and gives an outlet to the plaster deposits of the Tobique Valley. The accusation is that while Mr. Costigan advocated the subsidy in the House and out of it, he was personally interested in the plaster deposits, the value of which the road was designed to enhance. Parliament voted $134,000 by way of subsidy to the road and with this and the proceeds of the bonds that were issued it was completed. But though it was declared to be a railway for the general advantage of Canada, the company has allowed two years to pass without putting it in operation. A few trains have been run by the Canadian Pacific Railway, but no regular service has been given. It is asserted that in 1890, before the subsidy was granted, a plaster deposit known as the Arbuckle rock was transferred to Mr. Costigan, rock was transferred to Mr. Costigan, and that subsequently a company was organized to work the deposit to which Mr. Costigan transferred a lease of other property, and in which he held a large number of shares. Mr. Costigan demanded an investigation, and it was agreed to commence the enquiry on Thursday.

NEW SOUTH WALES SENATE

Proposal to Amend That Colony's Upper House to Avoid Legislative Deadlocks.

Sydney, July 3.—During the course of a speech delivered at a large free trade meeting yesterday, Prime Minister Reid said that he would not object to a Legislative Council, the members of which were named for life, if it only regarded the will of the country. A House consisting of Crown nominees was an absurd anomaly in a democratic constitution, but he would not trouble to interfere even with it so long as it respected the electors. The Legislative Council had, however, set its foot against the will of the people, and the time had come to deal with it once and for all. The people had not got either yet, and something must give way. The something would not be the electors. (Loud cheers.) Mr. Reid asked the people to empower the Government to reform the constitution. He proposed, he said, to introduce a bill that would provide when a measure passed the Assembly and had been rejected by the Council at two consecutive sessions, it should be submitted to a referendum of the electors during a recess, at the end of the second session.

He hoped thus to terminate the deadlocks of the House. Failing of other solutions, the Government would be asked to grant a workable constitution to the colony, including an elective Council, the members of which would be elected under a superior franchise. It was not intended that this Council should be superior to the Assembly, but it should be merely a revising chamber.

The Legislative Council has rejected the Electoral Reform bill by a vote of 25 to 14.

Victoria Reducing Its Tariff.

Melbourne, July 3.—The Assembly has by a vote of 62 to 22, passed the first item of the Tariff bill, thus affirming the principle of a reduction of the customs.

BLEW HIS OWN HEAD OFF.

Deliberate Suicide of a Stratford Gunsmith While Insane From Financial Troubles.

Stratford, Ont., July 3.—Edmund H. Seeley, gunsmith, who keeps a store in Downie-street, this city, committed suicide last evening in a most deliberate manner.

He was discovered making evident preparations to do away with himself, and Dr. D. M. Fraser, who lives a few doors away, was called immediately. Seeley was in the back shed, leaning over a barrel, with his forehead pressing the muzzle of a double-bareled gun and his left foot connected with the trigger by a cord.

The doctor entreated him to desist for the sake of the family, but Seeley threatened to "touch it off" in his presence if he came near, and after more argument the doctor left, thinking his counsel would prevail.

He had hardly turned his back when Seeley pulled the trigger, blowing the top of his head completely off, leaving nothing above the nose.

Seeley had been in financial difficulties lately, and this, with the fact that an intimate friend had within a few days poisoned himself, is supposed to have so preyed on his mind as to cause insanity.

An inquest was not considered necessary.

Costly Blaze in Paris.

Paris, July 2.—The loss by the burning of Godillot's military outfitting establishment and other buildings yesterday is estimated at between 7,000,000 and 8,000,000 francs.

NIAGARA FALLS IN SERVICE.

Vast Electrical Power Turns Wheels of Machinery One Mile Distant.

Niagara Falls, July 3.—The first electric power transmitted for commercial purposes from the plant of the Niagara Power Company at Niagara Falls found its way from the great power house through the electrical subway for a distance of about a mile yesterday morning, and put in motion the machinery of the Pittsburg Reduction Company. Four thousand horse-power of electricity was delivered, and engaged in the manufacture of aluminum.

It is stated upon good authority that the No. 2 generator will be supplying 5000 horse-power within thirty days, and that additional wheels will be put in operation with great rapidity, now that the success of the work has been assured.

STOLE BAGGAGE CHECKS.

Advance Agent Collins, Wanted in Dundas, Caught in Montreal.

Montreal, July 2.—Jas. C. Connors, advance agent for an Uncle Tom's Cabin show, and hailing from Deseronto, was arrested at Coaticooke last night by Grand Trunk Chief Detectives Day of Hamilton and Holman of Montreal. Warrants had been issued for Connors' arrest on the 1st of Dec., 1894, at Hamilton, on a charge of stealing baggage checks at Dundas, Ont. He was arrested, but had escaped on his way to the jail and been at large ever since. The warrant was endorsed by the magistrate here. Connors denied his identity at first, but admitted at Sherbrooke that it was he. He was traveling under the name of A. G. Champlain. He will be taken to Hamilton.

BANK CREDITORS SHUT OUT.

The Newfoundland Government Kills All Prospects of a Dividend.

St. John's, Nfld., July 3.—The Government bill relative to the winding up of the banks, provides that notes, drafts, etc., held on the day the banks collapsed, can be set off against overdrawn accounts. The result is to destroy all prospects of dividends to the creditors. Several defaulting bank directors are resuming business, nominally in the persons of relatives or employes. General indignation is felt over this conduct, especially as the bankruptcy proceedings against them have not yet been completed.

It is reported that Governor O'Brien refused to assent to the Retrenchment bill for the reduction made for the salaries of the judges.

Important Battle Expected.

New York, July 3.—A despatch to The Herald from Santiago de Cuba says: General Navarro has left Songo for the purpose of attacking Gen. Maceo in the mountains of Jarajueco, and an important engagement is expected soon. The reported appearance of cholera here is officially denied.

Football Championship for 1895.

The knowing ones are speculating on the football possibilities of the season. Ottawa is not likely to retain the honours of the championship, as Queen's will put in a team sure to smash all records. It is often the case that very slight causes will lose a victory. It is stated that a painful corn made useless one of the best American players. It follows that no team can hope to win this year that neglects to supply its members with Putnam's Painless Corn Extractor, the only safe, sure, and painless remedy for corns.

Dr Fowler's Extract of Wild Strawberry cures diarrhœa, dysentery, colic, cramps, cholera, cholera infantum, cholera morbus and all summer complaints and fluxes of the bowels in children or adults.

GEORGE STREET METHODIST CHURCH.

Special Services in the Interests of the Women's Auxiliary—The Sunday Schools Share in the Occasion—Special Sermons.

The services in George street church on Sunday last were in the interest of the Women's Foreign Missionary Society. A branch of this society has been connected with this church for several years, and has done excellent work, and amidst honour and dishonour, evil report and good report has pursued the even tenor of its way. Many of the leading ladies of the congregation are deeply interested in this cause, and in some instances have intelligently and eloquently stood forth to advocate its claims in public. This is a work that should command the admiration and respect of all. To endeavour to rescue perishing humanity from the hand of the destroyer, and to save from death eternal is certainly the most amiable and God-like trait that can adorn the human character. This is a work beyond the reward of an earthly recompense, but a heavenly remuneration will be the sublime guerdon.

In the pursuance of this object the ladies have shown considerable executive ability, have taken an independent course, and have been uniformly successful in their operations.

They have sent missionaries of their own sex to the Land of the Rising Sun, to China, and to the Pacific Coast, and whilst in the first instance some doubted the permanency of the organization, it is but just to state that it has continued to grow in power and in commanding influence.

The services at 11 a.m. was conducted by Rev. J. J. Rae of the Charlotte street church, who appeared to be in excellent condition both of body and soul, and whose exposition of St. John's Gospel, xx, 15, was much admired. At 2.30 the quarterly review of the Sunday School was largely attended. It is estimated that 700 including visitors were present. In many respects the George street Sunday school may be regarded as a model. The order is excellent and in this point of view is in striking contrast with alas too many throughout our Dominion. The pandemonium that prevails in many of those institutions has become proverbial, and is enough to drive to distraction the most placid mind, whilst those who have nerves flee from it in dismay. Such is not the case in George street. The Superintendent, Mr. Armstrong, has the genius of order, whilst the teachers are of a class to command the respect of the juveniles.

In the evening, at 7 p.m., a large congregation greeted the popular pastor, Rev. W. R. Young, who founded his sermon on Philipians 4-8, and with his usual clearness and fulness of thought and felicity of expression, held the attention of his audience for nearly one hour.

In fact both the reverend gentlemen much exceeded the orthodox thirty minutes which it would appear is the limit of human endurance during the "dog days," but such was the brightness, attraction and spiritual power of both services that none complained and none were wearied, whilst on the other hand the Sabbath of June 30th will long remain as a green spot in the memory of very many who were present.—Com.

WIDEAWAKE WARSAW.

From Our Own Correspondent.

True Blues—On Sunday afternoon last the members of Schomburg Lodge No. 41, True Blues, Warsaw, turned out in procession and marched to the Baptist church, where a stirring sermon was delivered to them by Rev. Mr. Weaver. The reverend gentleman referred in appropriate terms to the special occasion, and gave the brethren some very suitable advice both in relation to their spiritual and temporal condition.

At the conclusion of the sermon the procession was reformed, and the brethren marched to their lodge rooms. Mr. Taylor Crowe is the efficient Master of Schomburg No. 41, and the membership is made up of about fifty fine looking young men. Mr. Joseph Doughty acted as Director of Ceremonies and discharged his duties satisfactorily. The lodge will celebrate the 12th of July by an excursion to Chemong Park. The party will drive to Lakefield, where they will take the Mary Ellen for the round trip of the lakes.

FLOWER SUNDAY IN ST. ANDREW'S.

Interesting and Beautiful Services.

The services in St. Andrew's Sunday evening were of a very interesting nature. The Sunday school scholars assembled in their rooms in large numbers about fifteen minutes before time for service. Each child brought a large bouquet of flowers. The hour for service having arrived, the teachers and scholars marched into church by classes, depositing their flowers on two large tables in front of the pulpit, then taking their seats in the centre pews filling these. The church was completely filled by a large congregation. The scholars looked happy and bright. The whole service was most appropriate to the occasion. The hymns selected were for the children. The sermon, too was for them. The text was Daniel 6:16, "Daniel in the den of lions."

First, Daniel was in great danger. He was cast into a den of lions. Here Mr. Williams impressed upon the boys and girls that they too were in great danger—that they were in the midst of great fierce, devouring lions—Satan, the saloon, gambling, tobacco, bad company. These were lions more fierce and destructive than those among which Daniel was cast. These may destroy the soul as well as the body.

Second,—Daniel was delivered. He was delivered by God because he was good, etc. God sent the angel to shut the lions' mouths, so the same God will deliver the boys and girls yet, if like Daniel, they are good and serve Him.

Third,—Daniel's enemies weredestroyed. They were cast into the den of lions and destroyed. So God will yet punish those who harm his children.

Fourth,—Daniel's God was glorified. The king made a decree that all in his kingdom was to fear Him.

This sermon which was about 25 minutes in length, was delivered in a racy style. It was clothed in simple language, the scene was vividly pictured and was much appreciated by both young and old. Many were the expressions of delight. After the sermon, during the offering, Mr. Mulligan sang with splendid effect, "Daniel's Band," the choir joining in the chorus.

The many handsome flowers were yesterday distributed among the sick, the aged, the Protestant Home, Nicholls Hospital, etc.

YOUNG'S POINT.

(From Our Own Correspondent.)

Miss Nora Young, who has been teaching at Mount Pleasant, Mich., has returned home for a few weeks visit.

Mrs. Fortier, Lakefield, spent a few days last week visiting her sister here.

Miss Mary Pope, Peterborough, is visiting friends here.

Mrs. T. McMahon, of Rochester, spent a few days with friends last week.

Miss L. O'Connor, of Rochester, is the guest of Miss Maggie Young.

Misses J. and Mattie Phelan, Lakefield, also Master R. Phelan, of Peterborough, are visiting friends here.

Mr. P. P. Young is building a large addition to his house.

A number of ladies and gentlemen a few evenings ago visited one of the "cookeries" belonging to the Rathbun Co. whose logs have now passed through here. Tea was served in an excellent manner by the affable and obliging cook, Mr. John Kelly, and the party all came away with the opinion that for fine and tasty cooking Mr. Kelly takes the lead.

The excellent bass fishing still attracts foreign sportsmen to our lakes, and our local hotels are being filled with guests. Amongst those we noticed last week Mr. Adams, of Chicago; Col. Eddy and Dr. Barnell and party of Rochester.

Messrs. R. Fife, R. Hall and party, of Peterborough, who spent Tuesday at the Lakeview, returned home in the evening with a large catch of fish.

Mr. F. Logan, clerk in H. LeBrun's store, Peterborough, spent a couple of days here fishing and had a great stroke of luck. He caught ten fine bass in about twenty-five minutes, before breakfast. This speaks well for Young's Point fishing grounds as Mr. Logan is far from being a professional fisherman. What he is in his own line we leave his customers to judge.

Mr. B. Guy, who has been rusticating at the Lakeview last week, had quite a narrow escape from drowning. He was out sailing and in the act of jumping from his boat to catch a cookery which the steamer Mary Ellen was towing, Bert missed his footing and went down "with McGuinty." The current being so strong that only he being an expert swimmer he could not have reached the shore. All Bert regretted was his fine large catch of fish went down out of sight, but with some assistance he managed to secure his boat all right.

The Roman Catholic church here being painted and decorated inside is of a beautiful appearance, the painting being done by Mr. John Simons, Peterborough. He has done his part in a very creditable manner.

Mr. A. McDonald's drive is now running over here.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

Great Faith in It.

DEAR SIRS,—I have used Dr. Fowler's Extract of Wild Strawberry when required, and think it is the best remedy to be had for all kinds of Summer Complaints. It has never failed in our family to cure any summer complaint, so we have great faith in it. MRS. FRANK STEPHENS, Chatham, Ont.

Burdock Pills do not gripe or sicken. They cure constipation and sick headache.

Tired but Sleepless

Is a condition which gradually wears away the strength. Let the blood be purified and enriched by Hood's Sarsaparilla and this condition will cease.

"For two or three years I was subject to poor spells. I always felt tired, could not sleep at night and the little I could eat did not do me any good. I read about Hood's Sarsaparilla and decided to try it. Before I had finished two bottles I began to feel better and in a short time I felt all right and had gained 21 pounds in weight. I am stronger and healthier than I have ever been in my life." JOHN W. COUGHLIN, Wallaceburg, Ontario.

Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye today. Be sure to get Hood's and only Hood's. Do not be induced to buy and other.

Hood's Pills cure all liver ills, biliousness, headache. 25c.

Unvarying Popularity.

With each recuring heated term the verdict is the same. Straw Hats have the palm for popularity. Why perspire, when you can get a first-class Straw for 75c and a good one for 50c, at Fairweather's. But there are many who prefer the neat, soft drab and pearl Hats with wide, slouch brims. They are the favourite wear with tourists and for all outdoor sports and functions. They will be much in evidence on Dominion Day. They not only look cool but are of lightweight Felt and very comfortable for hot weather. Fairweather's prices for these standard Soft Felts of newest shades are $2.00 $2.50 and $3.00. Only, at Fairweathers. Can these goods be had at these prices.

IS NEARING THE END.

Imperial House Will Probably Dissolve on Monday.

THE NECESSARY SUPPLIES VOTED.

One or Two Bills Must Pass Before Prorogation—Salisbury's Cabinet of Nineteen Members Complete—Lord Rosebery on the Liberal Unionists and Causes of Defeat.

London, July 2.—In the House of Commons yesterday, Right Hon. Arthur James Balfour, the newly-appointed First Lord of the Treasury, stated that he had hoped Parliament would be prorogued on Saturday, and would formally dissolve on Monday, but the Colonial Boundaries bill and the Extradition bill must be passed before the dissolution could take place. He hoped that the Naval Works bill also would be passed.

Mr. James H. Dasle, Liberal, asked how many of the members of the present Ministry were in receipt of pensions. Mr. Robert Hanbury, Financial Secretary for the Treasury, replied that Lord Ashbourne, Viscount Cross, Lord George Hamilton and Sir Michael Hicks-Beach were in receipt of pensions, but their pensions had been suspended during the time that they would be in office.

Mr. A. J. Balfour announced that the first business of the Government would be to vote such supplies as would enable the elections to take place without inconvenience to the public service.

The House agreed to vote an appropriation on account of the maintenance of civil service, and the navy.

The army estimates were then taken up, when Mr. Dalziel asked if it was the intention of the Government to provide a sufficient supply of ammunition.

Mr. Balfour said that some increase in the estimates would be asked.

Sir Charles Dilke said there had been a great deal of needless concealment in regard to the supply of small arms and ammunition. There had never been a sufficient supply of the stores, and there was not before. The foreign Governments know this perfectly, and were taking advantage of it.

Mr. H. Campbell-Bannerman, late Secretary of State for War, denied that the supply of small arms and ammunition was deficient. He was greatly grieved, he said, at the recent adverse vote, after he had given definite assurances upon that subject, based upon the opinion of the country's principal military adviser. He claimed that the action of the House was unconstitutional.

Mr. Balfour said it was a dangerous doctrine that the gentleman who was responsible to the House was not the Minister of War, but merely one of the officials of the War Office. The army estimates were approved.

The following additional Ministerial appointments have been announced:

Right Hon. A. Akers-Douglas, First Commissioner of Works, and Walter H. Long, President of the Board of Agriculture, both with seats in the Cabinet.

The Duke of Norfolk, Postmaster-General.

Gerald William Balfour, Chief Secretary for Ireland.

Sir John E. Gorst, Vice-President of the Council.

Sir William H. Walrond, Patronage Secretary to the Treasury.

W. E. G. Macartney, Secretary to the Admiralty.

Joseph Austin Chamberlain, Civil Lord of the Admiralty.

Jesse Collings, Under Secretary for the Home Department.

T. W. Russell, Parliamentary Secretary for the Local Government Board.

Joseph Powell Williams, Financial Secretary of War Office.

The Cabinet now has nineteen members, the largest number it ever contained.

Messrs. Collings, Russell and Williams are Liberal-Unionists, and their appointment is regarded as evidence of the influence of Mr. Chamberlain in the Government.

The new Cabinet held its first meeting at noon to-day. Lord Salisbury presided, and all of the members were present.

Lord Rosebery, in a speech made in this city, said that he did not intend to issue either a manifesto or a program. He was rather in the position of those heroic soldiers who politely requested the enemy to fire first. He reminded the new Government of Lord Beaconsfield's assertion that England does not love coalitions. Henceforth, he said, the dissident Liberals would be found shoulder to shoulder with the Tories, marching to a very dubious victory under a banner without motto or device. The bitterness of the separation from these people was long past. He rejoiced at the bottom of his heart that they were now sailing under their true colors. The Liberals henceforth would meet them face to face, and would no longer be tormented by a guerilla warfare on the flanks. There were only two parties—Conservatives and Liberals.

Lord Rosebery proceeded to discuss the lessons to be learned from the defeat of the late Government. In 1892, he said, the Liberals landed in the House with a multifarious program and a majority that was inadequate to carry that program through. He counselled the Liberals not to repeat their mistake. They must in the new Parliament adapt their policy to their majority. If they had only a small majority it would be futile and hopeless to attempt any such great constitutional changes as those involved in the Home Rule, Church Disestablishment, Local Veto and One Man One Vote measures.

Lord Rosebery's reference to the "guerilla warfare" of the Unionists elicited much applause.

Referring to the House of Lords, Lord Rosebery said: "There is one question that embraces all other which were before the late Government, namely, the domination of the House of Lords, the existence of their power relegates the Liberals to permanent impotence in the councils of the nation. On this question I am pledged to fight the coming election."

The National Conservative Union has issued an appeal asking the British voters to support the Conservative party, which, the circular declares, will maintain the good reputation of Great Britain throughout the world, insist upon the integrity of the United Kingdom, and ever to promote trade.

Sir Henry James, who has just been elevated to the peerage, will take the title of Baron Ayleston of Hereford.

The Pall Mall Gazette says that the report of the appointment of Mr. Gerald W. Balfour to the office of Chief Secretary for Ireland is officially confirmed.

Comments on Chamberlain's Ministry.

London, July 3.—The Daily News, under the caption, "Mr. Chamberlain's Ministry," contends that Mr. Chamberlain will mould the policy of the Ministry or break it to pieces. The News discusses the new appointments with a mild sarcasm.

The Duke of Norfolk's Administration, it says, will be watched with more curiosity than faith. Whether Mr. Gerald Balfour, as Chief Secretary for Ireland, will have his brother's easy success will depend altogether upon whether Ireland is convinced that her hopes of autonomy are not for free realization, whatever may be the political nature of the Government.

The Standard says that Mr. Gerald Balfour's appointment as Chief Secretary for Ireland is very favorably regarded by the Irish Conservatives, but that the Irish Nationalists are highly displeased, and will denounce the appointment strongly during the electoral campaign.

The Chronicle says: The Government have given a very heavy mortgage to fortune in appointing Mr. Gerald Balfour to the Chief Secretaryship of Ireland. We cannot imagine any member of the House of Commons less likely to bring to the Irish offices the qualities of statesmanship that the position demands. The Chronicle will ridicule and condemn some of the other appointments and will conclude as follows: "Orangers, then—right Radicalism, old Toryism, Whiggery and Democracy mingled in a featureless combination—what will come of it?"

Parnellites to Contest Everything.

Dublin, July 3.—A mass meeting of the Parnellite faction of the Irish National party was held here to-day, at which it was agreed to contest all of the likely seats in 24 out of the 30 counties, and all the boroughs except Londonderry and Belfast.

QUEBEC WANTS FOUR MILLIONS.

The Interprovincial Accounts Arbitration in Session at Toronto

Totonto, Ont., July 3.—The inter-provincial accounts arbitration sat all day at the Parliament buildings yesterday. The three arbitrators were Chancellor Boyd, Chief Justice Sir Napoleon Casault of Quebec and Mr. Justice Burbidge. W. D. Hogg, Q.C., and Dominion Accountant Dickenson represented the Dominion. Aemilius Irving, Q.C., J. M. Clark and Hon. A. M. Ross, Ex-Provincial Treasurer, represented Ontario, and Mr. D. Girouard, Q.C., Hon. J. S. Hall, Provincial Treasurer; Mr. Mason, Assistant Treasurer, and Mr. Heyd, Provincial Accountant, appeared on behalf of Quebec. After some preliminaries Mr. D. Girouard presented the case of Quebec, taking up the whole day's session. By a previous decision of the Privy Council in 1878 on the appeal of Quebec it was decided that $1,733,000 of the common school fund should be apportioned. Ontario demands that the order be treated as final; Quebec claims $6,666,000, which if allowed would mean that Ontario would have to pay some $4,000,000 into the coffers of Quebec for sums realised by the sale of lands in Ontario. The whole matter relates to the disposition of public lands at the time of the partition of Upper and Lower Canada, which since 1841 had been one province by the Act of Confederation in 1867.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years..... $1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of..... $3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

St. Luke's Sunday School Picnic

To Jubilee Park takes place on Friday, 5th July, per City of Peterborough, leaving Peterborough wearf at 8.30 a. m: Tickets, 50 cents; children 25 cents. Children of Sunday school free. 3d

St. Andrew's Picnic.

St. Andrew's Sunday School ran their annual excursion to, and held their annual picnic at, Jubilee Point to-day. The steamer City of Peterborough took down about four hundred excursionists.

Back to the Lakes.

Madoc is running an excursion through town on Thursday to the Lakes and Lakefield, but the excursion train will not run up into Peterborough. It will, instead, stop at the Ashburnham station, where passengers may take in this pleasant trip for 75 cents. 1d

The Steamer Daisy.

The steamer Daisy will leave the Peterborough wharf to-morrow, at 8 o'clock, with passengers for Jubilee, Harwood, etc., returning in the evening. This is to provide for passengers who may not be able to secure room on the City of Peterborough, which runs an excursion to-morrow.

Peterborough Protestant Home.

The committee of management of the Peterborough Protestant Home gratefully acknowledge the following donations for the month of June: Mrs. McGill, Toronto daily papers; Mrs. Sherlock, Chicago papers; St. Paul's Y.P.S.C.E., papers; St. Andrew's flower mission, flowers.

Commendatory.

The Globe, in its report of the visit of the 57th to Picton, says:—"The 57th attended Divine service, where a sermon was delivered by Rev. Mr. Loucks (father of the former curate of St. John's Mission). Their steady marching and and imposing appearance was greatly admired." Two other regiments were in Picton on Dominion Day, but they earned no special mention in the report.

A Parasol Purloined.

On Dominion Day a woman peddling goods called at a lady's house on Aylmer street and being left alone in the hall while a drink of water was being brought, managed to substitute a worn, patched shabby parasol for an elegant new one that stood in the corner of the hall. The substitution was not noticed till long after giving the dextrous lady time to escape. It is hard to tell whom to trust these days.

English Briar Pipe.

Mr. Chas. LeGros, the live tobacconist of 339 George street, has secured the sole agency in Peterborough for the sale of the celebrated "B.B.B." brand of briar pipes. His first shipment has just come to hand per steamer from London, Eng., and already a brisk demand has commenced for them. Smokers who have once used a "B.B.B." pipe know the peculiar comfort of smoking out of them, and always prefer this brand. There is something in the wood and in the smoke which gives them a preference. See Mr. LeGros' advertisement in another column, and if you want to enjoy a good pipe you have now a chance to own one.

PERSONAL.

Miss Edith Battisby, of Peterborough, is visiting friends in Port Hope.

Mrs. Wm. Irwin leaves for a trip to the Georgian Bay region in the morning.

Mr. Archie Morrow is home from Trinity College School, Port Hope, for his holidays.

Miss Kentland, Miss N. Moscrip and Miss Henston spent Dominion Day in Picton.

Miss M. Haggerty, of West Bay City, Mich., is visiting her sister, Miss Daly, Weller street.

Miss B. Morgan, Toronto, is spending her holidays with her mother, Mrs. R. Morgan, Ashburnham.

Mr. McGill went to Toronto yesterday to assume the duties of General-Manager of the Ontario Bank.

Mr. and Mrs. A. Ocean, of West Bay City, Mich., are visiting Peterborough, the guests of Miss Daly, Weller street.

Mr. Wm. J. Rombough, of Toronto, formerly of Ashburnham, spent the 1st of July in town, renewing old associations.

Mr. Joseph Craig, Mr. Joseph Craig, jr., Miss Maggie Craig and Master Roy Craig, of Oshawa, spent yesterday with friends in Ashburnham.

Mr. Tilley of Toronto, formerly connected with St. Andrew's choir here, spent Dominion Day at the residence of Mr. John McClelland.

In the published list of Central School promotions the name of Archie Irwin appears instead of Annie Irwin, in the promotions from Jr. II. to Sr. II.

Mr. Ralph Ross, of the Collegiate Institute, Brockville, Mrs. Ross and Master Eustace, are in town for the holidays, the guests of Mr. W. H. Wrighton.

Mr. A. Osier and wife, of Bay City, Mich., and Mrs. Haggerty, of the same place, are visiting in town, the guests of Mrs. Hurley, 201 King street.

Mr. and Mrs. C. H. Owens and the Misses Owens, of Campbellford, were in town Monday enjoying the local celebrations. They were the guests of Mr. R. B. McKee.

Amongst the distinguished Torontonians who came down with the Sons of England excursion Monday were: Hon. John Beverley Robinson and Mr. W. A. Sherwood, the well known artist.

Chief Engineer Hannaford and a portion of his family came to town this morning in a private car attached to the noon express from Toronto. They were met at the station by Mr. and Mrs. R. M. Roy and family, whose guests they will be.

Mr. Drummond, the manager of the Picton branch of the Bank of Montreal, was most obliging when the Battalion was in that town. The bank was kept open to oblige the officers who wished to discharge the pecuniary obligations of the Battalion before leaving town. Personally, too, Mr. Drummond was most courteous to the officers, giving them the freedom of his residence while in Picton.

Miss M. Baker, who for the past three years has filled the position of bookkeeper in the law office of Messrs. Stratton & Hall, left to-day for her home in Lindsay, where she will visit her parents for a few days, before leaving on a year's visit with friends in St. Paul, Minnesota, and Lisbon, North Dakota, after which she will reside permanently in Grand Forks, North Dakota. During her residence in town Miss Baker has made many friends who will wish her success in her new home.

The Lindsay Watchman has the following to say of Mr. H. Hart, who is well known in town, and who has relatives in Ashburnham: We are pleased to learn that Mr. H. Hart, dentist, has passed his final examination well up in the list, and is now entitled to D.D.S. after his name. Mr. Hart has been singularly successful in the practice of his profession since opening in Lindsay, and already ranks as one of the leading dentists of the province. The additional laurels just won by hard study, in addition to attending to a large and increasing practice, proves him to be possessed of more than average ability, and the many readers of the Watchman will join with us in extending congratulations.

THE CHOIRS' REHEARSAL.

An Attendance of Seventy Singers at the Y.M.C.A. Hall Last Night.

The first rehearsal of the town choirs for the big chorus which meets here in August took place last evening in the Y.M.C.A. Hall.

The attendance was large, fully seventy being present. Of course there are many more singers in town, but for the first rehearsal it could hardly be expected that all would attend, who intended joining the chorus.

Some of the choirs turned out en masse which was most encouraging but others again did not have a representative present.

A number of anthems were taken up and run over under the direction of Mr. G. W. Mulligan. Miss Kate Hurley presided at the piano.

The ladies were far in the majority at the rehearsal and it is hoped that there will be a larger attendance of gentlemen next Tuesday evening, when the choirs will again meet in the same place.

TRENT VALLEY CANAL.

The following is from the Mail and Empire's report of Tuesday's parliamentary proceedings:

On the item of $400,000 for the Trent canal, Mr. Haggart said that the total estimated cost was in the neighbourhood of six million dollars, but the adoption of a new design, viz., utilizing the natural water stretches, using hydraulic lifts, and concrete locks, would reduce the cost to four and a half million dollars. This would be spread over a number of years.

Mr. McMullen protested against the expenditure of money in connection with a work of this kind. He would never consent to a policy of insane expenditure, declaring his bitter opposition to it.

Mr. Hughes defended the utility of the canal, which would be a great benefit to the farmers and predicted that within five years Mr. McMullen would apologize for the statement he had made.

The item passed.

The Secret of Success.

It is not difficult to arrive at the Secret of the Success which has made the firm of Pete Simons & Co the leading ordered clothing establishment in town. They buy at rock bottom prices for spot cash. This is an advantage not possessed by many in the same business. Then Mr. Simons cuts and superintends the making of all garments entrusted to the firm's care—which is also an advantage that other tailors have not got. Again, they import the latest, newest and best material the market affords, which enables them to turn out the stylish clothing which has made this house famous. One trial is all they ask to make you a regular customer. Go and see them.

THE GRAY FAMILY EN ROUTE FOR CANADA.

DETECTIVE MURRAY'S CHARGES ON THE WAY.

The Officer Presented With a Baker's Dozen of Patent Nipples and Other Necessaries for his Trip.

The Attorney-General's Department has been advised by Detective Murray that he is on his way home from Florida with the Grays, charged with the murder of David Scollie at Peterborough. The prisoners will reach New York to-night, says the Globe, of Wednesday, and will probably arrive in Peterborough some time on Friday.

The Ocala, Florida, News, of June 28th, says:

Ocala has seldom, if ever, witnessed a more cordial greeting than took place on Wednesday last between Capt. John H. Welsh and Mr. J. W. Murray, chief of the detective force of the Province of Ontario, Canada, who is here with extradition papers for Gray and wife, both charged with murder.

At the breaking out of hostilities between the North and South, Capt. Welsh and Mr. Murray enlisted in the United States Navy and were assigned to the United States steamship Michigan, of whose crew they are, as far as known, the only survivors, but soon separated, the former joining the Mississippi squadron as ensign, the latter joining the North Atlantic blockading squadron as ordnance officer.

THEY DID NOT AGAIN MEET

until after the war.

On completion of the Canada Southern Railway system—United States and Canada—Mr. Murray was tendered the important position of detective officer, which he held until promoted to his present position twenty years ago, since which time he has traveled all over the American continent at various times, as well as through Mexico, the West Indies, Europe and South and Central America. The captain in the meantime made Florida his home, and as a result the meeting of Wednesday was the first in more than 20 years.

Mr. Murray will leave for Canada on Saturday, taking with him the six unfortunate Gray children, who will be cared for by the Canadian authorities. Mr. Murray is a genial gentleman, who it is a pleasure to meet, and has made many friends while among us.

Mr. Murray will carry from Ocala a

HUMOUROUS BUT PATHETIC

letter, of which the following is a copy:

Capt. J. A. Leslie, Superintendent of Clyde Line, Jacksonville, Fla.

My Dear Sir,—This will introduce my good old friend of yore, Mr. J. W. Murray, chief of the detective force of the Province of Ontario, who leaves Jacksonville Sunday morning for New York, via your line, and has in charge an individual named Gray and wife, charged with murder, also six offspring of that most worthy couple, four of whom could be comfortably stowed away in a hand basket.

It is needless to say my friend is not a wet nurse, and just how he is to manage is a conundrum. I have advised a baker's dozen of patent nipples, and a crate or so of milky fluid, but fearing that his knowledge of both is of the negative order, I ask you to solicit some good Samaritan on board—purser or chambermaid—in his behalf, or rather in that of the children; for all of which the subscriber, as in duty bound, will ever pray.

Though the writer's style is flippant, he is evidently concerned for the welfare of the unfortunate little children on the trip.

ANOTHER MONSTER FISH,

A Big 'Lunge Landed at Stony Lake on Dominion Day.

Mr. John Kincaid captured a magnificent 'lunge on Dominion Day in Stony Lake, near Big Salmon Island. He was trolling from his yacht when he felt that well-known and thrilling tug at the line which denotes a strike.

The yacht, though running along under a pretty fair head of steam, was brought to a sudden halt by the fish, but Mr. Kincaid did not have an opportunity of thinking he had caught a snag, as the little steamer was actually diverted from her course by the rushes of the big fish on the end of the line.

It took Mr. Kincaid some time to land the monster, as he was in a good place where ther were no weeds and so he could play the fish in the way so pleasing to an angler.

When measured the fish was found to be forty-seven inches long and twenty-two pounds in weight. It is on exhibition in the window of J. B. Oke's fish and fruit store, where it has been admired by hundreds.

ONE OF NATURE'S REMARKABLE PHENOMENA.

The Waters of Stony Lake Suddenly Rise into an Immense Wave.

A very odd and interesting occurrence in the way of one of nature's phenomena was witnessed just opposite Breeze's Point at Stony Lake, on Wednesday last.

Mrs. Breese while in her cottage suddenly heard a noise resembling that made by a steamer blowing off steam, and at first paid no attention to it. The long continuance of the sound, however, led her to go down to the beach to see what was the matter.

Her astonishment may be imagined when she saw the water lying between the Point and Hoover's Island become violently agitated and suddenly rise in an immense wave to a height of seven or eight feet.

When the water had somewhat subsided, Mrs. Breese and one of the men went out to the scene of the occurrence and found the water boiling and bursting in bubbles all around. They were under the impression that some parties had been dynamiting for fish, but such a disturbance could not have been caused by an explosion of the kind.

Principal Fessenden's theory regarding the matter is that the violent eruption was caused by the gas escaping suddenly from a pocket in the stone beneath the lake. The fissure in which the gas was confined must have been of considerable length and size in order to have caused the waters to have been so violently perturbed.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. A BIG BATCH OF COMMUNICATIONS.

THE COUNCIL DISCUSSED THEM LAST NIGHT.

The Street Watering Question Comes Up for Debate—The Contractors Will Have to Obey the Committee to Which the Council Sees Fit to Give Charge of This Department.

At a meeting of the Town Council last evening there were present the Mayor and Councillors Cahill, Sproule, Best, Denne, Phelan, Clinkscale, Stone and Mason.

COMMUNICATIONS

were received and dealt with as follows :—

From the police force, asking for the granting of their usual holidays.

Referred to the Committee on Supervision of Police.

From Z. Blodgett, applying for a new watering cart, as the present one is almost beyond repair.

Referred to the Street and Bridge Committee.

From John Crane, applying for the position of Town Treasurer.

Referred to the Committee on Appointments.

From Henry Denne, applying for the position of Town Treasurer.

Referred to the Committee on Appointments.

From S. R. Armstrong, applying for the position of Town Treasurer.

Referred to the Committee on Appointments.

From Thos. H. Hooper, Charles LeGros, Jno. W. Gemmell, Geo. Carton and D. O. LeGendre, asking that the sidewalk on the west side of George street, between the City Hotel and Charlotte street be raised to a level with the floor of the buildings.

Referred to the Street and Bridge Committee, with power to act.

From Mrs. Ellen Dwyer, asking for a remission of her taxes.

Referred to the Court of Revision.

From D. W. Dumble, police magistrate, as follows: Permit me to call your attention to the condition of the Police Court. You are aware that the cells are immediately beneath the court room, that all the grated cell doors open into a corridor, and that an open stairway leads direct from the corridor to the court room. 4 times the cells are full over night with drunken and filthy tramps, who have no idea of decency. In every cell there is a pail, and all the odours from these ascend by the open stairway and fill the court room. Frequently it would be more pleasant to sit in a closet than in that court room. For a long time I have been labouring to get a door put on at the foot of stairs to assist in mitigating the evil, but my efforts have not been successful. This is not an expensive matter to deal with, and I must ask that you will take steps to remove this nuisance and give me a chance for my life.

Referred to the Property Committee, with power to act.

In reference to the question of the cells, Mr. Stone stated that these apartments fairly swarmed with vermin and that it was quite enough punishment to confine a man in prison without torturing him.

Councillor Mason stated that the walls were covered with bedbugs, which he had seen himself. Others of the councilors also spoke on the matter and the committee was instructed to thoroughly renovate the place.

From John Kelly, asking that an error in his assessment be corrected.

Referred to the Court of Revision to report.

From Hatton & Wood, solicitors for Mrs. Thomas Dunn, stating that their client was prepared to take action against the corporation for damages sustained through the alleged dangerous condition of the sidewalk on George street, south of Charlotte. An amicable settlement of the difficulty was proposed.

Referred to the Street and Bridge Committee.

From the town clerk, reporting on the result of the recent money by-laws submitted to the people.

Received.

From J. G. Weir, being a bill of $7.50 for damages sustained to his buggy by reason of the wheels being caught in alleged defective planking of the Hunter street bridge.

Referred to the Street and Bridge Committee.

From David Knox, stating that the drain connecting his vinegar factory with the river had been completed, and asking for a grant of $50 towards defraying the expenses entailed.

Referred to the Street and Bridge Committee with instructions to examine and report to the council.

From W. A. Nurse, enclosing a bill of 75 cents for damages done his wagon by the hose wagon running into it.

Referred to the Fire, Water and Light Committee.

From a manufactory, wishing a location for its works.

Referred to the Manufacturers' Committee.

From Thos. Southworth, clerk of Forestry, Department of Crown Lands, calling the council's attention to the provisions of the Ontario Tree Planting Act.

Referred to the Committee on Streets and Bridges.

From Maria Louisa Rogers, asking for a refund in her peddler's license.

Granted on motion of Councillors Sproule and Clinkscale.

From the local branch of the W.C.T.U. requesting that effective action be taken by the town council with regard to the erection of a common poorhouse.

Referred to the Joint Committee.

From Frank Anthony, asking for a refund in his peddlers' license.

Granted on motion of Councillors Sproule and Clinkscale.

From John Hill, asking payment of a bill of $2.75, incurred through his buggy being damaged by the town watering cart.

QUITE A DISCUSSION

arose as to which committee this communication should be referred to. Mr. Best wanted to see the Fire, Water and Light Committee handle the matter, but Mr. Phelan didn't see why this should be. He said that the Street and Bridge Committee had assumed the duty of looking after the street watering early in the year. As yet the Fire, Water and Light Committee had never been consulted in regard to a single detail regarding the watering and they didn't propose shouldering the responsibility at this late stage in the game.

Mr. Stone agreed with Mr. Phelan that the Street and Bridge Committee had insisted on overseeing the street watering at the beginning of the year. Numerous complaints had come in regarding the work performed and the committee in question should superintend the work more effectively than it was doing.

The chairman of the Street and Bridge Committee, Mr. Best, explained that his committee had never "assumed" the duties stated. These duties had been handed over to them by resolution. It was impossible to control the street watering contractors, as they refused to take orders from any but the Fire, Water and Light Committee, as their contracts had been drawn by that committee. This was the position of affairs and his hands were practically tied.

Mr. Cahill stated that probably he was the innocent cause of all this trouble. As the Street and Bridge Committee was the only committee with a paid officer in its employ, he had moved, early in the year, that they look after the street watering as the inspector of streets and bridges could also superintend this work. He contended that his idea had been the correct solution of the street watering question. If the contractors refused to obey orders received from the Streets and Bridges Committee, the sooner they were

MADE TO UNDERSTAND

that they were to do as they were told, the better. The contract was not with a committee at all but with the corporation, and the men were certainly controlled by the committee the council directed to look after this department.

Mr. Phelan and Mr. Cahill moved that for the balance of the year the Streets and Bridges Committee control the street watering.—Carried.

The Mayor stated that while they were on the subject of the Street and Bridge Committee he had a word to say. This committee had not been called together for over three months. The work in this department was being carried on under the sole direction of the chairman, and it was not carried on in a satisfactory manner. The whole expenditure was being made out on the boundary lines, while George street and the central part of the town was being totally neglected. He was the Executive Officer of the town and a member of this committee. As such he didn't propose to see the corporation affairs conducted in such a manner.

Councillor Best pointed out that the statement that the Committee had not been called together for three months was totally incorrect. The regular monthly meeting had been held in May and the June meeting was called for Friday evening last, but there was not a quorum present. Meetings were seldom held oftener than this and there would have been no use in calling the members together when there

WAS NOTHING TO DISCUSS.

In regard to the statement that too much money was being spent on the outskirts of the town, he wished to state that in his opinion it was most important to have the principal roads leading into Peterborough from the country in a good condition. Last spring some of them were impassable and the farmers could not get into market. The central part of the town should not grumble about being neglected, as $5,000 was expended on George street alone last summer.

From T. Guerin, complaining that the Geo. Matthew's Co. had piled up wood in the street blocking the front view from his residence.

Referred to the Street and Bridge Committee.

From Charles Payne, asking remission of dog tax.

Referred to the Court of Revision.

THE COURT OF REVISION,

through its chairman, Councillor Stone, submitted a report recommending the payment of the $50 to Mr. J. W. Fitzgerald for overpaid taxes in 1893 and 1894.

The report was adopted on motion of Councillors Stone and Sproule.

Councillor Phelan for the

FIRE, WATER AND LIGHT COMMITTEE

reported the following recommendations :

1. That 50 feet of hose be purchased for the fire department, and that the committee be authorized to purchase it.

2. In regard to the petition for the watering of George street at the north end, the committee recommended that the petition be referred to the Street and Bridge Committee with power to act.

3. That no action be taken on the petition of the Central Bridge and Engineering Company, as the matter has been dealt with by the council.

The report was referred back to the committee to report on the prices of the hose, on motion of councillors Sproule and Best.

On motion of Councillor Sproule, the Street and Bridge Committee and the mover will spend an afternoon looking up a favourable site for the new bathing houses in the South End. The expenditure for the erection of the same has been fixed at $200.

THE BY-LAW

for the issuing of debentures for $6,500 for the erection of a four-room addition to the South Ward School was read a third time and passed.

Mr. Cahill stated that he understood Mr. Geo. A. Cox was willing to pay one third of the cost of a granolithic pavement, if such were laid in front of the property known as the new Bank of Commerce building. He thought this was a fair proportion for Mr. Cox to pay, as if any other kind of a sidewalk was laid the town would have to bear the entire cost. Still, before agreeing to this the Council had to take into account that a precedent would be set if such action would be decided upon. He advised the council to go as far as possible to meet Mr. Cox in his offer.

The Mayor did not agree with Mr. Cahill in thinking the offer was a liberal one. Mr. Cox should pay half of the cost of the new pavement if he wished it to be a granolithic one. This had been the rule heretofore and he saw no reason for departing from it.

Councillors Cahill and Sproule moved a resolution on the question as follows :—"That the Street and Bridge Committee be authorized to look into the matter of putting down more permanent sidewalks on the principal streets and that they have the sidewalk at the new Bank of Commerce property repaired or relaid.

THE PRESBYTERY OF PETERBOROUGH.

The Regular Quarterly Meeting—A Call to Springville and Bethany Sustained—Resume of Business Transacted.

The regular quarterly meeting of the Presbytery of Peterborough convened in St. Andrew's church on Tuesday, July 2nd. The Moderator, Rev. Mr. Laird, of Port Hope, presided. There was a large attendance, the following ministers being present: Rev. Messrs. Jas. Cleland, John Ewing, F. Andrews, Wm. Bennett, clerk, E. F. Torrance, D. A. Thompson, John Hay, R. Hyde, J. R. Gilchrist, C. S. Lord, W. Anderson, A. McWilliams, D. P. Oswald, J. K. Smith, Jas. Cattanach, A. McClelland, A. Laird, W. Johnston, A. C. Reeves, J. F. Somerville and J. W. Turner. The elders present were Messrs. W. E. Roxburgh, Norwood; T. Coffee, Grafton; A. J. Johnston, Peterborough; A. Russell, Cobourg; R. Tully, Peterborough; P. Brown, Port Hope; Alex. Smith, Warsaw, and J. H. Taylor, Keene.

The Rev. Orr. Bennet, of the Presbytery of Ottawa, and the Rev. Andrew Tully, late of Mitchell, being present, were invited to sit as corresponding members.

A call to Mr. S. Whaley, a licentiate of the church, from Springville and Bethany, was read and sustained and ordered to be forwarded to Mr. Whaley for his consideration. In the event of Mr. Whaley declining the call the congregation was authorized to moderate in another call as soon as prepared.

Rev. Mr. Reeves, of Lakefield, was appointed to visit the Clysdale and Apsley mission field, Mr. Bennett the Cardiff field, and Mr. Anderson the Harvey field, before next meeting of the Presbytery.

The delegates who had attended the meeting of the Assembly, gave in their reports in succession as to their faithfulness and diligence in the discharge of the duties imposed upon them as the representatives of the Presbytery to the Supreme Court of the church.

The Presbytery expressed great satisfaction with the several reports.

The next meeting of Presbytery was appointed to be held in the hall of the First church, Port Hope, on the third Tuesday of September, at 9 a. m.

The resignation of the Rev. Wm. Anderson, of Bobcaygeon and Dunsford, was accepted to take effect on the last Sabbath of July. Mr. Reeves was appointed Moderator of the Bobcaygeon session during the vacancy. The pulpit was ordered to be declared vacant on the 28th of July.

By request the name of Rev. Mr. Tully, formerly of Mitchell, was put on the roll of Presbytery as a minister without charge.

Mr. Torrance reported that the Home Mission Committee had declined to grant the $7.70 per Sabbath which had been asked for on behalf of the Harvey mission field. The Presbytery resolved to make another appeal to the committee to place this field on a level with that of Apsley and Clysdale.

The records of the sessions of St. Paul's Peterborough, St. Andrew's, Peterborough and Grafton were after examination ordered to be attended.

It was reported that the Rev. Wm. Anderson, of Bobcaygeon, had been permitted by the Assembly to retire from the active duties of the ministry and to have his name placed on the roll of Annuitants of the Aged and Infirm Ministers' Fund.

The Assembly granted the request of W. H. Murray, Esq., of the legal firm of Edwards & Murray to be recognized as a first year student in theology.—Com.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames. We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. For sale only by

Johnson's Mile in 1.59 1-2.

Detroit, July 1.—The surprise of yesterday's races at Grosse Point was Hattie C. in the first race. She opened at 100 to 1, but the odds went down to 50 to 1 at the close. She won easily. In the second race Foam was backed down from 50 to 1 to 10 to 1, and won by a head from the favorite. A barrel of money was taken out of the ring. Jockey McGlone rode Foam. Joseph Duggan, the owner, and Ray, the trainer, were called to the stand, and after investigating the matter, all were ruled off. In the hurdle race Silverado, with Murphy up, and Appleworth, with Graves up, fell at the last hurdle. Graves was badly injured and Murphy slightly. Summaries:

First race, 5 furlongs—Hattie C., 96, Schorr, 50 to 1, 1; Fiddler, 90, Cochrane, 40 to 1, 2; Subito, 107, McGlone, 10 to 1, 3. Time 1.02.

Second race, 6 furlongs—Foam, 110, McGlone, 10 to 1, 1; Amelia May, 111, Freeman, 6 to 2, 2; Empera, 102, Bergen, 6 to 1, 3. Time 1.14.

Third race, Cadiine Stakes, 1 1-8 miles Saragossa, 127, Lewis, 3 to 1, 1; Figaro, 118, Carr, 6 to 5, 2; Lake Shore, 110, Bergen, 3 to 2, 3. Time 1.53.

Fourth race, 5 furlongs—Capt. Brown, 116, Lewis, 8 to 5, 1; Diggs, 104, Irving, 2 to 1, 2; Shuttle, 111, McKnight, 5 to 1, 3. Time 1.00.

Fifth race, 3-4 mile—Runaway, 104, Lendrum, 4 to 1, 1; Ruthven, 93, Everett, 3 to 1, 2; Rodegap, 99, Bergen, 3 to 1, 3. Time 1.15.

Sixth race, hurdle handicap, 1 mile 3 furlongs—Rover, 153, Phair, 4 1-2 to 1, 1; San Gabriel, 138, Coughlin, 3 to 1, 2; Say Onara, 132, Dunlap, 8 to 1, 3. Time 2.33.

Ruled Off at Detroit

Toronto, Ont., July 2.—The world's record for a mile bicycle competition was made over the Island quarter-mile track yesterday afternoon at the Ferry Company's professional races. It was the first heat of the event between John S. Johnson, Walter C. Sanger and Harry Tyler, and the opening contest of the day.

First heat—John S. Johnson, Minneapolis, 1; Walter C. Sanger, Milwaukee, 2. Time 1.59 1-2, breaking the record, which has not been previously under 2 min.

Second heat—John S. Johnson, 1; Walter C. Sanger, 2. Time 2.01 3-4.

Half mile open—Declared no race; slow time. W. C. Sanger, 1; P. O'Connor, 2; W. Coleman, 3. Time 1.10.

One mile handicap—John S. Johnson, scratch, 1; P. O'Connor, 60 yds., 2; W. Coleman, 75 yds., 3. Time 2.17 1-2.

Tyler, paced by Sanger, also lowered the half mile paced professional record to 1 min.

SAFETY OF TRAINS.

In What Part Should the Cautious Ride?

One of the unsolved problems in railroading is the question as to the safest place on a train. Many have contended that it is just as safe on the engine as it is in the cars, and point to the fact that in many instances the engine has passed over a broken bridge while the balance of the train went down. Others insist that the rear car is the safest, because there are fewer rear end collisions than any other kind. There are people who are strong in the belief that there is no place of safety on a train, and that one runs as much risk in one spot as in another. On some roads special cars are always placed in the centre of the train, but for what purpose is not clear

"That is a hard question to answer," said General Manager Bradbury, of the Lake Erie & Western, when interrogated, "for it is like asking where is the best place for a man to fall. The question of safety depends, in a measure, on the length of a train. A train made up of a smoker and a day coach could have no particularly safe spots, and the passenger would be in as much danger in the event of a collision in one car as in the other. On long trains I think that if there is any difference there is more safety in a car or two from the rear of a train. However, I generally ride in the rear car. Men have become old and grey as conductors and engineers, and yet young men are killed as often as any other."

"I should say two or three cars from the rear of a long train," said General Superintendent Van Winkle, of the Big Four. "If there is a head collision, the cars in front of the train take the brunt of the crash, and the cars are so well built that there is not much danger close to the rear of the train. This holds good in the event of a rear collision. Cars used in our fast trains are so heavily vestibuled that they could not spring over each other, as used to happen with the light coaches in use years ago. They are solidly coupled, and that fact prevents them also from crushing each other. An engine plunging into a train could not go through two or three coaches. It might get part way into one coach, but that is all. The danger from crossing collisions, where one train strike another on the side, is small. There are few such accidents nowadays. We all know that sometimes the rear car of a train running at high speed is 'whipped' from the rails on a sharp curve, but that seldom happens."

"The second car from the rear is about as safe as any," said General Manager Barrard, of the Peoria and Eastern. "I think myself the rear end of a train is safer for a passenger, for the reason that there are fewer rear-end collisions than there are butting collisions. As to derailments, it has been demonstrated that the engine and one or two cars leaving the rails seldom pull other cars with them. When they go off the track, they break the train line. This sets the brakes, and stops the other cars. I usually ride at the rear end of the train, but I have never considered the question you have asked."—Indianapolis News.

Just received another case of goods from Havana, Cuba, West Indies. The finest goods ever sold in Peterborough, you must remember this when you get a cigar direct from Havana, there is a big difference in the flavor and far better for your money. Remember I have sold traveller's imported samples before, and learned by experience that after they have travelled the country from coast to coast, and open out those samples probably 200 times that there was very little aroma in them, and also find out that I could get goods from Havana direct, to sell as cheap as any travellers sample I ever sold, and you can get fresh goods for your money.

AYER'S Sarsaparilla

A MEDICINE

WITHOUT AN EQUAL.

Statement of a Well Known Doctor

"Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action, and effects so many permanent cures as Ayer's Sarsaparilla."—Dr. H. F. MERRILL, Augusta, Me.

C.W.A. AT WATERLOO

Keen and Close Contests for the Championships.

SARNIA GETS MOST OF THE PLUMS.

Lougheed of the Tunnel City Captures Three Championships—McLeod of the Same Town Beats Several Cracks—No Records Were Lowered.

Waterloo, July 2.—The big C. W. A. meet was wound up to-day by the greatest series of races ever seen at a championship contest. From the word "go" to-day the racing was keen and close. The morning was taken up with the Cooks' Parade. The procession marched through the streets of Berlin and Waterloo, headed by the band of the Wanderers' Bicycle Club of Toronto, which was brought up especially for the occasion. The parade was voted a great success.

The riders from Sarnia duplicated their successes of yesterday in the championship races, and made good their claims to the title of champions of Canada. Loughead won every class A race in which he started, the mile class A, five miles and a quarter mile. In every race he was followed in by Harry Hulse of the T.B.C., who had not quite speed enough to catch, though he nearly succeeded in beating him in the second heat of the 1-4 mile, being only two inches behind at the tape. Loughead established himself as the undisputed champion of class A by his wins of to-day. At the meet he won in all four races, three of them championships.

Angus McLeod, another Sarnia man, accomplished a like trick in the class B races, though he had not a clear record, being defeated in the 5 mile race by McIntosh. To-day he won the 1-2 mile from McIntosh by five yards. Davidson and Wells would have undoubtedly finished second and third had they not been tumbled over when ten yards from the finish by McIntosh, who tried to shoot up between them. In doing so he struck Davidson's handle and knocked him over. In his fall the latter brought Wells down, both being picked up in a badly bruised state.

The races to-day were not marred by the casualties which characterized yesterday's events, and were therefore all the more enjoyable.

Coulter made an attempt to lower the Canadian record, but as only one tandem was to be got he only succeeded in riding the mile in 2.05 3.5. Brown and Young of the W.B.C., Toronto, did the pacing. All the wheelmen left for home this evening.

The selling event yesterday was a peculiar race, says to-day's Free Press. Foam, who had run a mediocre race on Friday and finished only fairly on Saturday, came out and won in impressive style. The judges were looking for something like this, and all hands were called to the stand. It resulted in the owner, trainer and horse being ruled off, and, as this is not the first offence, reinstatement is unlikely. Amelia May was the sure thing and went to the post at 6 to 5. Foam opened at 30 and was backed to 8, going back to 12 before the race, and Minnie Cee was liberally played up and down the line. Foam broke in front and then went back, Foxhall showing at the half, with Amelia May second and Foam third. Amelia May was doing some sprinting and took the lot around the bend in a hurry, Foxhall dropping into second, a length before Foam. No change was noticeable at the head of the stretch other than the closing up of the front bunch, Amelia May leading by a short length and Foxhall a head before Foam. In the stretch Foam came like a wild horse, and nailing Foxhall at the eighth shot by Amelia May at the sixteenth and won by a neck in a hard drive, with Empera third and Rapier fourth.

The Free Press winds up: The running of Foam was a striking reversal of form. Friday he was of little account in 1.15 and Saturday he was fifth in 1.15 3-4, but yesterday he stood a long drive and won in 1.14. To-day's summaries:

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 389 George Street.

Coughs, colds, sore throat, asthma, bronchitis, and all lung troubles are quickly cured by Hagyard's Pectoral Balsam.

"The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

THIS GREAT COUGH CURE promptly cures where all others fail. Coughs, Croup, Sore Throat, Hoarseness, Whooping Cough and Asthma. "SUN" LIFE

Assurance Co'y of Canada.

Explanation of the Company's System of Profit Distribution.

The method of profit distribution of most companies is to give a bonus or profit on the sum assured, irrespective of the premiums paid. The Sun Life of Canada allots its profits to policies in proportion to the premiums paid, which is considered to be the more equitable system. This accounts for the variations in the percentages of the accompanying results. The lower rates given below are, in most cases, on young lives. The examples are taken from the Company's claim register as at the end of 1894, **for the first 5 years.**

CRICKET.

The Lindsay cricketers came over for a game on Dominion Day with the local men and the wickets were pitched early in the morning. The match lasted throughout the day and had many interesting features. It was won by 40 runs by Peterborough. The visitors were not heavy hitters, nor did any of them bat in good form with the exception of Sisson, who put together his big score in a very pretty manner. The Lindsay men, however, if they were not strong at the bat were far superior to the Peterborough's in the field, accepting every chance and not being guilty of making the muffs at which style of fielding Peterborough has made a name for itself.

The batting of the local men, however, amply redeemed their work in the field. Guy Rogers put 41 together by a beautiful exhibition of careful batting. He gave no chances and his game was greatly admired. Mac Poussette also did well, making 35 in the two innings.

Edmunds, who has been developing fast of late, made a fine hit.

Mac Poussette, Burnham and Matthews were the only men to raise the ball over the fence.

Gurd made a good average for himself in the bowling department, taking three wickets for two runs. Burnham also did well, taking two wickets for five runs.

The wind up of the Lindsay innings was very funny. Their last man gave three chances. The wicket keeper muffed the first and was 'roasted' by the captain, but before the captain had finished his say the batter put a ball straight into his hands and he dropped it. Play was suspended until the field finished its laugh. The next chance was given to Drope at point, when he took a hot liner with one hand, and retired the side.

The score was as follows:

LACROSSE.

A game of lacrosse to-morrow afternoon at the Driving Park between the Athletics and the Madoc team will be one of great interest. The Madocs claim that they were in poor form when the Athletics won from them there by 3 to 1, and that they will reverse the order of things to-morrow. Other lacrosse towns were all surprised at hearing that Madoc had been beaten, and attributed it more to luck than anything else. To-morrow will show which is the best team, and a big crowd should go down to witness what will be one of the fastest games of the season. The Madocs are strengthened by some of the boys who have been away at the Universities, and the match will without doubt be close. The ball will be faced at 2.30 o'clock.

The following team will represent the Athletics to-morrow: F Dobbin, goal; F. Boland, point; Brown, cover point; Joe McDonough, 1st defence; W. Thompson, second defence, E. Hickey, 3rd defence; T. McDonough, centre; R. Glover; 3rd home; P. Rubidge, 2nd home; W. Galley, 1st home; Jack McDonough, outside home; Geo. Lipsett, inside home; P. J. Doris, field captain; H. LeBrun, referee.

The members of the club request that spectators will take advantage of the seats in the grand stand to-morrow instead of going out into the field to witness and obstruct the game.

THE TURF.

When Mr. J. J. Burns started out this spring with the six-year-old Harry B., by Phil Rysdyk, he had a horse that had never faced the starter except in an ice trot, when he was owned by Mr. Harry LeBrun of Peterborough, but he has now already won seven races, and taken a mark of 2.25½ on a half mile track. This reduction of his record was made yesterday in the stake race at Toledo, O., Harry B. winning in straight heats. Mr. Burns is quite confident that the gelding can show a mile in 2.12 over such tracks as Hamilton.

MILLBROOK.

(From our own Correspondent.)

The Millbrook lacrosse team met its first defeat this season when they crossed sticks with the Ontarios of Port Hope at the latter place and were defeated by a score of 2 1.

So sure were Port Hope of a walk over that they did not think it worth while putting Millbrook's name on the bills, and advertised the match as Port Hope vs. Toronto. When the teams lined up before the one thousand spectators, it could be seen that the home team had the advantage in weight, but after five or ten minutes play it could also be seen that they were playing a hard defence game. The match was one of the closest that Port Hope has played in years, and had it not been for Lou. White at point there is not the least doubt but that the score would have been different. The match was rough, and in the last game McMahon, the stone wall of the Millbrook defence, was badly laid out with a deep cut near the eye which necessitated its having three stitches. Port Hope was greatly strengthened by Richardson, late of the Athletics of St. Catherines. Millbrook showed up well, and when the Ontarios play in Millbrook on July 12th a good game can be expected.

The referee, who was represented as being from Montreal and who was in reality a Port Hoper, gave all doubts in favour of the home team and apparently sanctioned all roughness. Clarry, of the Millbrook defence, having been recently ill was unable to play but captained the boys. The teams lined up as follows:

MILLBROOK.		PORT HOPE:
Richards	Goal	Crowhurst
McMahon	Point	White
S Carveth	Cover Point	Nattrass

Court Centreville, No. 1242, I. O. F., held a picnic in Victoria Park, Hale's bridge, on Thursday afternoon last.

The Centreville Sunday school here held their annual excursion on Thursday of this week to Idyl Wyld. An enjoyable time was spent.

The Rev. Mr. MacWilliams, Peterborough, will preach here next Sunday.

The Orange Societies of Bewdley and Fraserville will attend service here on Sunday.

Quite a number went to the C. E. excursion on Saturday last.

The I. O. F. attended service at the Presbyterian church here last Sunday. A very appropriate sermon was preached by the pastor, Rev. J. Cattanach.

On Wednesday morning, the 26th ult., a quiet wedding took place at the residence of Mr. Jeremiah Greer, Baillieboro. The contracting parties were Miss Matilda Greer and Mr. John L. Reid, Bobcaygeon. The Rev. J. Cattanach officiated on the occasion. After the ceremony the happy couple left amid showers of rice and followed by the good wishes of a host of friends, on an extended honeymoon trip.

Deep Waterways Convention Program Completed

Chicago, July 2.—The Committee of Arrangements for the International Deep Waterways Convention, to be held in Cleveland Next September, completed its program to-day. Among the subjects to be brought before the convention will be the old project of limiting the outflow in Niagara River to secure higher water on Lake Erie. A competent engineer will be secured to deliver an address on the effects the Chicago drainage canal will have on lake levels. In all, the committee will invite sixteen speakers to talk upon subjects of which they are acknowledged authorities. This will be in addition to the consideration of the plans for a deep water channel between the lakes and the Atlantic.

Will Not Redeem the Tug Grace.

Dunkirk, N.Y., July 2.—The tug Grace, which was seized a year ago last April while fishing in Canadian waters, will not be redeemed by the owners. The Dominion authorities demand $2500 before the boat will be released. Messrs. Helway & Son have already spent $350 for legal services, and the loss of the boat's services for almost two fishing seasons has made them poor men. They are, therefore, unable to pay the price demanded, and the boat will remain in Port Colborne, Ont., harbor, where she now lies, until disposed of by the Canadian Government.

Train Held Up. Passengers Robbed.

San Francisco, July 3.—A Southern Pacific passenger train was held up and robbed at Riddles, in the Cow Creek Canyon, between Ashlan and Grant Pass. The robbers took jewelry, money and other valuables from the passengers, and rifled the mail pouches, but failed in their effort to break open the express car.

Howgate Gets Eight Years.

Washington, July 2.—Judge McComas to-day sentenced Capt. H. W. Howgate to eight years in the Albany Penitentiary, four years on each charge of forgery and embezzlement. Mr. Worthington, counsel for Howgate, filed a motion of appeal, and asked that Howgate be allowed to remain in the district jail, pending action of the Court of Appels.

Skipped to Avoid His Creditors.

Buffalo, July 2.—Weighted down with liens and chattel mortgages, and pressed by dozens of creditors, including a scores of employes, E. H. Hardy, proprietor of the paint and wallpaper store at No. 11 Wadsworth-street, has closed up his establishment, and it is believed has skipped to Canada, of which country, it is said, he is a native.

Buchanan Made No Confession.

Sing Sing, July 3.—There has been considerable talk that Dr. Buchanan made a full confession before he went to the electric chair. Warden Sage said that, as far as he knew, Buchanan made no confession, but, on the contrary, asserted his innocence up to the last.

FOR THIS SENSATIONAL

Forced-to-Sell-Sale

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

Money on the Dolan Stock

Must be raised, regardless of cost, real value or positive loss. Read the prices we quote this week—read the bargains we place on sale—get an idea of the recklessly low prices—compare and investigate—reflect and act.

NO REMEDIAL BILL.

The Government Dare Not Introduce It,

ALTHOUGH THE BILL IS READY.

Whips Feel the Party Pulse and Find Defeat Assured — Military College Affairs—Two Cents a Mile Will Cause a Division in the House.

Ottawa, July 3.—It is reported to-night that there is not likely to be any Remedial Legislation this session, though it is certain that a bill to that effect has been prepared by one of the Ministers. The question will, however, be settled definitely to-morrow, if the Government will make a definite announcement that they do not intend to introduce such a measure, D'Alton McCarthy will set sail for England this week. He left for Toronto to-night to consult his firm. It is not likely, either, that he will bring up Bishop Gravel's letter, even if he returns to Ottawa, although he signified such an intention to the Government. His resolution was to take the form of expressing the confidence of Parliament in the just decisions of the Judicial Committee of the Privy Council, despite the "insinuations" contained in Mgr. Gravel's letter.

The Government whips have been busy to-day ascertaining the views of the Conservative members, and it is given out to-night that the chief whip reported that 39 were against Remedial Legislation, the whip himself among the number. The Government could only count on carrying a Remedial Bill with the support of 20 to 30 Liberals from Quebec, a most uncertain quantity, as it is well known that, while they might support some clauses of the bill, they would go against it on others, and thereby secure the defeat of the Ministry.

Ontario Conservatives who three weeks ago thought they could accept Remedial Legislation, have changed their minds with sudden alacrity. The Maritime Conservatives have also shown a sudden opposition to Remedial Legislation. These facts, coming to the ears of the Ministry, have doubtless had considerable weight with the Cabinet.

Private railway bills have made little progress so far this session. The two-cent-a-mile proposal has blocked the way so far each time the House reaches private bills. The member for East York will divide the House on the third reading on both the Hamilton Radial and the Toronto, Hamilton & Buffalo Railway bills. Quite a large number of members who hitherto opposed the two-cent proposal will vote for it when the division comes. The Minister of Railways went so far to-night as to admit that the Hamilton Radial is really an electric road, and that it came to Ottawa to avoid the General Ontario act, as had been pointed out by Mr. Maclean. He accordingly suggested a clause that the bill would be subject to a General Electric Railway act, which, among other things, would regulate the tolls of such roads. This suggestion was adopted. To-night there was an interesting discussion on the Royal Military College, the outcome of a spirited speech by Col. Denison.

After routine to-day, Sir C. H. Tupper informed Dr. Macdonald (Huron) that two carloads of binder twine had been shipped from Kingston Penitentiary to the Continental Cordage Co. of Brantford since February 15 this year. The price at which it was invoiced was the regular price charged to other purchasers. David Lambert of Brantford is not employed in connection with the prison binder twine plant at Kingston. John Connor of St. John, N.B., is employed as selling agent, he being paid by commission on sales.

Sir Richard Cartwright asked whether the Department of Customs has decided to exact the highest rate of duty on piping used by farmers for wells; whether oil refiners are allowed to import pipes for use in oil wells at the lower rate of duty; if so, on what principle are pipes for use by all refiners admitted at a lower rate than those required for the use of farmers?

Mr. Wallace, in reply, said the Department of Customs had not decided to exact the highest rate of duty on piping when imported to be used by farmers for piping wells. The duty will be collected in accordance with the provisions of tariff item No. 259, at the rate of 20 per cent. ad valorem. (2) The rate of duty is the same for either purpose. (3) They are not.

Mr. Martin asked whether an appointment has been made to fill the vacancy in the office of Lieutenant-Governor of Manitoba? If not, how soon does the Government intend to fill the vacancy? Has any promise been made to the present incumbent that he will be reappointed? Is it intended that Hon. J. C. Patterson should take the position, and if so, when?

Mr. Foster: No appointment has been made. The Government proposes to fill the vacancy shortly. No promise has been made to the present incumbent. The name of the person who takes that high and honorable position will be known when the appointment has been made. (Laughter.)

Mr. Martin: The hon. gentleman omitted to answer the last part of the question.

Mr. Foster: No, it is all answered.

Mr. Haggart, answering Mr. McCarthy, said that C. E. Hickey was the superintendent of the Williamsburg Canal, his salary being $1800 per annum.

Mr. McCarthy pointed out that his question why Mr. Hickey received more salary than his predecessor had not been answered.

Mr. Haggart: Because he is worth it.

Mr. Wallace, replying to Mr. Brodeur, said that orders-in-council had been passed exempting from customs duty statues of Maisonneuve and Sir John Macdonald, recently erected in Montreal. The committee which was erecting a monument in honor of Dr. Chenier had made a request for free admission of statue. He (Mr. Wallace) had submitted the matter to the council for decision.

Mr. McCarthy asked the leader of the House if he had any information to give regarding the proposed Remedial Bill. The session was passing, and the House would certainly like to know whether the Government purposed introducing Remedial Legislation.

Mr. Foster: I think my hon. friend is very insistent. It was only yesterday that I told him that we had received the documents from Manitoba. This morning, for the first time, they were laid before Council. We cannot prepare legislation quite as fast as that.

The bill respecting judges of provincial courts evoked some discussion, the Opposition objecting to the salary of Chief Justice Davie as judge in admiralty for British Columbia. Eventually the measure passed the committee stage.

Dr. Montague moved the second reading of the Civil Service bill, explaining that its object was to abolish third-class clerkships, and substitute therefor writers to be employed temporarily at lower salary.

Mr. Laurier opposed the bill on the ground that it was placing the temporary employes entirely in the power of the Government. He moved the six-months hoist.

Mr. McMullen supported the amendment. He thought the civil service should be entirely removed from political influences.

Mr. Laurier's amendment was lost on a division.

In committee on the bill, Sir Richard Cartwright said there was no possible excuse in a country like Canada for bringing children into the public service. To fix 15 years as the age at which writers could be brought in was far too low. Evidently the bill had been very carelessly drafted.

Mr. Foster said the experience of the Deputy Ministers was that young men brought in at an early age could be trained into better clerks than if they entered the public service when they were men.

After some discussion the minimum age of entrance into the service of messengers, packers and sorters was left at 15 years, and in the case of writers at 18 years.

After recess the House went into committee on the bill to incorporate the International Radial Railway Co. At the last sitting Mr. W. F. Maclean had moved the following amendments: "That the rates charged on the track or tracks of the said railway company known as the International Radial Railway Company shall not exceed two cents per mile.'

Mr. Mulock said Mr. Maclean was running in the right direction in endeavoring to establish some safeguard to prevent abuses such as he had indicated.

Mr. J. D. Edgar rose and moved that the following clause be added to this bill: The powers hereby conferred shall be subject to the provisions of any general act that may be hereafter passed by the Parliament of Canada relating to electric railways.

Mr. Haggart thought it inexpedient at present to embody Mr. Maclean's amendment in this bill. Legislation of this character ought to be general, and it should not be applied to any particular railway company. It was a question which might come up as an amendment to the General aRilway Act. He agreed with what had been said respecting electric railways—that they ought to have embodied in their charters from the Dominion Parliament a clause that they would be subject to a general Dominion law, which would fix passenger and freight rates. The Railway Committee might properly draft a model bill covering this point.

Mr. Maclean's amendment was declared lost.

Mr. Edgar's was then adopted.

In supply on the Military College vote, Col. Denison called attention to the recent "hazing trouble." He said it was evident the commandant of the college was not the right man for the position. Personally, he did not object to "fagging," but he thought it wrong that cadets should be compelled to go in for "raffles" to purchase entables. If the commandant knew nothing of these practices he should have known of them. It was time a commandant was appointed who would take an interest in the institution. They wanted a man in touch with the army, and not one who had been retired from the British army before he came to this country. He (Col. Denison) regretted to have to make these remarks, but it was necessary to do so. Since 1889 there had been a serious falling off in the number of cadets. Only eight had gone in this year, and the total number was but 54. He concluded by moving the reduction of the item by $3163, the amount of Commandant Cameron's salary.

The discussion was continued by Sir James Grant, Mr. Casey, Mr. Mulock and others.

Sir Richard Cartwright said, without reflecting on Gen. Cameron's character, there was no doubt he was not fit for the position of Commandant of the Military College.

Col. Denison said the hazing of young Plummer clearly showed there was a lack of discipline in the college. He thought Gen. Cameron should be retired.

Major Hughes acknowledged it was about time Canada was looking round for a new college Commandant.

Col. Denison's amendment was negatived on division of 26 to 8. Those who voted to strike out Gen. Cameron's salary were: Messrs. Denison, Smith (Ontario), W. F. Maclean, Sproule, Semple, Mulock, Forbes and McMullen.

On the vote for Indian schools in the Maritime Provinces, Mr. Daly explained the particular schools to which the money would go.

Major Hughes asked if these schools were under the control of religious bodies.

Mr. Daly replied that they were controlled by the Roman Catholic Church.

Mr. Hughes: Have you taken any steps to place these schools on a national footing?

Mr. Daly: No.

Mr. Hughes: Then, it's time you did.

A return brought down to-day states that the total amount of binder twine made at Kingston Penitentiary last year was 607,566 pounds. The average price realized was 6 1-2 cents per pound.

The Senate discussed the matter of Prince Edward Island Railways this afternoon. The sawdust question was up in the evening.

CANADIAN RAILWAYS.

Sir Charles Tupper Asserts That They Are in Advance of the Requirements

London, July 4.—To-day's session of the International Railway Congress was presided over by Mr. Leon Say. The topic of discussion was the method adopted by the great railways to encourage the building or working of light feeder lines.

Mr. H. S. Haines, President of the American Railway Association, related his experience of American railway lines in the matter, and declared himself opposed to the construction of secondary lines upon any other than the normal gauge. Uniformity in this regard, he said, was especially necessary where the light lines acted as feeders to the larger systems.

Sir Charles Tupper, Canadian High Commissioner, spoke on the views of Mr. Haines. Usually, he said, railways were constructed with the view of increasing facilities of commerce, but in Canada they had been built for the purpose of creating traffic, and often much in advance of the requirements.

A DUMMY IN THE COFFIN.

Apparently an Attempt to Swindle the I.O.F.

Clifford, Ind., July 4.—A telegram received here yesterday from Marion directed that a grave be prepared for the body of Thomas Meyers, a former resident of Clifford, who, the telegram said, had died at Greenfield.

The grave was dug and a minister procured to conduct the services. The men who accompanied the casket said the body was not presentable and therefore the casket was not opened.

To-day a representative of the Independent Order of Foresters, in which Meyers carried $4000 of insurance, came here and demanded that the body be exhumed for identification. Almost the entire village turned out to see the grave opened. The casket contained nothing but a piece of iron.

Three Attempts to Fire a Chicago Building.

Chicago, July 4.—Three attempts were made last night to burn the Mecca apartment building, occupying an entire block at 34th and State-streets. The fires were put out before much damage had been done. A search disclosed that inflammable material had been placed in several parts of the building. The building is valued at $300,000, and is insured for $175,000.

Football Championship for 1895.

The knowing ones are speculating on the football possibilities of the season. Ottawa is not likely to retain the honours of the championship, as Queen's will put in a team sure to smash all records. It is often the case that very slight causes will lose a victory. It is stated that a painful corn made useless one of the best American players. It follows that no team can hope to win this year that neglects to supply its members with Putnam's Painless Corn Extractor, the only safe, sure, and painless remedy for corns.

HOT WEATHER LEGISLATION.

The members of parliament complain, and with reason, that they are compelled to endure the heated air of a stuffy chamber with the thermometer at 90 odd, and that this sacrifice on their part for the benefit of the country is caused by somebody's fault. Certainly—the fault of the government which delayed calling parliament till nearly two months after the orthordox period. They were shilly-shallying over the question of a session or dissolution. Their decision was not influenced by what the business of the country required but by the indications of the best course to pursue in order to hang a little longer on to office. The government is to blame in another way. Their misdeeds of the past, their mis-government, their malappropriation of the public funds, their wasteful and reckless financing have demanded patient investigation. If the government had governed honestly and made any half decent attempt at economical administration there would not have been the need that has existed for throwing the search light of investigation upon their sinuous trail. All this investigation took time and the progress of time brought the hot wave. The government are primarily responsible for dragging the session into the dog days, but of course the Opposition will be blamed for doing the same thing. They are responsible in one sense, and if any blame there be, they are ready and proud to shoulder such blame. In the discharge of their duty to their constituents and the country at large, they were compelled to exercise tireless vigilance and to demand investigation into the crookedness, waste and reckless dissipation of the public funds, which ministers were guilty of. Accusing the Opposition of prolonging the session is virtually doing them honour, for doing their duty with honour—with honest thoroughness. The Government would like very well to have the Opposition criticism withdrawn. They object to being found out, and that is why, in their vexation, they raise the cry that the Opposition is responsible for the sufferings of members from the hot weather. The dog days should properly be dies non in politics as well as other great activities. But the business of the country must be done, and time enough must be employed to make ministers do it properly and honestly, even if members melt with fervent heat.

THE British House of Commons, which is to face the electors next week, consists of 271 Conservatives, 268 Liberals, 72 Anti-Parnellites, 50 Liberal-Unionists, and 9 Parnellites. Now is the time for guessing contests as to what the figures will be this day month.

The Government still sticks to its odious Franchise Act. A proposal in the House, introduced by Mr. Mullock, to adopt the Provincial lists, was voted down by a strictly party majority. Justice and square dealing are the last things that appeal to the Dominion Government.

THE Sultan of Turkey has subscribed $200 to the New York Herald's free ice fund. His sublime "nibbs" will feel the need of ice himself, doubtless, if England, France and Russia bring him to book for the Armenian atrocities and they will if Salisbury, the Tory Prime Minister, is of the same mind as Roseberry, the late Liberal Premier was. They will make it hot for the unspeakable Turk and he will need all the ice he can get.

WITH all our faults of administration in Canada, our treatment of our native Indian population has been generally good—in striking contrast with the policy and practice of the United States. Our Indians, thanks to good treatment, take to the usages of civilisation and become peaceable citizens. Across the line, the Indians have been on the warpath at frequent intervals for a century, and now a tribe in Alaska—the Kakes—have taken to hostilities.

NORWOOD NEWS NOTES.

(From Our Own Correspondent.)

No council meeting this week.

Miss R. Scott left on Tuesday to visit her brothers in Michigan.

The band treated the citizens to an open air concert on Friday evening.

Messrs. Lott and Potter of Trenton, wheeled to Norwood last Sunday. They were the guests of Mr. W. Rutherford.

Mr. W. Knox is opening out his jewelry store in Reynold's new block this week.

The new eight-foot sidewalk on the west side of Colborne street has been completed.

Mr. D. Booth visited his home in Percy on Saturday. While returning to Norwood on his bicycle Tuesday morning he met with a painful accident. He was passing a horse when it raised its hind foot rather forcibly against his person and Mr. Booth was left in the ditch, while the driver drove on unconcernedly. It was an hour before Mr. Booth was able to proceed on his journey.

Councillor Stuart has considerably improved the appearance of his property on Victoria street by the building of a boulevard. The front fence has been lowered and a gravel walk laid.

The departmental examinations opened here on Tuesday, with Mr. Fife as presiding examiner.

Rev. J. McCamus, the new pastor of the Methodist church preached to a large congregation Sunday morning. Rev. Prof. Stevenson, professor of Hebrew in Vanderbilt University, Ashville, preached in the evening.

Last Wednesday while Mr. M. Nicoll was pulling on a lever it slipped and he fell backwards. The back of his head struck on the sharp edge of a hub and a nasty gash was inflicted. Dr. Moffat was summoned and dressed the wound.

The Norwood people who visited Havelock on the First were not pleased with the day. The Norwood Junior Football team were lined up against a team twice their weight. Several of the Havelock men were full grown seniors, and they only won the match by a score of 1 to 0, with a disputed goal in favour of Norwood. The senior team from Norwood lined up for a match, but there was no team ready to meet them. The managing committee refused to give up the prizes for this game. The lacrosse team were also without opponents, but yet they did not receive the prizes. The Norwood people will visit some more enterprising town the next holiday.

An Encampment of Oddfellows was instituted here Friday evening by Grand Patriarch S. S. Merrick, of Carleton Place, assisted by Bros. D. H. Moore, P.G. R., and Thos. Workman, P.C.P., of Peterborough. The following were elected:—

Bro R J Stuart	C P
" H W Fowlds	H P
" E Gear	S W
" J Coon	J W
" G A Pettigrew	Scribe
" W A F Campbell	Fin Scribe
" I Cumming	Treas
" A Cope	Sentinel
" J McClelland	Guide
" F Clark	F W

The degrees were conferred by members of Mount Hebron Encampment of Peterborough. After the cermonies addresses were delivered by Bros. Merrick, Moore, Workman, J. Smith, J. Kidd, R. S. Morrow. The new encampment is called Mount Sinai.

BELMONT COUNCIL.

The adjourned Court of Revision met and passed the roll. Among the changes was the reduction of assessment of J. B. McWilliams, half lot 7, on the 9th from 35 to 25 cents per acre with only one day's statute labour.

The council.—Several accounts were ordered to be paid and the following applications received and laid over,—R. Vansickle, $15, across con. 4; Matthew White, $50 to repair north river bridge road and 7 cor. line opened to Round lake; A. Brown $70 on crossway south of Crow river bridge and $35 to cut down hill on lot 8, con. 1; Absalom Brown, $70 for crossway south of Crow River bridge; Jos. Doupe $15 on 3 con. lots 8 and 9; George Embleton, $50 on con. 9, lots 20 and 21; Albert Hymans to commute for 5 years statute labour on lot 15, con. 3; (this application was granted) Wm. Cochrane, $50 on 9th con. north of Round Lake road; W. Belch was paid $8—2 months keep of W. Baisley; J. B. McWilliams was voted $4, rebate of statute labour tax; John Petherick's claim of $15, Chas. McCarn's application for $50 on con. 9, and Robt. Brown for $10 for south boundary across 9th con., were laid over. Grants for roads were made from Patrick McCann, $25; T. McConnell, $25; P. Buchanan, $10, R. Cole, $50; G. W. Seeney, $25; D. Breckenridge, $10; J. Burgess, $25: John Hutchinson, $25; Chas. Chase, $30; R. Merriam, $25; F. Purdy, $20; P. Deshane, $20; W. Atwell, $30; Jos. Hilton, $10; W. Chad, $10. The reeve was granted a refund of $3.40 re registrar; R. Cole was made commissioner to expend $20 north of Geo. Varty's corner. S. Clarke was allowed to do his statute labour on con. 7, and Mrs. Brown was paid $5 for year's use of Ledyard G.M. Co's road; Wm. Anderson was allowed abatement of $50 on roll of '94.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

Catarrh in the Head

Is a dangerous disease because it is liable to result in loss of hearing or smell, or develop into consumption. Read the following:

"My wife has been a sufferer from catarrh for the past four years and the disease had gone so far that her eyesight was affected so that for nearly a year she was unable to read for more than five minutes at a time. She suffered severe pains in the head and at times was almost distracted. About Christmas, she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has taken six bottles of Hood's Sarsaparilla and is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it." W. H. G.O.M.'S FAREWELL.

Mr. Gladstone Retires Into Private Life.

LETTER TO MIDLOTHIAN LIBERALS

After Thanking the Electors Who Have Returned Him to Fifteen Parliaments He Asks Them to Remain True Liberal Principles—Rosebery to Scotch Liberals.

London, July 4.—Mr. Gladstone's promised letter to his Midlothian constituents yesterday regarding his retirement from political life was published to-day. After bidding farewell to the electors who had supported him at the polls for many years past, and expressing his gratitude for their adhesion to the principle he advocated, the ex-Premier proceeds to say: "It is beyond question that the century now expiring has exhibited since the close of its first quarter a period of unexampled activity, the changes of which, taken in the mass, have been in the direction of true and beneficial progress.

"An overwhelming proportion of the reforms within this period have been effected by the direct action of the Liberal party and by the direct action of such statesmen as Peel and Canning, who were ever ready to meet odium or to forfeit power for the public good. In all of the fifteen parliaments in which I have served, the people of Scotland have decidedly expressed their convictions in favor of this wise and temperate policy, and I trust that the electors of Midlothian will continue to lead the people of Scotland in the future as they have in the past."

Lord Rosebery has written a letter to the secretary of the Midlothian Liberal Association, in which he says: "The late Government was overthrown by a vote of censure which was petty, but fatal. It is for Scotland, Ireland, Wales and the North of England to consider whether they will allow their interests to be in permanent subjection to a hereditary and irresponsible chamber. With the echoes of Mr. Gladstone's eloquent and venerable voice still ringing throughout Scotland, I cannot doubt their response."

Fireworks Cause a $170,000 Blaze.

Lynn, Mass., July 4.—This forenoon there was an explosion of fireworks in front of the L. A. May Company's store in the Sagamore Hotel block. Half an hour after the entire block, which is four stories, of brick, about 100 feet front and more than that in depth, was a mass of flames. It is thought everybody escaped from the building, with possibly one exception, an old man names James H. Winslow, who has not been accounted for. The L. A. May Co. state that their loss will be $40,000. The Sagamore building loss is estimated at $50,000. Thomas Bogue, proprietor of the Sagamore Hotel, will lose about $80,000.

Royal Garden Party.

London, July 3.—The Duke of Saxe-Coburg and Gotha and the Duchess gave a garden party at Clarence House this afternoon. There was a great crush of titled and prominent personages present. Among those attending were a number of members of the royal family, several foreign royalties and the Shah Nesrulla Khan.

Buchanan's Body as a Side Show.

New York, July 3.—The body of Dr. Buchanan, the wife-murderer, who was executed yesterday in Sing Sing, is to-day again furnishing a free show to a crowd of morbidly-inclined sightseers at Undertaker Huhnan's establishment in Varick-street. Many people take their turn in line several times to get more than one look at the corpse. Mrs. Buchanan was early on hand, but evaded the crowd.

Alleged Canadian Cigaret Trust.

New York, July 2.—It is announced that the American Tobacco Company has acquired control of the cigaret business of Canada by the purchase of all the Dominion manufactories.

Toronto Markets.

Flour — Business is dull, with straight rollers quoted at $4.25 to $4.50, Toronto freights.

Bran—Bran is steady, at $13.00 for car lots, Toronto freights. Shorts are quoted at $16.50 to $17.

Wheat—The market is very quiet, and the feeling to-day is somewhat unsettled. White is nominal at 85c to 86c at western points, and No. 1 Manitoba hard at 97c, Toronto freights.

Peas—Trade dull and prices unchanged at about 58c, west.

Barley—Trade dull and prices nominal at 53c to 55c for feeding qualities.

Oats—The market is steady, there being sales outside of white at 34 1-2c to 35c. Cars on track are quoted at 38c to 38 1-2c.

Rye—No business doing and prices purely nominal.

Oatmeal—Market is dull, with prices steady at $4.10 on track for ordinary qualities.

NEW PACIFIC LINE.

American Roads To Build a Line of Boats.

THEY WANT THE ORIENTAL TRADE.

A Gold Brick From the Coast Deposited in a Montreal Bank—The Coke Industry on Vancouver Island—General News From Montreal

Montreal, July 4.—The Canadian Pacific steamship venture on the Pacific has been such an unqualified success that the service has excited the envy of one of the American transcontinental railways. It was learned to-day upon the best authority that President Hill of the Great Northern has been quietly preparing his plans for a line of Pacific steamships to be established in connection with the Great Northern, and that the new scheme will be announced at an early day. It is said Hill believes that Sir William Van Horne and his colleagues of the Canadian Pacific executive never did a wiser act in their lives than when they placed such splendid boats on the Pacific as the three Empresses, and the president of the Great Northern is likewise of the opinion that this western steamboat service is the most promising feature in the entire Canadian Pacific system. This, therefore, is why Mr. Hill proposes taking a leaf from the Van Horne bible and creating a fleet of his own.

It is also learned that the Great Northern people have already two agents in China and Japan spying out the land, and that all the plans are being rapidly perfected for the establishment of a monthly service between Seattle, in the State of Washington, and the Asiatic ports decided upon by the promoters of the service.

Visitors who went into the Bank of Montreal to-day were invited to feast their eyes upon a brick of gold from the Cariboo District of British Columbia, the same weighing 795 ounces, and valued at not less than $13,506. This brick reached Montreal to-day, being the first clean-up of the Cariboo Hydraulic Mine, the shareholders of which are in large part residents of Montreal and Toronto. The promoters of the mine appear to be well satisfied, but they state that many days the run of water was not three hours in duration, and that a fair action of water could not be then had. When the big ditch is completed in the near future a full 24-hours' run can be had, consequently it looks as if those who have always contended that the Cariboo District had lost none of its richness were about right, and that all that was required would be improved appliances for the work.

The Demers murder inquest will be finished on Friday, and it is pretty hard to say whether or not the jury will recommend the husband's commitment. To-day the son of Mrs. Bergeron, who swore that she saw Madame Demers alive at a little after noon on the day she was found, declared that he, too, saw the ill-fated woman entering her house that day carrying chips in her apron. It has been a long time since any case caused so much interest in the city.

Mr. Alex. Cunningham of Merry & Cunningham, the Scotch iron people, is now in this city looking after machinery for making coke in connection with the extensive coal mines at Comox, Vancouver Island. They expect to spend $150,000 and be ready for operations by Christmas. San Francisco alone takes 40,000 tons of coke yearly, and, together with the numerous smelters now being established in the west, a heavy demand will spring up. Mr. Cunningham will also go to Ottawa.

Francis Anderson, who was run over by the train at St. Henri, succumbed soon after reaching the hospital. Mr. Anderson was a switchman, and belonged to Aultsville, Ont., where the body will be taken to-morrow.

Some 160 of S. Davis & Sons, cigar-makers, have gone out on a strike, a misunderstanding having arisen regarding the pay of employes.

Premier Taillon and Hon. E. J. Flynn spoke to-day in Wolfe County.

Ald. Nolan will possibly be the Liberal candidate in St. Anne's Ward, and Mr. C. A. McDonnell the Conservative standard-bearer.

Two Arnprior Stores in Ashes.

Arnprior, Ont., July 4.—Yesterday fire broke out in the rear of an unoccupied brick store owned by McMaster & Co. of Toronto. The building was gutted. The flames spread to the adjoining furniture warehouse owned by Stafford & Rudd, and both building and contents were badly damaged.

INTERPROVINCIAL ACCOUNTS.

To straighten out the accounts between the Dominion and the Provinces of Ontario and Quebec, the members comprising the Interprovincial Accounts Arbitration sat all Monday at the Parliament buildings, Ottawa. After some preliminaries, Mr. Girouard entered into an exposition and defence of the claims of Quebec to a further amount from the Common School fund, which lasted through the entire sitting. The matter was disposed of in 1878, when the Privy Council, on an appeal from Quebec, ordered $1,733,000 to be apportioned between the two provinces. Quebec is now claiming a total amount of $6,000,000, and if her claim is conceded this will mean a further payment by Ontario of some $4,000,000. It is worthy of note that the fund in question originally came altogether from the sale of Ontario lands.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

To Jubilee Park takes place on Friday, 5th July, per City of Peterborough, leaving Peterborough wearf at 8.30 a. m: Tickets, 50 cents; children 25 cents. Children of Sunday school free. 3d

Piano Tuner.

Mr. George Gumpricht, as a first class piano tuner, is highly recommended by Messrs. Heintzman & Co., and all leading piano dealers. Orders may be left at Mr. H. S. Macdonald's drug store.

Rescued From Drowning.

Mr. Chas. Calcutt bravely rescued a young lad from drowning in the river on Tuesday. Three little fellows were out in a canoe, which being leaky, filled and began to sink. Two of them swam to shore, but the third would most assuredly have drowned if Mr. Calcutt had not bravely plunged into the water and swam to his rescue.

Excursions per Steamer City of Peterborough.

Saturday afternoon, July 6th, to Jubilee Point; Monday afternoon, July 8th, Oak Orchard and Campbelltown. The boat will leave the wharf at 2 o'clock, returning at 8.30 p. m. Tickets to Jubilee Point, 50c, Oak Orchard and Campbelltown, 25c. Children half fare. Persons wishing an afternoon's fishing will be landed at the fishing grounds. 2d

Thoroughbred Stock,

Mr. J. H. Walton, of 2nd line Smith, has recently purchased from Mr. C. R. Decker, of Chesterfield, Ont., a pair of very fine thoroughbred Berkshire hogs from imported stock. They are much admired by those who have seen them. The boar will be for service as stated in the advertisement in this issue. Mr. J. H. Walton is deserving of great credit and encouragement for his efforts to improve the stock of the county.

The Hay Crop.

Whatever fate may yet befall the grain crops, it is conceded that the hay crop is a failure. There is a very scant growth of grass, and what stand on the ground is of very poor quality—light and lifeless. If, in many cases, a farmer does not gather his hay at once, there will hardly be enough left some time later, to find. On one of the best farms in Smith, the owner says that a clover field that to a casual glance seemed a good crop, was very deceiving. When the mower passed through the clover it would remain standing, not having enough length and weight to fall. The outlook for fodder is serious. If corn or some soiling crop were sown when possible, later rains might bring on a good supply for fall feeding. Something will have to be done to supplement the short hay crop.

The New Proprietors.

The Peterborough Business College has changed hands, and the gentlemen who have assumed control will evidently maintain the high reputation which the college has always enjoyed, if they do not bring it even more prominently into notice. Mr. Pringle, one of the new proproprietors, was the principal of St. John's, N. B., College, and before that was senior teacher and visiting master at the Ontario Business College, Belleville. He is therefore fully qualified in all the different branches necessary to his position. Mr. W. C. McCrea was the senior teacher in the Peterboraugh Business College some three years ago, since when he has been the principal of the Commercial Academy, Coaticooke, Que. The college will be given a most thorough overhauling, and will be placed on a footing with best institutions of the kind in America.

A Bad Cut.

Mr. Doupe, caretaker of the P.A.A.A. grounds, Ashburnham, met with a very severe accident the other day, when pruning trees. He seized a branch over his head and attempted to cut it off with a sharp hatchet, but struck his left arm instead of the limb and severed several tendons in the wrist. The cut, which was a very bad one, was dressed by Dr. Burnham.

Charlotte Street Church Alterations.

While the alterations are going on in the Charlotte Street Methodist Church the seats have been removed and placed in the Sunday school, where services will be held until the alterations are completed. With the exception of the services being held in the Sunday school, instead of the church, there will be no perceptible difference, as the conveniences and comforts are equivalent.

Compliments for J. J. Turner & Son.

Messrs. J.J. Turner & Son have received an acknowledgement from Messrs. Brown, Donaghy & Co., for a large tent, ordered at 8 a. m. and shipped at 4 p. m.

LONDON, July 2nd, 1895.

Messrs. J. J. Turner & Son:

SIRS,—Tent, etc., received O. K. We think it a fine one and are obliged to you for your promptitude.

BROWN, DONAGHY & CO.

Mr. John S. Gale, of Windsor, writing July 2nd, in remitting payment for a large tent, writes,—"I am real well satisfied with the tent and think it a beauty."

Practical Gratitude.

The Secretary of the Peterborough Fire Brigade has received the following letter, which carries its own explanation with it in a manner very gratifying to the Fire Fighters :

PETERBOROUGH, July 2, 1895.

To the Secretary of the Peterborough Fire Brigade:

Dear Sir,—Enclosed please find my cheque for $25 on account of services rendered to me at the time my residence was destroyed by fire, June 17th. I wish to convey my heartiest appreciation of the brigade's efforts on that occasion.

Yours very truly,
G. W. HATTON.

Worst Man in the Central.

The Toronto World in its notes of a visit to the Central Prison, has this to say of David Welsh, who was sent up for a year for throwing a stone at a locomotive driver at Fraserville who refused him a ride :—"David Welsh is one of the worst men I ever came across. He has only been here 10 months. He has been in almost every department of the prison, and we can do nothing with him. He has never been confined to his cell more than a month or five weeks at a time, and this has been because he was of no use at work." It must be gratifying to a judge to have proof that his imposition of a sentence is justified, as it seems to have been in this instance.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. A Gallant Rescue.

Shortly after the line boat Passport left Cobourg Monday evening a young son of Capt. J. Scammon, while running along the dock, accidentally tripped on a spike, and fell headforemost into the harbour. A young lad about ten years of age, a son of the late R. Henderson, who saw the accident, without a moment's hesitation plunged in, clothes, boots and all, after him. As the drowning boy came up the second time the plucky lad grabbed him by the neck with one hand, hanging on to a spike in the dock with the other, until Mr. J. T. Field of the yacht Vision, who also witnessed the accident, hurried over with his dingy and rescued them both. Young Henderson deserves more than mere praise for his gallant rescue.

Opera House Attraction for Next Week

What an exchange says of Prof. Lee :—Lee, the famous mesmerist, made a decided hit at Tiemann's Opera House again last night. The audience went into hysterics almost at the amusing capers cut up by the subjects. Lee and the subjects can make an audience laugh harder, oftener and longer than the best farce comedy ever written. Lee has given fifteen performances in the opera house and draws the same people every night. The more you see of these wonderful performances the more you want to see, and we believe the Professor could run here for a year. The balloon scene was put on by request and made a great hit. Lee will be here the rest of the week and change his programme every night. Prices 20c and 30c, children 10c. Seats now on sale at usual place.

ENDS HER LIFE WITH PARIS GREEN.

An Old Lady, 73 Years of Age, Dies from Taking Poison.

Mrs. Margaret O'Brien, aged 73 years, died yesterday afternoon in great agony as the result of a dose of Paris green which she had taken early in the morning.

The most deplorable affair took place at the residence of Mrs. Wm. Geary, 188 Perry street, a granddaughter of the deceased.

What possible object the old lady could have had in taking her life is a mystery. She had a most comfortable home, where her every want was most willingly supplied. The only possible reason which can be ascribed for the committal of the rash act, is the fact that Mrs. O'Brien has been a constant sufferer from malaria for a number of years, and naturally as she grew more feeble, dreaded the recurrence of the attacks to a greater and greater degree.

The Paris green was kept in the house for use in the garden. It is thought that Mrs. O'Brien secured this and took the dose about 7 o'clock in the morning. About 9 o'clock it was first noticed that something was the matter with her, and almost immediately she became violently ill. Medical aid was summoned, but nothing could be done to check the deadly effect of the poison, and although she was kept alive until late in the afternoon she passed away at four o'clock.

Shortly before her death Mrs. O'Brien acknowledged taking a dose of the poison, but was too weak to give any reason for the act.

Coroner Bell was notified of the occurrence, but did not think an inquest necessary under the circumstances. The funeral takes place to-morrow afternoon.

THROWN FROM A CARRIAGE.

Mrs. Denoon Meets With a Serious Accident on Dominion Day.

Mrs. Denoon, wife of Mr. John Denoon, who has a butcher shop on the corner of George and London streets, is slowly recovering from a serious accident with which she met on the 1st of July.

Mr. Denoon and wife went to visit the latter's sister-in-law in North Monaghan, while returning late in the evening in haste to reach the terminus of the street railway at the entrance to the exhibition grounds, proposing to take a car there for home, the noise of the street cars and the popping of fireworks then in progress, and the crowds of people scrambling for a car, frightened the restive young horse. Mrs. Denoon's skirts became entangled in the rig as she attempted to alight, and the horse starting off, the lady was thrown violently to the ground directly under the wheels which passed over her body. She was very severely hurt, and was conveyed in an insensible condition to her home by her husband.

As stated Mrs. Denoon is recovering from the effects of the accident, though it will be some time before she is able to be out again.

FOUND DYING BY THE WAYSIDE.

Terrible Death of a Hope Lady.

Yesterday, Mrs. Joseph Kennedy, of Hope, was driving home from Millbrook, when it is supposed her horse ran away and injured her so that death resulted last night. Mr. Johnston Fair, of Cavan, discovered Mrs. Kennedy lying on the side of the road of the second line of Cavan, where it is supposed she was thrown. The unfortunate women died soon after being picked up. The deceased was thirty-five years of age and leaves four small children.

Consolation race, boys—1 Fred Stinson, 2 J. Workman, 3 Arthur Blade.

ST. ANDREW'S.

The largest and most successful excursion and picnic ever held by St. Andrew's Sunday school was held yesterday.

The school has great reason to feel pleased at the way the friends and parents turned out to see the children have a good time.

The boat left the wharf at 8.15 o'clock a. m., and made great time till it arrived at the mouth of the river, when progress was necessarily slow on account of the large number on board and the lowness of the water. However, this point being passed it did not take long to run over to beautiful Idyl Wyld, and upon arrival everyone felt as if they could do justice to the good things provided.

After dinner a very fine programme of sports was run off, consisting of boys' races, girls' races, blindfold, slow races, hop, step and jump, three-legged race, obstacle race, and throwing the heavy stone.

The competition in this latter event was very keen, but Rev. Mr. MacWilliams was successful in carrying off the prize of a candy walking stick.

After the sports were concluded the excursionists boarded the City of Peterborough and sailed to Jubilee, where tea was served, immediately after which a start was made for home, and the wharf was reached at 8.50 p.m., after a most enjoyable day on the river.

I'ts Poor Economy

To wear Ready-Made Clothing these days—it always was—its particularly so now—and you are not much better off in purchasing from the ordinary every-day custom tailor, who buys in small quantities, pays the long price to the wholesaler and with a limited output, must pay expenses—demand the big price from his customer.

ITS ECONOMY

Of the right kind to patronize the big house which buys for cash, and sells the same way, where every garment is high-class, designed by experts, and put together by high-priced mechanics; where you can rely on having style, finish and honest material in every particular, nothing slighted in the inner work and trimmings where they can't be seen, but fair dealing all around.

Y.P.S.C.E. NOTES.

Boston, '95.

As per promise, we publish below some useful information for those who intend going to Boston.

The Convention opens Wednesday evening, July 10th, and closes Monday evening, July 15th. The meetings will be held in the Main Hall and two tents.

HOW TO GET THERE.

No better rate than single fare has been secured. Ask your nearest ticket agent, he will be able to give you the rate from your locality. The West Shore route from Suspension Bridge, $10.65; sleeping car births $2.50 each way. Niagara Navigation Co.'s boats from Toronto will connect with the U. S. railway at Lewiston, fare $12.05 from Toronto to Boston This is the official route of the Toronto local union, and will leave Toronto by 11 a.m. boat on Tuesday, allowing nearly three hours at Niagara Falls; leaving Suspension Bridge at 5 p.m., reaching Boston at 10.20 following morning.

Canadian Pacific Railway via Montreal and White Mountain route, or Grand Trunk Railway via Montreal and Green Mountain route, same rate over both roads. From Toronto, $13: Ottawa, $11.70; sleeping car berths, $3 extra each way. Boat down St. Lawrence river from Kingston $4.25 more than all rail. Side trip Montreal to Quebec, $3 extra. Tickets good going over the above routes July 8th, 9th and 10th and for returning up to and including July 22nd. An extension of time, however, to July 31st, can be secured upon application to joint agent at Boston. Stop over tickets will be granted to holders of Christian Endeavour tickets on the C.P. R. and G. T. R.

The rate from Peterborough via Montreal on either roads, $12.00, or to join to Toronto delegation, leaving Toronto at 11 a. m., Tuesday, 9th, from Peterborough, $14.35.

WHERE TO STAY.

The Ontario headquarters is at Fourth Presbyterian church, South Boston. The Ontario delegates will be billeted in that neighbourhood.

The average rate for board and lodging in private families will not exceed $1.50 per day and many can be accommodated at lower rates. For room only the average rate 50 to 75 cts per day. Accommodation will not be assigned until Boston is reached. Several dining halls will be located near hall and tents.

NOTES.

It is not necessary to be an appointed delegate to secure excursion rates.

The various provinces will unite in holding a Canadian rally on Saturday evening in the Phillips church, South Boston.

The convention programme and badge will be given at the provincial headquarters, when the accommodations are assigned. The Canadian badge will be the same badge as worn at Cleveland.

John Willis Baer says: "Everything in the way of a big convention is already insured. Accommodation, numbers, eloquent speakers are all certain. It remains for us to say whether we shall have a great convention as well as a big one. Each can do their share towards making it so."

Mr. Baer's suggestions to all societies: "May I suggest to you the devoting of a portion of the time of the prayer meeting immediately before the convention for prayer for the convention? Let earnest petitions go up from all of our thousands of societies, and I do not think it will be inappropriate to ask your pastor whether he will not remember the cause and the coming convention on Sunday, July 7th, in his pastoral prayer. Thus, because of these answered prayers, the convention will be all that we plan for and expect. God grant it.

THE LOCAL EXECUTIVE.

Will meet in the Y.M.C.A. parlours on Friday evening at 8 o'clock. A full attendance is requested. The president of each of the local societies is a member of this committee and should not fail to be present.

The local junior executive will meet on Friday evening at 7.15 in the Y.M.C.A. parlours. All should make a special effort to attend this meeting.

ST. ANDREW'S SOCIETY

Held their consecration meeting on Sunday evening after the church service. The attendance was large and the meeting was bright and lively. Miss Forsyth occupied the chair and introduced the topic, after which many took part and all received a blessing. Next week will be our business meeting and we wish all convenors to have their report.

THE GREATEST CREAMERY.

The largest creamery in the world is located at St. Alban's, Vermont. A few progressive farmers and business men of Franklin County organized a company in October, 1890. The buildings and plant are of the most improved kind. From 12,000 to 20,000 pounds of butter per day are manufactured in summer and about half that quantity in winter. The milk is gathered at 6 separating or skimming stations, whence the cream alone is shipped by wagon or train to the large central creamery. By this method experts of the highest skill can be procured and a product of uniform quality can be turned out at a minimum expense. This is in the line with the most successful manufacturing industries.

After sickness of any kind, complete and speedy recovery is insured by the use of Ayer's Sarsaparilla. It expels all disease-germs which may be lurking in the system and restores tone and efficiency to every organ of the body. It is the best summer medicine.

REGULAR MEETING OF THE SEPARATE SCHOOL BOARD.

Repairs Needed at the Lake Street School—New Seats for the Convent School.

The regular meeting of the Separate School Board was held last evening, there being present Dr. Brennan, chairman, presiding and Messrs. Lynch, LeHane, Doris and Quinlan.

The minutes of the last meeting were and confirmed.

ACCOUNTS.

The following accounts were presented, received and referred to the Finance Committee:

J J Turner & Son	$ 50
Rathbun Co, coal	34 50

Reports of attendance for June:

The Central school,—on register, 220; average, 206. Convent,—on register, 239; average, 204. Lake street school,—on register, 164; average, 142. Total,—register, 623; average, 552.

A communication was received from the sisters in charge of Lake street school asking for some repairs which require to be attended to. Received and referred to the Property Committee.

Mr. Quinlan, chairman of the Property Committee, reported a number of repairs which were needed, and recommended having the same done during the holidays. On motion of Mr. Lynch, seconded by Mr. Doris, the report was adopted.

On motion of Messrs. Lynch and LeHane the Property Committee was instructed to have the 3rd form of the Convent School seated in the same manner as the room seated last year. Carried.

The report was adopted on motion of Mr. Quinlan, seconded by Mr. Lynch.

The Board then adjourned to meet at the call of the chairman.

THE COMING ARTIFICIAL LIGHT.

The Place of Acetylene in Lighting Economics.

Acetylene, a new gas, exceedingly cheap and with remarkable illuminating powers, is made through the medium of calcium carbide—a chemical combination of carbo and lime.

In reference to this matter the following from the Hamilton Herald will be of interest:

"The Herald is glad to learn from Mr. George Black, the manager of the Great Northwestern Telegraph Company in Hamilton, that shortly before Mr. Wilson, the discoverer of acetylene, left for England he placed an order with the General Electric Company, of Peterborough, to manufacture a quantity of calcium carbide for him and put it on the Canadian market by August 1. The company is now busily engaged in producing the calcium carbide, and in a few weeks more we shall know all about it.

Mr. Wilson informed Mr. Black that he intended keeping the Canadian market for himself, but he has disposed of the U. S. market to a joint stock company. As to the cost of the manufactured product, Mr. Wilson stated that in his own crude manufacturing for experimental purposes down south he was able to produce the calcium carbide at $20 a ton, but he hopes to be able to make it in quantities in Canada at $15 a ton. Much of the cost depends on local facilities for supplying the necessary raw materials.

There is no intention on Mr. Willson's part to manufacture acetylene himself or to organize companies for that purpose. He will simply manufacture and sell the calcium carbide to gas companies or private consumers. The citizen who does not care to buy from the gas company can set up a plant in his own back yard and manufacture his own supply of gas at a cost of probably some 25 cents a thousand feet. These particulars are interesting and authentic, as they come from Mr. Willson himself. Mr. Black and Mr. Willson are old acquaintances, Mr. Willson at one time having been employed as a messenger boy in Mr. Black's office.

Druggists say that their sales of Hood's Sarsaparilla exceed those of all others. There is no substitute for Hood's.

Infants' Bonnets Reduced.

THE WHEEL.

Hacket (gloomily)—I tell you, Charlie, this is a hard, hard world.

Sacket (interestedly)—So you have bought a bicycle, have you?

Many inquiries are being made relative to the road race to Lakefield and return. The members of the club are greatly interested and it would be a pity if the matter were dropped.

A motion to restrict the speed to six miles an hour, to force all bicyclists to carry bell and lantern and to put a tax on bicycles is being considered by the Montreal Council.

More bad accidents occurred at the meet just passed into history at Waterloo than at any other similar gathering. No less than ten prominent racing men received scrapes and cuts, the marks of which they will carry for many a long day. At several places on the track, notably at the lower right hand corner and at the head of the stretch, were slight saucer-like dips, which were responsible for a few falls, though to careless riding the majority were attributed.

THE TURF.

The record of Mr. J. J. Burn's Harry B., formerly owned by Mr. H. LeBrun. is 2.21, not 2.25, as printed yesterday. He reached this mark at Toledo on Tuesday, when he won the stake race in straight heats among 18 starters over a half-mile track.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames. We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. POTATO SCAB.

Treating the Seeds Before Planting With Corrosive Sublimate Recommended.

Another disease of the potato which may be largely controlled by special treatment, is known by the name of "Potato Scab." Several causes have been assigned for this disease, such as injuries due to the attacks of insects, the chemical action of some of the ingredients of the soil, excessive moisture, etc., but the common and most prevalent form of "scab" is due to the presence of a minute parasitic fungus known as Oospora scabies. Thaxter, which is easily detected on freshly dug scabby potatoes and which produces the well-known corky patches on the tubers. Many experiments have been made during the last five years to discover a practical remedy for the diseases, and the best results have been secured by treating the seed potatoes before planting with a solution of corrosive sublimate. Prof. Bolley of North Dakota, who was the first to suggest this treatment, recommends as follows:

"Procure an ordinary barrel, and fit into the base a common wooden faucet. Purchase of a druggist two ounces of finely pulverized corrosive sublimate. Empty this all into 2 gallons of hot water in a wooden or earthenware vessel, and allow it to stand till all is dissolved. Place in the barrel 14 gallons of water; then pour in two gallons of solution and mix thoroughly.

"Select as fair seed potatoes as possible; wash off all the dirt, and immerse as many as you wish to treat in the solution, for one hour and thirty minutes. At the end of this time, turn off the solution into another vessel. The *same* solution may be used a number of times if necessary."

Caution: Corrosive sublimate is a very strong poison, and too great care cannot be exercised in its use. The strength of the solution as here recommended is the same as that used in surgery, and will do no harm externally on the hands, but is a deadly poison if taken internally. When finished with, the solution should be poured out into a hole dug for the purpose, away from wells or streams or where chicken or farm stock could obtain any of it. No more of the chemical should be purchased than is to be used at the time, and the vessel must not be accidentally used for any other purpose by which any risk of poisoning could occur. All potatoes treated must be planted or destroyed.

It should be remembered that the best results will only be obtained by planting clean seed in soil which has not previously produced a scabby crop. Smooth, clean-looking potatoes may still bear the germs of the disease, if they have been mixed with scabby tubers, or have been kept in bags or bins where such had previously been placed. The germs of the scab fungus are known to have remained in the soil for three or four years after an infested crop had been removed, and if these germs be present in the soil, the crop produced may be scabby, although apparently clean seed was used. It is claimed that the scab on beets, swedes, carrots and cabbages is due to the same fungus, and that, therefore, when possible, potatoes should not follow these crops.—Dominion Experimental Farm Bulletin.

Grain, Poultry and Hog House.

The accompanying illustration shows an arrangement by which the poultry, grain and hogs can be brought into proximity—an arrangement calculated to lessen the work of caring for both kinds of stock, for both are, to no inconsiderable extent, fed on grain. The plan calls for a storey and a half building with two wings—one of the wings for the accommodation of hens and the

CONVENIENT COMBINATION FARM BUILDING

other for the hogs, pens for each being arranged along the sunny side, with a walk extending the length of the other side. The central grain building has a chamber where a part of the grain can be stored in bins, the latter having chutes to convey the grain to the first floor. If this central building can have a cellar, so much the better, for, in this can be stored roots and vegetables for the use of the fowls and hogs, the cooking of these being done in a boiler set on the first floor. The building should be so arranged that runs and outside pens can be arranged in front of corresponding inside pens in the two wings. The building should be upon well-drained ground.

HOW H. R. H. DRESSES.

The Wonderful Outfit of the Prince of Wales Described.

In a chatty article on the Prince of Wales and his clothes, a writer in Cassell's Saturday Journal says:—As a matter of fact, the "First Gentlemen in Europe" does spend a great deal of money with his tailors. It should be remembered, nevertheless, that much of this is for uniforms. The Prince is popularly supposed to possess seventy military uniforms—and this total is about accurate.

When we remember that a cavalry outfit may cost £150, as a low estimate, and that subalterns entering a line regiment rarely begin with a lower disbursement than £50 or £60, the amount that the Prince's uniforms have cost him is easily to be gauged.

The Prince, of course, possesses, for the most part, Colonel's uniforms, but as a Field Marshal, he is compelled often to renew the terribly expensive outfit suited to that rank; and it is this fine tunic that he appears at most military ceremonials, and at royal weddings, or other great occasions of state. In addition, he possesses many naval uniforms and the dress of a large number of German, Russian and Austrian regiments.

Putting aside the question of uniforms, upon which His Royal Highness cannot spend less than three or four hundred pounds a year, we come to his ordinary dress. It is admitted universally that very few men in town manage things with more taste or have a quicker eye for a good cloth. There are youths, no doubt, whose tailor's bills are far larger than the Prince's, for he is by no means extravagant, although exceedingly particular about his clothes.

Nor does he, says the writer, pay absurdly fancy prices, as many people suppose, being charged at the usual rate of a West End house. This means that a frock coat may cost him twelve guineas, which most people would regard as very "fancy" indeed; a dress suit somewhere about fifteen; trousers four guineas, and an ordinary "ditto" suit from eight to ten guineas.

When in town the frock coat is invariably worn by the Prince. No doubt, during the London season, he "consumes" a large number of these articles—perhaps two a month, of which one will be a lighte grey one.

And it is a habit of his never to wear a coat two seasons running, even if it has only been used two or three times by him. As he is in town perhaps six months in the year, his total of "frocks" may be set down roughly at twelve.

In dress suits he is supposed to be particularly extravagant; but this is *not really the case*. Any man about town has five or six dress suits a year. The Prince may have a dozen, but the story told in a contemporay recently that he had one a week is pure nonsense.

When the Prince is going to Newmarket he often wears a "ditto" suit with a light covert coat over it. In "ditto" suits, perhaps, his total would astonish the humble man who pays his tailor thirty pounds a year and considers that heavy.

It is certain that he never wears one of these suites more than two or three times, and his stock of them is tremendous. Of shooting suits for the autumn he has an immense variety, using a different style of dress for battue work to that adopted for ordinary work with the dogs. Here alone for country dress he can scarcely spend less than a hundred pounds a year.

In the matter of hats, it is a well-known fact that the Prince has three a fortnight, also buying a large number of bowler and square black hats for country use.

At Sandringham there is a hat room with a man whose chief duty it is to keep the Prince's "tiles" in a high condition of polish. In the same place a number of vast wardrobes contain the bulk of the uniforms and clothes which are not in regular use.

Those large scarfs which are now worn with a frock coat often cost half a guinea. There are scores of up-to-date youths who have fifty pairs of gloves per annum; three dozen shirts would be regarded as an absolute minimum. So far as the Prince is concerned, he never wears a pair of gloves twice, and in this, and in the matter of boots, he is unquestionably the best dressed man in the kingdom.

A Constantly Growing Force.

Every Day Gives Momentum to the Success of South American Nervine.

Canadian Citizens from Every Quarter Tell of the Extraordinary Results Following the Use of This Wonderful Remedy.

MR. C. G. CHAPIN, OF BURK'S FALLS, ONT.

There is encouragement in the knowledge that even after the skill of eminent physicians has failed, and many medicines have been used, a certain cure for the diseases of life is to be found in South American Nervine. This is a remarkable medicine, especially when the trouble is nervous debility, indigestion, dyspepsia, sick headache, or a general breaking-up of the system. It has made thousands of cures of Canadian citizens all over this beautiful Dominion, and they have not been slow to sing its praises.

The strength of South American Nervine rests in its being something more than a mere tonic. A tonic will give temporary benefit, but if disease is in the system something more is needed to remove it. South American Nervine possesses all the virtues of a tonic, but more than that, it is a disease-healer. It has been discovered that certain nerves have entire control over the stomach, liver, heart, lungs and indeed all internal organs. When disease comes upon the individual, if a careful analysis is made of the trouble, and things are not gone about in haphazard fashion, it will be shown that the disease has its origin in a derangement of these nerve centers. South American Nervine goes at once to the nerve centers and removes the disease. Then strong, rich, pure blood runs through the veins and gives health and exhilaration to all parts of the system. This is one secret of the power of South American Nervine. But it does not stop here. There is no medicine that is so great a nerve-builder, nor flesh-producer as Nervine. It purifies the system. It imparts to it health and vigor, and builds up the constitution.

Now, this is exactly what was done in the case of Mr. C. G. Chapin, a well-known jeweller, of Burk's Falls, Ont. He says: For years I had been much troubled with nervous debility, and believe I had tried all proprietary medicines, but none seemed to relieve me, until I used South American Nervine. To my surprise the first bottle gave me great relief. I am still taking this great remedy and must say I have not felt so well in years. I highly recommend it to all suffering from nervous disease, for it has made a great change in me."

AYER'S Sarsaparilla

A MEDICINE

WITHOUT AN EQUAL.

Statement of a Well Known Doctor

"Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action, and effects so many permanent cures as Ayer's Sarsaparilla."—Dr. H. F. MERRILL, Augusta, Me.

MEN WON'T MARRY.

THE REASON THEREFOR IS ATTRIBUTED TO THE BAD TIMES.

The Men and Women of To-day Have More Wants Than Their Forefathers—They Expect to Begin Where the Latter Left Off—The "New Woman" Discussed.

The "New Woman" continues to hold the floor, so far as periodical literature is concerned. When she is not discussing man, man is discussing her, and, usually, making something of an effort to laugh at her. H. E. M. Stutfield, in Blackwood's Magazine, has been trying his hand in this direction, with particular reference to Sarah Grand and her "vituperative rhetoric." Speaking in general of the lady novelist of the day, and her alleged neurotic tendencies, he says:

"According to her, man is a vile, degraded being, diseased and enfeebled, as a rule, both in mind and body, and in every respect thoroughly objectionable. No decent-minded girl ought to touch him with a barge-pole. The ladies have picked and pulled his character to pieces till he has not a rag of reputation left, and he stands naked, so to speak, yet, I regret to say, not ashamed."

In a semi-facetious way, he quotes some of Mrs. Grand's recent characterizations of "the man of the moment," to the effect that he is "not of much account," that he is "a skulking creature," "a common creature of no ideals," deficient in breadth and depth," "a subject both for contempt and pity," and growing "ever more effeminate." This last charge is treated seriously, as follows:

"From the physical point of view the evidence all points in the contrary direction. The records of athleticism, so far as they can be taken as a guide, seem to prove that man is improving rather than degenerating. The spirit of adventure is as rife as ever, though the field for its exercise of necessity becomes more limited. Even your young Guardsman, who is usually represented as the type of all that is lazy and dissolute, is not behindhand in volunteering for a Soudan or Nile campaign whenever he gets the chance. Men are as ready as ever to risk their lives in distant travel and exploration, if only for amusement. In the Alps, the Caucasus, the Andes and the Himalayas, peaks are scaled and climbing feats performed which twenty years ago would have been deemed impossible. I do not say that all these things are wise or admirable; but at least they are evidence of latent energy that must have an outlet somehow, of steam that must finds its vent somewhere."

From the moral point of view Mr. Stutfield thinks there is more serious purpose in men's lives than formerly and more high thinking. He then gives the following diagnosis of the situation:

"I cannot help thinking that woman's rebellion in its latest form springs from the altered conditions of contemporary social existence. If 'the sex' are going on strike there is a reason for it. I may be wrong, but I suspect that the movement arises in the main from the celibate tendencies of modern mankind. What is called the Sex Problem, or the Woman Question, resolves itself largely into the question of marriage. In the words of Mrs. Grand, 'the Woman Question is the Marriage Question.' To speak plainly, man's chief crime in the average woman's eyes is that he does not marry her. This is the head and front of his offending, though, as we have seen, many other crimes are laid at his door. Herein we have the real origin of the revolt of the daughters, as the perfectly natural demand of the girls for rather more liberty is somewhat unreasonably called."

The "decline of marriage" is treated as something generally conceded in England, and after quoting a number of opinions regarding the reason for this decline, no two of which agree, the writer goes on to give his own opinion as follows:

"The real reason must be sought in the bad times, in the gloom and uncertainty of the present business outlook. I do not believe that the men of our day are any more misogamists than their forefathers. They are not so romantic, perhaps, for they have lost most of their illusions; but their instincts are no less sound and healthy. They remain bachelors, not because they cannot afford the luxury of a wife. Of my own rich or well-to-do friends by far the larger proportion are married, which would seem to point to the permanence of the matrimonial impulses, so long as the means for satisfying them exist. For most of the others a state of single blessedness is a matter of dire necessity, or at any rate of ordinary prudence. Never was a living so difficult to make as now; never from a monetary point of view, was the prospect more cheerless."

The writer goes into an analysis of the conditions of business and of the professions in England, and finds no reason to believe that the present generation is likely to see the prosperity of our forefathers enjoyed. Profits are vanishing in business, men are learning to adjust their difficulties without the use of lawyers, hard times for agriculture mean hard times for literature, art, the church, the university. What makes the depression all the harder to bear is the training this generation has received. He says:

"Living is no doubt much cheaper but there is a much higher standard of luxury. In other words, people nowadays—men and women, I would observe—have more wants. As the saying is, they expect to begin where their fathers left off. Small wonder, then, if, at a time when the means of satisfying those wants are harder than ever to obtain, and the outlook is such as I have described, the man of modest means pauses before he puts his head into the matrimonial noose. If he does offer himself as a 'candidate for marriage,' it is usually late in life, which, doubtless accounts for the number of elderly Cupids one sees mating with spinsters of uncertain ages. He is no believer in the gospel of depopulation (though sooner or later that knotty problem will have to be faced), but he refuses to recognize the propagation of paupers as a paramount social duty. The command to 'be fruitful and multiply and replenish the earth,' loses somewhat of its force in an age when most people think that the world is too full already."

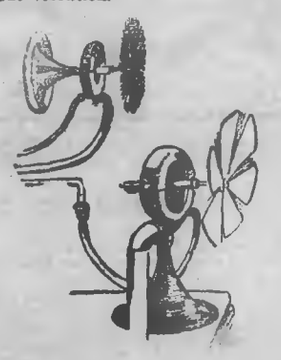
The conclusion of the whole matter is, quoting from Carlyle, that we must lessen the denominator of our desires rather than increase the numerator of our enjoyments, if we are to enlarge the value of the fraction of life.

A WATER-POWER FAN.

A Simple Cheap and Effective Means of Ventilating and Cooling a Room.

We are all familiar with the electric fan, which is now so generally used for giving a breath of cool air, but few people know that there is a fan for the same purpose that may be operated by water-power.

This very convenient and useful device may be attached either permanently by pipe connection, or temporarily by hose to any style of water-cock, and the normal pressure of the water will run the fan at high speed without vibration.



Any house, therefore, that has water connections may have one or more of these fans in operation. Hereto ore they have been used by electric power exclusively.

The accompanying illustration, taken from the Scientific American, shows the fan connected with water-cocks by two different methods.

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

Fifty years of success in curing diarrhœa, dysentery, cholera, colic, cramps, bowel complaints of summer and fall, etc., stamp Dr. Fowler's Extract of Wild Strawberry as the best remedy in the market. It saves children's lives.

"The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

HARVEY COUNCIL.

From Our Own Correspondent.

The Harvey Council met at the clerk's office on the 28th day of June; members all present; minutes of the last meeting read and confirmed.

Communications read from the Ontario Good Road Association; from Miss Jennie Taylor requesting the council to change lot 1, con. 13, from Trennum's assessment to W. J. Hurl as tenant; from E. Fearse, county clerk, with statement of amount to be levied in Harvey for county and school purposes for 1895; from R. D. Thexton requesting to work out his statute labour for 1894,—not granted. The collector was instructed to collect forthwith.

On motion the reeve was instructed to draw orders on the treasurer to pay the following named parties the sums set opposite their names respectively, for work on roads, etc.,—Morgan Adams, $10; Daniel Ward, $20; James Atcheson, $15; R. Gerrard, $5; M. Windover, $5; Wm. Barcroft, $10; Wm. Walroth, $10; C. Allen, $7; W. C. Moore, one steel road scraper, $8; Mrs. Flynn, 24½ lbs of butter for Abbot, $3.92; N. Crowe, expended on road, $10; S. McIlmoyl, $1.50; R. Renwick, Board of Health Officer, for hauling the carcase of a horse out of the lake and cremating the same, $4.

On motion the council adjourned till August 19th to meet at Mr. Flynn's residence.

MOUNT PLEASANT.

From Our Own Correspondent.

The Foresters picnic of last Thursday drew forth a large crowd of people. The weather was delightful, the attendants good natured and provisions abundant. The foot races were hotly contested and evoked considerable laughter owing to their amusing character. Ebenezer and the boundary teams played football which resulted in a score of 1 to 0 in favour of Ebenezer. Omemee was expected to put a baseball team against Mount Pleasant ball-tossers, but the northerners failed to show up and kept the crowd waiting two hours. The secretary might have sent word before the hour appointed for the game to commence that his team could not come, and thus have acted courteously. Our ball players have concluded that Omemee ball players have little sense of the etiquette that governs such matters or they do not act according to their knowledge, and lastly that Omemee is not a baseball town and has too few players to make a team fit to successfully cope with the Beavers of Mount Pleasant.

"Who stole my hay?" The foregoing might have been heard coming from the lips of a highly insulted townsman last week. He had cut one of his eastern fields and intended storing it in his barn, but a nearer resident to the hay place his mighty paw on it and drew it in. The cause of this strange procedure was due to a misunderstanding, which, before explanations were fully made, almost led to a conflict between England and India for blood. We are pleased to state that no claret was spilled.

On Sunday evening, June 30th, at the invitation of Stanley Lodge of True Blues, the Lodges of Lakefield attended divine service at the Presbyterian church, and listened to an eloquent sermon from the pastor of the church, Rev. A. C. Reeves, B.A.

He stated that he was not an Orangeman, a Forester, Oddfellow or a Mason, and therefore all that he would say would be from observation, and he didn't intend that this sermon should refer to Orangemen merely. The subject he would take up would be the characteristics of a good people.

What are the characteristics of a good people? It goes without saying that Orangemen are good people. What are some of the characteristics of an Orangeman?

First. The first characteristic of a good people is Industry. The divine command when God placed Adam and Eve in the garden of Eden was they were to work and toil, for industry began in the garden of Eden.

Work, toil, industry began in Eden. It began with the command and example of God. It is God's will that man should work, therefore honest labour is praise worthy. St. Paul says, "If any will not work whither shall he eat."

The second character is enterprise. Some people work very hard but they do not get along as well as they ought to. They lack enterprise, they are content to go along in the old ways, they are content to follow the old ruts, they are afraid to push out into unknown depths and do not make the progress they ought. If a pushing enterprising man is well balanced he will usually succeed. Now we want enterprise to be a characteristic of our Canadian people.

We want enterprising Christian workers, those who are willing to do even what has never yet been tried. Let us as a nation be enterprising in secular as well as in spiritual matters.

Third. Sobriety.—Drunkeness is a disgrace to any people. It is a disgrace to any order or society. It is a disgrace to an Orangeman, therefore as a nation we should be sober. Parents impress upon your children the duty of keeping from intoxicating liquor. Let us win the boys for Christ. It is the boys, the young men that we must look to in the days to come if we desire to have a strong nation. Members of the Orange Orddr always be particular in regard to the observance of your regulation regarding drunkeness. Do all you can to have your members total abstainers.

Fourth, Tolerance.—No country can ever prosper where intolerance prevails. No people ever will be what they ought to be who are not tolerant one to another.

Fifth, Loyalty.—Patriotism has ever been held as a grand virtue. We are proud of Canada; we are proud of the vast extent of territory within its boundaries; we think highly of our lakes, rivers, mountains, of our rich, fertile fields, of our minerals, of our fisheries, etc. We think highly of our Canadian people, and we exhort all to be patriots—to be loyal to Queen and the Mother Land. A prominent statesman has said: "A British subject I was born, a British subject I will die." Another has said: "Canada first, Canada last, Canada always."

"Such is the patriot's boast where'er we roam.
His first best country is at home."

Let us, then, give Canada and Canadian people a high place in our thoughts and our plans, and thus we shall be loyal and devoted subjects of the grandest empire the world has ever seen.

Sixth, Religion.—We need religion in our land. We cannot possibly get along without it. Christianity must permeat every part of our country. All that is good that we possess in our land is due either directly or indirectly to Christianity. The laws of our land are based on Christian principles. Christianity will change a nation wonderfully, and in seeking to help in Christianity's cause, whether in church, Sabbath school or Christian Endeavour, we are helping our land. It is our duty, as we have already said, to be industrious, to be sober, to be patriots, and we can best be those things (1) by being Christians ourselves; (2) by trying to make others Christians. Let us try to do as good old Whittier says:—

"Our fathers to their graves have gone;
Their strife is past, their triumph run;
But eterner trials wait the race
Which rises in their honoured place,—
A moral harmful of the crime
And folly of an evil time.
So let it be. In God's own might
We gird us for the coming fight,
And strong in Him whose cause is ours,
In conflict with unholy powers,
We grasp the weapons he has given—
The light, the truth, the love of Heaven."

After marching to their lodge room the True Blues passed a hearty and unanimous vote of thanks to the reverend gentleman for his able discourse.

Mr. T. H. Benson spent Sunday and Monday at Orono.

Mr. David Smith and family were at their island on Stony Lake.

Mr. and Mrs. Postlethwaite were up the lakes on Dominion Day.

Mr. Bert Graham has returned home from attendance at Peterborough Collegiate Institute.

Mr. Edwin Benson has gone to his home at Orono to spend his holidays.

Miss Minnie Graham, who has been teaching in Douro, is now home for her holidays.

Mrs. Joseph Maud is visiting friends at Peterborough.

Miss May Nelson is visiting friends at Peterborough.

Mr. Thos. Cox has gone to his island at Stony Lake.

Mr. R. J. Munro went to Port Hope on Saturday, returning Tuesday.

The Orangemen belonging to Beresford, L.O.L., have decided to celebrate at Millbrook this year. They will meet at their lodge room on Friday, July 12th, at 7 a.m., after which they will parade to the train, which is expected to leave here at 7.30. The True Blues and Young Canadians will also go to Millbrook.

The first of July was celebrated here very quietly, a great many going up the lakes on the different boats, and in small boats for picnic parties, while quite a number went from here to take in the picnic at St. Joseph's Hospital and the sports of the Sons of England at Peterborough.

The Golden City carried a very large excursion for the Salvation Army of Peterborough, who were brought here on the regular train, five coaches being attached to the train which were well filled. They returned in the evening well pleased with their day's outing and speaking in the highest terms as to the kindness and courtesy of the captain and crew of the Golden City.

The Golden City will commence her regular Saturday night trips this week.

Scott's Sarsaparilla

AS A BLOOD PURIFIER and spring medicine it surpasses all other compounds. It is a new medicine and contains newly discovered ingredients unknown to any other preparation

IT ACTS WITH ENERGY ON THE LIVER, KIDNEYS AND PORES OF THE SKIN

expelling, by means of these organs, disease germs of scrofulous, inherited, or contagious humours which float in the blood, perspiration and urine.

THE NEW MEDICINE

Its most pronounced feature is its remarkable efficacy in eradicating poison and impurities from the blood, and building up the worn and debilitated parts of the system. Thus, in stubborn cases of scrofula and other diseases depending upon impure blood, quick results are obtained from its purifying and tissue-building properties.

All good housekeepers have a cleaning up time, whip all the carpets, "raise Cain," and turn things upside down generally. That's what we're doing; don't use any Pearline or Sapolio but a good deal of "soft soap and common sense." We've some odds and ends in Summer Hats, that we don't wish to carry over. If you've an odd dollar in your pocket, step in and we'll give you two for it. Here's how we do it:—

Ladies' Sailor Hats, trimmed with Navy blue spot, and some brown and drab, worth 75c, sell for **25c.**

Boys' coloured and white Straw Hats, sold for 40c and 50c, sell for **25c.**

Boy's fine coloured and white Straws, sold for $1.00, sell for **50c.**

Men's High Crown Straws, very fashionable, sold for 75c, $1.00 and $1.25. sell for **50c.** and **75c.**

Boys' 'Varsity Caps, selling from 10c to 25c, worth from **20c** to **50c** each.

These Goods will surprise you with their cheapness.

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

THE USELESS SENATE.

Sir Richard Moves to End or Mend It.

THAT LOP-SIDED FRENCH TREATY

One-Eighth of the Senate Seats Vacant, Despite That All Are Promised—The French Treaty Prevents Canada Securing Reciprocity With the U.S.

Ottawa, Ont., July 5.—The French treaty gave rise to a spirited discussion in Parliament yesterday. It arose upon a motion made by the Finance Minister for the 3rd reading of a bill to extend the advantages given to France to all the twelve or fourteen countries with which Britain has what are known as most favored nation treaties. Mr. Edgar presented a clear and convincing statement of the case as it stands at present. Two years ago the French treaty was closed by the Ambassador for Canada without instructions from the Canadian Government. Not only that, but it was signed by Sir Charles Tupper on behalf of Canada contrary to the instructions of the Government. Mr. Foster said in 1893, "With respect to the extension of the most favored nation treatment that was that was never contemplated by the Government, that was not included in our instructions, and so far as that is concerned was entirely beyond the wish of the Government here."

A year ago the treaty was ratified by the House. Why was the House asked to legislate again in regard to it? Because it had been ordered in the most peremptory manner by the Colonial office to do so. A bill was introduced at an earlier stage to meet the case, but it was not satisfactory to the Downing-street authorities, and they ordered the Dominion Government to pass the legislation before the House. The effect of the legislation is simply this that Canada admits that she can never in future make a reciprocity treaty with any country in the world on fair terms. She can never make a treaty with the United States on fair terms because the benefit of its privisions will not only accrue to the country with which the treaty is made, but to about 20 other countries by Great Britain and by all the colonies of the Empire. If Canada makes a treaty with any country she is, according to the present legislation, bound to give the benefits to every country which under the treaty with Great Britain is entitled to favored nation treatment. When the explanations were given in 1893 this arrangement was not understood by the Government, or if it was understood the facts were kept from the House. The Government's followers were horrified at the suggestion of any discrimination in favor of the United States, but the Government has not hesitated to discriminate in favor of France in the matter of wines.

Mr. Foster said in 1893: "We propose to discriminate neither against the bill which was introduced early in the session proposing to give the Government power by proclamation to issue orders allowing the most favored nations to participate in the benefits of the treaty, but the proposal was not satisfactory to the British Government. A most extraordinary refusal of confidence in the Canadian Government was manifested in the letter that Lord Ripon wrote to the Government here, declaring the reluctant determination on the part of the British Government to postpone the exchange of ratifications with France until legislation had actually been passed by the Dominion Parliament extending the benefits of the convention to all nations entitled under treaty to most favored nation treatment to Canada, and to the British colonies. The Government considered it consistent with its dignity to accept that snub. It withdrew the bill and brought in a piece of cast iron legislation, saying for all time that Canada is bound to an interpretation of a treaty which has not been accepted by the world heretofore, and certainly not by Canada before. Several years ago the Canadian Parliament asked Great Britain to denounce as far as Canada is concerned the treaties with Belgium and the German Zollverein. The request has not been complied with yet, and the Government has put another yoke on the necks of the Canadian people.

These points were amplified and emphasised by other speakers, Mr. Casey, Mr. Mills (Bothwell), Mr. Laurier and Mr. Davies. Notwithstanding all that was said the bill was adopted by the House "on division."

Upon the motion to go into supply Sir Richard Cartwright called the attention of the House to the letter written by the Premier to Mr. McNeill, M.P., denying the story that that member had asked for or been promised a seat in the Senate, and making the remarkable statement that all the ten vacant senatorships had been long promised. He began by referring to the letter as a most "guileless letter." The first and most curious thing which was apparent in it, Sir Richard said, was the utter contempt with which the Premier regarded the Senate, although he, himself belonged to that body. It was apparent that he regarded it merely as a donkey engine to the party in power. He considered himself under no obligation to appoint senators to fill the vacancies in it, except as party exigencies might require. It evidently made no difference whether senatorships remained vacant for 2, 3, 4 or 5 years, so that it suited the Government to do so. This being so it might be that there would be found in the country people who would think that if it was a matter of no consequence whether one-eighth of the seats in the Senate remain vacant for two or three years, it was a matter of no consequence if 88 of the seats should remain vacant. Sir Richard said he was not going to consider the value of a second chamber in the abstract. But the worst enemy of the Senate had never injured it as much as the Premier, when he published this letter. He had more than justified every charge which had been brought against it. The vacancies had long been promised, Sir Richard Cartwright repeated. "To whom?" he asked. "Why have they been so long promised? Why have the appointments not been made?" It used to be said that good Americans go to Paris when they die. It appeared to be a part of the Conservatives creed in this country that good Conservatives go to the Senate after they have served the Government so well in this House that the people have no further use for them.

The House was entitled to know what had caused the delay. Why should a member of this House carry around in his pocket for a long time the promise of a senatorship if he remained good and continued to support the Government? He could understand it where a member was serving as a warming pan, keeping a seat for a minister until he should find it convenient to take it. This reference to Mr. Temple and the Finance Minister directed the eyes of the House in their direction. He would not suggest that any of the promises were contingent upon sufficiently liberal contributions to the party funds. (Oh, oh!) It was now two months since the facts became known and said Sir Richard, "I have looked in vain for a single ripple of discontent upon the placid bosom of the Senate." (Laughter.) He would have thought that the simple instincts of self-respect, if not of self-preservation, would have impelled that body to compel the Government to redeem the promises and fill up the vacancies. If there was one thing more than another which goes to show that the Senate was hopelessly partisan it was the fact of this insult and that nothing had been done about it. It was a grave reflection upon the way the patronage of the Senate had been administered by the Government.

It was absolutely at variance with sound constitutional principles and a menace to good government. (Hear, hear.) It was under these conditions useless for the Senate to hope to command public respect, and it was in danger of being a costly and expensive encumbrance unless it could be turned to some use.

In its present shape it is absolutely and purely mischievous. It was a mere costly and expensive nuisance unless it be reformed."

As for the letter, it was delightfully immoral. The Premier evidently saw nothing wrong about it. He did not see how atrociously he was misinterpreting his responsibility. It showed how his conscience, his political conscience, may be seared by a long course of gerrymanders and mock charges, cooked up to burk a parliamentary investigation. The Premier was morally color-blind, the usual result of men who come to regard themselves and their party as the state. The Premier had established the fact that the Senate must be either reformed or abolished. The question which the House should set itself to decide was whether it should end it or amend it. (Hear, hear.) It had become a political partisan club and one which the Government does not condescend to treat with ordinary courtesy.

In conclusion, he said there was some curiosity from a constitutional point of view to hear what defence would be made for the Premier's conduct.

Before sitting down he moved the following resolution:

That it appears from statements made in this House that the Premier did on April 2, 1895, address the following letter to Mr. McNeill, M.P.:

Privy Council Office,
Ottawa, April 2, 1895.

A. McNeill, Esq., M.P.:

My Dear McNeill,—I have no doubt you have seen, as I have, notices in the papers that you had been or were to be offered a senatorship. I know of no man in the Commons whom I would rather see elevated to the honorable and responsible position of a senator than yourself, but the rumor must have been set afloat by persons having some ulterior object in view, as no such offer has been made, nor has it been considered. Certainly a senatorship was never asked for by you, either directly or indirectly. Moreover, such a step is precluded for the present by the fact that there are no vacancies that have not long since been promised. Trusting that you may be successful in the contest before you, I remain, etc., sincerely yours,

MACKENZIE BOWELL.

That it further appears that the vacancies referred to in the above letter, occurred on the following dates: Ontario, Hon. Billa Flint, died June 15, 1895. Quebec, Hon. W. H. Chalers, died July 16, 1894. New Brunswick, Hon. John Glasier, died July 7, 1894. Quebec, Hon. Joseph Tasse, died Jan. 17, 1895. Ontario, Hon. Elijah Leonard, died May 14, 1891. Quebec, Hon. G. G. Stevens, died April 15, 1892. Quebec, Hon. Sir J. J. Abbott, died Oct. 30, 1893. New Brunswick, Hon. A.E. Botsford, died March 18, 1894. New Brunswick, Hon. John Boyd, died Dec. 4, 1893. Nova Scotia, Hon. T. D. Archibald, died Oct. 18, 1890.

That the conduct of the Government in allowing one-eighth part of the total number of Senatorships provided for in the British North America Act to remain unfilled in the circumstances set forth in the above letter and this resolution is in the highest degree derogatory to the dignity and usefulness of the Senate, and is calculated to bring that branch of the Legislature into contempt.

No one rising to defend either the Premier or the Senate, the vote was immediately taken, and the resolution was defeated by a straight party vote of 95 to 55.

Found Floating Under the Falls.

Niagara Falls, Ont., July 4.—A floater, the body of a man, was found in the river near the Maid of the Mist landing to-day, on the Canadian side. The body was identified as that of A. Woods, a Buffalo commission merchant, who had been missing since Saturday. He has a sister residing at Springford, near Ingersoll.

Batch of Buffalo Fatalities.

Buffalo, July 4.—This was a morning of fatalities. The bell of the telephone in the Coroner's office rang out death calls one after the other. Inside of an hour Coroner Kenney had four cases reported to him, as follows: Mrs. Joseph Clark, burned to death; Christy Fryer, drowned; unknown boy, drowned; Wojcieck Szalcki, heart disease.

HANGED BY A LOVER.

His Death a Test of Faithfulfulness.

STRUNG UP BY HIS FIANCEE.

Her Parents Poisoned Her Mind—Beside Put the Rope About His Neck, Her Father Appeared, and the Strong Pull of Both Did the Rest.

Ramirean, Tex., Juyl 5.—Yesterday, on the witness stand, after a most rigid examination by the coroner, Miss Bessie Harris, the pretty daughter of a wealthy farmer, broke down and confessed that she hanged Albert Blackman, a suitor, of whom she was insanely jealous.

Blackman's body was found hanging to a tree in a lonely spot a short distance from the town, and the general impression was that he had committed suicide, but there were several who did not accept this theory, and they suggested to the coroner that he subject Miss Harris to a severe examination, as it was known that the dead man was last seen in her company. She was put upon the stand to-day, and requested to tell all she knew about the case.

She said that Blackman, who was a well-to-do young farmer, had been courting her for some time, in opposition to the wishes of her parents. Her father and mother did not object to the young man on account of any of his habits, for he was industrious, sober and abundantly able to provide a comfortable home for their daughter. They maintained that she was too young, being scarcely 18 years old, and they had hoped she would take a fancy to a relative living in another state, whose name she steadfastly refused to divulge. Finding that they could not change her affection for Blackman by threats, they adopted a more certain method, and began a systematic attack upon her jealous nature. They told her that Blackman was simply making her ridiculous, and that he was engaged to another girl. The poison thus planted spread and took possession of the young woman, until she determined to kill Blackman. She gave him no chance to explain away the reports her parents had furnished of him, and did not even mention that she suspected him of infidelity.

At her father's suggestion, she requested of Blackman that he give her a test of his love by letting her hang him, promising to cut him down in time to save his life. Blackman was so desperately in love with the girl that he readily submitted to the test.

On the night of the murder she took a long walk with him, and lured him to a lonely spot, where her father was in hiding with a rope. Excusing herself for a moment, she procured the rope, and, returning, placed it about Blackman's neck. She says he expressed little fear of the result, as he felt sure she did not have strength enough to pull him from the ground.

After the rope had been pulled over the limb and drawn taut, her father appeared, and he and the girl pulled Blackman from the ground and tied the rope. The poor fellow struggled terribly, and she would have cut him down, but her father mentioned the mythical other young woman, and her heart hardened toward the lover who was slowly strangling to death. After the body became rigid she untied the rope and lowered the form to the ground.

Even then she felt no pangs of remorse; but, with the assistance of her father, arranged the body and the rope so that it would appear to have been a case of suicide.

Her confession caused a pronounced sensation, and there was talk of lynching the parents of the girl. This was averted by the promptness of officials, who, immediately after her confession, placed them under arrest and spirited them away. The girl has also been arrested on a charge of murder.

Football Championship for 1895.

The knowing ones are speculating on the football possibilities of the season. Ottawa is not likely to retain the honours of the championship, as Queen's will put in a team sure to smash all records. It is often the case that very slight causes will lose a victory. It is stated that a painful corn made useless one of the best American players. It follows that no team can hope to win this year that neglects to supply its members with Putnam's Painless Corn Extractor, the only safe, sure, and painless remedy for corns.

FALL EXHIBITIONS.

The EXAMINER has received copies of the prize lists of three important exhibitions. The Central Canada at Ottawa Sept. 20th-28th, the Toronto Industrial, Sept. 2nd-14th, and the Canadian Northwest Territorial Exhibition at Regina, July 29th to August 7th. Exhibitions fall naturally into the Canadian scheme of progress, and perform a most important function in promoting our agricultural, stock breeding, dairy, fruit growing, manufacturing and other interests. It is impossible to calculate the advantages all these interests have received from exhibitions of the kind mentioned. The domain of the district and county exhibitions are equally important, and serve local interests with very beneficial results. Because a county council refuses assistance it does not go to show that exhibitions are not useful and important. Those who control the local exhibition society have only to show the greater energy and one good way in which this energy can be well shown is by following the examples of the larger societies and issuing their prize lists promptly. An early issue means a larger exhibit. Persons who may feel inclined to exhibit will, if the prize list is placed early in their hands, make early preparation and larger exhibits than they otherwise would. The West Riding Society should take this to heart and have their prize list issued and circulated. Agricultural societies in these days of keen competition will stand a large amount of booming.

THE gas meter has had a long innings and has made big money for its proprietors, but these proprietors—in Toronto at least have to disgorge a little. Chancellor Boyd has decided that all gas plant including mains, is liable to municipal taxation. The matter has been appealed to a higher court.

THE new Imperial Cabinet has nineteen members, the largest number on record. However, before the Imperial cabinet becomes proportionately as numerous as the Canadian one, it can take eighty or a hundred more in. We have no lack of ministers in Canada, but we could easily sacrifice a good deal of quantity for a little better quality.

THE Marquis of Lansdowne is already in Salisbury's cabinet. If the Earl of Dufferin goes in also there will be two men in the new government who have filled the office of Governor-General of Canada. May this not almost be considered, asks the Toronto News, as a first step towards adopting the principle of colonial representation in the Imperial councils?

THIS is the Hamilton Spectator's warning to the members at Ottawa: "An Ontario member may vote for remedial legislation at the bidding of his party leader; but it doesn't end there. When that Ontario member seeks re-election he will be lost in the storm that will rise against him. The people of Canada are waiting anxiously for the decision of the Government. It means a great deal to the country; it means a great deal to the Conservative party." From its past record one is impelled to the belief that the Spectator is much more concerned about the fate of the Conservative party than the country. The "Spec" has always stood up for its party in spite of its policy of taking it out of the country.

IN the past sixty years during which Queen Victoria has reigned the following Ministers have held office for the periods stated:—

	Yrs.	Days
April 18, 1835, Viscount Melbourne	6	141

THE popular impression that the maltreatment of prisoners at the Central Prison is the cause of the dread of a criminal to sentence in that institution, is incorrect. The Toronto World has investigated a charge of a discharged prisoner of harsh and cruel treatment of inmates, and finds "there's nothing to it." No prisoners are fogged but by order of the court. Nor are prisoners even given solitary confinement, and the food is ample, as shown by the prison register, which gives the information that almost every man leaves the prison weighing several pounds more than when he entered it. Of course the inmates have to work hard, and that's the main grievance. Persons who have the crude creed that the world owes them a living, and take to criminal means to collect their dues, would naturally object to honest work. It's very proper, however, that they should be made to work and pay for the bread they eat, bought with the earnings of honest toil.

TEN years ago when Mr. H. Gummer assumed proprietorship of the Guelph Herald he promised extensive improvements, and the number for July 2nd now before the EXAMINER is a splendid fulfilment of that promise. It appears in an entire new dress, in fact it will appear in a new dress every day, for the Herald news type is set from a Rogers typograph which sets and casts type for every issue. The display type is from the Toronto Type Foundry. The Herald presents a bright, clean, typographical countenance, and behind that countenance there is intelligence. It is full of breezy news matter, with a proper complement of crisp well digested editorial matter. Mr. Gummer is to be heartily congratulated upon the great success he has made of the Herald, and under his energetic management, it will doubtless, as we hope it may, make as great strides in the next decade as it has in the past. The Herald achieves, and what is better, deserves success. Long may it flourish.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

SALISBURY'S POLICY.

Strong Imperial, Colonial and Domestic Programs

London, July 4.—The Chronicle will to-morrow publish what purports to be a confidential document summarising the Government's policy under the Radicals. Under the first head is the Imperial policy, including a stroing navy; the second head is devoted to the colonial policy, including the development of Africa and improved facilities of intercourse between the Mother Country and the colonies.

The third head treats of the domestic policy, embracing poor law reform, the easy transfer of land, removal of the registration grievances, restriction of the immigration of paupers, aliens, financial reforms, the amending of the employers' liability act, facilities to enable workingmen to purchase dwellings, agricultural legislation and other matters.

Colonial Agents Consult Chamberlain.

London, July 5.—Right Hon. Joseph Chmberlain, Secretary of State for the Colonies, received the colonial agents this afternoon. Sir Charles Tupper headed the party. The proceedings were strictly private.

It is learned that Sir Charles Tupper referred to the obligations Mr. Chamberlain had conferred on Canada in discharging the delicate duties of plenipotentiary in the negotiations anent the Treaty of Washington in 1888. Although the treaty was subsequently rejected by the Senate, the modus vivendi practically operated to the present day.

Sir Charles said he hoped, on behalf of himself and his colleagues, to have the same ready access to the Colonial Minister on matters affecting the colonies as had always been accorded them by his predecessors.

Mr. Chamberlain expressed his pleasure in meeting the representatives of the colonies. He said he was gratified to receive officially his friend Sir Charles Tupper, and to hear how his labors in connection with the Treaty of Washington had resulted in undoubted benefit to the good relations between the United States and Great Britain. He declared that he had long felt the importance of drawing closer the United Kingdom and the colonies. He would at all times be made to interchange the freest communications with the colonial representatives.

At last the doctor said he would not get well unless an operation was performed. At this time we read about Hood's Sarsaparilla and decided to try it. Before he used half a bottle his appetite had come back to him, whereas before he could eat but little. When he had taken three bottles of the medicine he was as well as ever." FRANCIS J. Le Var's Rich Stakes

London, July 4.—The Princess of Wales' stakes of 10,000 sovereigns, for 3 and 4-year-olds, a straight mile, 187 subscriptions, at Newmarket to-day was won by Mr. Henry Milner's Le Var, by Economy, out of St. Marguerite, Mr. Henry Milner's None the Wiser, by Wisdom, out of Carrie Roy, 2, Mr. Leopold De Rothschild's Utica, by St. Simon, out of Biserta, 3. The other starters were Lord Rosebery's Sir Visto, 3, Mr. Cannon's Garbogs, 3, Gen. Williams' Priestholme, 4, Lord Durham's Son of Mine, 4, Prince Soltykoff's Speed, 4, Mr. Cox's Choice, 3, Mr. Singer's Missal, 4, and the Hampton Court Stud's Champs d'Or.

At the start Choice made the running from Le Var, Son of Mine and None the Wiser, with Missal and Utica next and Priestholme last. The horses ran in this order until two furlongs from home, when Sir Visto hoisted signals of distress, and Choice was also beaten soon afterwards. Le Var going to the front and winning easily by a length.

The betting was 6 to 5 on Le Var, 20 to 1 Utica, 10 to 1 None the Wiser, 5 to 1 Sir Visto, 12 to 1 Garbogs, 14 to 1 Priestholme, 20 to 1 Son of Mine and Speed, 50 to 1 Choice and 100 to 1 Missal and Champs d'Or.

FARMERS CAN WORK ON SUNDAY.

Seventh Day Adventists Win the Test Case Brought Against Robert Watt of Howard Township.

Windsor, July 4.—One of the most interesting cases with which the attention of Squire Forban's court has been engaged for some time was finally disposed of yesterday. On the 10th of June Robert Watt, Selton, Howard Township, was given a hearing on the charge of breaking the Lord's Day by hauling rails on his farm on May 5. The evidence showed that the rails had been undoubtedly hauled, but the defence set up that the law in the case did not affect the farmers.

The most interesting plea of the defence was that Sunday is not the Lord's Day. Mr. Watt is a Seventh Day Adventist, and conscientiously observes Saturday instead of Sunday as the Sabbath. He follows the Scriptural injunction, and works six days in the week and rests the seventh, and cites the commandment to this effect in support of his contention. Mr. Watt is deacon of a church with 42 members, and the case has been watched with a great deal of interest, as everywhere Adventists work on Sunday and the effect of the decision would be widespread.

The Crown refused to look at the religious side of the question, and dealt only with the first part of the defence—that the law did not affect the farmer. After deliberating on it nearly a month, the Crown attorney and the magistrate agreed that the law was not applicable in the case of Mr. Watt, as he is a farmer. The defendant was therefore discharged.

The Adventists watched the case with intense interest. The case was brought by some Methodists of Thamesville as a sort of a test case. The Adventists are disappointed that it was not settled from the religious standpoint, as great principles are involved.

Wanted to Mail a Corpse.

Cincinnati, July 4.—A man called at the postoffice last night and laid down a small linen bag filled with a substance resembling sand. He asked for sufficient stamps to pay for its delivery in Germany. Asked what the bag contained the man said it was the ashes of his 9-year-old daughter. The package weighed nine ounces. The stamp clerk declined to name the postage, and sent the inquirer to the post-master. The post-master was out, and the man went away.

TURN THOSE FOSSILS OUT.

The Upper and Lower Houses in New South Wales at Daggers Drawn.

Sydney, N.S.W., July 4.—The Legislative Council has been notified of a motion to refor mthe council by abolishing the life tenure, making the existing members eligible for renomination by the governor, limiting the term of office to five years, limiting the number of members to 60 and reducing their powers.

The motion is in accordance with the proposals of Prime Minister Reid, but it will not be received by the Council on the ground that it is an insult to that body.

The Legislative Council has returned the Newcastle Harbor bill to the Assembly with amendments. Prime Minister Reid, in a speech filled with bitter invectives, moved that it be thrown under the table, as the council had invaded the rights of the Assembly. Ex-Prime Minister Dibbs demurred, and a division was taken on the motion. Mr. Dibbs alone was in the minority.

Some members of the council who were in the galleries, interrupted Mr. Reid, whereupon he exclaimed: "Turn those fossils out." The galleries were then cleared. It is expected that the Legislature will be dissolved to-morrow.

BIG BLAZE IN BRITISH COLUMBIA.

A Cannery, Planing Mill and Schooner Burned Total Loss $165,000

New Westminster, B.C., July 4.—Brunnette's sawmill, together with a drying kiln, box shed and blacksmith shop, was destroyed by fire yesterday, and a sash and door factory adjoining, owned also by Brunnette, was damaged. Laidlaw's cannery, with its contents, was also destroyed. The schooner Northwest, which was loading lumber at the Brunnette wharf, was badly damaged. Loss on Brunnette's mill, $120,000; insurance, $5000. Loss on Laidlaw's cannery, $40,000; insurance unknown. Loss on schooner, $5000; no insurance.

Three Stabbed by a Chinese Convict

Auburn, July 4.—Keeper Jenkins was assaulted this morning by Lung Poi, a Chinese convict, who stabbed him in the back and shoulder with a shoe knife. Two trusty convicts came to his aid and one of them was cut completely through his right hand, while the other also sustained several cuts.

China Has to Pay Japan $288,000,000.

Washington, July 4.—According to a despatch received from Minister Denby at Pekin, the exact amount of the war indemnity to be paid by China to Japan under the provisions of the Shimonoseki treaty is 288,800,000 Mexican silver dollars.

INTERPROVINCIAL ACCOUNTS.

To straighten out the accounts between the Dominion and the Provinces of Ontario and Quebec, the members comprising the Interprovincial Accounts Arbitration sat all Monday at the Parliament buildings, Ottawa. After some preliminaries, Mr. Girouard entered into an exposition and defence of the claims of Quebec to a further amount from the Common School fund, which lasted through the entire sitting. The matter was disposed of in 1878, when the Privy Council, on an appeal from Quebec, ordered $1,733,000 to be apportioned between the two provinces. Quebec is now claiming a total amount of $3,000,000, and if her claim is conceded this will mean a further payment by Ontario of some $4,000,000. It is worthy of note that the fund in question originally came altogether from the sale of Ontario lands.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

Was it Unparliamentary?

At a session of the Belleville town council, when that body was deliberating in committee of whole the other evening, one of the aldermen took occasion to "call the Mayor down" and this is the language he used in doing it,—"Sit down sir, you are not fit to hold the position you occupy and you could not get it again if you come to live a thousand years. Thank God they broke the mould when they made you."

Is it a New Pest?

The other day Mr. John Wood, of Ashburnham, noticed a potato vine cut off. He investigated and discovered that a little brown worm with an orange head, about a quarter inch in length and a sixteenth in diameter, had burrowed inside the stock and cutting it through at the point had destroyed the stock about six inches from the ground. This is the only worm of the kind, he said, and it is a matter of speculation as to whether this is a forerunner of an insect pest anxious to compete with our old friend, the potato ug.

THE ARRIVAL OF THE GRAY FAMILY.

Detective Murray Hands Over the Prisoners.

THEY ARE NOW IN THE COUNTY GAOL.

The Six Little Children Accompany their Parents to Canada—Theirs is a Hard Lot, if the Friends of the Family do not Come to the Rescue—The Youngest is not a Year Old Yet, and the Eldest but Twelve.

For the past two or three days nearly every incoming train has been met by those expecting to see the Gray family arrive in town under the escort of Detective Murray. This morning a large number of the friends of the family were at the C. P. R. station when the 11.25 express steamed in from the west. Amongst the passengers who alighted were Mr. and Mrs. Gray and their six children, in charge of Mr. Murray.

A large number of those present stepped forward to express their sympathy with the prisoners, and the easy way in which they accepted the state of affairs was a matter of general comment.

The Oriental Hotel 'bus, followed by a crowd of curious sightseers, brought the party up to County Magistrate Edmison's office, where Mr. W. A. Stratton, counsel for the defence, was in waiting.

AFTER A BRIEF DELAY,

it was decided to remand the prisoners until Friday, July 12 next at 2 o'clock p.m., but it is understood that the Crown will not be ready to proceed until Tuesday, 16th. County Constable Cochrane conducted the whole family up to the gaol buildings under instructions from Mr. Edmison to see, that if any of the former friends of Mr. and Mrs. Gray wished to relieve them of the charge of any of the children, that they be permitted to make any arrangements to that end.

Mrs. Gray's first words, on talking to a reporter, were :—"Is McGregor arrested yet?" On being told that he was not, Mrs. Gray had nothing to say.

Mr. Gray, on being asked when he first heard of the re-opening of the question concerning the death of the late David Scollie, stated that he learned of it through the papers. He had been ill for a couple of months, being subject to that dread malady "chills and fever," so prevalent in the South, and such a source of terror to visitors from the North. The sheriff came out to his residence just three weeks ago today and placed him under arrest.

It was not until the following Sunday that Mrs. Gray was

BROUGHT TO THE GAOL,

and until then the husband did not know his wife was jointly accused with him of the horrible crime of murder. As the family of little ones, six in number, could not be left to shift for themselves, they also were placed in the gaol, which is described by all as being a place beggaring description.

The husband, wife and children were placed in an iron lattice work cage in the centre of a quadrangle surrouded by the Court buildings. Every class of criminal was indiscriminately thrust into this place of confinement. In the daytime the inmates were exposed to the boiling rays of the southern sun, and at night the deadly malaria had free access to them. Confined in the cage were a number of negroes and an insane woman whose cries in her fits of frenzy could be heard half a mile away.

On arrival at Ocala, Detective Murray applied for a "writ of detention" to the sheriff, who journeyed over to Jacksonville

IN THE NEXT COUNTY

to procure it, whilst the detective completed the arrangements for the transportation of his prisoners. The first perplexity which arose concerned the children. There were six of them, the eldest will not be 13 until August, and the youngest is not yet a year old.

Mr. Murray had no instructions about the children and did not know what to do regarding them. The officers in the south, however, settled the matter in their own peculiar fashion by stating that unless the little ones were taken along, the parents should not be removed. The detective telegraphed to the department in Toronto for instructions and was authorized to do as he thought best, so he brought the entire family with him, the parents waiving the right to demand extradition papers, thereby saving the detective a great deal of trouble.

The Grays have had a hard time of it for the last year, as their crops failed, forcing Mr. Gray to work on the railroad at sixty five cents a day, while his wife picked berries for three dollars a week. The

FARM OWNED BY THEM

is about 10½ acres in size and at the time of leaving the new crop was just coming in and promises a plentiful harvest.

The journey as far as New York was by water and the rest of the trip by rail. The start was made on Sunday last, but many delays were incurred through the poor connections which were made.

Mrs. Gray states that she was uncivilly treated on the journey by the railway and steamer officials as it became known they were being brought to Canada to be tried on a charge of murder. She was very sea sick on the steamer but the officers, she states, made no effort to relieve or offer her any comfort. Since leaving Ocala she had no opportunity of sleeping, nor did she have much of a chance to do so in the gaol at the town in which she lived on account of the other inmates.

Mr. Gray, on the contrary, has nothing to complain of, with the exception of the fact that, travelling as they did, in first-class coaches, he

WAS UNABLE TO SMOKE

as much as he wished. He cannot bestow too much praise on the kind treatment of Detective Murray, but for whose care and attention, he states, the little ones would have fared badly, indeed.

The following extract from a letter, written by the late Mr. Seward, who wintered in Florida, will under the circumstances prove most interesting :

The climate here is very pleasant in the winter, clear and bright. The rains come on in July, August and September, very seldom raining in the night. The roads in the rainy season are excellent as the rain packs the sand—no mud nor snow—but owing to the saline atmosphere a cool wind prevails from the north, causing much discomfort. People are not prepared for cold, so they suffer somewhat. There are no pretty lawns here—grass plots being so much trouble to keep in order. Only a few make the attempt and it generally is a dismal failure. Flowers there are in abundance and beautiful foliage of all kinds. But you can never get rid of the sand—it meets you everywhere. It spoils a great deal of the pleasure given by walking and driving in the dry season, as the wheels drag through the deep sand, and one quickly tires of walking in the loose, hot shifting sand. The summer is long and tedious, relieved, however, in the middle of the summer by the trade winds. Cool nights prevail the year round. Catarrh also prevails in a mild way. People easily catch cold here and many come here with well developed consumption and die of it. Then again persons with weak lungs come here and rapidly improve, especially asthmatic patients, who find great relief here. People from the north, settled here, prefer this climate, dreading the cold winters of the north. They get used to the insect pests that abound in the summer—red ants, jiggers, fleas, gnats, musquitoes—and resign themselves to the conditions that surround them.

At the end of the summer season it is a difficult matter to get a variety of food. Everthing is scarce and dear. Milk, for instance, 10 cents a quart ; good meat, 20 and 25 cents per lb.; small chickens, 30 and 40 cents per chicken ; eggs 30 cents a dozen.

EVERYONE ENDEAVOURS

to get their product on the market of the east early in the season, and in the middle of summer the markets here are bare. Fish is reasonable in price. The frost is the enemy most feared. In one night thousands of dollars worth of damage is done. The growing orange groves are sometimes utterly destroyed, causing great financial loss.

Nothing can be raised here without expensive manures. On a half acre of strawberries they will place a ton of fertilizer costing $30 per ton and so on. An orange grove is a very expensive thing to run and a bad orange season or a glut in the market causes great financial loss. Little manure—little crops, plenty of manure—large crops, which all is of no use if heavy frosts set in or a glut in the market ensues. The fools are not all dead yet. They come out here in shoals from the States, invest their money and lose it and gain wisdom by experience.

But this one thing must be said in favour of Florida—that thousands of delicate men and women regain their health here. This is a fact. As a climate it stands unrivalled on this continent, not excepting California.

EXTRADITION PAPERS.

The extradition papers that Detective Murray took with him to Ocala, Florida, but which were not used, owing to the Grays waiving extradition proceedings and voluntarily consenting to return to Peterborough, are a formidable document consisting of nineteen type written pages. The first sheet is the certificate of John W. Coppinger, American Consul at Toronto, being his certificate of the legal and sufficient authenticity of the depositions, of Robt. McGregor, Mary McGregor, Jas. McGregor, E. J. McDonald, David Lawrence, Zach Burnham, J.G. Weir, John Cavan, M.D., and J. A. Primrose, M.D. The document, which is adorned with a bronze seal, resembling a hammered brass plaque bearing the spread eagle, was followed by County Crown Attorney Wood, of the identity of Mr. George Edmison, with the County Police Magistrate of Peterborough.

Then comes a copy of the information laid by High County Constable Cochrane on June 11th. Then the warrant to apprehend, issued to Detective Murray by County Police Magistrate Edmison. Lastly come copies of the depositions taken, including the report of the autopsy of Drs. Primrose and Caven. Their reports concludes in the same words as follows :—

"Having examined the body (of David Scollie) I am of the opinion that the head could not have been removed and totally destroyed by fire alone without having produced more destruction of the remaining portions of the body. The condition found is consistent with the theory that the head was first removed and the remaining portion of the body subsequently exposed to the fire."

LACROSSE.

Though the game of lacrosse played at the Driving Park yesterday ended very disastrously for the visiting team from Madoc, yet the game was not so one-sided as the score of six to one in favour of Peterborough would seem to indicate. With such old and well-tried lacrosse men as Cross, the two Collinges, Whytock and Griffin on the Madocs, no team could afford to "play" with them.

The visitors' weak point lay in their defence, which after securing the ball seemed unable to throw it far enough to get it out of danger, and consequently it would be right back on their flags again. In combination work the Athletics were far their superiors, and the brilliant work of Galley, Rubidge and McDonough on the Peterborough home was so quick and sure as to completely non plus the Madoc defence. Their passing of the ball was indeed a sight to witness, as were Lipsett's sure shots on the flags when the ball was sent in to him.

The teams lined up on the field as follows :

Peterborough.		*Madoc.*
F Dobbin	goal	J Stoneburg
F Boland	point	R Collinge
Brown	cover point	T Kirk
Joe McDonough	1st defence	C Kirk
W Thompson	2nd "	J Kirk
J McDonough	centre	C Whytock
R Glover	3rd home	A Griffin
P Rubidge	2nd "	A Collinge
W Galley	1st "	E Lynn
Jack McDonough	outside home	C Cross
Geo Lipsett	inside home	G Burns
P J Doris	field captain	C McDonald

Referee—Mr. Harry LeBrun.

The ball was faced off at seven minutes after three and neatly taken by Tom McDonough down into the Madoc territory where after some fast stick work, Lipsett passed the ball to Glover, who made a capital shot on the flags. The goalkeeper managed however to stop it and the next minute the ball had been passed down the field in dangerous proximity to the Peterborough goals, while Madoc's star player Cross made an effort to score and was only prevented by Dobbin's great work between the the flags, where he played a "stone-wall" game all afternoon stopping shots which appeared almost certain to score.

The quick under arm tips of the Peterboroughs seemed to puzzle the Madocs greatly for a time. This method of passing the ball is evidently far superior to the old lobs. The combination work of the home players strongly reminded one of the famous forward line of the Peterborough hockey team, and it would have been hard to overcome such play.

Rubidge did some great work in this game, and in fact he played magnificently throughout the match, doing as good work as has ever been seen on a lacrosse field. Once he learns the art of shooting on goal accurately, Rubidge's equal as a home player will be hard to find in the province. Galley ably seconded him and the two played the star games of the day. Galley finally scored for Peterborough after 16 minutes fast play. During the game Dick Collinge, Madoc's point man, had to retire, his knees giving out. Roly Glover, who had been playing a very fast game, went off with him.

The next game was not nearly as long. The ball was right on the Madoc flags from the start until Jack McDonough, seeing an opening, passed across the field to Galley, who had eluded his check, and the latter scored in 2½ minutes.

When the ball was faced for the third game Madoc took a hand in the fun, but Peterborough's great defence was there, and though the ball was hovering around the posts all the time Boland, Brown, Joe McDonough and Thompson covered their checks so well as to give them no chance to score. Thompson, who played a very strong defence game all through the match, finally secured the ball and made a great run down the field with it. He passed to Tom McDonough, who slipped it over to Galley, but the shot on goal was cleverly stopped by Stoneburg. It was a very pretty exhibition, and the Madoc men also did some clever passing immediately afterwards, but Tom McDonough eventually got the ball and with Galley and Jack McDonough made a brilliant run down the field, the ball being so quickly and swiftly passed from one to the other that it was impossible to tell half the time just which player had it. The sphere was shot in to Lipsett, but the goalkeeper was again quick enough to stop it before it passed him.

Whytock relieved the flags and Cross and Griffin carried the ball up the field by good stick-handling. The shot which was made on the Peterborough goal was lightning like in its rapidity, but Dobbin was equal to the emergency and made the cleverest stop of the day, when he saved this flags.

When either Rubidge or Galley got the ball the spectators expected to see some good play, so when after 15½ minutes play Rubidge secured it and started for the Madoc goal with Galley running parallel with him, some fun was looked for and witnessed. The two men kept the ball to themselves till an opening presented itself when Rubidge scored, winning the third game for Peterborough.

Madoc made a most determined effort to score and though Peterborough's defence worked hard and Brown covered himself with glory by his sharp checking, the flags could not be saved, and Cross scored the first game for Madoc in seven minutes.

As the games now stood 3 to 1 in Peterboroughs favour, the Madoc defence closed in around their flags resolved to keep the score to these figures if possible. It took some very clever work to draw them away from the goal, but the trick was finally done and an opening left for Lipsett to score in five minutes.

In the next game "Dot" Brown made a great stop in front of Peterborough's posts and with a magnificent throw sent the ball far away out of danger. It was captured by Rubidge, who seemed to be just where he was wanted every time. He passed it to Lipsett, who scored in eight minutes.

Galley scored the next game in three minutes, and although time was not up the Madocs hastily called their men together, and gave three cheers for Peterborough. After the compliment had been returned, the Madocs heartily congratulatulated the local team, predicting for them an easy win of the C. L. A. championship.

The decisions of the referee were most satisfactory.

Field Captain Doris worked as hard as any player.

Peterborough should now run up against Orillia again. Such a match should draw well.

YACHTING.

The "Britannia" rules the waves, and seems very loth indeed to part with her supremacy. Tuesday in a twelve-knot breeze she defeated both the "Ailsa" and the "Valkryie" handsomely. The race was a thorough and beautiful test, so far as can be judged, from beginning to finish, and all three boats seemed to have kept pretty close together over the entire course. The "Britannia" beat her rivals by from two to four minutes actual time, and as both have to give her time allowance, she defeated the "Ailsa" by about five minutes and the "Valkyrie" by about eight minutes corrected time. It seems to have been apparent to the spectators of the race that the "Valkyrie III" gained on the "Britannia" whenever the wind lessened, and lost whenever the wind was strongest. The heaviest winds sent her over so far that she was sailing on her beam ends, and then she went slow; when the wind eased aff and she righted she immediately moved more speedily and began to gain on her rivals. It must be remembered that the Valkyrie was built with special reference to the conditions of wind and water off Sandy Hook, and was deliberately made tender and over-sparred in order to fit her for her transatlantic work. In this connection, however, it is not altogether reassuring to recollect that the "Vigilant" did best against the "Britannia" in the highest winds and heaviest waters. The "Ailsa" seems to have done remarkably well yesterday as compared with her own work recently, and this is the more surprising inasmuch as it was generally believed that she was altogether too tender for such weather as that of Tuesday on the Clyde.

BASEBALL.

Guelph is surely crazy on baseball. They have twenty-seven regularly organized teams there, including the champion Maple Leafs, who have played six games and won six this season. On Monday, in a match with Hamilton, the had 1,500 people at the morning game and in the afternoon 4,000. George Bradford, a Belleville boy, pitched in the afternoon game and only seven scattered hits were made off his delivery, whilst he made two hits in the morning and 2 in the afternoon.

What has become of our smart Vatican Park nine, which made such a name for itself in previous years?

The Maple Leafs, of Guelph, did the hat trick on Dominion Day, winning three straight matches in one series. They calcimined the Crescents, of Toronto, putting up 15 runs to a big duck; they defeated Hamilton by 7 to 6 in the morning, and in the afternoon did up the same team by a score of 18 to 1. The champions are apparently good for the pennant again this year.

CRICKET.

Campbellford, July 2.—The Campbellford cricket club went to Millbrook yesterday and defeated Millbrook by an innings and 18 runs. The batting of Stott and Tait of Campbellford was the feature of the day. They went in with three wickets down for nothing, and carried the score to 65 before Tait was disposed of by a Yorker from Van Homrigh. Tait, Stott, Nancarrow and Freich bowled well for Campbellford, while Lefroy, Van Homrigh and Wood trundled well for Millbrook. Score,—Millbrook 29 and 43, Campbellford 90.

—Almost every ocean bound freight steamer that leaves Canada's shores this season for the old sod contains about as many young men working their passage over as it does live stock. Just what they do with these fellows, the majority of whom don't know one end of a cow from the other, it is hard to say, but we are creditably informed by one who has "been there" that when a storm comes up and the ship tosses gloriously in the long Atlantic rollers they are stood up in rows between the cattle to keep them (the cattle) from being injured.

—The legality of keeping a child in school after regular hours for not learning his lessons was tested in an English court recently, when the mother of the little boy had the headmaster attend court. The judge, on giving his decision, said that the headmaster had no authority to impose on children the duty of studying at home and he therefore had no right to detain him, and he also said that in his opinion this detention amounted an assault. As the plaintiff in the case did not wish to push it, the matter was discharged on paying costs. Canadian teachers can take the lesson home.

ORANGE AND GREEN IN BOSTON.

A Riot in Which One Man is Killed and Several Injured

Boston, July 4.—A riot took place in East Boston this afternoon during a parade of the A.P.A. lodges, Patriotic Sons of America, Orange Lodges and other anti-Catholic organizations. It began with the exchange of insults between the paraders and the thousands of sight-seers who lined the sidewalks, and ended with the killing of one person and the injury of two others. The affair was known as the Little Red schoolhouse parade, and was intended as a demonstration against Separate schools under religious authority. There were about 1200 men in the parade, and they marched under the protection of 300 policemen, who not alone led the parade, but flanked the column on both sides for a hundred yards.

At the very end of the procession, which was without police protection, came a barouche, drawn by four gray horses. In the carriage were O. S. Emerson, H. Roberts, Mrs. O. S. Emerson and Mrs. F. J. Campbell. The carriage was profusely decorated with American flags and Mrs. Campbell wore an orange dress. When the rear of the procession was between Brooks and Putnam-streets, in Saratoga-street, the crowd closed in. A drunken woman marched up to the rear of the carriage shouting loud insults.

One of the men pushed the drunken woman back. One of the men in the crowd fell upon the man with loud shouts. A milk can sailed through the air, falling into the carriage. The occupants of the carriage shouted for help. Albert E. Andrews of Everett, a private in the Roxbury Horse Guards, was standing on the sidewalk near by. He was in full uniform with his sabre at his side, having been a member of Mayor's escort in the morning. The bright yellow costume of his helmet attracted the attention of the struggling ladies in the carriage. "Help us, soldier," one of them cried. Andrews rushed into the thick of the fight, drawing his sabre as he ran. The crowd fell back a second, and then rushed upon the wearer of the plume. Four men stood by Andrews, one of them brandishing two revolvers. The street then became a battle ground. Gradually Andrews was driven up Saratoga-street. Twice he fell. The men with the revolvers fired two shots. Andrews slashed and feinted with his sabre as he retreated, but cut only one, when a young man named Stewart of Brooks-street had his nose slashed off.

Capt. Irish detailed three mounted men to the rescue. They came down Boston-street on the gallop. At this time Andrews and his supporters were nearly done for. Officer A. S. Bates, one of the detail, was struck by a brick immediately on arriving on the scene. A number of his teeth were knocked out.

With great difficulty Andrews was protected till he reached 440 Saratoga-street, where he dashed under Bates' horse and escaped over a fence into his father's house. The mounted officers held the crowd at bay 10 minutes more and then a platoon of 14 officers dashed to the rescue, clubbing right and left. Many heads were broken before the crowd went scurrying down Saratoga-street.

Michael Doyle of Morris-street was clubbed so severely that he is now dying at the city hospital. John W. Willis lies dead at the East Boston Police Station. Patrick A. Kelly has the back of his head split open, and John Quirk suffers from a wound just above his left temple. During the fight a number of the paraders drew pistols, and began firing indiscriminately.

Willis, the man killed, is said to have been an involuntary participant in the affair.

Just a few feet from Willis stood John Ross, one of the paraders. Ross pointed his pistol at Willis, according to the testimony of a man who stood next to him, and fired. The bullet struck Willis just above the right hip, passing into his abdomen. The wounded man fell to the pavement. When Willis fell John Quirk sprang towards him, and bent over the bleeding body. He claims that Ross pointed his pistol at him and fired again, the bullet grazing his right temple.

Ross and a man named Harold C. Brown were arrested on suspicion, while many persons are held as witnesses.

IMPALED ON A STAKE

Horrible Accident to a Farmer in His Barn.

Lyons, N.Y., July 4.—Charles Bastian, a North Lyons farmer, was unloading hay with a patent hay fork in his barn. At each corner of his wagon was a sharp stake. In walking back and forth he fell upon one stake, so that the stake struck him under the chin, and penetrrated through the chin, palate, floor of the mouth, tongue and hard palate, and, dislocating several teeth, came out through the upper lip, passing squarely through the tongue. By a superhuman effort Bastian grabbed the stake and drew himself so that he got loose. The doctor says it is a wonder Bastian escaped without breaking his neck.

SLEPT WITH THE CORPSE.

Extraordinary Confession of Murder By a Woman in Paris—Kept the Body a Month Before Confessing.

Paris, July 4.—M. Cochefert, chief of the detective department, on July 1 received the visit of a woman named Marie Lebot, who made to him a confession of murder of a most extraordinary kind. After giving her name and address she said:

"Monsieur, a month ago I killed my lover, Georges Remond, with a hatchet. I killed him when he was in bed, where he still remains. Under the influence of remorse I have come to give myself up."

At the Surete hardly a day passes without similar statements being made, most of which turn out to be false. M. Cochefert therefore thought that he had to do with another lunatic.

A couple of policemen were, however, sent to the address indicated, when it was found that the woman had spoken the truth. A corpse in an advanced state of decomposition, covered with canvas from head to foot, was lying in the woman's room.

M. Cochefert then questioned the neighbors. He was informed that Marie Lebot constantly quarrelled with her lover, whom she kept tormenting to give her money, and that at times she even assaulted him. One of the neighbors remembered hearing about a month ago a violent dispute between them, which was probably the one which ended in the murder.

"I heard the sound of voices," she said, "in violent dispute. The woman was demanding money, which the man refused to give. Suddenly I heard the victim say, 'Marie, give me back my purse!' This was followed by a loud noise, as if they were fighting. This, however, did not last long, and silence followed."

From this time no one saw any more of Marie Lebot. She, nevertheless, continued to return late each night, and slept alongside the corpse until the dreadful effluvia exhaling from it drove her from the room.

The decomposition only began after a considerable lapse of time, for the murderess took the precaution to have the window open each time she left the room and the corpse, exposed to the cold, did not begin to decay. This explains how it was that the neighbors noticed nothing.

Georges Remond was an ex-soldier of the Foreign Legion. He had a pension of 750 francs a year, and it is thought that on the day he received his quarter's allowance the woman murdered him. He was 45 years of age.

From investigation made yesterday by M. Cochefert, it appears that the woman Lebot, after the crime, made the acquaintance of a man who sold millet in the streets. She lived with him after she was forced to quit the room where the murder was committed. The money stolen from her victim she spent with her new lover.

The body of Georges Remond has been transported to the Morgue. M. Anquetil, examining magistrate, has been entrusted with the investigation of the affair.

Presbyterian Distribution Committee.

Hamilton, July 3.—The Distribution Committee of the Presbyterian Church held its first meeting for the ecclesiastical year yesterday in St. Paul's Church, Hamilton, lecture room. There were present: Dr. Cochrane of Brantford, chairman pro tem.; Dr. Torrance of Guelph, secretary; Mr. Grant of Richmond Hill; Mr. Shearer of Hamilton, and Mr. George Rutherford, Hamilton. Appointments were given to 14 probationers and ministers to preach in the 27 charges applying for the 77 Sabbaths' supply—about three Sabbaths to each charge. The clerk was again instructed to remind presbyteries of the injunction of the General Assembly to report all vacancies to the committee, and take supply according to the regulations laid down.

Murdered Her New-Born Babe.

Sunbury, Pa., July 3.—Sallie Crumis, a young unmarried woman employed as a domestic on a farm near here, gave birth to a child in a hen-coop and to conceal the fact murdered the infant. She carried it into the woods some distance away and filling its mouth with leaves and dirt strangled it. She then concealed the body under a log and returned to the house, where she confessed to the murder. A jury returned a verdict of infanticide against her.

"SUN" LIFE

Assurance Co'y of Canada.

Explanation of the Company's System of Profit Distribution.

The method of profit distribution of most companies is to give a bonus or profit on the sum assured, irrespective of the premiums paid. The Sun Life of Canada allots its profits to policies in proportion to the premiums paid, which is considered to be the more equitable system. This accounts for the variations in the percentages of the accompanying results. The lower rates given below are, in most cases, on young lives. The examples are taken from the Company's claim register as at the end of 1894, for the first 5 years.

EXAMPLES OF PROFITS AND BONUSES

PIN IN HIS APPENDIX.

Swallowed It When a Boy and Dies at 32 From Appendicitis.

Ceres, July 4.—Charles Bridge, a lumberman and farmer, who lived on Sartwell Creek, 10 miles southeast of Ceres, died yesterday, and a pin caused his death. When a small boy he swallowed a pin, which lodged in the vermiform appendix.

Not until last January did the pin trouble him. Then appendicitis set in. He went to Buffalo on Jan. 26, and Dr. Roswell Park removed the vermiform appendix. The patient improved and returned home, but a relapse set in a few weeks ago, and death came yesterday. Mr. Bridge was 32 years old.

TRAIN DERAILED BY A WAGON.

The Train Had Broken in Two — The Second Half Came to Grief

Alvinston, July 4.—As the accommodation train of the Michigan Central Railway was coming west this morning, about ten miles east of here, it broke in two. A milk drawer, John A. McKellar, was waiting for the train to pass, and not noticing anything wrong attempted to drive over the track, when the second section of the train struck his rig, killing his horses and derailing six cars.

From a Buggy to Eternity.

Millbrook, July 4.—Mrs. Kennedy, wife of a farmer living in North Hope, was thrown out of a buggy last night and fatally injured.

Fatal Explosion on a Torpedo Boat.

Spezzia, Italy, July 3.—While the torpedo boat Aquila was undergoing trials to-day her boiler exploded. Five men were killed and 13 injured. The other six men aboard of her escaped injury. The vessel was badly damaged.

Four Lives Lost by an Explosion.

Howard, S.D., July 4.—A boiler explosion in the Howard Roller Mills last evening almost destroyed the building, killed the engineer and seriously injured five other persons, three of them probably fatally. The two proprietors of the mill are not expected to live.

Burned to Death by an Oil Stove.

Buffalo, July 4.—Mrs. Joseph Clark, of No. 112 Gorham-street, was so severely burned by the explosion of an oil stove on which she was cooking that she died in great agony. The deceased was 32 years old, and was born in Newfoundland.

Canadian Drowned in Michigan.

Manistique, Mich, July 4.—William Arnott, a lumberman [illegible] drowned in Manistique River [illegible] miles from here. Tuesday [illegible] slipped off a [illegible] into the river, and it was [illegible] ours before his body was recovered. His home was in Canada.

Killed In Avoiding Arrest.

Quincy, Ill., July 3.—Henry Dumers, a negro, was shot and killed here this morning by Policeman Haselwood, while murdering a young girl named Mary Smith, with whom he had been keeping company. Dumers had his knees on the girl's body, while with his right hand he dealt blows about the head and throat with a knife. When the officer appeared upon the scene Dumers attacked him, and the officer killed him. The girl is in a dangerous condition.

OXON AND CANTAB ATHLETES.

New Records Made at the Annual Contests — Foy's Long Jump Beaten — Horan's Fast Three Miles.

London, July 3.—There was a large and fashionable attendance upon Queen's Club grounds, Kensington, this afternoon to witness the annual athletic contest of the Oxford and Cambridge teams.

The 100 yards dash was won by Jordan, Oxford; time 10 3-4 seconds. Maine, Oxford, second.

Watson of Cambridge won, putting the weight 37 feet 9 inches. The high jump was won by Gardiner, Oxford, 5 feet 5 inches; Lubbock, Cambridge, second. Lutyens, Cambridge, won the mile run easily in 4.23 2-5; Rathbone, Cambridge, second. The 440 yards dash was won by Fitzherbert of Cambridge.

The hurdle race, 120 yards, was won by Oakley of Oxford in 16 4-5 seconds; Pilkington, Cambridge, second, and Scott, Oxford, third. Oakley finished a yard in front of Pilkington, who was only a foot ahead of Scott.

Robertson of Oxford won the contest in throwing 16-pound hammer 116 feet 7 inches.

Mendelsohn of Cambridge won in the long jump, 22 feet 5 1-2 inches, beating Foy's record.

Fitzherbert won the 44 yards dash in 50 seconds. Jordan, Oxford, second.

The other event of the series, the three-mile run, was won by Horan of Cambridge; Oxford winning four and Cambridge 5. Horan won the three-mile run by 150 yards in 14.52.

Mr. W. J. Oakley, president of the Oxford A.C., said: There is not the slightest possible chance of Oxford joining Cambridge in a contest against Yale.

At the conclusion of the Oxford-Cambridge Athletic games at Kensington today the Oxford and Cambridge joint committee met and decided they would decline to accept Yale's challenge to meet the latter with a joint team. Cambridge, as the winner of to-day's contests, has the preference in the matter of meeting Yale singly. The Cambridge men have not yet decided whether they will do so or not, but it is extremely probable that they will.

FITZSIMMONS IS FREE.

Declared Not Guilty of the Murder of Con Riordan.

Syracuse, July 3.—Fitzsimmons is free. Shortly after 8 o'clock to-night the jury filed in before a crowded court room, and after they had answered to their names their foreman announced the verdict, "Not guilty!" Immediately a tremendous cheer went up. Such a boisterous demonstration has not been seen in the Onondaga County court house in many years.

TO ROW ACROSS LAKE ONTARIO.

Bert Carpenter Proposes to Row From Lewiston to Toronto.

Lewiston, N.Y., July 4.—Bert Carpenter, one of Lewiston's expert oarsmen, will row in a skiff from H. Brown's boathouse to Yonge-street wharf, Toronto, a distance of about 38 miles. He expects to make the trip in 12 hours. Carpenter will carry no compass, only a single pair of oars. The venture is not for money. The attempt will be made July 13.

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalizer saved my life, I consider it the best remedy for a debilitated system I ever used." For dyspepsia, Liver, or Kidney trouble it excels. Price 75 cts. Sold by John Nugent, 339 George street.

"The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

SUDDENLY WENT MAD.

A Victoria County Farmer Loses His Mind and Becomes Dangerous.

About a year ago last Christmas Mr. Thomas Forbare, who lives on a small farm near Rettie's station, in the township of Somerville, had an attack of la grippe, from the effects of which he did not fully recover, though he soon got able to go to work.

A good while ago his friends noticed that his mind appeared to be affected, and from time to time advised him to consult a doctor; but he always refused to do so, and gradually got worse until Tuesday last, when, while doing statute labour on the roads, he suddenly shouted: "I'm going mad! I'm going mad!" and then, gnashing his teeth, he rushed at several of the men who were working with him.

He bit Mr. David Chalmers severely on the arm, though, fortunately, he did not draw blood, and then tried to bite others, but was soon overpowered; and his brother-in-law, Mr. James Rettie, hastily hitching a horse to a buggy, drove to Fenelon Falls and got a warrant for his relative's arrest from Mr. Jas. Dickson, J. P. Mr. Rettie was accompanied upon his return by Constable Nevison, who effected the arrest, kept his prisoner safe until Wednesday morning, when he took him to Fenelon Falls, where Mr. Dickson, after the usual preliminaries, committed him to the jail at Lindsay as a dangerous lunatic.

The unfortunate man is about forty years old and has a wife and four children. —Watchman.

IS THERE GOLD IN THE NORTH COUNTRY?

The Alleged Discovery of a Very Rich Deposit in Hastings.

The Buffalo Express publishes an interview in which Mr. O. R. Sprague, of that city gives a roseate account of his gold discoveries near Madoc, in Hastings county, Ontario. Here is his declaration as to the value of his discoveries:

"You couldn't buy the whole thing for a hundred million. I am confident of taking out much more than that in the next five years if I should decide to work all the mines that could be opened, and there is no lack of capital ready to be put right into the business as soon as I can show that it is paying property. It is a game where one can't lose, and even people who have been bitten by stock in fraudulent western mines are convinced of the value of this tract as soon as they see the ore we get. An old western miner, who was up that way the other day, after looking over my property, said:—"If I had this place I'd undertake to pay off the national debt of the United States inside of five years. That's just the way it strikes everyone."

Mr. Sprague says he has acquired the mineral right to about 7,000 acres, and that there is scarcely 100 acres in the tract in which many paying mines could not be sunk. A sample, the size of which is not stated, when assayed in Buffalo contained gold at the rate of 2,500 ounces to the ton of quarts. He claims that one assay showed gold at the rate of $200,000, but pleaded unsuccessfully that it should not be published, wisely fearing disbelief. That yield would require more than one fourth of the quarts to be pure gold. The mine now being worked is described by Mr. Sprague as a shaft nine feet square and twenty feet deep. He has taken out about 200 tons of ore, which he hopes will average $60 a ton. The vein, it is claimed, gets richer as the shaft is lowered, and the sanguine proprietor hopes to have $1,000,000 in sight in a few weeks. In hopeful enthusiasm he declares that you can go anywhere on 7,000 acres, and pan gold out of the surface dirt in paying quantities.

Unlike any other object in nature a gold deposit seems to expand in dimensions as its distance increases. And due allowance must be made for the fact that Mr. Sprague is viewing the Hastings county mine from his own city of Buffalo. From Toronto the find might appear much smaller, and out in the township of Madoc its appearance might be proportionately less. Mr. Sprague has made several assays of the ore, but has not yet undertaken the work of separating on a commercial basis. When he does he may have a repetition of the experience of many miners in the Hasting gold field. The ore is in many places rich in gold, far richer than much that is successfully worked elsewhere. But when subjected to the ordinary processes of separating it proves so obstinate that the waste and expense eat up the profits. The gold deposits have not been waiting for capital, enterprise or intelligent prospecting. They have been waiting for the invention of a successful process of separating the gold from the ore. It would be fortunate for that locality, and in fact for the whole province, if Mr. Sprague's expectations were realized. But as he has brought forward nothing new in the line of scientific discovery it would not be wise to speculate heavily on his prospects of success.

The foregoing, taken from the Toronto Globe, is in the main correct. At present a very careful test is being made of the chlorination process of separating, which was unsuccessfully tried by the Consolidated Mining Company on the ores from their mines in Marmora. The result has not yet been reported, but rumor is favourable so far. The wild talk attributed to Mr. Sprague is unworthy of serious consideration, but that we are on the brink of a great movement in gold mining—indeed, in other mining as well—in our north country is the belief of those who are best informed in the premises.

NIGHT AND DAY.

The June issue of Night and Day is prefaced by a statement "From the Absent Editor," from which it appears that owing to ill-health Dr. Barnardo nas had for a while to leave his work to the care of others. He earnestly asked friends "not to permit his great family of waif children to starve during his absence," an appeal which the committee endorse. The magazine bears abundant testimony to the urgent claims of the Homes upon the benevolent. Nearly five thousand rescued boys and girls are under institutional care, and the daily calls upon the funds for the support of such an army may be imagined, while it appears that it is during the summer that the income of the Home falls to its lowest ebb. The second emigration party for the year of trained boys and lads will be sent to Canada, if funds permit, on Thursday, 27th inst. It is claimed that nearly 99 per cent. of the 7,500 children already emigrated have turned out well. Among the announcements is that of "Founder's Day" at the headquarters of the Homes, 18 to 26 Stepney Causeway, on 4th July, which is Dr. Barnardo's Jubilee birthday. A street collection over as wide an area as possible is to be held for the Homes on Saturday, 29th June. The usual complement of illustrated case-histories, and a pathetic page entitled "Somebody's Bairns," will appeal to all lovers of destitute children. The other contents include a highly interesting article by the editor which tells the story of how his Girls' Village Home at Ilford was established.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 389 George Street.

MOOSE COMING SOUTH.

(Bobcaygeon Independent.)

As the Columbian was starting out on its trip to Rosedale last Thursday, when passing Plum Point, within a mile from the wharf, and in shouting distance of Petrie's mill, Mr. Jas. Purdy, who has the eagle eye of the hunter, and is ever on the alert for game, noticed a head with long ears, in the water, near the shore. Just at that moment the Point came between the boat and the animal, but Mr. Purdy felt tolerably sure it was a moose. Friday morning he went up to investigate, and found unquestionable evidence of two moose having been there for some ten days or two weeks. The tracks were plain and one by actual measurement was six inches by four and a half. Places where they had lain were numerous, and the underwood had been broushed off, and limbs broken off at the height of over eight feet. There was a well beaten path to the lake, like a cattle track, and the weight was shown by the deep impression made in hard, dry ground.

It appears now that the moose were seen on Sunday week by Mr. Hugh Anderson and family, as they were coming in to church. The moose were quietly feeding in Mr. Kelso's grain field, close to the road, and Mr. Anderson says that the one was somewhat larger than the other, that they had immense long ears, and that he never saw a cow so large as they were.

The two were seen again on Monday last, in Wm. Lyle's field which adjoins the big swamp. After brousing a while they sauntered along to the marsh, and cleared a six foot stake and rider fence, and they were not doing any fancy picnic jumping either, or feeling much like jumping anyway.

The prohibition of hunting them, for the last five years, has clearly been most beneficial. Not only are they more numerous, but they are tamer, roaming about without fear of molestation. The closure has very properly been extended, and the fine for killing them is a heavy one.

A ROSE JAR.

ractical Hints as to the Manufacture of its Contents.

Here is a recipe for the old-fashioned kind that lasts, a rose jar filled by this precise plan in 1832 being fragrant yet. Gather the roses in the early morning as soon as the dew has dried off, and select only the most fragrant varieties. A large quantity of roses or of rose leaves dwindles into a very small quantity of dried leaves, be it remembered.

Given a peck of roses, pick off the leaves and sprinkle over them three-quarters of a pound of salt. Let them remain two or three days, and if fresh leaves are added each day sprinkle additional salt on them.

At the end of three days mix with the cured rose leaves half a pound of finely pounded bay salt, the same quantity of allspice, cloves and brown sugar, a quarter of a pound of gum benzoin and two ounces of orris root.

Add one gill of brandy, and any sort of fragrant flowers, such as orange and lemon flowers, lavender and lemon scented shrub, or any other sweet scented shrubs. They should be perfectly dry when added.

The mixture should be occasionally stirred and kept in close-covered jars, the covers to be raised only when the perfume is desired in the room.

If after a time the mixture seems too dry, moisten, using only brandy, and but a few drops. Essences, too, soon lose their quality and injure the perfume of the potpourri

"Swapping Dollars."

All good housekeepers have a cleaning up time, whip all the carpets, "raise Cain," and turn things upside down generally. That's what we're doing; don't use any Pearline or Sapolio but a good deal of "soft soap and common sense." We've some odds and ends in Summer Hats, that we don't wish to carry over. If you've an odd dollar in your pocket, step in and we'll give you two for it. Here's how we do it:—

Ladies' Sailor Hats, trimmed with Navy blue spot, and some brown and drab, worth 75c, sell for 35c.

Boys' coloured and white Straw Hats, sold for 40c and 50c, sell for 25c.

Boy's fine coloured and white Straws, sold for $1.00, sell for 50c.

Men's High Crown Straws, very fashionable, sold for 75c, $1.00 and $1.25, sell for 50c. and 75c.

Boys' Varsity Caps, selling from 10c to 25c, worth from 20c to 50c each.

These Goods will surprise you with their cheapness.

THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

One pint of kerosene, at a cost of about one cent, will give a pure, healthy, clean light for two hundred or more hours; i.e., twenty-ten hour nights. Sold only by

C. B. Routley.

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

AT TURNBULL'S.

The Carpenters and Builders are now busy tearing down and making alterations, and our stock must still be reduced in every department. In order to do this we intend to make the bargains such that you will not mind the noise of the hammer and saw or the dust and dirt.

We will have to vacate our Millinery Show Room shortly and take the stock upstairs for a time, and we are now giving special bargains in this department preferring to make a sacrifice rather than carry them over.

We have just received some repeat orders in Duck Suits, Blouses and Shirt Fronts, very choice goods. Also several patterns in Navy and Light Blue Stripe Prints. These are very scarce goods but will be sold cheap.

NO REMEDIAL BILL.

The Conservative Government Backs Down.

AFRAID TO KEEP PROMISES.

They Betray Those Who Trust Them.

They Promise for Policy but Break Faith to Keep Offices—French Conservatives Dissatisfied—Dalton McCarthy Scores a Victory Over the Conservative Party.

Ottawa, July 5.—The desire to know the result of the deliberations of the Cabinet to-day was as keen as ever on the part of members. Shortly before 3 o'clock it was in everybody's mouth that there would be no Remedial Legislation this session, and if this view is confirmed by the Premier and his First Lieutenant on Monday prorogation will take place within a week.

It was freely expected that an official announcement would be made in both Houses to-day; but, as will be seen from what follows, it has been deferred until Monday.

In the Upper House, Senator Scott said: "The session is drawing to a close, and many members are anxious to know if we are to have any important legislation, and particularly with regard to the Manitoba school question."

Sir Mackenzie Bowell replied: "I think I shall be enabled to give the House definite information upon the particular point to which the hon. gentleman has called attention at the opening of the session on Monday. I may intimate that there will be no new legislation of any importance that I am aware of in addition to that which is already before the two branches of Parliament this session."

Mr. Scott: Do I understand that the Government have not yet decided upon the legislation with regard to the school question?

Sir Mackenzie Bowell: I do not think I gave any intimation as to whether they have decided or not. I said I hoped to beable on Monday to give the House definite information as to what course would be followed by the Government.

In the House of Commons, Mr. Laurier brought up the matter as follows:

"I beg to remind the leader of the House of his promise to make a statement to-day, to which we have been looking forward with much interest."

Mr. Foster: I did not make a definite promise that I would make a statement to-day. I said I might. I have, however, this to say to my hon. friend and to the House, that the deliberations of the council have so far advanced that I am able to say that on Monday, when the House assembles, I will make a definite and positive statement.

Mr. Laurier: That is the last.

Mr. Foster: That is the last. (Laughter.)

The Premier's statement is looked upon as confirmatory of the report that Remedial Legislation is deferred.

The reason for this is not difficult to seek. Your correspondent is in a position to declare that a Remedial Bill, drafted by the officers of the Department of Justice, was laid before council, and that the consideration of this measure, embracing over 150 clauses, was commenced. It is reported that there was practical acquiescence of all the Ministers with the preamble, but that when they came to settle down to discuss details a deadlock ensued. It was found to be impossible to agree upon a measure and submit it to Parliament, and hence reluctantly the Quebec Ministers had to agree to it going over to another session.

Le Canada, which is closely in touch with Mr. Ouimet, sizes up the situation to-night as follows: "Our adversaries, desirous of stirring up public opinion, pretend that dissensions exist in the Cabinet on the school question which may be fatal to the Government. These statements are, as usual, lacking in truth. We believe we are in a position to affirm that the Ministry is unanimous on the question of principle, and that they have arrived at the irrevocable decision that a remedial law must be passed at once on this principle. It appears that the necessary consideration which a measure of at least 150 clauses will require will take up considerable time. The questions arise, then, as to whether the Government should retard for several weeks more the close of the session, or whether it should not put over the passage of a Remedial Law to a session in the autumn. Whatever decision may be reached, we can guarantee that Parliament will not be dissolved before the Ministry has presented to the House of Commons an effective Remedial Law, with a view to its adoption."

The decision of the Ministry not to bring down a Remedial Bill this session is regarded as a distinct victory for the Ontario wing of the party. It is certain that the result does not give satisfaction to the Quebec Conservatives. They say very little, but they are thinking a good deal. What haunts them is the fear that if Parliament is once prorogued, then the House may be dissolved and the Government go to the country before a Remedial Law has passed.

It is significant that soon after the decision of the Government became know a straight party division was called in the House, and several Catholic Conservatives abstained from voting, although within sound of the division bells. Few of the Catholic members, moreover, are visible to-night, and it is evident that they are quietly sizing up the situation, which, to say the least, is still critical.

The Quebec view was forcibly put to your corerspondent by a prominent politician from that province to-night. Said he:

"Is it better for us as a party to retain Quebec by rendering justice to the Catholics of Manitoba, or should the support of Ontario be retained at the expense of committing an injustice to the Manitoba Catholics?" Continuing, he remarked: "Not a Liberal from Quebec who dared to vote against Remedial Legislation would be returned at the general election. With the Ontario Conservatives, however, it seems to us that they are looking at this question simply from the standpoint of expediency, that is, as it affects each man in his own particular county. Did we do that when the Government was imperilled two years ago by the vote as want of confidence, condemning Mr. Wallace for his utterances at Kingston regarding "practical aid to the men of Ulster"? The French-Canadian Conservatives at that time supported the Government, and eopardised their seats by so doing. We never considered whether we were sacrificing ourselves or not. We took the broad ground that Parliament had nothing to do with what Mr. Wallace had said outside the walls of Parliament; we felt that the question was one with which Parliament had nothing to do, and that the Government must be sustained. And yet, in so taking that position, some of us have not heard the last of it. It might be well to remind our Ontario Conservative friends at this time of the stand we took then, and not let them run away with the idea that all the sacrifices are on their side."

It is asserted to-night by many members that it would not be a matter of surprise if the Government followed up its decision not to submit a Remedial Law this session, and were to decide to appoint a commission of judges to investigate all the facts in connection with Manitoba schools, in order that Parliament may the better be enabled to legislate upon the subject next session. Sir Frank Smith is known to be a keen advocate of the appointment of a commission, and, as Mr. Greenway has offered to render every assistance to make the inquiry effective, it might be advantageous to the Government to have the views of an impartial tribunal. The delay for five or six months will certainly afford a good opportunity for further negotiations in the lines of compromise.

Le Temps, Oscar MacDonel's paper, is in great glee at the turn events have taken. These are the headlines: "A Shameful Retreat," "The Government Abandons the Manitoba Catholics," "The Orangists Gain Their Point," 'No Remedial Law This Session," "Catholic Schools Sacrificed for Party Reasons."

Le Temps says: "The last act of the politico-Orangiste drama was played this morning before the council of Ministers, and terminated by the shameful retreat of the Catholic Ministers, to whom had been confided the defence of Catholic rights. There will be no Remedial Law this session. Such is the decision to which the Cabinet has come, in view of the resolute opposition of Messrs. Haggart, Montague, Foster and Daly, supported by the 40 English Conservative members, who threatened to overturn the Ministry if they dared propose the slightest Remedial Law. Mr. Foster to-day promised an announcement on Monday. The pill is so bitter for the Catholic members that the Cabinet without doubt wishes to sugar it a little before presenting it to them. Ministers will immediately set to work to induce their partisans to accept the Royal Commission proposed by Mr. Greenway, and the elections will take place as soon as possible."

The Journal (independent) sizes up the situation as follows: "It was alleged this morning in quarters believed to be accurately informed that the Cabinet had decided not to introduce Remedial Legislation this session. Either there would be a commission, or as was claimed by one source of information, there would be a fall session of Parliament to consider legislation. There might be both a commission and a fall sesion. In any case, the information, if correct, means that there will be prorogation next Thursday.

The Free Press says: "After the ineffectual attempt this morning to make any further progress, there was but one course left open to the Government. It was obvious that a bill which would suit the French members, and to which the faction led by Mr. Haggart would agree, could not be settled upon short of several weeks of consideration, and there is nothing to detain the House meantime. It was only by means of an actual canvass of the members that Premier Bowell was convinced that his folowers were not all asleep, and that a harsh Remedial Bill would be defeated. This has been pressed upon him by the threatened resignations of Messrs. Foster, Haggart, Dickey and Montague.

On the other hand, if a bill acceptable to them were not introduced, the resignation of the leading French Ministers was threatened. It is announced semi-officially that the Government will prorogue the House in the hopes that a settlement may be reached and another session held between now and the next general election to embody that settlement in legislation."

The revenue and expenditure statement for the fiscal year just closed was issued to-day. The total revenue for the 12 months was $33,119,485, and the expenditure $31,228,872, leaving a nominal surplus of $1,890,612. It should be mentioned, however, that this does not represent the actual surplus of the year, as the accounts will not be entirely closed for two months yet. The expenditure on capital account shows a reduction of over one million this year as compared with 1894. The decrease last month was $573,000.

On the second reading of the Chute Divorce bill to-night, W. F. Maclean said he would, if in the House next session, introduce a bill giving the Dominion Exchequer Court jurisdiction in divorce cases on the lines and for the same causes as in the English Divorce Court.

The House went into committee of the whole on Mr. Foster's resolution providing for the payment of a sum not to exceed $150,000, in five years, to encourage silver lead smelting in Canada, the payment for each ton of ore smelted not to exceed 50 cents. The Minister explained that it was not proposed to expend more than $30,000 a year as a bonus unless there was a balance remaining over from the previous year. The value of the product was $50 to $60 per ton. This silver lead deposits in British Columbia were very extensive, and were being worked to some extent, but ore was sent to the United States to be smelted. This retarded the development of the industry, especially as only a certain class of ores would bear the expense of transportation. It was provided in the act that a smelter must begin operations before July 1 next.

Mr. Laurier said that, in view of the depressed state of the silver market and the condition of the Dominion finances, this hardly seemed to be a most suitable time to make an offer of this kind; but as the amount was small, and it was an experiment which might be the means of developing the principal industry in British Columbia, he would not offer any opposition. (Loud Ministerial cheers.) The resolution was carried unanimously.

KIDNAPPED A WIDOW.

Two Men Committed for Abduction of a Woman in London

London, July 6.—Ernest Crane and James Hook were to-day fully committed for trial on the charge of having kidnapped Mrs. Gordon, widow of the late Hon. Sackville Gordon, a few weeks ago. The abduction of the woman, it is claimed, was done at the instance of an American named Clamp, with whom Mrs. Gordon had lived, in order to obtain the bonds, money, jewelry, etc., which she was possessed of.

KIDNAPPED FROM SCHOOL.

Daring Abduction at the Victoria Industrial

Toronto, July 6.—It has leaked out that on Dominion Day last a carefully planned abduction was successfully perpetrated on the authorities of Victoria Industrial School. The police are looking for a barber named Johnston, supposed to be in Buffalo, who kidnapped Eddie Hayward, the son of his paramour, and spirited him away.

The lad Hayward is about 13 years old and was sent down some months ago for petty larceny. His father, George Hayward is a teamster living in Toronto. About a year ago Mrs. Hayward decided that life would have more allurements for her if she spent it with a barber acquaintance of hers instead of remaining at her husband's side. So the pair eloped and went to Buffalo. But although she had cut herself off from her husband she did not forget her little son out at Mimico. She wrote letters to him occasionally and on Thursday of last week said that she was coming over to see him on Dominion Day.

Public holidays are red-letter days out at the School, for on these days the parents of the young incorrigibles who are being reformed are allowed to visit them. Mrs. Hayward did not come to the school on Monday but her paramour did. He did not report at the office as parents or guardians are required to do, but took advantage of the fact that there were 70 or 80 other visitors present to seek out young Hayward in the yard and speak to him.

There is no system of imprisonment at Mimico. The boys are in the open with every chance to escape, but they do not do so because such a delinquency receives severe punishment. A few guards mingle among the 200 boys and keep their eyes open, but that is the only precaution taken. The guard who noticed Hayward talking to the stranger thought nothing of the matter until half an hour after the lad was found to be missing.

Football Championship for 1895.

The knowing ones are speculating on the football possibilities of the season. Ottawa is not likely to retain the honours of the championship, as Queen's will put in a team sure to smash all records. It is often the case that very slight causes will lose a victory. It is stated that a painful corn made useless one of the best American players. It follows that no team can hope to win this year that neglects to supply its members with Putnam's Painless Corn Extractor, the only safe, sure, and painless remedy for corns.

THE TOWN TREASURESHIP.

Among the applications for the position of Town Treasurer made vacant by the removal from town of Mr. Charles McGill, was that of Mr. S. R. Armstrong, the present town clerk. As to the personnel of the application we have no fault to find but as to the town clerk applying for and receiving the position of treasurer, there are the gravest objections. Mr. Armstrong has as town clerk discharged his duties efficiently and satisfactorily and he should be allowed to continue their discharge in that capacity. There are many reasons for The office of town clerk requires the undivided services of the incumbent for a faithful and satisfactory performance of the work the office implies, and it would require a man of more than ordinally ability to satisfactorily discharge the duties of both offices. Another reason why the offices should be separated is that one incumbent may be a check upon the other. It is well known that the town treasurer has had to correct and revise the work of the clerk at times, and doubtless the clerk has been in a position to check the accounts of the treasurer. Under such circumstances it seems to us to be utterly wrong and imprudent to put a man in the position of checking and cross checking his work in his dual capacity. We all know how unsatisfactory a condition our finances were in before Mr. McGill took office—when the offices of clerk and treasurer were united in one individual. Under the circumstances we do not wish to be more specific, but those who take an interest in the town finances can appreciate the point made. We do not wish these unsatisfactory conditions to be repeated, The chances for mistakes are obvious, when the town treasurer is put in a position to give himself a receipt as treasurer for money paid by himself as town clerk. The impropriety of uniting the two offices is palpable and patent. It is no reflection on the integrity of a town clerk to object to his appointment as town treasurer any more than it would be to object to the town treasurer being made town clerk, which we would do with as much earnestness as we feel in the other case. The matter of saving a hundred or so dollars by uniting the two offices is insignificant compared with the obvious disadvantages, and possibilities and probabilities of unsatisfactory financial conditions occuring from such a union. We have no wish to bring up unpleasant matters that are past and gone, nor to perform the unpleasant task of discussing the probity of any of the past town officials. Any such reference is only made for the purpose of suggesting a precedent that appears for maintaining the separation of the offices of town clerk and town treasurer. A sharp, active town treasurer, keeping his eye upon the financial situation, and with a full knowledge of the several sources from which the town revenue is derived, will be able to exercise an influence that will tend to promote straight payments and prompt returns. A town clerk who to that office adds that of clerk of the police court, and secretary of the Board of Health, and who may have added to his duties that of town treasurer, will have the civic situation pretty fully in his own hands, and what has happened before may happen again, that numerous amounts paid in may fail to be credited, if credited at all, to the proper account. Any one can see how improper the union of the two offices is, and in filling the position of Mr. McGill, the town council recollecting past unsatisfactory experience, should act on the principle that prevention is better than cure. The position the EXAMINER takes in this matter is not new, and we wish it distinctly understood that we are not disparaging Mr. Armstrong's probity or capacity, but protesting against the application of the unsound and mischievous principle of combining in one person two important offices of reflex responsibility, and presenting special temptations, which we know by past experience, have not been successfully resisted.

FORTNIGHTLY CLUB COLUMN.

XI.

THE "LADY" QUESTION AGAIN.

We have received a second letter from "Grandpapa" which we print in full.

To the Editor of F. C. C.

MY DEAR SIR,—You will agree with me when I say that in a short letter on a great social question one cannot well be comprehensive enough to include all sides, that one cannot qualify and amplify much, but must leave the general statement to the intelligence and candor of the reader. It has been said that no general statement can be true until you deduct two-thirds. I felt, as it was, I had used too much of your valuable column, and could not make deductions. Much of your criticism I agree with, yet there is a real difference in our view. If we talked together, I am inclined to think the issue would narrow down to this: Is it wise to expect girls of all classes to strive to be ladies? i. e. the use of this social term in the letter of "A Lady of Peterborough." We both heartily accept all that she meant in her letter.

My definition of a lady is practically the same as yours, and I agree that there is in it a moral element. Grace of bearing, social courtesy, and all refinement are at bottom founded on morality. They came into the world primarily as the fruit of the Spirit, they were the outward expression of noble life. Becoming in time common possessions, all humanity, good, bad and indifferent, seeing their value have striven to imitate. Those who know the world are bound to confess that the bad succeed very well in this imitation,

GOOD MANNERS AND GOOD LIVES

do not, even generally, go together. The bad must have good manners; the good man is more independent, having something else. I mean by imitation, not the watchful and painful imitation by the vulgar woman of refined manners (which deceives no one), but all gradual or unconscious and natural acquirement of manners by birth, breeding, and social intercourse, which have not their sources in the moral qualities of sympathy, unselfishness, kindliness, etc. The vulgar woman can never become a lady, let her "imitate" never so much, but the bad woman may. Was not Lady Macbeth a lady? Mary of Scotland was certainly a very gracious lady, and so, probably, was Jesebel. Would you, sir, deny the title of gentleman to Beau Brummell, to the Duke in Browning's "My Last Duchess," and Lord Chesterfield, or "the finest gentleman in all Europe," George IV of georgeous memory, and oh, was not the late lamented Ward McAllister a gentleman? But do you admire the characters of these persons? Did their finished courtesy "imply respect and sympathy"? I conclude that a lady or gentleman may be passionless, selfish, false and cruel. True, if we have in the world only "imitated" manners, we shall soon have none at all. The health of society and the permanence of noble manners depend upon the existence in the world of many whose manners are the natural expression of noble character, and here is

THE MORAL ELEMENT.

But we cannot individualize.

The remark which you say is often uttered by society with regard to some of its members, "not a lady," is seldom, I think—and never properly—pointed at such characters as I have mentioned, or at any wickedness as such; but a vulgarity, or at the ill-timed display of certain forms of evil, which are considered vulgar.

Will you note that I always said that the distinctive meaning of lady had no reference to moral quality? Also that when I say "a lady of Peterborough" implied that a perfect lady was a "perfect Christian," I meant only, was (humanly speaking) a perfect character? Then you misquote me. I said in popular "view" (not "use") the term has taken on a moral signification. Those whom society does not recognize as ladies resentfully say (to themselves) "We are as much ladies as you are; we acknowledge no inferiority"—basing their claims on their appreciation of themselves as good women. "Because we are good," they argue, "we are ladies," and how often we hear a plain woman say of this or that fine lady who has treated her meanly, "she is no lady." This is the popular view I speak of. On the other hand, as you have stated, good-natured or politic concession to this foolish pride has deprived the word of all distinctive meaning, moral or social. But the word has become so used very largely because in popular view it has

A MORAL SIGNIFICATION.

Let us return to its proper sense, using it as a merely social term of comparatively superficial meaning, and this hurtful vanity will disappear, and we shall have less envy and affectation and less discontent with honourable, though humble conditions of life. One serious fault with many of us is that we cannot endure to think we have superiors. Instead of rejoicing that so many are nobler and higher than ourselves, we are prone to be either envious or incredulous. Our advancement in life depends very much on our glad and reverent recognition of all that is kindly, true and heroic in the lives of others. Happy is he who can often say, "The latchet of whose shoe I am not worthy to unloose."

GRANDPAPA.

"Grandpapa's" excellent letters present an important aspect of a much debated "latter day question." On one point I feel sure we shall all agree; that there is nothing more odious than spurious imitations of "society" manners by either men or women. It is the old story of the jackdaw parading in peacock's feathers. Everyone can see through it, and the unhappy imitator wins only ridicule instead of respect.

Undoubtedly there are those "to the manner born," like those who "wear soft clothing in king's courts"; to these though utterly rotten at the core, the mask of good manners is easily and naturally worn. To all others true gentility must begin within. Therefore, let there be less jealousy for the title and more earnestness for the reality. The prime requisite is courtesy. Courtesy springs from respect for others, and both courtesy and respect spring from the branch of that "other commandment, "Thou shalt love thy neighbour as thyself."

BETWEEN LIFE AND DEATH.

THE NARROW ESCAPE OF A WELL KNOWN NEWBURGH MAN.

By the Loss of a Finger Mr. Charles Moore, of That Village, Near Death's Door, but is Rescued After Doctor's Have Failed.

From the Napanee Beaver.

In the pleasant little village of Newburg, on the Bay of Quinte Railway, seven miles from Napanee, lives Mr. C. H. Moore and family. They are favourably known in the entire section, having been residents of Newburg for years. Recently Mr. Moore has undergone a terrible sickness, and his restoration to health was the talk of the village and many even in Napanee and vicinity heard of it, and the result was that the Beaver reporter was detailed to to make an investigation into the matter. Mr. Moore is a carriage maker and while working in Finkle's factory last winter met with an accident that caused him the loss of the forefinger of his right hand. It was following this accident that his sickness began. He lost flesh, was pale, suffered from dizziness to the extent that sometimes he could scarcely avoid falling. He consulted physicians and tried numerous medicines, but without any benefit. He was constantly growing worse and the physician seemed puzzled, and none of his friends thought he would recover. One day a neighbour urged Mrs. Moore to persuade her husband to give Dr. Williams' Pink Pills a trial, and after much persuasion he consented. After a few days he began to feel better, and it no longer needed persuasion to induce him to continue the treatment. A marvellous change soon came over him. Each day he seemed to gather new strength and new life, and after eight boxes had been taken, he found himself again a well man. Mr. Moore is now about sixty-five years of age, he has been healthy and has worked hard all his life until the sickness alluded to, and now, thanks to Dr. Williams' Pink Pills, he is once more able to work in his old accustomed way, and does not hesitate to give the credit to the medicine that restored him to health, at a cost no greater than a couple of visits to the doctor.

Time and again it has been proven that Dr. Williams' Pink Pills cure when physicians and other medicines fail. No other medicine has such a wonderful record and no other medicine gives such undoubted proofs of the genuineness of every cure published, and this accounts for the fact that go where you will you hear nothing but words of praise for Dr. Williams' Pink Pills. This great reputation also accounts for the fact that unscrupulous dealers here and there try to impose a bulk pill upon their customers with the claim that it "is just as good," while a host of imitators are putting up pills in packages somewhat similar in style in the hope that they will reap the reward earned by the merit of the genuine Pink Pills. No matter what any dealer says no pill is genuine unless it bears the full trade mark, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. Always refuse substitutes which are worthless and may be dangerous.

Stabbed His Wife. Then Cut His Throat.

Brooklyn, N. Y., July 6.—Samuel Herkowits, 23 years old, a convict lately released from the Auburn State Prison, went to his wife's apartments this morning. Upon his wife's refusal to live with him he stabbed her. Herkowits then cut his own throat. Both will die.

BOUND IN HIS BED.

An Old Man Near Paisley Brutally Illtreated.

MASKED BURGLARS TORTURE HIM

After Tying Him Hand and Foot They Demanded $500 Threatening to Set Fire to His Feet Unless the Money was Paid.

Paisley, Ont., July 6.—One of the most daring robberies ever perpetrated in this neighborhood was committed this morning about 1 o'clock.

Three masked men entered the residence of Mr. David Black, an old unmarried man living a short distance from town.

Mr. Black was awakened by the robbers, who were in the act of tying his hands, and, although he struggled hard, was soon bound, hands and feet, and his head covered with a quilt.

Five hundred dollars was all the burglars wanted, and on being told it was not in the house threatened to pour coal oil on the victim's feet and set fire to them unless he told where the money was.

After searching the house and ransacking his papers, they slightly loosened the cord on one of his wrists and made good their escape.

All the reward they received for their trouble was something over $3 and two pairs of wearing boots, the money they were after having been safely banked the day previous.

MURDERED HIS FAMILY WITH GAS.

Frederick Hellman of Chicago Deliberately Takes the Lives of His Wife and Four Children.

Chicago, July 6.—Frederick Hellman, a mason contractor, 36 years old, last night murdered his wife and four children by asphyxiation, and died with them. The victims of his crime were: Ida Hellman, 34 years old; Frits Hellman, 12 years; Ida Hellman, 11 years; Willie Hellman, 8 years; Hedwig Hellman, 4 years.

The place of the tragedy was at the Hellman Cottage, 601 Cornelia-street. That the murder was deliberately planned by the father of the family during the past few weeks seems beyond doubt. Ever since Hellman built his house it has been supplied with gas pipes, but there has been no connection with the gas main and there were no fixtures in the house. Several weeks ago he had his pipes connected and fixtures put in the family bedroom only, the entire family sleeping in one small room

It is thought that Hellman had the gas put in for the express purpose of using it in the murder of his family. When the dead bodies were found this morning the gas was turned on. The body of Hellman showed evidence of a struggle. He first shut the door and windows, then turned on the gas and laid down to die with the family. Hellman was probably insane. He is said to have been fairly well off and to have had no family dissensions. He was naturally of a morose disposition. He left a note for his brother, in which he gave instructions regarding the disposition of his property. He said that he would not be living when the note was received, but said nothing of the premeditated death of the rest of the family.

THE DEMERS MURDER CASE.

The Husband Under Arrest—Mishap to a Cattle Boat—Resignation of a Bank Cashier.

Montreal, July 5.—The steamer Merrimack of the Elder Dempster Line, for London, ran ashore this morning on Isle Ronde, just opposite Sohmer Park. The ship was outward bound, and had 523 cattle, 1571 sheep and 71 horses on board. Little or no damage will be done to the steamer, but it was soon manifest that the ship would have to be lightened before she could float again. The Merimack will be got off.

The inquest in the St. Henri murder case is at an end, and the husband of the victim, Napoleon Demers, has been placed under arrest, charged with being the author of the crime. The finding of the coroner's jury was that sufficient evidence had been obtained to warrant sending the husband up for trial. Demers takes matters coolly enaugh, and was driven off to jail. It turns out that a prayer book was found in the woodshed in rear of the house in which Mrs. Demers lost her life, and the leaves were turned down at the prayer for the dying. This is the gist of the case at present against Demers.

Mr. J. S. Bousquet, for many years cashier of the Bank du People, has resigned. The salary offered Mr. Bousquet was $7000, but being a very able financier he believed he could do better in other ventures. The retiring cashier remains, however, financial adviser to the Board ofDirectors.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

The picture is a well developed one, and the Bank of Montreal building stands out in bold relief.

The Bathing Houses.

It is the general opinion that $300 will never begin to cover the expense of erecting bathing houses, such as were advocated in the council recently. Two hundred dollars would be expended in building a dressing room alone, without beginning to cover the expense of the erection of a floating bathing house such as is contemplated. The site for the affair, too, will be difficult to select.

A Porcupine Killed.

Mr. Wm. Scott, Elizabeth street, Ashburnham, whilst standing in his yard, at about nine o'clock, last night, noticed an animal resembling a good sized dog run from his wood pile and scale a tree in front of his residence. Investigation proved that he had been unwittingly entertaining a porcupine on his premises. The animal was knocked from its refuge in the tree by a stick, after which it was quickly despatched. Mr. Scott, it is understood, will have the porcupine stuffed and in the meantime every boy in the village is playing with porcupine quills.

The Gray Children Cared For.

Friends of the family in Otonabee have taken the five elder Gray children to care for them until the result of the trial of their parents is announced. The baby has been left with its mother. The statement made regarding the inhumanity of Detective Murray in allowing the family to walk up to the gaol is uncalled for, as when inquiry was made regarding a carriage, Mrs. Gray stated she preferred walking.

How to get "Sunlight" Books.

Send 12 "Sunlight" Soap wrappers to Lever Bros., Ltd., 43 Scott St., Toronto, who will send postpaid a paper bound book, 160 pages. For 8 "Life-buoy" Carbolic Soap wrappers, a similar book will be sent. This is a splendid opportunity to obtain good reading. Send your name and address written carefully. Remember "Sunlight" sells at 6 cts. per twin-bar, and "Lifebuoy" at 10 cts. One cent postage will bring your wrappers by leaving the ends open.

The Children's Aid Society.

The Children's Aid Society has cases sometimes that take up a great deal of time in ferreting out. Yesterday morning after nearly a year's intermittent work, a woman was summoned before the magistrate by it for conduct ill-becoming a woman, and, of course, with the end in view of leaving from a degraded life a young girl of twelve years. She was afraid, however, apparently to submit to the ordeal for she left the town and ignored the summons. It will be a matter of satisfaction to a number in the north ward that she has seen fit to go and leave the children in better hands.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. A. MERCER & Co., Tailors and utfitters.

An Excellent Performance.

Read what the St. Thomas Times says: "Prof. A. Lee, hypnotist, opened a week's engagement in the Duncombe Opera House last night. The audience was not as large as it will be before the professor leaves the city. After a few remarks on the history of hypnotism the professor asked for subjects to go on the stage, and about a dozen young men responded. The professor seems to have thoroughly mastered the mysteries of his art and it was not long before he had a number of his subjects completely under his control, much to the enjoyment of his audience. He put them to sleep, made them laugh, forget their name, jump over canes and retain the same in their hands in spite of their efforts to throw it away from them. The funniest part of the performance was when he ranged four subjects in the front of the stage, and placing rods in their hands set them fishing. The subjects went through the form of fishing, baiting an imaginary hook, throwing out and cautiously dropping the line into the water, coaxing on a "nibbler" and finally landing their game while their faces bore evidence of a thorough enjoyment of the sport. Prof. Lee appears at Bradburn's Opera House for one full week commencing Monday, July 8th. Prices, 20c and 30c, children 10c.

CURLERS' GRATITUDE TO SECRETARY McGILL.

HE IS MADE A LIFE MEMBER OF THE CLUB.

Remembered With a Handsome Present —Complimentary Remarks—A Delightful Smoking Concert—Song and Social Enjoyment.

The parlours of the curling rink have been the scene of many a jovial festivity, but is safe to say that a jollier and more enthusiastic gathering never assembled there than the one that met last night to do honour to Mr. Charles McGill, a member who has been one of the most prominent and valued of the club. Mr. McGill by reason of his presence in Toronto, being cut off from active membership with the club, will still, however, be with them in spirit, and still retain his connection with the club, as he was last night made a life member amidst the greatest enthusiasm.

The occasion was intended to signalize the occasion of Mr. McGill's elevation to the presidency with the Ontario Bank and to recognise his long connection with and his eminent services in the interests of curling in Peterborough. Owing to circumstances that called for a postponment and a hasty cancellation of the postponment, there were many of the prominent members of the curling club absent, who would have been delighted to be present. About nine o'clock the following gentlemen assembled in the rooms which had been well arranged for the festive event: Mr. McGill, the guest of the evening, Mr. Geo. Edmison, president, and Messrs. D. Belleghem, E.B. Edwards, D. W. Dumble, R. S. Davidson, W. G. Ferguson, Alex. Elliott, A. Hall, Robt. Innes, R. H. Kells, W. B. Bamford, R. B. McKee, H. R. H. Kenner, R. Fair, W. Snowden, A. Blade, W. H. Hill, R. M. Dennistoun, G. W. Hatton, J. S. Knapman, A. St. A. Smith, John McKee, W. Salisbury, Robt. Salisbury, D. W. Dumble, R. H. Fortye, H. LeBrun, Thos. Dunn, W. H. Robertson, Geo. Edmison, Dr. Boucher, W. J. Montgomery, A. McNeil, Geo. W. Hatton, W. D. Parker, H. Phelan, John Crane, Dickson Davidson, T. Cahill, W. Thompson, John Fanning, Jos. Taylor, Moutreal; E. H. D. Hall, Carese LeBrun, Ed. Brown, —. Allen and Ed. Clegg.

THE BUSINESS OF THE EVENING.

After the assembled members had spent some time in social enjoyment, Mr. Geo. Edmison, president of the club, took the chair and made a few remarks. He said that he was sure that all present greatly regretted the occasion of their meeting that night—the withdrawal of the Secretary, Mr. McGill, from at least active membership with the club, whose members took this occasion of paying him a slight testimonial of recognition of the excellent services he has rendered the club during the past fourteen years of his connection with it. All present appreciated the circumstances that resulted in Mr. McGill's retirement from the club. They were met to express their gratitude for the benefits he has conferred on the club, which in his fourteen years' connection with it, had grown from a small and comparatively insignificant affair, to the strong and flourishing organization it now is. This was due to Mr. McGill's valued services as secretary. (Cheers.) As President, Mr. Edmison said, he did not know where to look for his equal. Besides trying to entertain Mr. McGill at a smoking concert, the members had prepared a little gift. Although withdrawing from active membership in the club the speaker hoped that Mr. McGill would visit them as often as he could, and still show them how to "scop 'er up" in his usual good style. (Applause.) We shall take care not present him with a broom or "stanes" lest he might beat us when we meet him on other ice.

THE PRESENTATION.

At this point Mr. R. M. Dennistoun, in a neat and humourous little speech, on behalf of the club presented Mr. McGill with a superb silver tea service of five pieces suitably inscribed, and a salver. Mr. Dennistoun said he was sure he voiced the sentiment of every member in endorsing the president's remarks and repeating his reference to Mr. McGill's excellent work, not only in promoting the material interests of the club, but in infusing his own spirit of true sport into the members.

Mr. McGill responded in a few brief remarks. He was grateful for the kind words of appreciation that had been spoken. He had always been proud of his membership of the club, and what he had done had been done for the love of the sport, and he had been benefitted as much as the club by his connection with it.

Mr. E. B. Edwards, in moving that Mr. McGill be made an honourary life member of the Peterborough Curling Club, paid a warm compliment to his connection therewith, which made such a tribute eminently proper and fitting.

Mr. Dumble, in seconding the motion, said his association with curlers was a real pleasure to him. Curling was a sport that robbed winter of its terrors—it was a gentlemanly, kind and noble game—in which kindness and courtesy were pleasantly exhibited. He had much pleasure in seconding the motion. We appreciated Mr. McGill. He felt sure that the class of men we

TURNED OUT IN PETERBOROUGH

whether curlers, bank managers or bank presidents would always meet with appreciation. (Applause.)

The motion to constitute Mr. McGill an honorary life member of the curling club was carried by a standing vote amidst enthusiastic applause, the company singing with hearty energy "For he's a jolly good fellow."

Mr. McGill acknowledged the compliment in a few words. He appreciated the kindness more than anything else that the club could do. He was not retiring from the club altogether, (applause.) He would be often in Peterborough and would continue to retain a lively interest in the club. (Cheers.)

Brief remarks of a complimentary nature were made by Mr. R. M. Dennistoun, Mr. T. Cahill, Mr. W. D. Parker and others.

The company proceeded to enjoy the smoker and the social features were enlivened by sparkling songs, which were sung by Messrs. T. Dunn, Alex. Elliott, R. M. Dennistoun, H. LeBrun, Harry Phelan, Mr. Taylor of Montreal, and a most delightful and enjoyable hour was spent. During the evening the health of Mr. W. D. Parker, as Mr. McGill's successor in the bank, was proposed and very cordially honoured. Mr. Parker in a few remarks acknowledged the kindness. While he appreciated the responsibility of the position, he was glad to know that Mr. McGill still retained his connection with the bank and that he (Mr. Parker) would have the benefit of his advice and assistance.

The gathering which had been a very pleasant one, indeed, separated by singing Auld Lang Syne and God Save the Queen.

Don't you know that Hood's Sarsaparilla will overcome that tired feeling and give you renewed vigor and vitality.

THE POLICE COURT.

What Transpired Within its Precincts This Morning.

Richard Guiry, of Otonabee, who gave the name of Crowley when arrested last Tuesday on a charge of indecent exposure, stated to the magistrate this morning that he knew nothing whatever of the occurrence referred to, being drunk at the time. Two witnesses, Messrs. Will. Fleming and John Montgomery stated that the exposure of his person to little girls was in their opinion a deliberate one and a sentence of a month's hard labour in the county gaol was imposed. The little girl in the case appeared in the court alone, but the agent for the Children's Aid Society getting wind of the affair was quickly on the scene.

Thos. Reeves and his wife, charged with vagrancy, were allowed to go on condition of leaving the town immediately. Reeves has been repairing wringers in town for the past three months. He and his wife have been spreeing it for the past week and were arrested yesterday while drunk.

Joseph Guerin, charged with having attempted to obtain intoxicating liquor on Sunday, May 12th, in the hotel of Mr. A. O'Brien, was discharged. No proof of his having asked for any liquor was elicited from any of the witnesses called.

Joseph Murphy, on a charge of disorderly conduct, was fined two dollars and costs.

RAIN! RAIN! RAIN!

Man, Bird, Beast and all Crops Languish for Lack of it.

The lack of rain is being severely felt. The earth is literally baked, the grass fields brown as a travelled road. Cattle and crops are suffering for want of rain and if doesn't come within a few days all sorts of spring crops will be a complete failure. Mr. J. H. Campbell, of Nassau, says he has kept a record for fifty years and never saw so dry a spell so early in the season. Everybody is praying for rain.

It's Poor Economy

To wear Ready-Made Clothing these days—it always was—its particularly so now—and you are not much better off in purchasing from the ordinary every-day custom tailor, who buys in small quantities, pays the long price to the wholesaler and with a limited output, must pay expenses—demand the big price from his customer.

ITS ECONOMY

Of the right kind to patronize the big house which buys for cash, and sells the same way, where every garment is high-class, designed by experts, and put together by high-priced mechanics; where you can rely on having style, finish and honest material in every particular, nothing slighted in the inner work and trimmings where they can't be seen, but fair dealing all around.

ONE WOMAN'S APPROVAL

Is worth more to us than $100 spent advertising, for when a woman finds a good thing she never hesitates to tell her friends, and we have to thank the women now for the stronghold we have on the Baking Powder business in Canada. We have studied the question for many years and know whereof we speak.

BATTALION NOTES.

In writing for a copy of the EXAMINER containing an account of the visit of the Rangers to Picton, Mr. H. E. C. Melrose, the honorary secretary of the entertainment committee, says: * * * Judging from the many nice things I have heard, particularly the comments of the ladies, the visit of the Peterborough Battalion will live long and pleasantly in the minds of our people, and to their credit, be it said, the rank and file gained golden opinions by their conduct and bearing. It is seldom that one hears so much said about so large a body of men without one word of complaint, and I am sure it must be very gratifying to the officers and, in fact, to the people of Peterborough at large, to know that on such an occasion no opportunity was given to make even a report of bad conduct. Personally, I shall long remember the many happy events of Dominion Day, '95. * *

The officers and men are unanimous in ascribing much of the pleasure of the trip to Picton to the forethought, which Quartermaster Langford exercised in making provision for their comfort whilst in camp.

In its comments on the Dominion Day events in Picton, the Gazette says: Capt. Hayes, the popular commander of No. 4 Company, says Picton is the finest spot on earth, and the people the most hospitable beever met. * * Lieut. McGill, of the 57th, the youngest officer in camp, was a little bashful, but seemed to get there just the same. * * The 57th bugle band were amongst the liveliest visitors. They are a jolly lot of fellows and thoroughly enjoyed the outing. Their choruses and bugle playing were greatly enjoyed * * * Major Brennan of the 57th, an officer in the famous Midland Battalion, that did such noble service in helping to quiet the Northwest rebellion, accompanied the battalion to Picton. The Major has been an officer in the militia for the past twenty years and is one of the best drilled officers in the force. It is said he had the name of having the best drilled company in the Midland Battalion. He is very popular with the officers and men of his regiment. Pictonians vote him a jolly good fellow. As a ladies' man he is hard to beat and in consequence, while in Picton, was in great demand * * * Col. Bell is an ideal commander for a regiment. The only thing uppermost in his mind is to see that the men under him are having a good time and they appreciate his kindness very much, as they all speak in the highest terms of praise of him. Picton people who had the pleasure of meeting him and enjoying his hospitality will never forget his kindness to them. The colonel seemed to enjoy the ball very much. The ladies, having heard him spoken of in such complimentary terms, were all anxious to meet him, and in consequence the evening was decidedly pleasant for him. * * * Capt. and Adj. Mason, pet of the 57th regiment, who never tires in looking after the interests of his men, is a thorough soldier, and of course he enjoyed his outing here very much. H was in great demand at the ball and pronounced it a brilliant affair. * * Captain Dennistoun, late of the 57th, accompanied the regiment to town, and is a thorough gentleman, a fine looking fellow and a great host. * * * Major Edwards, of the 57th, is a fine specimen of a soldier. He met many old friends in Picton and was pleased with his visit.

BOARD OF TRADE.

It Will Not Meet Again Until September Next.

At a special meeting of the Board of Trade, last evening, to close up the business of the year, the following members were present,—B. Shortly, president, R. Mulholland, Adam Hall, F. H. Dobbin, R. G. Kells, Peter Campbell, Robert Fair, D. W. Dumble, Geo. A. Schofield, Wm. Hamilton, jr., and W. H. Meldrum.

In the absence of the secretary, Mr. Geo. A. Schofield was requested to perform the duties appertaining to the office.

The president stated that the secretary had informed him that he had been inquiring amongst the different towns and cities relative to the exemption of machinery from taxation. He had found that there were no bylaws made regulating the taxation in general, but a special one was passed to meet each emergency as it arose. Hamilton, Guelph, Galt and a number of other progressive cities in the west acted on the plan and in consequence there was no taxation of machinery in any of these places.

On motion of Mr. Peter Campbell and Mr. F. H. Dobbin, Mr. F. W. Taylor, of the Bank of Montreal, was elected a member of the Board.

Mr. Campbell brought up the matter of the change of train service on the Midland Division of the Grand Trunk. By the new arrangement letters coming in over the Belleville branch could not be even received, much less answered before the mail train returned again over this line. The change was made for an accommodation to those living along the line wishing to go up to Toronto to do so and get back the same day. Toronto, of course would be benefitted greatly by the new arrangement.

A murmur of "Hogtown" was heard, and Mr. Campbell, seconded by Mr. Mulholland, moved that the Secretary be instructed to write a letter of remonstrance on the subject and forward it to the local Inspector of Post Offices, in order to strengthen the hand of that official in his objection to the change.

The Board then adjourned until September next.

THE OUTING OF THE LOCK WORKS EMPLOYEES.

They Take Their Families Along and Have a Pleasant Day at Buckhorn.

About 250 took in the Lock Works employees excursion to Buckhorn Thursday.

The day was pleasant and every one went in for a good day's sport and enjoyed themselves to the full extent. After a pleasant sail the excursionists arrived at Buckhorn just in time to sit down to well loaded tables, such as Mrs. Eastwood is renowned for placing before the public. After satisfying the inner man the games and sports commenced, which were run off in the following order. The tug of war was one of the hotly contested features and after several long and strong pulls resulted in a tie.

Men's race, 100 yards, 1st prize, hat from Gough Bros., W. Heffernan; 2nd, shirt from P. Simons, J. Flaherty.

Boys' race, under 15 years, 100 yards—1st prize, pocket knife, from Peterborough Hardware Co., Johnny Connors; 2nd, pair of lacrosse shoes from J. Stinson, Chris. Graham.

Ladies' race, 50 yards—1st prize, brush and comb, by Jas. Lynch, Maggie Corcoran; 2nd blouse by Miss Rudkins, Jennie Riley.

Girls' race, 50 yards—1st prize, brooch, by Clarke & Gibson, Rosa Judge; 2nd, bottle of perfume by John McKee, Nellie McNamara.

Girls' race, under 9 years, 50 yards—1st prize, fan, by China Hall, Lizzie Ward; 2nd, value 50c., Ethel Mudge.

Running hop, step and jump—1st prize, by J. Fairweather & Co., W. McAuliffe; 2nd, pipe by Jimmy Gordon, W. Heffernan.

Three standing jumps,—1st prize box of cigars, by Jas. Dolan,—W. Heffernan; 2nd, tie, by T. Eastwood,—Geo. O'Hearn.

Married men's race, 100 yards, 1st prize choice of door bell or front door set, by the Lock Works—Reg. Brennan; 2nd, caddie of tea, by Henry Bros.,—Geo. Ahearn.

Men's race, 40 years or over,—1st prize, caddie of tea, by J. J. Lynch,—John Clancy; 2nd, roast of beef, by M. O'Brien,—J. O'Brien.

Smoking race,—1st prize, box of cigars by W. J. McCallum,—W. McAuliff; 2nd, shirt, by T. Eastwood,—R. Brennan.

Tug of War, between the moulders and polishers of the Lock Works, box of cigars by W. Overend.—Tie.

Employees' race,—Box of cigars, by Frank Fairen,—W. Heffernan.

Boot race,—1st prize, knife, by Kingan & Allen,—J. Flanetty! 2nd, value 50c, by T. Eastwood,—G. Ahearn.

TRAMPS AGAIN BECOMING TROUBLESOME.

Miss Maggie Weir has an Experience With one of the Fraternity.

The other day Mr. Robert Weir, of 309 McDonnell street, together with Mrs. Weir went out for a walk in the afternoon leaving their daughter, Miss Maggie Weir, in charge of the house.

Half an hour later Miss Weir had occasion to go into the woodshed and as she stepped out on the platform she noticed a man apparently just about to enter the house.

Before she had time for a second glance she received a stunning blow on the head which felled her to the floor, unconscious.

Just as the blow was delivered she uttered a piercing shriek, which reached the ears of Mrs. John Tanguey, living next door. Mrs. Tanguey hastily repaired to the Weir residence, where she found Miss Maggie lying on the woodshed floor in an insensible condition. A number of the other neighbours gathered and carried the unfortunate girl into the house where, under the attention of Dr. Goldsmith, who had been hastily summoned, she gradually regained consciousness, but for days afterwards was confined to the home through the effects of the blow, which raised a huge lump just over the right temple.

The police are in possession of the facts of the case, but as Miss Weir was to terrified to take particular notice of the man, she can give no accurate description of his appearance.

WHO LOST A SWALLOW TAIL COAT ON THE 1ST.

A Toronto Crook Acknowledges Stealing one in Town.

On Dominion Day the Chief of Police received word that a number of Toronto crooks were in town and he accordingly kept his weather eye open for them and succeeded in corralling a number of them in the C.P.R. yards. He arrested one suspicious looking fellow but allowed him to go on his promising to leave town immediately. Before seeing him out of town the chief obtained from him the names of some of his associates, and remembered the name of one "Bunker Boyd" as a character worth watching.

This morning Chief Rossel received the following letter bearing on the question from Chief Grassett of the Toronto police force:

Chief of Police, Peterborough:

DEAR SIR,—On Thursday last one Frank Smith was arrested here on a charge of trespass. We found in his possession a gentleman's dress coat, which he admitted was stolen from the yard of a private house in Peterborough. He further tells us that a pair of trousers were stolen at the same time by a companion named "Boyd."

Smith has been remanded till the 10th inst., by which time we hope to have secured the trousers and arrested "Boyd." The owner of these articles, if you can find him, will require to be here on the date mentioned, at ten o'clock in the morning, for the purpose of identifying the theft."

Just who lost the coat is a mystery, as nothing regarding it has been reported at the local police headquarters.

IN COURT HOUSE PARK.

Sweet Music by the Fire Brigade Band Last Evening.

As the season advances the open air concerts given on Friday evenings in the parks by the band are becoming more and more popular. Every evening sees a larger attendance present.

The selections rendered last evening were very appropriate, and were greatly appreciated. If a suggestion would not be taken amiss, a little more solo work would form an agreeable variation in the programme, and at the same time raise the music to even a higher standard of excellence, as a solo player invariably gains confidence in himself, as he grows accustomed to playing alone, and consequently his notes become fuller and more round.

The selections played last evening were as follows:—

March	"Loyal Legion" ..... *Sousa*
Quadrille	"Diana" ..... *Round*
Valse	"Passing Thoughts" ... *Karl V. Keller*
Overture	"Tancredi" ..... *Rossini*
March	"Beau Ideal" ..... *Sousa*
Valse	"Youth and Beauty" ..... *Round*
Schottisch	"Uncle Ned" ..... *Hyde*
Galop	"The Coach Whip" ..... *Brooke*
	"God Save the Queen."

A NOBLE LIFE, A NOBLE DEATH.

Lord Rosebery on the Work of His Administration

London, July 5.—Speaking at Albert Hall this evening, ex-Prime Minister Rosebery said that the late Government had lived a noble life and died a noble death. It left behind it a mighty surplus. Business was reviving, and was prosperous, and the people were contented. The new Government would incur a serious responsibility if it reversed the late Government's policy in regard to Armenia. Lord Rosebery again denounced the House of Lords.

THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

REFUSED HIS ASSENT.

Gov. O'Brien Vetoes Whiteway's Retrenchment Bill.

THE BILL MUST GO TO BRITAIN.

This Measure Cuts Down the Governor's and Judges' Salaries, But Pays the Members and Officials in Full and Subsidizes the Party Newspapers.

St. John's, Nfld., July 6.—Gov. O'Brien refused to-day to assent to the Retrenchment bill, and reserved it for the Queen's assent. It must now go before the British Cabinet. The Governor's action created great surprise. If the Cabinet sustains his action the whole retrenchment plans of the Whitewayites will suddenly collapse.

The bill fixes the future salary of every official and civil servant in the colony at reduced rates. It especially defines the salary of the Governor, which is reduced by $5000. The salary of the Chief Justice is reduced by $1000, and the salaries of the assistant judges of the Supreme Court are reduced by $800 each. The Opposition party opposed these reductions, and especially because the Governor's present salary, $12,000, was fixed after lengthy correspondence with the Imperial authorities, he being unable to live on anything less here and maintain the dignity of the position.

Respecting the reductions of the judges' salaries, it is generally admitted that they were reduced as punishment for disqualifying Whitewayites last year, and strong arguments are adduced to show that if the reduction is permitted the impartiality of the courts will be jeopardized. The Opposition contended that the Government put these salaries in separate bills, so as to escape the danger of a vote. If the bill is vetoed all the salaries will remain at the old rates.

The Governor in his farewell speech to the Legislature reviewed the occurrences of the past six months. He thanked the people of the United States, England and Canada for their generous support. He stated that the benefits resulting from Sir Herbert Murray's mission increased the fishery outfits. He announced a splendid seal fishery and good prospects for the cod fishery.

The prorogation was the most imposing of recent years. The Contingencies bill for the sessional expenses passed last night is greeted with denunciations by the whole populace.

The total expenses of the session amounted to $34,000, being $3000 more than the combined expenses of the regular and special sessions last year. The members of both Houses voted full sessional pay to the officials. A number of these also received bonuses. Liberal sums, of course, were given to the newspapers supporting the Government. Many prominent supporters were provided for.

When their disregard of recent promises of retrenchment was discussed several Whitewayites declared that they were going to get their share now, because they did not know when they would get a chance again.

FOUND AN EMPTY ROWBOAT.

But Whether or Not John Miller is Drowned is a Debatable Question.

Hamilton, July 5.—On Wednesday evening two young men named Judd and Irvine found a boat drifting in Hamilton Bay, about a mile from shore. They towed it on to shore.

The oars were in the boat; also a vest, hat, pair of cuffs, purse containing 35 cents, a tie, a knife and a bunch of keys. On the cuffs were marked in pencil "John Miller," and what looked like the word "Toronto."

Enquiry at Whittaker's boathouse, where the boat was engaged, showed that the boat was hired about 4 o'clock by a man 26 or 28 years of age, dressed in a navy blue suit. He left his coat hanging in the boathouse, and in the pocket was a postcard addressed to F. Pierce, 424 Yonge-street, Toronto; two railway baggage checks, Nos. 36,720 and 6976, and a handkerchief with blood on it.

Inquiries have established the identity of the young man supposed to be drowned. He is John Miller, a young farmer, who left Toronto on the 7.25 train last Monday morning in company with John Waterhouse to go to Tilsonburg in search of work. Miller had been living with his brother Mathew and two sisters at 164 Bay-street for the past twelve or fourteen months, and prior to that he had worked as section hand on the Grand Trunk at Port Credit. The F. Pierce mentioned in the dispatch is a brother-in-law, and he works for Jenkins & Co., at 424 Yonge-street. Mr. Pierce told a reporter that Miller went off in excellent spirits on Monday, and he cannot believe that he intentionally threw himself into the water. He is satisfied that if the young man is drowned it is by accident.

Detective Reid made inquiries as to the movements of Miller before going to the boat house, but could not find out much about him. The boathouse keeper says the man who rented the boat was about 26 years of age, and had a light mustache. Matthew Miller, Bay-street, Toronto, has wired Chief Smith, asking to have a lookout kept for the body. It is possible that Miller desired to lead his friends to think he had committed suicide, and that he is still in the land of the living.

FATHER AND SON IN CUSTODY.

Alleged to be Two Fugitives From German Justice.

Toronto, July 5. — Albert Riesler, aged 56, and Paul Riesler, aged 31, his son, were arrested last evening by Detectives Davis and Burrows, on a warrant issued by Judge McDougall, in answer to a cablegram received by the Acting German Consul, asking for their arrest for an offence against the bankruptcy laws of the Grand Duchy of Anhalt, Germany. The cablegram asking for their arrest was received yesterday from the authorities of Zierbst, where the offence is alleged to have been committed, and at 7 p.m. the arrest was effected.

They had rented a flat at 236 King-street east from Mr. C. E. Smith.

When the detectives called there yesterday with Mr. August Schneider they found the rooms furnished rather meagrely.

The father could not speak or understand a word of English, and the son knew but little of the language. They had become well settled in housekeeping, and were apparently resting in a feeling of security from the laws of the fatherland. When told by Mr. Schneider that they were wanted on a charge of defrauding their creditors in Germany they showed little surprise, but expressed their confidence in their ability to demonstrate that they were not the men whom the German authorities were seeking.

THE BOSTON RIOT.

Two of the Disturbers Arraigned on a Charge of Murder

Boston, July 6.—Harold C. Brown and John Ross, charged with the shooting and killing of John W. Wills, in the riots which occurred during the "Little Red Schoolhouse" parade in the East Boston district Thursday, were arraigned in the District Municipal Court charged with murder. Judge Emmons continued the case until July 12. The defendants were not admitted to bail. Six witnesses were released on bail.

Almost Suffocated.

Port Dover, Ont., July 6.—James Brennan and Benjamin Dixon were nearly suffocated in the Penman Company's factory this morning. Brennan was overcome while painting the inside of a tank, and Dixon tried to rescue him. After several hours' hard work both were restored to consciousness.

SOUTH AMERICAN NERVINE

The Great Health Restorer of the Century.

Sickness Cannot Cope With It—Has Cured the Worst Cases on Record—Cures at the Nerve Centers, and Thus Cures Permanently—A Wonderful Specific in All Cases of Indigestion, Dyspepsia, Sick Headache, Nervousness and General Debility—Has No Equal as a Spring Medicine.

There is a great deal of uncertainty in the methods adopted to remove disease. Doctors are not free from this kind of thing themselves. The poor patient has to put up with a good deal of experimenting. The discoverer of South American Nervine takes too serious a view of life to play pranks of this kind. He does not think that these human bodies of ours should be fooled with. He has recognized that they are subject to disease, but by scientific methods he has learned that just as the watch is to be put in perfect repair only when the main spring is kept in running order, so with the individual, he remains in perfect health, only when the nerve centers are kept healthful and strong.

What disease is more distressing than indigestion or dyspepsia? Some simple remedy may be given to cause relief for the moment. Nervine is an indisputably successful remedy for the worst cases of indigestion, because it reaches the source of all stomach troubles—the nerve centers. Indigestion exists because the vital forces have become diseased and are weakened. Nervine builds up the nerve centers, from which comes these forces, removes the causes of indigestion, and then builds up the health completely.

How many systems are run down through nervousness. A stimulant may give ease, but it will not cure nervous troubles. Nervine has cured more desperate cases of nervousness than any other medicine anywhere. And it does so for the same reason that it cures indigestion. The nerve centers are deranged, or there would be no victims of nervousness. Nervine rebuilds and strengthens the nerve tissues, and hence its marvellous powers in diseases of this kind.

In the spring of the year the strongest suffer from general debility. The blood, through neglect, has become impoverished and the whole system gets out of order. We speak of it as a spring medicine. Nervine restores the exhausted vital forces that have led to this tired, don't-care, played-out, miserable condition. No one can take a bottle of Nervine at this season of the year without disease quickly giving way to abounding health.

The moral is plain, simple and readily understood. If you would not trifle with disease, then you will take South American Nervine, which will not trifle with you.

WITHOUT AN EQUAL.

Statement of a Well Known Doctor

"Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action, and effects so many permanent cures as Ayer's Sarsaparilla."—Dr. H. F. MERRILL, Augusta, Me.

BURNED HIS WIFE.

Superstitious Irishman Convicted of Manslaughter.

THOUGHT THE WOMAN BEWITCHED.

Michael Cleary and Family Accused Mrs. Cleary of Consorting With Fairies—Covered Her With Oil and Roasted Her to Death to Exorcise the Spirits.

Dublin, July 6.—Michael Cleary, living near the Town of Clonmel, was convicted to-day of manslaughter in having burned his wife, Bridget Cleary, to death last March. The court deferred sentence. Cleary believed his wife was bewitched, and upon the advice of Dennis Ganey, the "family doctor," and in the presence of her father and a number of other relatives, held her over a fire, and afterwards stripped her and poured paraffin over the body and set fire to it. The woman was burned to death without the slightest effort on the part of the spectators to extinguish the flames which were consuming her. Cleary claimed that it was not his wife but a witch that was burned.

The principal Crown witness testified: On the night of March 14, accompanied by my wife, I went to the house of Patrick Boland, occupied by him and by Michael Cleary and Bridget Cleary, his wife. When we arrived close to the house we met Mrs. Johanna Burke, and inquired how Mrs. Cleary was. She said they were giving her some herbs just then which they got from Dennis Ganey, over the mountain, and that no person would be let in for some time. We then proceeded to the window of the house. In one of the front rooms I heard voices shouting, "Take it, you old faggot, or we will kill you." The shutters of the window were closed and the door locked. After a short time the door was opened. I saw there John Dunne, P. Kennedy, M. Kennedy and William Kennedy, holding Mrs. Cleary on the bed. She was on her back. Her husband was standing by her bedside.

I heard him call for paraffin oil, and he said, "Throw it on." It was brought by Mary Kennedy. Michael Cleary had a saucepan in his hand at the time. It would appear as if they threw the liquid on the woman. I saw Mrs. Cleary struggling on the bed, and saying, "Leave me alone."

I then saw her husband give her some liquid in a spoon, and heard someone say it was herbs. She was held down at the time by force, and one of those present had his hand across her mouth and others held her down for ten minutes after she got the herbs.

A man at each side of the bed kept the body swinging about the whole time. She screamed horribly, and they cried out, "Come home, Bridget Boland" (Mrs. Cleary's maiden name), from which I could learn they thought Mrs. Cleary was a "witch," and endeavored to send her out of the house by torturing her body. Some time after I saw them take her out of the bed and carry her to the kitchen fire, and hold her over it. In a short time, I could see her raised on the bars of the grate over the fire. One of those present said he had to use a red poker on her to make her take medicine. I saw some marks on her neck. Her husband put some questions to her at the fire, asking if she was his wife, and after she had answered the questions they put her back on the bed.

A woman named Burke, who alleges that she was kept a prisoner in the house of the Clearys while the murder was being committed, gave a circumstantial account of the barbarous treatment to which the unfortunate victim was subjected by her husband and some of the men who assisted him. She related a conversation which she heard between the murdered woman and her husband, in which he accused her of having kept company with fairies, which she denied. He put certain tests to her, asking her in the name of God was she Bridget Boland, his wife. He required her to eat bread and jam three times, in order to see whether she was a human being or a fairy, and on some failure occurring on the third time he seems to have become convinced that she was not mortal, whereupon he attacked her and jumped on her chest while she lay on the floor.

He then stripped her, and after she had been placed over the fire by himself and the other men, they made other efforts to drive out the fairies, addressing her from time to time, and repeating the question whether she was his wife. He then threw paraffin oil over her, and, assisted by her father, he placed her on the fire, which was on the hearth, and witness became sick and escaped to an upper room in terror. Witness' brother fainted, and they poured holy water over him to revive him. Looking down into the kitchen, witness could see that the place was full of smoke and that the deceased's body was lying on its face, with the legs drawn up in agony. On looking a second time she saw the body stretched on its back, and it was then desperately disfigured and burned. She "screeched horribly" while they were torturing her.

The husband got sacks, and with assistance took away the body, the party taking a spade and a shovel with them. This occurred in the middle of the night, and next day the husband compelled witness to swear on her knees that the deceased had vanished through the door, and no one knew what had become of her. He also told witness that it was not his wife he was burning, but a fairy, and that she would see the fairy disappearing up the chimney. When the body was burned he gathered up the ashes that remained and buried them in front of the house. He also made the father of the deceased swear that he would say he knew nothing about the occurrence.

Cleary was sentenced to 20 years' imprisonment. His accomplices were also convicted. Patrick Kennedy was condemned to five and John Dunns to three years' imprisonment, William and James Kearney to 18 months' each, and Patrick Bolen and Michael Kennedy to six months' each.

Cut to Pieces by the Sharp Saw at Which He Worked.

Forestville, July 6.—Henry Martin 22 years old, was at work in William Hornburg's sawmill yesterday at Sheridan. In taking a board off the ways it was caught on the saw, and threw him upon it. A great chunk was cut from his side, exposing his bowels. The saw mangled the leg on that side and then cut off the other near the ankle. He bled to death in a short time.

600 PEOPLE IMMERSED.

Thirty-eight Injured by the Collapse of a Bridge

Elkhart, Ind., July 6.—A terrible accident occurred yesterday afternoon at Bristol, a small town six miles from here. During the progress of a boat-race on the St. Joseph River 600 people were jammed on a three-span iron bridge. While the crowd was cheering the winner of the race the bridge gave way, and the mass of humanity was precipitated into the water 46 feet below. Thirty-eight persons received serious injury, and it is feared that many of them will die.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 3,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

THE WHEEL.

To the Editor of the Examiner:

DEAR SIR,—Will you kindly allow me space in your columns to convey to your readers some impressions made upon me as a business man and a citizen by my trip to the annual meet of the Canadian Wheelmen's Association, which was held in Waterloo this year.

In the first place there can no longer be any doubt but that the business men of the town would reap a rich harvest, if the meet can be brought to Peterborough next year. The principal fact from which I deduce this conclusion is that on the opening day of the meet alone there were fourteen thousand admissions paid into the grounds of the Waterloo bicycle track. Of these not more than two thousand were residents of the small town, as many ladies observing the extent of the crowd desisted from attending the races until the following day. As it was well known that Waterloo would only be able to accommodate a limited number, many wheelmen refrained from attending the meet. If fourteen thousand were present at Waterloo how many thousands more would be drawn to Peterborough, which is so much nearer Montreal and at the same time not an inconvenient distance from the western cycling centres. Even if Peterborough did not draw a larger crowd than attended the Waterloo meet, the result would still be such as to offer a powerful inducement to Peterborough to strain every nerve to capture the meet for next year. Fourteen thousand people cannot visit a town and spend two or three days in it without leaving, on an average, ten dollars apiece behind them. Every merchant and tradesman no matter in what calling, would derive individual benefit from such an invasion of the town, and some of the $150,000 would be sure to find its way into every pocket.

The advantages, I think, are apparent, if the subject is only considered from a purely business standpoint, and if the question is viewed from the standpoints of citizenship and advertising the town the desirability of having the meet here becomes each minute more forcibly impressed on those who have considered the matter.

Our chances for the meet are good if the citizens will but awake to the necessity of exertion in the matter and boom the town. We have Sarnia and Waterloo with us, which means a great deal, as London and Woodstock are both in the field already. The Toronto men also want the meet to go Peterborough's way this year. All the eastern towns, Ottawa, Belleville, Kingston, and even Montreal, will back up Peterborough in the matter. Quebec wants the meet, and in Von Felson has a strong man to represent it, but Quebec is too far east for 1896, and all that we have to do is too keep alive to the needs of the case, and boom Peterborough's chances on all and every occasion.

Yours truly,
ALEX. GIBSON.

[NOTE:—Mr. Gibson has expressed his views on the matter very plainly and succinctly, and all that he has taken occasion to say is endorsed by Mr. Robert Fair, ex-President of the Board of Trade, who was also present at the meet. If Waterloo can draw 14,000 people to the meet, surely Peterborough, with her superior railway facilities and hotel accommodation, should induce almost twice that number to visit the Plate Glass City in 1896. It is not alone the wheelmen who should boom the town's chances, but every business man of energy should put his shoulder to the wheel and never relinquish his exertions until the last ballot is cast on next Good Friday, when the selection of the town for the next meet will be decided.

ST. LUKE'S SUNDAY SCHOOL PICNIC HELD YESTERDAY.

The Little Ones Have a Jolly Time and the Parents too Enjoy Themselves.

St. Luke's annual Sunday school picnic was held yesterday when the City of Peterborough took a large party of adults and children to Jubilee Point. The various committees in charge of the dinner and tea, sports and prize distribution, performed their various tasks with zeal and ability, and to them is due, in a large measure, the success of the outing. The kindness and courtesy of the captain and officers of the boat were everything that could be desired and deserving of the warmest gratitude.

The following is the programme of sports:

Boys race, under 15—1. W. Graham; 2, H. Morgan.
Boys, under 12—1, Claude Rogers; 2, Frank Eden.
Girls, under 15—1, Mabel Scott; 2, Jennie Scott.

GRATIFYING INTELLIGENCE.

Word Received of the Complete Recovery of Mrs. John Dowly.

OWEN SOUND, June 24—Word has been received here of the complete restoration to health of Mrs. John Dowly, wife of a former well known and esteemed resident of the town. The intelligence has been very gladly received as Mrs. Dowly has many friends here who are well aware of the lamentable condition of her health during the past six or seven years. Her illness has been found to result from a severe kidney complaint and she has been restored to health by a judicious use of Dodd's Kidney Pills, a remedy which is now well known to most of the residents in this locality as having previously affected some extraordinary cures.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent. 389 George Street.

ROBBING STREET LETTER BOXES.

New York Banks Victimized by a Check-Raising Thief.

New York, July 6.—Postoffice Inspector Ashe has sent the following to the officials of the various banks:

"There is reason to believe that some person having obtained unlawful possession of a key to the street letter boxes in this city is robbing those boxes of the letters they contain and forging the endorsements on checks obtained therefrom. These forged endorsements consist of the names of the payees followed by those of the drawers of the checks, and these latter are so skilfully executed as to make it evident that the forgery is the work of professionals. A number of these checks have been paid by banks. Every effort will be made to apprehend the offender."

DOUBLE MURDER FROM JEALOUSY.

Said He Would Kill Any Man Talking to His Wife, and Did.

Gallipolis, Ohio, July 6.—The Sons of Veterans at Lincoln gave an ice cream supper at the G.A.R. Hall last night. Among those present were Calvary Tipton, his wife, from whom he had lately been separated, and John Wills, a young school teacher. Tipton had boasted that he would kill the next man he caught talking to his wife. During the evening the woman engaged Wills in conversation, and Tipton went outside and fired two shots into Wills' brain through the window. He then shot and killed his wife and escaped to the hills.

WHITEWAY'S EXTRAVAGANCE.

May Cause the Government to Veto His Retrenchment Bill.

St. John's, Nfld., July 6.—It is reported that the English Banking syndicate that floated the loan have sent a number of strong telegrams to the Government here rebuking them for extravagance in expenditures during the closing session of the Legislature. Leading lawyers believe that the Imperial Ministry will not approve the bill for the reduction in salaries, which bill the Governor suspended yesterday.

The Telegram, the Government organ, rabidly attacks Governor O'Brien. It condemns his administration, and indulges in gross abuse of him. This is done in revenge for his action yesterday.

DIED ON HIS MOTHER'S GRAVE.

Shot Himself Rather Than be a Burden to His Relatives.

Stamford, Conn., July 5.—The body of Albert Roux was found this morning in Woodland Cemetery. He had shot himself in the breast, and died on his mother's grave. He wrote two letters before he died, one to his brother Emil, in which he said he was afraid he would be a burden to his relatives, as he was growing deaf and eccentric. Another letter to an undertaker told just where the money could be found, and requested that he should be cremated. His request in regard to the disposition of his body was carried out.

The Grays Brought Back.

Toronto, July 6.—Tired out as the result of four nights' loss of sleep, Chief Government Detective John Murray arrived in the city last evening from Peterboro, where he placed in charge of the jailer of Peterboro County Thomas Gray and his wife, Hessie Gray, charged with the murder of Daniel Scollie in Otonabee Township on Feb. 22, 1894. He also left with the jailer the six children of the accused, who had been brought back from Florida with their parents, the officials of Marion County declining to surrender Gray and his wife unless the offspring accompanied them to Canada.

The husband and wife will have their preliminary examination before County Magistrate Edmison on Tuesday, July 16. It is expected that before that date the children will have been adopted by relatives of the accused.

SCOTT'S SKIN SOAP SHOWS CLEAR SKIN

Sold by J. D. Tully, Peterborough.

"Swapping Dollars."

All good housekeepers have a cleaning up time, whip all the carpets, "raise Cain," and turn things upside down generally. That's what we're doing; don't use any Pearline or Sapolio but a good deal of "soft soap and common sense." We've some odds and ends in Summer Hats, that we don't wish to carry over. If you've an odd dollar in your pocket, step in and we'll give you two for it. Here's how we do it:—

Ladies' Sailor Hats, trimmed with Navy blue spot, and some brown and drab, worth 75c, sell for 25c.
Boys' coloured and white Straw Hats, sold for 40c and 50c, sell for 25c.
Boy's fine coloured and white Straws, sold for $1.00, sell for 50c.
Men's High Crown Straws, very fashionable, sold for 75c, $1.00 and $1.25. sell for 50c. and 75c.
Boys' 'Varsity Caps, selling from 10c to 25c, worth from 20c to 50c each.

These Goods will surprise you with their cheapness.

Forced-to-Sell-Sale

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

BURKING THE ISSUE.

Disaster Postponed But Not Averted.

WILL NOT DEAL WITH THE SCHOOLS

Dishonesty of Purpose Was Behind the Remedial Order—The Government Had No Desire to Right a Wrong, But Wanted a Cry to Recloud the Trade Issue and the Deficit.

Ottawa, July 8.—The week which closed Saturday has been one of the most critical in the history of the Conservative party. While disaster may be postponed, it has not been averted, for the position of the Manitoba school question is in no degree changed by the compromise decision that has been arrived at by the Cabinet. The determination to defer the day when the Government must meet the issue fairly and dispose of it upon its merits is not surprising to those who have watched the course of political events since the time that the mantle of leadership fell upon unworthy and incapable shoulders. It has been a course of vacillation, weakness and cowardice. The Government has no mind of its own, no courage and no policy. The events of the last few days have shown the dishonesty of purpose that was behind the remedial order when it was served upon Manitoba in March. The action of the Government was prompted by no desire to right a wrong said to have been inflicted upon the minority in that province, but to serve the party in the election which it was their intention to bring on. It was not expected at that time that the ministers would find it necessary to change their minds again and have a session of Parliament instead of an appeal to the people, but circumstances so decreed it, and the spectre of Remedial Legislation confronted them. While the Ontario leaders were attempting to tranquilize their followers with the assurance that the Remedial Order did not mean what its terms implied, and that the Government had no thought of implementing it by legislation, Mr. Ouimet in Vercheres and Sir Charles Hibbert Tupper in Antigonish were declaring if Manitoba did not yield the force of Parliamentary authority would be given to the Order. In those days the Minister of Public Works used many brave words in the hearing of his compatriots. If the rights of Manitoba were not conceded he would resign his portfolio and the emoluments thereof. If the Government then had in its mind the idea of supplementing the Order by legislation, which is doubtful, it had no courage to carry its purpose out to its logical conclusion, and with the arrival of the answer of Manitoba, respectfully but firmly declining to comply with the demand of the Federal authorities, it became necessary for the Government to do something. On the one hand there was the clamor of Mr. Ouimet and his followers from the Province of Quebec for the promised redress for the wrongs which they claim have been inflicted on the minority of Manitoba. On the other hand, the determination of Mr. Haggart and the faction of the party which acknowledges his leadership, to resist legislation, and if need be to defeat the Government. This was the alarming position of affairs, when on Friday the ministers met in council to wrestle with the problem that presents itself for solution. Although the leader of the House will not officially announce the result until Monday, the statement was given out that a line of action, or, more properly speaking, of inaction, had been agreed upon. Because of the threatened revolt of 39 Ontario Conservatives, it was arranged, in order to enable the ministers to continue in their offices a little while longer, to close the session without bringing in the Remedial bill, which has been drafted, and to undertake to introduce legislation at another session, to be held before the expiration of this Parliament. This compromise is satisfactory to neither side. The opponents of Remedial Legislation have no assurance that the Government does not mean to carry out its agreement with its Quebec supporters, while the contingent from Quebec suspects, and with a pretty good show of reason, that the Government has not the slightest intention of keeping its promise. Those who favor remedial legislation realize that they are depending on a slender reed when they accept the word of a Government that would not scruple to sacrifice a pledge to gain a party advantage. If they allow the Government to get through the present session without giving the effect of law to the remedial order they fear that an appeal would be made to the country, and that they would be left out in the cold. The unofficial announcement of the decision of the Cabinet has stirred up anew the indignation of the more outspoken among the Conservatives who favor immediate legislation. It is just possible that the expectations of Mr. Foster, that prorogation will take place this week, will not be realised, for the hostilities that have divided the Conservative household against itself may reach such an acute stage as to render a reconciliation impossible. Mr. J. Israel Tarte has given expression to his view of the situation, and it is interesting because of the misrepresentation to which that gentleman has been subjected by his political opponents in all parts of the country.

Referring to the present position of the Federal Government, Mr. Tarte says: "Only one hope is left for them: the active and violent intervention of the clergy in election campaigns—as in the days that preceded Mgr. Conroy's mission to Canada. It will be with a view to obtain that intervention that the Government will introduce what is called remedial legislation. We are then in the presence of an audacious and cynical election manœuvre, which is full of consequences and dangers—for the Catholics, for the French-Canadians especially, for Confederation. There is not in the whole Canadian Parliament a man of any standing who is not aware that it is impossible, in the present state of things, to force Manitoba to submit to an educational law adopted by the Federal power. Such a law cannot be enacted. It will not be enforced. It cannot be enforced if Manitoba resists, and, unfortunately, there can be no doubt as to that resistance. It was, so to speak, prepared and organised by the Tory party themselves.

Further on, he refers to Bishop Gravel's action in the matter, and says: There was not in the whole journalistic world of the country a single voice raised to try and justify or extenuate the conduct of the prelate. The word consternation is not too strong to express the feeling of the Catholic members when these strange proceedings were placed before the eyes of the public. As regards the Protestants, their opinion was made known in the shape of protests that were both general and vigorous. The honor and good faith of the Privy Council—on whose latest judgment the Catholic cause rests—are categorically attacked and denied in the memoir of the Bishop of Nicolet. In view of such facts, how can it be expected to obtain the calmness required for a solution of the school question?

The views of Mgr. Lafleche, the dean of the Hierarchy of Canada, are given by L'Echo de Louiseville in a report of a meeting of the churchwardens of the parish of Louiseville, Maskinonge County. In the course of his remarks Mgr. Lafleche said:

"Far from blaming the Government, we ought to thank it." Mr. Laurier, the leader of the Liberal party, declared to me personally that he preferred neutral schools to free schools. This is a grave error. Neutral schools are worse than free schools. I have seen Sir Mackenzie Bowell and he is altogether in favor of Separate schools."

$60 Idle. $250,000 Loss.

Rohnerville, Cal., July 7.—Fire yesterday destroyed the Pacific Lumber Company's plant at Scotia. The loss will be $250,000. About 300 men will be thrown out of employment.

A Duluth Warehouse

Duluth, July 7.—The warehouse of the Union Dock Company in Lake-avenue was destroyed by fire at midnight, causing a loss of over $100,000; the insurance is much less.

Sudden Death of John C. Fitch.

Toronto, July 8.—Mr. John C. Fitch of 55 Jarvis-street, an old and well-known resident of Toronto, dropped dead at Sunnyside on Saturday night, owing to overexerting himself in endeavoring to catch a street car.

The only son of the deceased was Lt. William Fitch of the Royal Grenadiers, in the rebellion of 1885. The father who was killed at the Battle of Batoche never entirely recovered from the sorrow of his son's death. The monument he erected in his memory is to-day the chief ornament of Mount Pleasant Cemetery.

Deceased, who was a man of considerable wealth, leaves a widow and several daughters.

Peas—Trade dull and prices unchanged at 58c to 59c west.

BATTLE FOR LIFE.

Two Burglars Worsted By An Athletic Priest.

A LONG AND DESPERATE STRUGGLE

The Priest Broke the Rifle on His Assailants. Was Stabbed in the Neck and Left for Dead—Montreal's Fire Losses — Live Stock Shipments.

Montreal, July 8. — A great sensation has been created in the country surrounding the generally quiet and peaceable village of Acton, on the Grand Trunk, some 40 miles east of this city, by a murderous assault made by two tramps who attempted to break into the priest's residence. Rev. Abbe Dutilly, the vicar of the parish, who is a powerful man, came within an ace of losing his life in a terrible encounter, which ended in his falling unconscious to the ground and remaining some hours in that condition.

It appears that when the burglars had effected an entrance a hand-to-hand fight occurred between the two burglars and the priest. The priest broke his rifle on his assailants. Then he seized a poker and drove it into the neck of the younger burglar, who fell to the ground in a copious flow of blood.

The tramp pulled out a dagger and attempted to stab the priest, and in the desperate struggle which ensued the priest received two stabs in the breast, piercing his soutane shirt and scapulary and making a slight wound.

At this moment the elder of the burglars attacked the priest with a bar of iron. The latter seized the elder man by the throat, but both the vicar and the younger tramp fell to the floor exhausted and unconscious. Nearly two hours after, when Rev. Mr. Dutilly recovered consciousness, the two tramps had disappeared, carrying little or nothing with them.

The fire commissioners, Messrs. Alfred Perry and E. Poirier, to-day received from their secretary the half-yearly report of the fires and losses during the past six months. The losses amount to $159,458 and the insurance on the properties was $701,817. Investigations were held to discover the origin of 186 fires and 879 witnesses were examined.

The following were the live stock shipments for the past week:

Steamer Grecian, London, 83 horses, 316 cattle, 816 sheep; steamer Lake Ontario, Liverpool, 96 horses, 451 cattle, 147 sheep; steamer Norwegian, Glasgow, 400 cattle; steamer Mexico, Bristol, 210 cattle, 880 sheep; steamer Amarynthia, Glasgow, 82 horses, 400 cattle, 293 sheep; steamer Germa, London, 83 horses, 228 cattle, 1466 sheep; steamer Merrimac, London, 71 horses, 523 cattle, 1871 sheep; making a total of 419 horses, 2528 cattle and 5473 sheep.

A despatch from Waterloo states that the child of a Belgian farmer named Faniel overturned a lamp, and the carpet taking fire nothing could be done to save the farmer's home from destruction, sustaining a loss of $1200, besides a further sum of $150 in bank bills. The members of the family were got out of the house with the greatest of difficulty.

HALF OF ELMVALE IN ASHES.

Fifteen Buildings Burned—The Loss $40,000, With $20,000 Insurance.

Elmvale, Ont., July 7.—About 1 o'clock Sunday morning a fire was discovered in Furlong's harness shop, which soon spread to adjacent buildings, resulting in the destruction of Hunt's Hotel, Tweed's Hotel, Calagan's tin shop, Crawford's residence and shop, White's drug store, Broderick's liquor store, Massey-Harris agency, Mrs. Stone's store and dwelling, Cooper's store and postoffice, Nixon's store and dwelling, skating rink, Little's blacksmith shop, Robinson's jewelry store, Haney's residence and vacant store. Several other buildings were badly scorched. No lives lost. The losses will aggregate about $40,000; insurance carried for about half this amount; cause of fire unknown.

800 Homeless Near Cornwall.

Cornwall, July 8.—A fire started in Lorneville, a suburb of Cornwall, about 1 o'clock Sunday, and at 4 o'clock 50 houses and about 800 people were rendered homeless. The town is without a fire apparatus, and also lacks fire protection from the waterworks system. Great distress prevails. One child was burned to death, as far as known.

Some boys playing in a shed in the settlement set fire to the building. A high wind was blowing, and the flames communicated with great rapidity to the adjoining houses, which were of wood, and in three hours the whole district was a mass of smouldering ruins. The Cornwall fire engine, being in Montreal undergoing repairs, and the settlement having no fire apparatus, the fire had full scope, and burned until there was no more food for the flames. The Cornwall fire brigade put all their hose on the town hydrant, but could not get within 1200 feet of the fire.

MONDAY, JULY 8, 1895.

THE SITUATION AT OTTAWA.

The crisis in the Government and the Conservative party has been postponed, not averted, by a characteristic display of cowardice. Two days of struggling in the Council convinced the members of the Government that it was impossible to unite on a course, and that to make further attempts to do so meant immediate ruin, and thereupon the expedient of a further postponement was involved.

Mr. Ouimet, face to face with the relinquishment of his office, or the fulfilment of the pledges made by him to Quebec, capitulated to Mr. Haggart. The Government on Monday announced to the House that nothing will be done this session, but that a session will be held in the fall for the special consideration of this question, and the hope will be held out that remedial legislation will then be passed. If it can be passed, then why not now? Nothing in the meantime can change the merits of the case, for the Manitoba Legislature, which can alone relieve the Government of its problem by amending the acts complained of, will not meet in the interval, and when Parliament meets again the fundamental division on this issue will again show itself, to the certain undoing of the Government. In the interval, of course, the ministers will continue to draw their salaries and wield the patronage of their department, and this to them is an important thing.

A government which has made so many pledges, only to break them as occasion offered, is not to be relied upon, no matter how solemnly it may bind itself, and the promise of a special session is quite possibly one that is being made to hoodwink and humbug the French members into permitting the prorogation of the House without action. Once they are gone the Government will not lack ingenuity enough to refuse to call them together, and as Parliament dies by the effluxion of time in nine months there is no way in which it will be possible to force the fulfilment of the pledge. An election under conditions of such chicanery would no doubt be disastrous, but less so than a collapse in Parliament.

The Government is as far from a policy as it ever was. It is going to drift for a few months more, but the crash is inevitable and cannot be much longer delayed.—Montreal Herald.

THE DOMINION GOVERNMENT'S BACK-DOWN.

The Conservative Dominion Government has shown the white feather in the matter of remedial Legislation in respect of Manitoba Schools. At a cabinet meeting held on Friday morning it was decided to not introduce a remedial bill this session. And this after all the bluster, bravado, and promises to the minority. And this in spite of the specific promise of Premier Bowell to assume the responsibility of remedial legislation, and his boast that when the time came to act the government would act in spite of the results. Now they have ingloriously backed down after trying to bully Manitoba by serving on her a blustering and peremptory remedial order, and Manitoba flatly refusing, the government meekly takes this slap in the face and cowers before the consequences of taking action to which they are committed by repeated promises. This cowardice will not avail them; it disgusts both friend and foe. The French members of the Cabinet and their supporters in the House are highly displeased. The Government stands to lose whatever way it moves. The threat of forty of its supporters to kick against voting for interference doubtless caused the back down that has been made, the promise of a special session that never will be held, being made to pacify for the moment the Quebec supporters of the government.

It has been a very noticeable fact that the number of suicides reported lately in the United States has been remarkably large. According to the Chicago Tribune, the total from January 1st to June 28th was 2,756, and if the same ratio is kept up during the remaining half of the year there will have been 5,512 suicides during 1895. This would be 600 more than occurred in 1894, when the total was 4,912. This however, does not indicate that times of depression are prolific of suicides, for in 1893, when the industrial panic reached its height, there were 1,100 fewer than, according to the present ratio, there will be this year.

The Building Commissioners' report for the first quarter of this year in New York shows that there were filed the plans of 1,107 new buildings at an estimated cost of $27,462,514 against 538 buildings and $9,418,030 cost, during the corresponding period of 1894. These figures present incontrovertible evidence of an increase in prosperity. For the month of June the receipts of the United States treasury were in excess of the expenditures. The days of a deficit in the States are over and the accumulation of a surplus begins. What is the prospect for this year in Canada? In the United States following the overthrow of McKinleyism the revival of business and industry under the Wilson tariff is accomplishing its successful work. What is the N. P. doing for this country?

The folly of the governmental cheeseparing policy in connection with the Northwest Mounted Police has been brought into special prominence by the recent trouble on the Blackfoot reserve. The story concerning the disturbance near Gleichen and the terror of the white people, as published by the Globe and discussed in the House on Thursday, appears from the statements of the Minister of the Interior, to have been an exaggeration, and if so the makers of it are highly culpable, as such a story is calculated to do the country much harm and to retard settlement. But there is no smoke without fire, and the incidents which occurred, even though they be not so bad as described, clearly show that the time has not come when it is safe to reduce the force. This has also been proved by the protests from residents in the Northwest. The Government can continue to exhibit its "economies" in the matter of dismissing poor clerks and reducing the number of charwomen. It might by an effort reduce the expenditure on its contracts. But the reduction of the Northwest police at the present time would, the Ottawa Free Press thinks, evidently be most untimely.

DIED FROM A TROLLEY ACCIDENT.

Dr. Boyd of London Succumbs to His Injuries.

London, Ont., July 6.—Dr. Francis L. Boyd, a brother of Chancellor Boyd, died in the hospital from injuries caused by a collision with a trolley. Dr. Boyd was 76 years of age, and was well to do. Besides Chancellor Boyd he leaves another brother in Toronto, a lawyer, and one in Forest, a doctor. A neighbor, Mr. J. Routledge, who was driving with Mr. Boyd at the time of the accident, was also injured, and is in a serious condition.

Five Injured in an Explosion.

Jersey City, July 6.—Eighteen steam condensers in the Zinc Works of Manning & Squires, on the Newark meadows, blew up this morning, injuring five men.

Killed by a Bicyclist.

Louisville, Ky., July 6.—Dr. Edward Palmer, one of the most popular physicians in the South, was run over by a bicycle last night, and sustained injuries from which he died.

Five Fatalities Due to a Cyclone.

Baxter Springs, Kas., July 6.—A cyclone struck Baxter Springs last night and killed five persons outright and injured two so badly that they are not expected to live. A dozen persons were seriously injured. Many stores, residences and barns were totally wrecked.

"Go Drown Yourself"—And He Did.

Buffalo, July 7.—Fred Meister, 25 years old, was told by a jocular saloonkeeper this morning to "Go and drown himself," and forthwith proceeded to carry out the instructions, piling his garments on the dock and leaving a letter stating that he was observing the ordain of the saloonkeeper in taking his life.

Revival of Trade.

Reports from the United States support the view that trade interests have vastly improved recently and that the business outlook for the future is encouraging. This will be welcome news to the people of Canada, since our trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Painless Corn Extractor. Times being dull everything not absolutely needed became a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proven the only safe, sure, and painless remedy for corns.

We don't advise you to keep away from other stores. We are glad to have people visit elsewhere, then come to us. They can then make their comparisons, which we invite, both in goods and prices.

WE ARE NOW HOLDING
A LIVELY JULY SALE
OUR ANNUAL LEVELLER OF PRICES.

During July we must make a clearance and prepare for Fall work. Our entire work of Superior Ready-to-wear Clothing, genuine Cloths, Tweeds, Trimmings and Gentlemen's Furnishings is now reduced to the lowest possible notch.

LOW PRICES must move our stock and LOW PRICES will continue for all garments sold by us, either ready-to-wear or made to-measure.

People that are hard to please are the ones we want to examine our stock. They never leave our store disappointed. We claim superior qualities, and as we are forced to level our prices, those that know the value of good goods are sure to choose from our stock.

MATCHLESS SALE OF TWEED REMNANTS.

Men and Mothers are talking about it. Over 1000 yards in Short Ends from one to eight yards long at less than mill prices. Wise buyers are coming and picking up "snaps" every day. Don't delay. It's a chance you should not miss.

CURED BY

SCOTT'S SARSAPARILLA

You may relieve a cold in the head by local applications, but all the snuffs, powders, sprays, douches and balms on earth won't cure catarrh. Scott's Sarsaparilla will, because it acts constitutionally with pure blood, reaching every part of the system, searching out the fount of mucous accumulations, removing the cause of their being. The reason it cures catarrh is on account of the newly discovered properties it contains.

GONE TO THE COUNTRY

The British Campaign Now on in Earnest.

THE FORMAL DISSOLUTION TO-DAY

Knox of Cavan Protests Against the Action of the Upper House—Lord Salisbury Replies to Rosebery, Defending the Peers and Outlining the Unionist Program.

London, July 6.—The House of Commons met at 10.30 o'clock Saturday, and passed through its third reading a bill devoting money to the maintenance of the various public services until the next Parliament meets.

Mr. E. F. V. Knox, anti-Parnellite member for Cavan, vehemently protested against the action of the House of Lords in refusing to go into committee on the Irish Municipal Franchise bill, after having passed the measure through its second reading.

Mr. A. J. Balfour interrupted Mr. Knox with the remark that this was not the occasion for discussing the House of Lords.

Mr. Knox endeavored to continue his tirade, and the Speaker was compelled repeatedly to call him to order.

Mr. Knox finally subsided, after denouncing the bigotry and treachery of the Government.

Mr. R. G. Clark and Mr. Labouchere protested against the insane competition of Great Britain with the other powers in building warships and maintaining a costly army.

The House of Lords met at noon. Lord Salisbury said this was the last time the House would meet before the dissolution of the present Parliament took place, and he wished to reply to the recent speech of Lord Rosebery, in which he had attacked the legislative preponderance of the House of Lords.

Lord Salisbury proceeded to say that the Upper House took no share whatever in the votes through which Governments were displaced or inaugurated; neither did they have any part in the provision of funds for the public service. As regards other matters, however, the House of Lords possessed precisely the same powers as the House of Commons, but he assured Lord Rosebery that if the future career of the Commons should be marked by such bills as were introduced in the Parliament just nearing its end they might depend upon receiving strong opposition from the House of Lords.

Lord Salisbury, continuing, said the House of Lords had been working to resist the inauguration of changes which were not supported by a majority of the nation.

As regards Home Rule for Ireland, England, he said, was certainly hostile to it. He also believed that a majority of the nation would fail to support an attack upon the established church, and that, as far as Home Rule for Scotland and Wales were concerned, neither could be carried without exciting the most passionate resistance of the people of England.

The policy of the Unionists, His Lordship declared, was a positive, not a negative one, for they intended to legislate with a view of decreasing the suffering of the poorer classes. They would try to revive the agriculture of the country, and would also give their attention to the matter of carriage of produce to the markets by railway, the creation of small holdings for tenants, the revision of the poor laws, and would consider measures for the amelioration of the social condition of the people, and do the utmost in their power to mitigate the misery which attended the vicissitudes of these changeful times and lessen the sorrows that attend the lot of so many millions of their fellow creatures.

Lord Salisbury's remarks were greeted with cheers. Lord Rosebery, in reply to the new Prime Minister, justified his previous statements. He said one side of the House of Lords was so overwhelmingly strong it was impossible for a Liberal Government to carry any measures introduced, however beneficent.

The House of Lords and the House of Commons reassembled at 2 o'clock in the afternoon. Parliament was then formally prorogued until July 24. A decree of dissolution will be made on Monday, July 8, immediately after which writs for a new election will be issued.

LIBERALS IN GOOD HEART.

They Even Believe They Will Carry the Country.

New York, July 7.—Ballard Smith cables from London to The World:

It is well within bounds to say that the profound lack of faith in their chances at the general election, which, within my knowledge, was felt by most of the Liberal leaders at the time of their defeat in Parliament—and, indeed, for months before—has given place to-day to a really confident belief that they will return with a majority, perhaps even a considerable one.

Lord Salisbury never was a tactful politician, but he has crowded so many political blunders into these ten days that an unprejudiced outside observer can only recall one chapter in history equal to them—the fatuous course of Louis XVI., before the revolution. He has already committed the Conservative party to a most reactionary policy. While angering his stiff-necked Tory supporters by an undue surrender to Mr. Chamberlain's demands for place, he has antagonized the English love for fair play by a wholly gratuitous insult to Mr. Campbell-Bannerman, and disgusted the English regard for truthfulness by a very equivocal excuse for the ungentlemanly act. With brutal frankness, he practically has declared himself against any effort to reform the present liquor license laws, against which the whole moral force of the nation is aroused. And, together with other hardly less crucial and cynical avowals of disregard for obvious popular sentiment, he has finally made his House of Lords throw out a bill passed in the Commons, the entire justice of which cannot possibly be denied. He has thus consolidated Irish sentiment and the English sentiment which favors justice to Ireland, and has given an object lesson than which nothing could be stronger to the Liberal crusade against the Lords.

Lord Rosebery, Sir William Harcourt and John Morley, within these last 48 hours, have preached boldly and exultantly the extremist Radical program for the abolition of the veto power of the Lords, for local veto of the liquor traffic and for Home Rule for Ireland.

The Liberal leaders have again the courage of their convictions, which has been rather to be doubted since Mr. Gladstone's withdrawal, and the party seems once again united and enthusiastic.

The defeat of the Irish Municipal Franchise bill by the Lords by the solid veto of the Tory majority seems really the act of madmen. The bill passed the House of Commons this session by 62 majority, when the Government's party majority was below 10.

It gave to the Irish municipalities exactly what the English municipalities have had for 60 years.

The only possible, though outrageous, excuse for its defeat, is that in Ulster the existing restricted franchise enables the Orangemen to keep absolute control of the corporations and of all the municipal offices in Belfast, Londonderry and several other smaller towns, while in the other three provinces it gives the Orangemen representation in the municipal bodies entirely disproportionate to their number. In the towns where the Orangemen are paramount no Catholic is ever employed by the corporation in any but laboring work. In Londonderry, where there are 18,000 Catholics, as against 14,000 Protestants, the only municipal capacity in which Catholics are employed is as scavengers.

Lord Cadogan, the new Viceroy for Ireland, led in the attack upon the bill, and thus gave Ireland notice of what to expect from Lord Salisbury's rule. Meanwhile Mr. Chamberlain, in the House of Commons, has already begun his fight with Mr. Balfour for the leadership by intervening in every question that has arisen, in conspicuous disregard of custom, which leaves to the leader of the House the sole right of defining the Government's policy. The Unionist coalition thus already shows signs of speedy disintegration.

At the Liberal headquarters the officials say to-night that they are amazed at the triumphant tone of the reports they are now receiving from the country party managers.

It is a curious and interesting fact to Americans that from the moment Parliament dissolved on Monday, and the general election technically began, the leaders of the two parties—Lord Rosebery and Lord Salisbury—will be absolutely debarred from taking any part in the contest, either by speech, writing or work. They suffer this disqualification in common with all peers under a standing order passed many years ago by the House of Commons, declaring it to be unconstitutional and a breach of the privileges of the House of Commons for any peer to participate in the work of a general election. At the time this resolution was adopted the interference of the peers, in their landlord capacity, with the Parliamentary elections had reached a scandalous pitch, and the conduct of some of them had become so indefensible that the House of Lords was compelled by the force of public opinion to accept the decree of the Commons, although it really has no force in law. In spite of the seriousness of the issues, already some humors of the campaign have arisen.

Chamberlain Speaks for Stanley.

London, July 8.—The Right Hon. Joseph Chamberlain made a speech Saturday night at Lambeth in support of Mr. Henry M. Stanley, who is contesting the Parliamentary seat for the North Division of Lambeth. Mr. Chamberlain dilated upon the social reforms that are desired by the Government, his description of them being similar to that of The Chronicle, which recently gave a forecast of the Government's policy.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

Coughs, colds, sore throat, asthma, bronchitis, and all lung troubles are quickly cured by Hagyard's Pectoral Balsam.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

VISIT OF AN OLD RESIDENT.

Interesting Reminiscences.

Mr. A. Lockhart and Mrs. Lockhart, of Newcastle, parents of Mr. Wm. Lockhart, ex-M. P. P., West Durham, are in town for a few days. Before returning home they will visit Mr. James Mann, of Smith, a cousin of Mr. Lockhart's, and about the same age—77. Though so much advanced in years Mr. Lockhart is erect, vigorous and active, both in mind and body, conditions which he attributes to regular habits of living practiced all his life. Mr. Lockhart lived in Peterborough over fifty years ago—53 years—and occupied the first house of any consequence built in Peterborough. It was erected by the late Adam Scott. He was manager mill for the late Thomas Fortye, whose mill was then standing on the present site of the Peterborough Canoe Company's buildings. The indistinct remains of the head and tail race of the mill are the only landmarks of half a century ago which Mr. Lockhart can discover in Peterborough. This race extended along King street from the mill to the creek, which was, at the time spoken of, about five times its present volume, furnishing water sufficient to drive two run of stones the year round.

PARK STREET CHURCH TO BE ENLARGED.

Two New Wings Added to the Structure—The Plans and Specifications.

Plans and specifications are being drawn up by Mr. Blackwell for the enlargement of the Park Street Baptist church.

A wing will be added to the rear and another to the east side. The rear wing will be in the form of a chancel, which can be used as a Sunday school class room and library, as well and will do much to transform the building from the appearance of a Sunday school to that of a church.

The west wing will be divided from the main body of the church by large folding doors which will enable it to be used as a Sunday school room and yet during service the doors can be thrown open and the new apartment made one with the main body of the church.

The congregation felt that the rapid growth of the congregation and Sunday School would warrant the additional outlay to provide better accommodation for those attending the church.

THE MALE CHORUS.

They Will Compete Against All-Comers in August Next.

The members of Peterborough male chorus, which will compete at the great musical festival to be held here in August, are as follows:—

First Tenor, Messrs. Manning, Miller, Gray and Stern; second tenor, Messrs. Squire, Crowe, Miller, Jones and Dawson; first bass, Messrs. Lamb, Shelton, Daly, Martin, Nelson and Davis; second bass, Messrs. Turner, Skitch, Drope, Edmison and Matthews.

The first rehearsal will take place this evening in the Y.M.C.A. hall.

To-morrow evening the second grand rehearsal of all the choirs will take place at the same place.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION.

Rev. J. C. Davidson Will Preach a Special Sermon in its Interests.

Notice was given in St. John's yesterday that a special sermon will be preached by the rector in behalf of the Young Women's Christian Association next Sunday evening. A special offertory will be made on behalf of the funds. It is expected that the board of directors and the friends of the Association will attend St. John's church in a body next Sunday night.

Watermelons.

Just arrived, another big load of choice fruit, including watermelons, tomatoes, bananas, lemons, oranges, berries, currants. Also celery, cucumbers, beets, carrots, cabbage, onions, etc. A fine assortment of canned goods. OKE & Co.

Telfordian Temperature Topics.

Monday, July 8th—At this morning's observation the self-registering thermometer indicated 65 degrees above zero, with some indications of rain. Yesterday was the hotest yet, morning 65 deg., past noon 96, and night 80 degrees, which will make the bigest average 77 degrees for the day. —THOS. TELFORD.

"French Clarets."

I have received a large shipment of French Clarets, which will be sold cheap, from 25c. per bottle up. These are fine wines, and the best blood purifiers.

Sprinkling the Sidewalks.

The sidewalks on the principal streets still continue to be drenched at every hour of the day by the owners of adjoining properties, notwithstanding the fact the public has strongly protested against the action. It would not be any serious inconvenience to sprinkle the walks before eight o'clock in the morning, and by the time ladies with their thin-soled shoes come down town, the puddles would have evaporated and the boards only present a pleasant dampness.

Cheap Trip to Sturgeon.

Annual excursion in connection with Young People's Societies of the Whitby and Lindsay Association, Tuesday, July 9th, (to-morrow) to Sturgeon Point, the beautiful pleasure resort of the Midland lakes. Transit by train to Lindsay and thence by steamer Crandella to Sturgeon. Brown's orchestra of Lindsay will provide music. Train leaves Peterborough at 8.40 a.m. Return fare to Lindsay, adults 45 cents, not 50 cents as given on posters, children 25 cents. Fare by steamers 25 cents and 15 cents. All are cordially invited. 1d

St. Luke's Church Notes.

The Rev. Mr. Moore, of Prince Albert, preached in St. Luke's church last night, and a special offering was made on behalf of a new church he is about to erect in that town.

Mr. Tom Bysh, assistant librarian of the Sunday school, left last week for Montreal. The officers and teachers met yesterday afternoon and decided, in connection with the choir, of which he was a member, to present him with a Bible.

With reference to the recent alarming reports from the Blackfoot Reserve, the Rector received a telegram on Saturday stating that Rev. Mr. Tims, Mrs. Tims and Miss Symonds had been compelled to leave the mission for a time, but that the Indians are now quiet.

The enlargement of St. Luke's rectory is nearly completed.

Rev. C. W. Hedley has arrived safely in Germany, and is enjoying good health.

SUDDEN DEATH OF MR. JAMES DAVIDSON ON SATURDAY.

He Falls From a Hay Wagon and Sustains Such Injuries as to Cause his Death.

As the result of a most deplorable accident occurring on Saturday afternoon last, Mr. James Davidson, of lot 6, 13th con. of North Monaghan, was so seriously injured as to cause his death the same evening.

Just exactly how the accident occurred it is impossible to ascertain, but sufficient of the details are gathered to show that it was in an endeavour to prevent his child being injured that he came to his death.

Mr. Davidson was engaged in haying. He was on the load and his hired man was "forking on" to him, whilst his little daughter was driving a horse attached to the rake.

Suddenly the horse on the rake became affrighted and made an endeavour to run away. It succeeded so well as to get entirely beyond the little girl's control and raced madly around

THE LARGE HAY FIELD,

the width of the rake alone preventing an upset, as first one side and then the other would be high in the air as the wheels met obstacles or were forced over haycocks. The little girl's position was a perilous one, as any instant she might have been shaken from her seat and fallen amongst the sharp teeth of the rake.

Mr. Davidson despatched the hired man to endeavour to head the runaway animal off and corner it, whilst he himself prepared to slide down off the load and also join in the chase.

The horses on the wagon were a very spirited team and he stated that he would have to unhitch them first or further trouble would be caused. Even as he spoke they became excited by the scene and a hurried glance showed the hired man that they were becoming restive even then.

What happened within the next few seconds no one can tell, but by the time the runaway horse was caught and the little girl released from her dangerous position, the man noticed that something was wrong at the waggon, as Mr. Davidson was lying on his back about ten yards in its rear.

He hastily ran over to the spot and found him bleeding profusely from the nose and mouth and evidently in great pain though conscious. He stated that while descending from the front of the wagon the team started and he was thrown to the ground. It is thought the wheel must have

PASSED OVER HIM,

but Mr. Davidson did not mention this fact.

Medical aid was immediately summoned from town, but the internal injuries received were such as to allow of no hope of the man's recovery. A severe scalp wound had been received, four ribs were broken and the internal hemorrhage plainly indicated the existence of those injuries with which medical science can not successfully cope.

Mr. Davidson passed away at about eight o'clock in the evening, leaving a widow and four children to mourn the sudden death of a faithful husband and most indulgent father.

Deceased was widely known throughout the county, having lived in North Monaghan since boyhood. He was in his 59th year at the time of his death. The funeral took place this afternoon at two o'clock from the family residence to the Little Lake Cemetery, and the large attendance attested the fact that the deceased leaves behind him many friends, won to him by his many good qualities.

Mr. Davidson was a brother of Messrs. Charles, Alex. and Angus Davidson, the two former living in North Monaghan and the latter in the Northwest Territories.

THAT FUNNY SHOW.

Professor Lee has come to town,
With his mirth-provoking show;
You'll miss the great chance of your life,
If you should fail to go.

Professor is a little man,
But world-wide is his fame;
His stature may be is rather small,
But he gets there just the same.

Of all the funny shows on earth,
Lee's surely is the best;
Just go and see it for yourself,
Then tell me if I jest.

You who are fond of laughing,
Should at once reserve your seat;
For if you fail to see Prof. Lee
You are missing a rare treat.

He'll make you shake with laughter,
Till from your seat you'll fall;
Come hear him everybody,
Come see him one and all.

You'll never know what real fun is,
Until you go and see
The greatest hypnotist on earth,
I mean Professor Lee.

The above poem was dedicated to Mr. Lee, the Hypnotist, at Grand Island, Neb., by Miss Madge Arnold. Lee opens his engagement of one week at the Opera House to-night. One lady free to-night only if accompanied by any other person with a paid 30 cent ticket.

It's Poor Economy

To wear Ready-Made Clothing these days—it always was—its particularly so now—and you are not much better off in purchasing from the ordinary every-day custom tailor, who buys in small quantities, pays the long price to the wholesaler and with a limited output, must pay expenses—demand the big price from his customer.

IT'S ECONOMY

Of the right kind to patronize the big house which buys for cash, and sells the same way, where every garment is high-class, designed by experts, and put together by high-priced mechanics; where you can rely on having style, finish and honest material in every particular, nothing slighted in the inner work and trimmings where they can't be seen, but fair dealing all around.

RIVER AND LAKE RIPLETS.

An Eddy of News from the Otonabee—Breezes from Rice Lake.

(From Our Own Correspondent.)

Fully a thousand excursionists visited Hiawatha, Rice Lake, Dominion day, where sports galore were held during the entire day under the management of the dusky nation which were born and raised there. The list of sports were made up of baseball and football matches, rowing, paddling, foot and other races, as well as a great many more seasonable sporting events. The sports commenced with a baseball match—Hiawatha vs. Alderville. Hiawatha for many moons gone past has been noted the Dominion over for its prestige as a rising baseball town; but, however, on Dominion Day last Hiawatha met with defeat in the hands of their brothers from Alderville. There were six innings played, with the following result:—

Alderville	1	3	0	1	2	0	—7
Hiawatha	0	0	0	0	1	2	—3

This is the first time these teams have met this year and as neither has lost a game a lively and fast match may be expected to result when the Lindsays meet them. The game takes place at the Jubilee ball grounds next week. The Indians are getting themselves in good form and express themselves as confident of success.

The aquatic sports including double and single canoe races, one mile and a half with turn, were most hotly contested in each event. The winners were as follows:

Prof. double canoe race, 1 mile,—1st, Madden and J. Howard; 2nd W. Beaver and Andrew Anderson.

Amateur double canoe race, 1 mile,—1st, H. Cowe and J. Paudash; 2nd, B. Smith and E. Loukes.

Amateur single canoe race, 1½ miles,—1st, E. Merriam; 2nd, J. Beaver.

Prof. single canoe race, 1 mile with turn,—1st, Madden Howard; 2nd, James Howard; 3rd, E. Merriam.

There were nine contestants in this race, which was most exciting.

Foot race, 300 yards—1st, Moses Marsden; 2nd, J. Paudash.

Putting the shot—1st, Andrew Paudash; 2nd, Archie Fulton.

Dog race, boys—1st, Ben Howard; 2nd Jim Coward.

Foot race, boys—1st, Harry Wheeler; 2nd, D. Howard.

The keenest interest was shown in each event, not only by the committee but those interested in the various sports.

The steamer left for her various landings about seven o'clock, the excursionists being highly delighted with their day's outing.

Most of the prizes consisted of cups and medals.

Ross—"I hear you went fishing yesterday, George, dear, did you catch anything?" George—Yes. I caught a licking from another fellow for throwing his bait in the lake."

Quite a number of bicyclists visited the Jubilee bicycle track Sunday last. There were some seventeen in all, and they greatly enjoyed a spin round the kite-shaped track. The wheelsmen were from Cobourg and Port Hope and rode to the Point from the gravel road. They made things jubilant.

The steamer Cyclone is booked to arrive at Jubilee on or about July 14th, with an excursion under the auspices of the R. B. N. of the C. S., with Capt. Alex Patterson at the wheel, while "Cassie" Collins pulls the throttle, "Jay" Gould will be first mate and "Two-for-a cent" Neil is purser. The above excursion will meet the Frog Catcher's Union, No. 7, at Wedlock's landing. Prof. Sidney Beckett's famous educated frog band, embracing some seven or eight dozen artists in all, will furnish music on board, and in the dancing pavilion on the grounds at the point Professor Beckett has engaged the eminent coronet soloist, Prof. Harry Lane. By means of great inducements he has secured the original saxaphone soloist, O'Sullivan O'Waley, to render his far famed solo entitled "What are the Wild Waves Saying." In this he will be assisted by Mr. Thos. Dixon as clarionet soloist. No doubt such professionals as mentioned will receive a hearty hearing with many encheres.

This week there was a ceaseless come and go by the various steamers to Jubilee Point summer resort, fishing and hunting grounds. The numbers brought in on the different excursions were as follows:

July	1	Firemen's, per City of Peterborough	230
"	2	St. Andrew's Sunday school, town, City of Peterborough	800
"	2	Private party from Cobourg, str. Beaver	150
"	4	George street Methodist Sunday school, City of Peterborough	800
"	3	Baptist, Port Hope, steamer Beaver	250
"	4	Presbyterian church, Centreville, steamer Beaver	300
"	5	King street Methodist church, Cobourg, steamer Daisy	400
"	5	St. Luke's Ashburnham	600
"	6	Christian Endeavourers of Welcome per steamer Beaver	250
		Total	3,450

Those registered at the Jubilee Point hotel for the weeking ending July 6th, are:—Mr. and Mrs. Benedict, Mr. Chas. W. Fields, Will K. Lattimore, T. G. Strong, Francis S. Quincey, Geo. A. Ferguson, Paul Mayo, Capt. Chas. Hodson, Chicago; Miss Alice Wallace, Port Hope; Miss Eugenie, D. A. Burton and Fred Burton, Montreal; Dr. W. C. Parks, K. C. Hudspath, Port Hope; Robt. Pringle, Oshawa; Mrs. Campbell, Master A. Campbell, Toronto; W. J. Trotter, Buffalo, N. Y.; E. J. Hartley, J. M. Edwards, Mrs. H. C. Winch, Miss Chamberlen, Mr. and Mrs. T. J. Winch, Mr. Harry Neil, wife and family, Peterborough.

REV. W. R. YOUNG PREACHES TO THE LOCAL ORANGEMEN.

He Hopes That the School Question Will be Lifted From the Domain of Politics.

There was a very large attendance of Orangemen, at the George street Methodist church, last evening for the annual church parade of that order. There were fully two hundred in line as the procession headed by the Fire Brigade Band, marched up to the George street church to hear a sermon delivered to them by Rev. W. R. Young, B.A. The following lodges were represented in the parade:

L.O.L. No. 80—Worshipful Master, Jos. Jones.

L.O.L. No. 49—Worshipful Master R. Maxwell.

L.O.L. No. 457 (Nassau)—Worshipful Master B. Campbell.

L.O.L. No. 178—Worshipful Master J. Atkinson.

L.O.L. No. 321—Worshipful Master Jos. Saunders.

'Prentice Boys, No. 7—Worshipful Master R. Jameson.

Loyal True Blues, Rising Sun No. 9—Master G. Duncan.

Loyal True Blues, Queen's Own, No. 48—Master W. Tremain.

THOUGH THE HEAT

was intense the church was well filled and the sermon delivered was a most appropriate one.

Mr. Young took as his text for the discourse the verse, "Therefore, brethren, stand fast and hold the traditions which ye have been taught, whether by word or our epistle," II Thessalonians, II ch., xv verse, and "Now we command ye brethren in the name of our Lord Jesus Christ that ye withdraw yourselves from every brother that walketh disorderly and not after the tradition, which he received of us," II Thessalonians, III ch., 6th verse.

These injunctions, he stated, were sent forth by St. Paul from Athens to the members of the church at Thessalonica, when that city, which was considered the eastern bulwark of Christianity, fell before the crescent banner of Mahommedanism.

The words in the first verse referred to the doctrinal standards of Christianity and those of the second more particularly to the practical aspects of the case.

The teachings of St. Paul as found in the Scriptures were those of honesty, brotherly love, personal purity, piety, diligence and activity, and last, but not least, the glorious

HOPE OF CHRISTIANITY.

In looking into the constitutions of Oddfellowship, Masonry and Forestry, he saw that they were all founded on such principles as enabled him to say to the members, "Hold fast to your traditions," as they were such as were in the teachings of Scripture.

So it was with Orangeism. He felt in looking over the constitution that to the members of this order he could also say, "Hold fast."

Strip the order, said he, of its regalia, its secrets, its gripe, its pass words, and what have we as the underlying principles? One, he found, was to maintain Protestantism on the throne of Great Britain, and he could say to them to "Hold fast to their traditions." His sermon could be found in the pages of history. The fires of Smithfield, and the terrible carnage of the days of Queen Mary, he said, were still so fresh in the memory of all that he was sure Canadian Catholicism would stand shoulder to shoulder

WITH CANADIAN PROTESTANTISM

to prevent a recurrence of such scenes.

Another principle upon which the order was founded was to preserve religious liberty and to prevent persecution of the believers in any creed whatsoever. He could also urge the members to "stand fast" to this principle as it was one of the keystones to England's might and glory.

In regard to the Manitoba School question, he felt it was unfair to any political party to attempt to discuss a question which was at present being discussed in the councils of those holding the reins of Canadian government. He could, however, express the fond hope that the question would be lifted from the low level to which it had fallen; taken from the domain of politics and placed on some solid platform, where it could not influence the political life of Canada.

In regard to the statement made by a clergymen to the effect that Canadian Public Schools were hotbeds of immorality and vice, he wished to repudiate it and characterised it as unworthy of its source and entirely devoid of truth. Speaking as a former school teacher and as one who had many school teachers in his congregation he wished to emphatically stamp the statement as most untrue.

In conclusion the speaker expressed the belief that Orangeism was never intended to be used as a political factor, and said he "Perish the hand that attempts to swerve it from the lines upon which it was intended originally to be conducted."

THE TOWN TREASURERSHIP.

To the Editor of the Examiner:

DEAR SIR,—As one who takes an active interest in the affairs of the town, and with no little property interests at stake, I ask space to express my approval of the stand you took in an article in Saturday's issue. I agree with you that it is most improper in principle that two offices whose duties are so connected; in which the incumbent is not in a position to act at all times impartially and without bias, should be united in the same person. The principle is the same as that of appointing the treasurer, or a member of the finance committee, or a councillor, as one of the auditors of municipal accounts. The principle is an evil one, and the most upright and most rigidly honest man, placed in such a position, might resist the temptations, to which his dual capacity would expose him, but it is neither safe to himself nor to the municipality to leave ground for the bare possibility of yielding to a temptation. Among the objections you urged against the appointment of a town clerk as treasurer, you did not lay stress upon the probability of irregular and unbusinesslike methods being practiced—how by the influence of a mayor or a chairman of a finance committee accounts "assumed" to be right may have cheques issued for their amount, which accounts subsequent events may prove should not have been paid. At least that has happened; and something very similar is liable under similar circumstances to happen again. It is pretty well known that our town accounts for these reasons became very much tangled and the town has thereby suffered loss. There is no danger of such a condition arising if the offices are kept separate, and one official made a check upon another. Like you, I have no personal feeling in the matter. The many and strong objections to Town Clerk Armstrong being appointed Treasurer would not apply to the application of Mr. S. R. Armstrong as a citizen. If the town clerk were the only available person in town capable of filling the office, then the council might have some excuse for dealing with his application favourably. But until that condition arises and the supply of fit and proper persons for treasurer are reduced to one, the council would not be in the least degree justifiable in uniting the two offices in one person.

Thanking you for space, I remain,

Yours truly,

CITIZEN.

July 8th.

THE TREASURERSHIP.

To the Editor of the Examiner:

DEAR SIR,—I entirely agree with the comments of THE EXAMINER on the Town Treasurership.

These offices should never again be combined. I know the difficulties of the position and the pressure that has been brought upon the clerk when treasurer by former councils, and the irrigular and improper way moneys were paid, and no clerk should be allowed to place himself in the position of having to fall back upon the council to right irregular and improper acts which he should not have done, but did do under the pressure "I will see you through all right." The town accounts have been properly kept and the town business more properly conducted since the offices were separated, and it is to be hoped that the council will not again unite these positions.

Yours truly,

EX-COUNCILLOR

July 8th, 1895.

AS TO STREET WATERING, ETC.

To the Editor of the Examiner:

SIR,—It appears to be a well-settled fact that it pays to attract as many excursions to our town as possible. That being the case, we should seek to make the town more attractive in every way that may suggest itself. On the day of the Orillia excursion the writer heard one excursionist remark to another, when asked how he liked the town, that he would like it if it was not such a dusty hole. As badly as the streets are watered on other days, it appears to be the fashion to water them still less, if at all, on excursion days. On Dominion Day, when we were supposed to have on our best bib and tucker, one's olfactories were frequently met by the burning of debris in one of the back yards. At one time it was principally hair thrown from the back door of a barber shop, mixed with clippings of leather and other refuse from the many stores abutting on the yard. I did understand that there was a bylaw against such a nuisance, and that our council had secured a dumping ground for such refuse. If there is such a bylaw, is it a dead letter like many others, or why do the police not do their duty? Such a nuisance militates against health, as well as against comfort. It has been frequently remarked upon excursion days and at other times, that the sidewalks leading from the two railway stations were inadequate for the pedestrians who used them, and many are obliged to walk on the dusty roads, besides being subjected to the rays of the sun, where there is only a sidewalk on one side of the street. Both sides of both streets should have a continuous wide sidewalk to the respective stations. Had this been attended to sooner, the late accident to one of our town ladies would not have occurred with another prospective action for damages. I merely make those suggestions, but make no comment, for the desirability to make these matters right must be obvious to the most obtuse.

Yours, etc.,

OBSERVER.

LAWN TENNIS.

There was a large attendance of club members at the lawn tennis courts Saturday, as the first tournament of the season was announced as about to be played off.

Mr. Hampden Burnham, the president of the club, offered a very handsome trophy for the victors in the "mixed doubles." It consisted of a lady's toilet set of sterling silver.

There has been considerable rivalry amongst the mixed doubles all season, and opinions differ greatly as to which of the lady players excelled in quickness and judgment. The contest therefore was one which evoked a great deal of interest and till the last stroke by which Mrs. Greenwood and Mr. Taylor won the trophy, the excitement was intense. The results of the different draws was as follows.

First draw:

Miss Edwards and Mr. Montgomery. } Bye.

Miss Hamilton and Mr. Burnham. } vs. { Miss A. Dennistoun and Mr. Parker.

Won by Miss A. Dennistoun and Mr. Parker by 6-1.

Miss Lundy and Mr. Heathcote. } vs. { Mrs. Greenwood and Mr. Taylor.

Won by Mrs. Greenwood and Mr. Taylor by 6-0.

Miss Dennistoun and Mr. Morrow. } vs. { Miss H. Dennistoun and Mr. Benedict.

Won by Miss Dennistoun and Mr. Morrow by 6-4.

Second draw:

Mrs. Greenwood and Mr. Taylor. } vs. { Miss Dennistoun and Mr. Morrow.

Won by Mrs. Greenwood and Mr. Taylor by 6-0, 6-3.

Miss A. Dennistoun and Mr. Parker. } vs. { Miss Edwards and Mr. Montgomery.

Won by Miss Dennistoun and Mr. Parker by 6-0, 6-4.

Final draw:

Mrs. Greenwood and Mr. Taylor. } vs. { Miss A. Dennistoun and Mr. Parker.

Won by Mrs. Greenwood and Mr. Taylor by 6-1, 7-5.

BASEBALL.

The Edisons won from the Park nine on Saturday by a score of 6 to 5. The Park nine is composed of lads averaging about 17 years of age, but they are ball tossers from the word go. Connors and Graham make a splendid little battery, the former striking out 12 men.

LACROSSE.

The Athletics will probably go to Port Hope this week to give the team of that place a game. A big crowd should go down to witness the match, which, it is hoped, will be a close one, as the Athletics are anxious to meet some strong team in order to get into practice for the C. L. A. championship games.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. IRRIGATION IN AGRICULTURE.

Jottings From the Experience of Some Who Have Used the System to Advantage.

I have irrigated my garden, orchard, potatoes, and a little corn for several years from an artesian well which flows about 20,000 barrels a day. I simply run the water between the row from a hose or ditch. During the winter I flood the and in small grains, have had pretty fair success.—Henry Schuland, South Dakota.

Has Irrigated for Fourteen Years.

I have irrigated on a small scale for 14 years with a common wind pump. On 1 1-2 acres I have never failed to grow more than enough garden truck to supply the needs of two families. We now have fruits of all kinds in abundance from trees and bushes grown by irrigation. —G. F. Tassel, Kansas.

Orchard Irrigation.

The only irrigation I have practiced is to water an orchard of about 1,000 fruit trees. I use a 300-gallon tank, mounted on a wagon. The tank is filled by means of a wind-pump. When drouth begins to check the growth of the trees, I rake the dry earth away from the base of the tree to a depth of four to six inches, and three or four feet in all directions. I then hitch a team to the water wagon, draw to the orchard, and put 20 to 25 gallons of water around each tree. As soon as it soaks away, and before the surface dries, I rake the dry earth back about the tree, where it acts as a mulch. I have never found it necessary to give more than two such waterings to carry the trees through the driest season. One man will water about 200 trees a day.—N. M. French, Kansas.

Irrigating Rolling Land.

I have had two years' experience with irrigation. At present (April) I am transplanting onions. Without the irrigation plant I could do nothing, as the drouth is becoming severe. I distribute the water by means of large sprays of my own construction, which will dispose of all the water which can be forced through a two-inch pipe with a steam pump of 20-horse power capacity. A pipe 40 rods long, with a spray set at intervals over the pipe, will irrigate one acre. I consider the surface spray the only practical means by which rolling lands can be irrigated. For the past two years the necessity of an irrigating system has been plainly apparent. At present we are using it every day.—Newberry Bros., Kansas.

Cost of a Wind Pumping Plant.

I have just finished putting up my new pump. It is of sufficient capacity to irrigate 10 to 15 acres. The cost is as follows: A 12-foot windmill, $143; two pumps capable of lifting 4,000 gallons an hour, $30; freight, lumber, for a tower, and other woodwork, $25. Thus the total cost of apparatus for bringing the water to the surface is $198. My well is 13 feet deep. The deeper the well the greater the cost of raising the water.—J. M. Vallentine, Kansas.

Irrigation of Market Gardens.

I have three irrigation plants, and cannot afford to be without them. One sufficient for ten acres in the Eastern and Central States will cost $1,000. For 5 acres it will cost $1,500. A steam engine of 15 or 20-horse power is far better than a windmill, and the pump should be able to throw 200 gallons per minute. The main distributing pipe should be three inches in diameter, and the other pipes two inches. The increase of the first crop will pay for the whole plant almost any year.—W. W. Rawson, Massachusetts.

England Has a Community of Empires.

England leads the world in acuteness in finding out the better portions of the earth that are attainable and in her enterprise and energy in possessing herself of them. She has, quietly as it were, but apparently successfully, laid the foundation for another vast empire in Africa. It extends from the Cape of Good Hope to Lake Tanganyika and is as large as all Europe. Besides he valuable gold mines there, coal and iron have also been found in large quantities, and civilization is advancing in that region as rapidly as it did in California after the gold discoveries, so it is said. England is truly a wonderful nation. In comparison with what she has done in spreading her influence throughout the world, civilizing and leaving her impress on it and accumulating wealth, the achievements of Rome are almost commonplace. What is thus said of the empire of the Caesars might also be said in like comparison of England with the other nationalities, ancient and modern. While Russia, as the most conspicuous in the number, is a vast empire and alike impressive in its area and population, it has exerted very little influence outside of its own domain; not a tithe of what England has. England is indeed a great force, morally and intellectually, in commerce and manufactures, as well as a great power considered in her geographical extensions and military prestige. The British Empire is a community of great empires, of which the latest, but by no means least interesting acquisition is, as said, the vast area, as large as Australia, seized upon by her within the last few years in Africa. A striking illustration of England's comparative commercial supremacy is found in the fact that more than two-thirds of the world's commerce through the Suez Canal is carried on under the British flag and in British bottoms. England is the great trader, the great banker, the great monopolist, the great colonizer, the great conqueror of the earth. What a picture of her colossal achievements is afforded in the mere grouping before the mind's eye of such children of her loins or brain as the United States, the Dominion of Canada, Australia, India, her new and vast African seizure, not including Egypt, and the countless islands of the sea over which floats the Cross of St. George as the sign manual of English supremacy.—Oswego Times.

An Anecdote of Suvoroff.

Marshal Suvoroff, when receiving a despatch from the hands of a Russian sergeant who had greatly distinguished himself on the Danube, attempted to confuse the messenger by a series of whimsical questions; but found him equal to the occasion. "How many fish are there in the sea?" asked Suvoroff. "All that are not caught yet," was the answer. "How far is it to the moon?" "Two of your Excellency's forced marches." "What would you do if you saw your men giving way in battle?" "I'd tell them that there was a wagon load of whiskey just behind the enemy's lines." Baffled at all points, the marshal ended with, "What's the difference between your colonel and myself?" "My colonel cannot make me a lieutenant, but your Excellency has only to say the word." "I say it now, then," answered Suvoroff, "and a right good officer you'll be."

To Sea in a Cockle Shell.

Robert McCullom, the 19-year-old New York lad, who proposes to go to Queenstown in a 19-foot boat, will go to sea on Thursday morning in tow of the tug McCaldin Brothers. He is confident of hitting the Irish coast safely. He will sail his boat across under a mainsail, jib, staysail and a square sail rigged aloft.

The craft looks as if it might stand a great deal of heavy weather. It has a short bowsprit, tall mast and at present has high bulwarks.

At sea Captain McCullom will cut away the bulwarks to give the seas a chance to pour off the deck. His cabin is about as large as a packing box.

"SUN" LIFE

Assurance Co'y of Canada.

Explanation of the Company's System of Profit Distribution.

The method of profit distribution of most companies is to give a bonus or profit on the sum assured, irrespective of the premiums paid. The Sun Life of Canada allots its profits to policies in proportion to the premiums paid, which is considered to be the more equitable system. This accounts for the variations in the percentages of the accompanying results. The lower rates given below are, in most cases, on young lives. The examples are taken from the Company's claim register as at the end of 1894, for the first 5 years.

EXAMPLES OF PROFITS AND BONUSES

AYER'S Sarsaparilla

A MEDICINE

WITHOUT AN EQUAL.

Statement of a Well Known Doctor

"Ayer's Sarsaparilla is without an equal as a blood-purifier and Spring medicine, and cannot have praise enough. I have watched its effects in chronic cases, where other treatment was of no avail, and have been astonished at the results. No other blood medicine that I have ever used, and I have tried them all, is so thorough in its action, and effects so many permanent cures as Ayer's Sarsaparilla."—Dr. H. F. MERRILL, Augusta, Me.

WOMEN CLAD IN WOOD

A NEW PROCESS BY WHICH SILK IS PRODUCED FROM WOOD.

Already Extensively Used—The New Material Costs Less Than Natural Silk and is Said to be Beautiful.

A process has been discovered by which a material closely resembling silk may be manufactured from wood. Even now women are walking about the streets of European cities in the most elaborate gowns of silk in the manufacture of which the worm had no part. In fact, the silkworm has lost its occupation.

The palm for this valuable discovery in chemical science must go to Switzerland, for a native of Zurich, Dr. Lehner by name, is the inventor of the process.

Some years ago he began to make observations in the habits and physical characteristics of the silkworm and became deeply interested in the subject. He observed the chemical action which took place in the worm in producing its cocoon, and at odd times sought to counterfeit the work of nature. So convinced did he become of the feasibility of his ideas that he soon abandoned all other work and devoted his time to this single study, in which he has achieved a signal triumph.

In the process of manufacturing the new fabric the principal ingredients used are sprucewood pulp, cotton or jute waste, etc., combined with a large quanity of alcohol. The use of the substantial or solid materials mentioned creates a market for what was hitherto of no use whatever, being burned in factory furnaces to get it out of the way.

Spruce sawdust now has a market value, for this, as well as the other materials, are digested by a chemical process in which alcohol plays an important part. The material thus digested is so much like the cocoon spun by the silkworm that when the two are placed side by side in a finished state it takes an expert to determine which is which.

The artificial material at one state is in a liquid state, and of a density about equal to the ordinary syrup of commerce. When in this state a machine of Dr. Lehner's invention, which may be called an artificial silkworm, comes into play. This machine, which is very simple in construction, requiring so little attention that it can be kept at work with about as much labor as is devoted to a twenty-four hour clock, performs exactly the same mechanical work that a silkworm does. It draws from the liquid a continuous unbroken thread of even diameter and unlimited length. As this thread is spun another portion of the machine takes it up and twists it into any desired thickness of yarn with perfect regularity.

Thus the fabric can be made of any desired weight or thickness, so that it will be seasonable at all times.

This artificial silk has been spun in Bradford, England, and worked up into a large variety of fabrics. In the dying, weaving and finishing of these no special treatment has been found necessary. It has been dyed in all imaginable shades and colors, and owing to the peculiar qualities of the material it takes a dye more readily and gives a more brilliant effect than the natural article. In texture it is the equal of the best of Chinese and Italian silks, being soft and silken to the touch. It is expected that it will be used largely in combination with natural silk and cotton for producing brocaded effects. These latter have been so expensive lately as to be out of the reach of all but the fattest purses The new invention will reduce the cost.

It would seem that this new process would give an immense impetus to the manufacture of textile fabrics all over the world, and it probably will, but Dr. Lehner also differs from the average inventor in that he combines financial cunning with his remarkable genius, so that every yard of this new material made will put many pennies into his pocket.

Patents on the process have been obtained in most of the European countries, and an application for one in the United States is now on file at Washington, as well as in the patent office of the Canadian Government. A company with a capital stock of $1,500,000 is about to be formed in Montreal to manufacture the material. There has already been formed in England a company having a capital stock of $540,000, the inventor receiving $180,000 in cash and $180,000 in full-paid shares, the remaining $200,000 being used as a working capital.

It was originally intended to manufacture the article in England, but when the demonstrating plant was established at Bradford it was found that there was a prohibitive tax on alcohol used for manufacturing purposes. For that reason the plant was soon after set at Glattburg, near Zurich, Germany, where there is no tax on alcohol used in manufactures. From this place the raw material is sent to England for manufacture.—New York World.

The Last Moments of a Queen.

At 10 o'clock the turnkey, Lariviere, was sent by the concierge into the cell, and to him we owe some knowledge of what passed there. Marie Antoinette said to him sadly: "Lariviere, vous avez qu'on va me faire mourir. Dites a votre respectable mere" (the fishwife could not have been present) "que je la remercie de ses soins, et que je la charge de prier Dieu pour moi." Three judges accompanied by the greffier Fabricius, entered the cell. The Queen was kneeling in prayer against her little bed, but rose to receive the functionaries. They told her to attend, as her sentence was to be read to her. She replid in a firm voice: "Such a reading is useless; I know the sentence only too well." They insisted, and the clerk read the document.

At that moment Henri Sanson appeared, a young man of gigantic stature. He said roughly to the poor woman, "Hold out your hands." Her Majesty retreated a step, and pleaded that the King had not been bound. "Fais ton devoir," cried the Judges to Sanson. "O, Mon Dieu!" cried the wretched Queen. She thought that she was then and there to be assassinated. Sanson roughly seized the shrinking hands, and tied them with cruel force, too tight behind her back. She looked up to heaven, and tried to restrain her tears. Her hair, when cut off, Sanson thrust into his pocket, and it was burned in the vestibule.—The Quarterly Review.

WAS PRETTY QUICK WORK.

Divorce and Marriage Accomplished in Missouri Inside of Thirty Minutes.

An event recently transpired in Union, Mo., which knocks the socks off Sioux Falls, S. D., for rapid divorces and rapid marriages immediately thereafter. It seems that Mary Isabelle Mullinaux, who lived in Grutsville, a crossroads town in Franklin County, was deserted by her husband, Thomas F. Mullinaux. She grew tired of waiting for his return. She came to Union the other day and employed Colonel Maupin as her attorney to secure a divorce, says a correspondent of the St. Louis Republic. A big case was in court, and during a recess of a few minutes Mrs. Mullinaux, who is a little red-haired woman of 25 years, and was dressed in red calico, appeared with her attorney and witness before Judge Firsel. Just nine minutes after her petition was filed Mrs. Mullinaux was granted a divorce, and she again assumed her maiden name, Mary Isabelle Lewis.

But she was not to remain Mary Lewis very long. She hustled downstairs in the courthouse, and there Frank H. McCance, a red-haired boy of 19 summers, was breathlessly awaiting to hear the outcome of the divorce case. He was her new lover. When she told him that all was well his heart went pit-a-pat, and the two stepped into the recorder's office and secured a marriage license. Six minutes later they were upstairs again and were married by C. S. Gallenkamp, the probate judge, who had left the case in court long enough to tie the matrimonial knot. The entire proceedings, divorce, issuance of marriage license and wedding ceremony, were performed within thirty minutes. Before another half hour the red-headed groom and his red-haired bride had left town in a farm waggon on their way to their new abode in Moselle, a small station on the Frisco road.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

VALKYRIE IS ALL RIGHT.

Beats Britannia and Ailsa With Ease—A Great Boat in Light Wind.

Hunter's Quay, July 6.—The new Valkyrie showed her true form to-day and in a fan breeze showed her stern to the Ailsa and Britannia, beating the former by 19 min. 26 secs, actual time. The croakers' chorus has ceased and England appears to have a worthy representative.

A multitude ashore and afloat saw the great cutters Valkyrie III., Britannia and Ailsa battle to-day over the course of the Royal Clyde Yacht Club for her Majesty's Cup, valued at 100 guineas. The sky was cloudless and there was a gentle breeze from the south, making the first leg of the contest from the club house off Hunter's Quay to a mark boat off Skelmorlie, distance seven miles, dead to windward work. The appearance of the yachts at the starting point evoked much admiration from the immense assemblage. Each racer had out her largest club topsail or jack yarder as it is known there.

The starting gun was fired at 10.30. The Ailsa and Britannia in their ambition to get the weather boat crossed the line prematurely and were recalled.

The Valkyrie got away at 10.30.50, but her owner wishing to have a fair race hove to and waited for the other yachts to catch up. They ran back to the line and re-crossed thus: Ailsa 10.32.45, Britannia 10.33.25.

The Valkyrie carried her mighty spread of canvas well, and pointed somewhat higher than her competitors; she turned on her heel like a ballet dancer, quicker in stays than either the Britannia or Ailsa, which are quick in going about. The breeze freshened on the beat to Skelmorlie, and the graceful trio heeled to the task. The Valkyrie had an easy victory in the weather work, rounding the Skelmorlie mark five minutes and six seconds ahead of the Ailsa, and leading the Britannia by six minutes and thirty-five seconds. Time: Valkyrie, 11.39.55; Britannia, 11.45.01; Ailsa, 11.46.30.

With the wind forward the port beam, from Skelmorlie to the mark boat of Ascog, distance five miles, the Ailsa did somewhat better than the cup challenger in the reaching. She got over the four miles in 21 minutes and 1 second. The Britannia covered the distance in 21 minutes and 11 seconds. Time at the Ascog mark: Valkyrie, 12.00.06; Ailsa, 12.06.50; Britannia, 12.07.41.

Spinnaker booms were lowered as the yachts rounded the Ascog mark, and spinnakers were broken out as the racers glided across the 11-mile stretch of smooth sea to Kilcreggan. The wind had decreased and the Valkyrie's weather of sail made her give a better account of herself than in any other of the races. They were timed running down the wind half way to Kilcreggan thus:

Valkyrie 12.37.45, Ailsa 12.46.15, Britannia 12.46.43. As may be seen by the figures, the Britannia picked up a good deal on the Ailsa. As the yachts passed Cloch Light, two miles from Kilcreggan, the Britannia was abreast of the Ailsa. The Valkyrie was still smoking ahead in the mild breeze after passing Cloch Light.

had a bull-dog struggle for supremacy in the run to Kilcreggan. They looked like twin boats until just before rounding the Kilcreggan mark. Then the Britannia got past her rival and gybed around the mark five seconds ahead. The Valkyrie led the Britannia around the mark by 6 minutes and 43 seconds. Time—Valkyrie 1.18.47, Britannia 1.25.30, Ailsa 1.25.35.

In the three-mile run for the home mark, completing the first round, the wind was on the port beam. The Valkyrie covered this bit of broad reach in 14 minutes and 3 seconds; the Britannia in 19 minutes and 29 seconds, and the Ailsa in 21 minutes and 13 seconds. The quicker time of the Valkyrie between Kilcreggan and the home mark is not as significant as it might have been if the wind had not moderated and thus somewhat handicapped the yachts astern.

Time at finish of first round: Valkyrie 1.32.50, Britannia 1.44.50, Ailsa 1.46.48.

In the beat to Skelmorlie on the second round the Valkyrie rolled a big wave from her lee bow, and heeled much more than the Ailsa and Britannia, but she footed it like a deer. There is no doubt about her ability in beating in a light wind. She led Britannia at Skelmorlie by 14 minutes and 28 seconds. The Britannia was 1 minute and 56 seconds ahead of the Ailsa. Time—Valkyrie 2.53.55, Britannia 2.58.23, Ailsa 2.55.19.

The Valkyrie gained on the run to the Kilcreggan mark, which she rounded at 4.11.45. She had almost reached the finish three miles to the westward, when the times of the other yachts were taken thus: Britannia 4.27.30, Ailsa 4.29.50.

The big boats finished in a good breeze in this order: Valkyrie 4.31.30, Britannia 4.49.36, Ailsa 4.50.57.

SERIOUS RIOT IN INDIA.

Three Killed, 184 Wounded In an Affray Between Moslems and Hindoos Near Guzerat.

London, July 6.—The India Office is in receipt of a telegram from Bombay, stating that a terrific riot has occurred at Kattywar, in the Province of Guzerat, resulting in the killing of three persons and wounding of 184, 12 of them seriously. The riot grew out of the clashing of a Hindu marriage procession and a Mohadem Mohurran procession.

ARNOLD'S NEPHEW MURDERED.

J. F. G. Lister Done to Death at His Indian Post

San Francisco, July 6.—News has been received from India, via Hong Kong, by the steamer City of Rio de Janeiro, of murder of J. F. G. Lister, superintendent of the police at Godraby, and his wife. Lister was a nephew of Sir Edwin Arnold and the son of a Bombay general. Mrs. Lister is the daughter of Col Braham, an old Indian campaigner. She was married to Lister five years ago.

Britain and Bi metallism.

London, July 7.—The Bi-metallic League has issued a manifesto declaring that the depression in trade is due to the fall in prices. It says it is also noticeable that the transference of productive industry from gold to silver standard countries is menacing many of the chief manufacturers here, yet Great Britain alone blocks the way to any international attempt to re-monetise silver. The manifesto asks the electors to give monetary reform the foremost place when they are deciding how to vote.

A Careful Analysis.

Furniture.

A nice line of centre tables at A. Clegg's. New designs in mahogany, walnut, oak and curly birch. Some pictures, reprints of first class pictures by good artists, neatly framed at prices below usual cost framing only. Full lines of bedroom, dining room and parlour furniture, also springs, mattresses, pillows, etc A. CLEGG, 427 George street.

CHURCH CHIMES.

St. Paul's choir sang a well-rendered anthem last night entitled "Come Unto Me."

Miss Pollard and Mr. W. J. Squires took the duet in the anthem "Jesus, Lover of My Soul," in perfect harmony, in the Charlotte street church last night.

Yesterday morning the choir of the Charlotte street church sang the anthem "The Beautiful City," Mr. W. J. Squires taking the tenor solo most effectively.

The Epworth League of Charlotte street church met last evening, at 6.30 o'clock, instead of to-night, on account of the Sunday school excursion being held to-day.

A pretty anthem, entitled "Welcome Wanderer," was sung with good effect in in the Park St. Baptist Church last evening. Rev. Mr. Pady preached an interesting discourse on the Prodigal Son, taking as his text the 17th and 18th verses of Luke xv.

AN OBSERVER.

To the Editor of the Examiner:

Sir,—As I was driving past one of our country cemeteries recently, I was struck by the propriety and the impropriety, if I may so express it, of patent medicine advertisements being tacked upon the entrance gate. There are always to be found people, who, not taking life seriously, are ever on the alert to make material capital even out of its most sacred relations. Among these is the patent medicine advertiser, for whom the railroad stations, board fences, barn doors and stone walls throughout the country do not afford sufficient canvass for delineating the virtues of his cure-alls. No, his eyes are on the tombstones; they form an appropriate background. Let public sentiment check his sacrilegious hand, so that it may not be necessary to place above the entrance to "God's acre" post no bills.

COMMENDABLE PROMPTITUDE.

A Resident of St. John, N. B., Makes a Successful Trial of Dodd's Kidney Pills.

St. John, N. B., July 8.—Mr. Robert Moore, residing in Indiantown, a suburb of this city, has recently made what is allowed by all who are acquainted with the facts to be a most remarkable recovery. He has been a sufferer from a serious complaint of the kidneys for over seven years, and during that time has suffered excruciatingly. He has also suffered considerably in pocket, having paid large sums for medical advice. Quite recently he happened to read of the many cures effected by Dodd's Kidney Pills, and with commendable promptitude made a trial of them, with the result that after taking three boxes of the remedy he was entirely restored to health.

"Swapping Dollars."

All good housekeepers have a cleaning up time, whip all the carpets, "raise Caln," and turn things upside down generally. That's what we're doing; don't use any Pearline or Sapolio but a good deal of "soft soap and common sense." We've some odds and ends in Summer Hats, that we don't wish to carry over. If you've an odd dollar in your pocket, step in and we'll give you two for it. Here's how we do it:—

Ladies' Sailor Hats, trimmed with Navy blue spot, and some brown and drab, worth 75c, sell for 25c.

Boys' coloured and white Straw Hats, sold for 40c and 50c, sell for 25c.

Boy's fine coloured and white Straws, sold for $1.00, sell for 50c.

Men's High Crown Straws, very fashionable, sold for 75c, $1.00 and $1.25, sell for 50c. and 75c.

Boys' Varsity Caps, selling from 10c to 25c, worth from 20c to 50c each.

These Goods will surprise you with their cheapness.

THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

One pint of kerosene, at a cost of about one cent, will give a pure, healthy, clean light for two hundred or more hours; i.e., twenty-ten hour nights. Sold only by

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

Money on the Dolan Stock

Must be raised, regardless of cost, real value or positive loss. Read the prices we quote this week—read the bargains we place on sale—get an idea of the recklessly low prices—compare and investigate—reflect and act.

TOTTERING TO ITS FALL

Three French Ministers Said to Have Resigned.

MR. FOSTER'S ANNOUNCEMENT

That Remedial Legislation Will Be Introduced.

AT A SPECIAL WINTER SESSION

If Manitoba Does Not Voluntarily Remove the Grievances.

The Same Announcement Made in Both Houses—This Immediately Followed by the Rumor That Messrs. Ouimet, Angers and Caron Had Resigned—D'Alton McCarthy on the Delay—French-Canadian Members Absent Themselves From Division.

Ottawa, Ont., July 8.—Not for a good many years has there been such excitement at the Capital as has been noticeable to-day. That something extraordinary was about to happen was evidenced from the crowded state of the galleries in the Commons. At the opening of the sitting representatives of the ultra-Protestant element of Ottawa and long-robed priests were there cheek by jowl, anxious to know what decision had been come to by the Government. They had not long to wait.

Mr. Laurier rose and reminded the leader of the House of his promise the other day to make a statement as to the course of public business.

Mr. Foster thereupon, amid a most unusual stillness, read the following announcement:

"I desire to state that the Government has had under its consideration the reply of the Manitoba Legislature to the Remedial Order of the 21st of March, 1895, and, after careful deliberation, has arrived at the following conclusion: Though there may be differences of opinion as to the exact meaning of the reply in question, the Government believes that it may be interpreted as holding out some hope of an amicable settlement of the Manitoba school question, on the basis of possible action by the Manitoba Government and Legislature; and the Dominion Government is most unwilling to take any action which can be interpreted as forestalling or precluding such a desirable consummation. The Government has also considered the difficulties to be met with in preparing and perfecting legislation on so important and intricate a question during the last hours of the session. The Government has, therefore, decided not to ask Parliament to deal with Remedial Legislation during the present session."

A communication will be sent immediately to the Manitoba Government on the subject, with a view to ascertaining whether the Government is disposed to make a settlement of the question which will be reasonably satisfactory to the minority of the province, without making it necessary to call into requisition the powers of the Dominion Parliament. A session of the present Parliament will be called together, to meet not later than the first Thursday of January next. If by that time the Manitoba Government fails to make a satisfactory arrangement to remedy the grievance of the minority, the Dominion Government will be prepared, at the next session of Parliament, to be called, as above stated, to introduce and press to a conclusion such legislation as will afford an adequate measure of relief to the said minority, based upon the lines of the judgment of the Privy Council, and the Remedial Order of March 21, 1895.

In the Upper House, the Premier read the identical statement, adding, however: "This is clear and sufficiently distinct, indicating the policy of the Government upon this very important and intricate question. It must be for the Houses of Parliament and the people of the Dominion to say whether they approve of this policy or not."

In the Commons, immediately Mr. Foster sat down, Mr. Lariviere, the champion of the Catholics of Manitoba, arose and said: "In the name of the minority whom I represent, I emphatically declare that the present attitude of the Government is unacceptable to them."

He could proceed no further with his observations, as the Speaker called him to order, and Mr. Taylor rose to submit his motion for the reservation of certain islands in the St. Lawrence as a national park. There were loud cries from the Opposition to Mr. Lariviere to move the adjournment of the House, but his opportunity to speak further was gone, the orders of the day having been called. During Mr. Taylor's observations there was a tremendous hubbub in the chamber. Members cared nothing then about the Thousand Islands. They wanted to compare notes upon the situation. There was an immediate exodus into the lobbies, and Room 16, the Conservative headquarters, adjacent to the chamber.

There it was not difficult to learn how the Government's decision was accepted. "It is a mistake," said a prominent Catholic member, and a few minutes later an Orange representative used precisely the same phrase. They spoke for the two wings of the Conservative party in Ontario and Quebec.

Looking at the declaration itself, it would appear as if the Catholics have gained their point. Why, then, should they not be satisfied A more emphatic declaration that Remedial Legislation is the policy of the Government could not possibly be desired by them. And yet they are not pleased. The reason therefor is not difficult to discover. It is the one mentioned by your correspondent two or three days ago. They dread that once Parliament is prorogued something will intervene to prevent the Government from carrying out its pledge. For instance, as one member frankly expressed it, there may be a Ministerial shuffle between now and the new year, and new Ministers could say they were not bound by what their predecessors had done. It may be mentioned, however, that the Governor-General has formally approved of the pledge given by his advisers in Parliament to-day. A special messenger was dispatched to Quebec on Saturday to see His Excellency to procure his consent to the announcement which was given.

The Ontario members, who are firmly opposed to Remedial Legislation, do not like the outlook. They say that the Government has rendered it impossible for many of them to be elected in constituencies where a strong Protestant feeling prevails unless they pledge themselves to oppose the Government's Remedial Bill. During the recess abundant opportunity will be given to the electorate to impress upon their representatives in Parliament the futility of supporting Remedial Legislation.

The after-clap of the official announcement proved as sensational as the announcement itself, for the report passed like wildfire among members and their friends in the lobbies that the three French-Canadian Ministers—Messrs. Ouimet, Caron and Angers—had resigned.

Every circumstance lent color to this report. First of all, none of these Ministers were present in their places in the House. Early in the afternoon they held a meeting in one of the rooms of the Commons, after which Mr. Angers proceeded to the Senate wing, and tenanted Mr. Bellerose's room for the remainder of the afternoon. Sir Adolphe and Mr. Ouimet left the Parliament and proceeded to their respective departments, but returned before 6 o'clock and held a meeting with some of their friends in an upper room in the Parliament buildings.

The Premier was interviewed as to the accuracy of the statements floating about the lobbies, but would say nothing. The three Ministers in question were seen, but they would neither deny nor confirm the reports. Under such circumstances, the Premier could not say anything about Ministerial resignations to-day, if such have taken place, as, according to constitutional usage he would first have to acquaint the Governor-General of the fact that the resignations had been tendered. As regards the Ministers themselves, they would not be in a position to speak.

It is significant, however, that their local organ, Le Canada, makes an important announcement to-night, and La Minerve of Montreal has been authorized to make a similar one to-morrow.

Le Canada says: "We learn from a source almost positive that the French Ministers—Sir A. P. Caron and Messrs. Ouimet and Angers—have sent in their resignations to the Prime Minister, Sir Mackenzie Bowell."

French members to the number of a dozen, when appealed to for confirmation of the reported resignations, said that undoubtedly the news was correct.

The reason given for the resignations is not that the Ministers are dissatisfied because the Government has not seen fit to bring down a Remedial Bill this session. They fully recognize the futility of attempting to pass such a measure at this late stage of the session, but they object to the Government having any further dealings with Manitoba. They declare, and even Ontario Conservatives admit the same thing, that Manitoba will do nothing. Why, then, say they, should the Government hold out hopes of a compromise, when such is unlikely? It is said that the paragraph relative to possible action on Mr. Greenway's part was founded upon information conveyed to the Dominion Government by Lieutenant-Governor Schultz.

It appears that not all the representatives from Quebec object to the line of policy which the Government has taken. Mr. Girouard of Jacques Cartier, one of the most influential men from that province, did not hesitate to say to his friends this afternoon that the Government had adopted the right course, and that if the Ministers had chosen to step out they had adopted an unwise policy.

Later on in the afternoon another rumor was started that Mr. Costigan would follow the French Ministers and tender his resignation, but he took his seat in the House as Minister, and voted in the division on the question of adjourning the debate, started by Mr. Davin, respecting aid to the creameries of the Northwest.

It is significant in connection with this division that nearly all the Quebec Catholic Conservatives abstained from voting.

The Ontario Conservative members are more or less cut up at the Government's decision, but they refrained from making anything like an antagonistic statement. Hon. Clarke Wallace would say nothing, but immediately after Mr. Foster's announcement he made up his mind to attend the Orange demonstration here on Friday, which promises to be the greatest ever held in these parts. The English-speaking Catholics in the House will to a man stand by the Government in its policy.

It is currently reported that the Governor-General will be here to-morrow, the crisis having turned him Ottawawards.

A prominent French-Canadian informed me to night that, as a matter of fact, Mr. Angers is the only Minister who has resigned, but that the other two are pledged to stand by him. However, to-morrow will set this at rest.

Considerable interest was manifested as to the stand Mr. McCarthy would likely take. "What is your opinion on the political situation owing to the announcement made by Mr. Foster in the House this afternoon?" was the question put by your correspondent to Mr. D'Alton McCarthy, who was found busy in the library this evening.

"It seems to me," replied the member for North Simcoe, "that the Government have made a desperate effort to prolong the life of the Administration for a few months. The members of the Administration cannot believe themselves, and no person else can accept, that they have treated the answer of Manitoba as suggesting any compromise on the part of the province. It is as clear as the sun at noonday that, though the reply was couched in temperate language, the Legislature of Manitoba has made up its mind that in no circumstance will it obey the Remedial Order.

"The challenge of the Manitoba Government to make an inquiry into the condition of the schools ystem, as it was and as it is, is the best evidence that the Manitoba Government can offer that it is not afraid of the justice and the wisdom of its course in abolishing the Separate School system and establishing the national system of schools. That pretext for delay, therefore, is one plainly trumped up."

"The other, that the Government is not prepared to introduce a Remedial Bill which would be constitutional and at the same time effective, is one more readily accepted. Whenever the attempt will be made, it will be found very difficult under the statesmanship of those who are now ruling the destinies of Canada. The misfortune of the whole thing is to force the Manitoba school question to the front, a question which a wise Administration would never have allowed to become a paramount one in Canada politics, and that the unhappy feelings which arise will be still more intensified and still more aggravated before the final verdict of the people at the polls is obtained.

"I hope that before the House rises its opinion will be taken as to the wisdom of the pledge which the Ministers have given to-day that another session they will seek to pass the Remedial Bill. If a Remedial Bill is to be passed at all, it could be as well passed now as in January next, and the 39 Government supporters who have announced that they will not support the Remedial Bill will find themselves in a very awkward position when they are willing to accept the policy of a Government which now pledges itself and its followers to the adoption of Remedial Legislation in January next."

"What about the reported resignations of Ministers?"

"As to the reported resignations of three French Ministers, I am the last man in the House fitted to express an opinion. English Ministers, when they have resigned, are neither ashamed or afraid to let it be known, but it is currently reported that the Ministers are merely making a demonstration and have no serious thought of resigning. It is thought that they will be found in their places to-morrow. As I say, I cannot comprehend all this, and

Daily Examiner.

TUESDAY, JULY 9, 1895.

WHAT is the par value of remedial orders?

MINISTER OUIMET presents a very Haggart appearance.

HON. MACKENZIE BOWELL doubtless believes now that delays are dangerous.

THE Montreal Gazette predicts an active fall—and it doesn't refer to the Conservative Government either—it speaks of the business revival.

WHEN a lawyer steals a client's money he has his clothing—his gown—taken from him and he goes free. When a client steals money he has a suit of striped clothing given him and he is clapped into jail besides. Justice and law sometimes seem to be very distant relatives.

THE Montreal Gazette says that the Government has no policy on the school question. Therefore it is amusing to read in Conservative papers the denunciations of Mr. Laurier because he has failed to attempt a settlement of the trouble. Mr. Laurier was not called upon to settle the Manitoba school question. He did't make any solemn promises of introducing a bill to implement the remedial orper, and then go back on his promise. The Manitoba school matter "was the Government's funeral," and Mr. Laurier simply followed out the injunction "let the dead bury their dead."

THE Montreal Gazette, speaking of the Government's back down on the Manitoba school question, says: "Looking at the state of things presently existing, one cannot help regretting that the Federal authorities did not, after the receipt of the last decision of the Judicial Committee, and the hearing of the appeal of the minority, ascertain the disposition of the Manitoba Government before sending a formal order upon that body." One reason why the Government did not do so, doubtless, is because it would have been the proper thing to do. It would have been straightforward—a word that apparently is not in the Government's lexicon.

THERE is trouble in the once happy Conservative party at Ottawa. The party is split into two factions, one of which in its hour of defeat scowls at the leering face of the other in its hour of triumph. Haggart is happy and Ouimet steeped in gloom. The Ontario Conservatives are freely declaring for a new leader. They say that there is no head of the party and no cohesiveness. The only bond that keeps the warring elements together is the love of office and spoil. A strong hand at the helm is needed. The French members are in arms at the meek surrender of Ouimet, Caron and Angers to the emergencies of the party. The crisis is by no means over, we shall see which we shall see.

The late Prime Minister of England is reported to have said, in a speech in London on Friday night, that his ministry had "lived a noble life and died a noble death; that it left a vast financial surplus behind it, business was improving and the people were contented." These are words which the Ottawa Free Press thinks will hardly be written on the tombstone of the horde of corruptionists and incapables now in power in Canada should they have the grace to resign before the electors kick them out. Our ex-Premier will be able to say "The Conservative Government lived an ignoble and infamous life and has died an equally ignominious death. It has left behind it a load of debt and public burdens; for sixteen years it has maintained a policy which has robbed the people in order to supply corruption funds and swell the gains of monopolies at the cost of the labourer, business is showing signs of revival all over the world, for which we claim the right of taking credit, and our people are so contented with their lot that they go in shoals away from the country of their birth and heritage."

Constipation, an exceedingly dangerous condition of the bowels, is nearly always the result of carelessness and inattention to the calls of nature. To correct irregularities and restore healthy movements, the best aperient is Ayer's Pills. They are easy to take.

Minard's Liniment cures colds, etc.

BRAINS AND FARMING.

Hon. John Dryden told the students at the Ontario Agricultural College at Guelph last week that by mixing brains and work, the value of produce of most farms could be increased from a quarter to a half.

Mr. Dryden understated the case. There are fruit growers in the Niagara peninsula who, having mixed brains with work, are making several thousand dollars a year profit out of land that twenty years ago did not show a profit of a tenth the amount.

Perhaps some of Mr. Dryden's hearers wondered how to start the brains in. The Journal would recommend mailing a few dollar bills to the offices of the nearest agricultural papers. Millionaire Pullman of Chicago remarked the other day that to make money one should find out what people wanted, and try to give it to them. The cheapest way for farmers to find out what people want is to read market reports, and one of the good ways for farmers to try to give people what they want is to read the experience and reports of intelligent agriculturists as to how best to keep at agriculture.

APSLEY.

(From Our Own Correspondent.

Rev. Mr. Barnes preached his opening sermon to a large congregation on Sunday, June 30th.

The fishing season is in full blast. Two young ladies went fishing for bass on Friday, June 28th, and did not return home until Sunday. Sorry their success was not better, for all they caught was a cold. School teachers and music teachers when out on a vacation do not make good anglers.

The Apsley cheesemakers shipped 160 cheese from their factory on July 2nd by way of Coe Hill to Toronto. Can any of the factories in the vicinity beat this?

A large hail storm passed through Anstruther and Chandos on June 26th, doing considerable damage, breaking windows and destroying crops.

The Y. P. S. C.E. held a picnic and social on the grounds at Apsley on the 26th of June. The proceeds amounted to over $17. It is doubtful which was enjoyed most, the social or the rain. We have had some very dry weather.

BROCKVILLE POLICE IN TROUBLE.

Serious Charges Preferred Against Chief of Police Rose and All Other Officers, Bar One.

Brockville, Ont., July 8.—The police investigation opened this morning at 10.30 before His Honor Judge McDonald. I. N. Marshall appeared for the prosecution, E. J. Reynolds for the town and J. A. Hutcheson for Chief Rose and the police.

Chief of Police Charles Rose is charged with having received $11.50 from James Golden in the settlement of a charge of larceny against a relative of Golden's, and with having arrested one Andrew Hunter on a charge of felony and releasing him on receiving $10 therefor.

Policemen Best and Burk are charged with having taken a watch from one Frank Clow in settlement of a case of fast driving.

The whole police force except Alexander Wright are charged with being in the habit of frequenting hotels, drug stores, etc., and drinking to excess while on duty, and inhumanely beating people while making arrests and while in the cells.

The whole force, with the exception of Alex. Wright, are also charged with having abused their position, to illegally make money, and with having been abusive and insulting to respectable citizens, and with being unfit for the police force of Brockville,

The charges are made by Jeremiah Savage. Several witnesses testified against the chief, and some damaging evidence was given. The case will be resumed to-morrow morning.

SIXTY-FOUR MINERS POISONED.

Ate Poisoned Custard—Two of the Victims Dead.

Limerick, July 8.—A wholesale poisoning has occurred among the Laurel Hill nuns, 64 of whom partook of poisoned custard. Two have died, and the others who ate of the poisoned dish are dangerously ill.

Died While Under Chloroform.

Woodstock, July 8.—William Barnes, a baker, died while under the influence of chloroform in the parlors of Dentist A. M. Clarke. Four teeth had been extracted, and during the removal of the fifth he gave a sudden gasp and expired. The medical opinion is that death was due to paralysis of the heart. Barnes is a native of Stratford. An inquest will be held.

Killed by a Falling Tree.

Gravenhurst, July 8.—Mr. James Jackson, one of the most progressive farmers on the west side of Lake Muskoka, was instantly killed by the fall of a tree on his farm, three miles below Bala. He leaves a wife and five children.

Fell Down an Elevator to Death.

Montreal, July 9.—A machinist named John Salisbury, aged 50, was killed yesterday by falling down an elevator shaft while doing some repairing in Messrs. A. Nelson & Sons' warehouse, St. Peter-street. Deceased, who was married to a third wife and had two grown-up daughters, lived in Ottawa-street.

Child Poisoned by Vitriol.

Comber, Ont., July 8.—Saturday night the 2-year-old son of John Campbell swallowed the contents of a bottle containing sulphuric acid, which he took off the table while Mrs. Campbell's back was turned.

Drowned in the Welland.

St. Catharines, July 8.—Joseph Myers, aged 16, son of Anthony Myers, baker was drowned in the old canal below lock 2, Saturday night, while in bathing.

Revival of Trade.

Reports from the United States support the view that trade interests have vastly improved recently and that the business outlook for the future is encouraging. This will be welcome news to the people of Canada, since our trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Painless Corn Extractor Times being dull everything not absolutely needed became a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proven the only safe, sure, and painless remedy for corns.

To destroy worms and expel them from children or adults use Dr. Low's Worm syrup.

Whenever the body has been weakened by disease, it should be built up by Hood's Sarsaparilla. Read this:

Strange, but True

The child that cannot digest milk can digest Cod-liver Oil as it is prepared in Scott's Emulsion. Careful scientific tests have proven it to be more easily digested than milk, butter, or any other fat. That is the reason why puny, sickly children, and thin, emaciated and anæmic persons grow fleshy so rapidly on Scott's Emulsion of Cod-liver Oil and Hypophosphites when their ordinary food does not nourish them.

HAMILTON MAN MURDERED.

An Ancaster Woman found Mangled by the Roadside

Hamilton, July 8.—Word comes from Whitehall, N.Y., that Edwin Hilder, who belonged to Hamilton, had been shot and killed by Newell Blanchard. The murder was committed on Saturday. It is said that jealousy prompted the deed, Hilder having been seen with Blanchard's wife on several occasions. Blanchard had threatened to take Hilder's life, but the young man did not think he was in earnest and laughed at him. Young Hilder was a member of the fire department at Whitehall and was exceedingly popular. The deceased's mother lives at 107 Inchbury-street. When the deceased left Hamilton he said he wanted to see the world. For a couple of years he was on a sailing vessel, and made a trip to the Cape of Good Hope. He went to Whitehall six or seven months ago.

Young Hilder was about 22 years of age.

Mrs. Prince, 22 years of age, wife of Tobias Prince, a laborer on the T., H. & B. Railway, who lives in Ancaster Township, started out Saturday evening with a horse and rig for Law's Mills, four miles distant from her house. On Sunday morning she was found about a mile from her house, lying unconscious on the roadside.

She was almost nude, and her face and head were fearfully mangled. The nose was broken, the eyes blacked, the front portion of the skull crushed and the face badly bruised. Her infant child was lying on the grass uninjured. The horse and rig have not turned up yet. It is possible the horse ran away and was the cause of Mrs. Prince's injuries, but this theory is not accepted. It is thought the woman was waylaid and assaulted and left to die on the roadside. No hopes of her recovery are entertained.

Burlington Beach furnishes the latest sea monster story, and Shackville is shaken to its foundation. Just about sundown last night a monster sea serpent, which is variously estimated at from 25 to 50 feet in length, with a big, ugly head and a body about as big around as an ordinary maple tree, was reported to have been seen by Fisherman Tasfe and his wife, and their story is corroborated by a neighboring fisherman, who also saw the monster. It lay on the shore, it is said, for 15 or 20 minutes, and then glided out into the lake with a whisking of its tail that made the water foam for many yards around.

International Cricket.

Philadelphia, July 8. — The Ontario cricketers to-day met a team selected from the various cricket clubs of the city at Manheim, at the grounds of the Germantown Cricket Club, and at the conclusion of the day's play led by 37 runs. The Canadians, having batted first, made a very good start, D. W. Saunders getting 29 and A. V. R. Martin 20 by good cricket. J. M. Laing hit in pretty style for 38, which, with Wadsworth's contribution of 40, went a great way towards making up Ontario's total of 164. The local's tail end proved a good run-getting one. P. H. Clark and S. Newhall made 16 and 15 respectively, and W. Brockie, who was not out, made 28 by good cricket. G. S. Patterson got top score, 32, and W. Williams contributed 17. Play will be resumed to-morrow morning.

PARLIAMENT DISSOLVED.

The Queen Signs the Proclamation Dissolving the Commons.

London, July 8.—A meeting of the Privy Council, attended by Lord Salisbury, Premier; Baron Halsbury, Lord High Chancellor, and the Right Hon. A. Akers-Douglas, First Commissioner of Works, was held at Windsor to-day, when the Queen signed the proclamation dissolving Parliament.

The royal proclamation fixes the date of the assembling of the next Parliament at Aug. 12.

Matthews Now Viscount Glamorgan.

Right Hon. Henry Matthews, member of Parliament for the East Division of Birmingham, who held the position of Secretary of State for Home Affairs from August, 1886, to August, 1892, in the Ministry of Lord Salisbury, has been raised to the peerage as Viscount Glamorgan.

A Kilkenny Convention.

London, July 8.—The Irish National Convention met at Omagh, County Tyrone, and was the scene of constant disturbance. Owing to the disputes between Timothy Healy, John Dillon and Dr. Kenny, no chairman could be appointed, and organization of the convention was not effected. A strong force of police was stationed outside the building in readiness to quell any violent disorder.

A WIFE ON THE INSTALMENT PLAN.

Earle is Said to Have Bought Mrs. Carson for $50, Monthly Payments.

Hackensack, July 8.—Justice Smith of Parkridge yesterday committed Edward Earle, a veteran, to Hackensack Jail as a witness against and probable accessory of Frnk Carson, also in jail, charged with several burglaries and horse stealing along the state line in Bergen County.

Justice Smith says Earle told him that he had bought Carson's wife for $50, paying in instalments, as he received his pension of $6 a month. Justice Smith says the story is no doubt true, as the couple lived together at Tappan, and there was an arrangement to represent Mrs. Carson as Earle's wife, in order that she might secure the pension after his death. The woman is about 30 years the veteran's junior.

COMMENDABLE PROMPTITUDE.

A Resident of St. John, N. B., Makes a Successful Trial of Dodd's Kidney Pills.

St. John, N. B., July 8.—Mr. Robert Moore, residing in Indiantown, a suburb of this city, has recently made what is allowed by all who are acquainted with the facts to be a most remarkable recovery. He has been a sufferer from a serious complaint of the kidneys for over seven years, and during that time has suffered excruciatingly. He has also suffered considerably in pocket, having paid large sums for medical advice. Quite recently he happened to read of the many cures effected by Dodd's Kidney Pills, and with commendable promptitude made a trial of them, with the result that after taking three boxes of the remedy he was entirely restored to health.

PLEASE LET US SEE IT

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

WHAT THE PEOPLE ARE SAYING.

That this week will see the most of the cottages on Stony Lake occupied.

That the vacancies in the town inspectorate and in the High and Public Schools will be filled at the Board meeting to-night.

That a movement is on foot among the Conservatives to nominate a candidate in Mr. Stevenson's place.

That the parks have great attractions for the lovers of the beautiful and peaceful enjoyment.

That Mr. Stevenson says that the contract for the canal has been signed; and that the local staff of engineers don't know anything about it.

That the Bank of Commerce will occupy its new quarters in a few days.

That the offices of town clerk and town treasurer should not be united.

That R. D. Hamilton and H. S. Macdonald can run to Chemong with their eyes shut.

That if Woodstock can get along so well with only two policemen, there surely cannot be work for four in Peterborough.

That activity on the Lakefield-Peterborough section will "bob up serenely" on the approach of a general election.

That the outfall sewer threatens to be the fall-in sewer before any more work is done.

That there won't be much round-trip travel on the street railway to-night.

A Rose by any Other Name.

Would smell as sweet. It's not the name but the thing which the name stands for, which counts. It is not the high priced label on the bottle, but the wine in the bottle, with which the public is concerned. The public wanted a good but cheap wine, and this the Bordeaux Claret Co. have supplied in clarets, burgurdies, and Sauternes, at the lowest price ever offered in the history of wine selling in any country—$3 and $4 per dozen quarts. And yet the wines are excellent. They have age; they have robustness; they have bouquet. Wine for the poor man at last; a wine which will not hurt him, but rather build him up. The wine for the people. Address,—Bordeaux Claret Co., 30 Hospital street, Montreal.

There is no one that sell so cheap as Grafton & Co.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. A TRAMP FRIGHTENS A COUPLE OF LITTLE GIRLS.

He Meets Them on the Way to School and Chases Them Back to the Farm.

Last evening, while the Ashburnham Council was in session, its deliberations were suddenly interrupted by the entrance of Mr. Mulcahey, an Otonabee farmer, in a great state of excitement.

"I want a warrant! I want a warrant, he exclaimed. "Where's Mr. Woods?"

The affable village clerk hastened to the door to inquire the cause of the trouble, but evidently Mr. Mulcahey wasn't satisfied with the view he took of the case and followed him into the council chamber. He stated to the members that yesterday morning, when his two little girls were on the way to school they had met a tramp. On running away from him, he had given chase and pursued them to their home on the farm. Mr. Mulcahey had witnessed the occurrence, and running across the fields headed the tramp off, and beat him with a hoe which he carried.

All day long the tramp had been around the farm skulking in the bushes, and finally Mr. Mulcahey had become alarmed, fearing the ill-visaged stranger meditated working him some harm after night fell. He therefore came into town for a warrant for the tramp's arrest. The Peterborough police referred him to County Magistrate Edmison, but being unable to find him he had been referred to County Constable Cochrane and Constable Moore. Not being able to get the satisfaction he wanted he finally came to Village Clerk Woods for a warrant, but as Reeve Burnham explained, he could not have the tramp arrested merely because he was afraid of him, no warrant was issued.

Within the past several weeks cases in which little girls have been insulted have occurred with such alarming frequency that Mr. Mulcahey cannot be blamed for his fatherly indignation.

AN EVENING OF FUN AND PLEASURE.

A Wonderful Exhibition of Mesmerism in the Opera House.

Mesmerist Lee is certainly a wonderful man. Last evening he gave an exhibition of his hypnotic powers in the Opera House, which was most interesting and furnished an endless fund of amusement for the large audience which was in attendance.

Prof. Lee chose a dozen or so well known young men from the audience for his subjects, and their actions, when under his influence, were positively side-splitting in their comicality. He presented each with a billiard cue and set them fishing over the edge of the stage. The struggles of some of the subjects to land, especially large ones was more than amusing. The bicycle race, when he mounted each on a chair and set him off, was very funny, too, as was the laughing match. He had his men nearly crazy by telling them that there were fleas down their back, and the actions of a well-known printer, as he rolled on the floor in his efforts to ease himself were ludicrous in the extreme.

Some very strange things were done from a scientific standpoint. One of the subjects was made so perfectly rigid that he was stretched in mid-air with no support but the back of a chair under his head and another under his feet. While in this position half a dozen men sat on his extended body without making it relax one iota. Another strange and interesting experiment took place when a large hat pin was thrust through a subject's cheek, and another through his wrist, without his experiencing any inconvenience thereby. He walked among the audience to show that there was no fake connected with the affair. The professor will doubtless be greeted with bumper houses during his stay in town.

COX-BROWN WEDDING.

An Extremely Quiet Ceremony in Place of the Brilliant Affair First Planned.

Monday afternoon in the presence of only the closest friends and relatives of the family, the marriage of Miss Louise Brown, daughter of the late Charles Brown, and Mr. Herbert ("Bert") Cox, occurred in Toronto.

The wedding which was set for Wednesday last, but which was postponed because of the sudden death of the bride's father on Tuesday, was to have been a very brilliant affair, but the ceremony this afternoon at 3.30 at the Brown family residence, 75 Isabella street was very quiet. Rev. Dr. Potts and Rev. Dr. Johnston were the officiating ministers.

Miss Brown was attired in a simple travelling dress and immediately after the final words were pronounced the couple left on a trip to the east.

BUSH FIRES IN THE NORTH.

Lakefield is Threatened by the Flames and the Fire Engine Utilised.

Bush fires were raging, yesterday, southeast of Lakefield and during the day the village fire engine had to be utilized constantly to preserve the barns and fences in the suburbs from being consumed by the flames, which advanced so close to the village as to become quite dangerous to the residents at times.

Between Peterborough and Lakefield whole fields have been run over by the fire, which originated probably from a spark from the locomotive falling in the dry stubble. The damage to the fencing in this way has been very great.

The cottagers at Stony Lake on Sunday night witnessed a stirring spectacle, when a large grove of trees on the edge of the water became ignited and were destroyed by fire.

It's Poor Economy

To wear Ready-Made Clothing these days—it always was—its particularly so now—and you are not much better off in purchasing from the ordinary every-day custom tailor, who buys in small quantities, pays the long price to the wholesaler and with a limited output, must pay expenses—demand the big price from his customer.

IT'S ECONOMY

Of the right kind to patronize the big house which buys for cash, and sells the same way, where every garment is high-class, designed by experts, and put together by high-priced mechanics; where you can rely on having style, finish and honest material in every particular, nothing slighted in the inner work and trimmings where they can't be seen, but fair dealing all around.

THE VILLAGE COUNCILLORS.

They Met in Monthly Session Last Night Night.

At a meeting of the Ashburnham Village Council, last evening, there were present Reeve Burnham and Councillors Craig, Rutherford and Smith.

On motion of Councillors Craig and Rutherford, it was resolved "That the weigh scales be sold to Scott & Hogg for $15; Scott & Hogg to remove them and set them up near elevator in a position for public weighing; Scott & Hogg to be entitled to charge rates for weighing not to exceed the rates charged in the town of Peterborough.

THE FOLLOWING ACCOUNTS

were received and ordered to be paid on motion of Councillors Rutherford and Smith:

Peter Clancy	$ 5 75
S Clancy	2 00
W H Smith	23 70
Light and Power Co	165 00
R J Weir	13 00
Review	11 50
G Emerson	2 50
J C Sullivan	4 55
Central Bridge Works	25 07
Water Co	54 00
Pay Sheet 14	13 00
" 15	3 75
" 16	38 25

Moved by Councillors Smith and Rutherford that Dr. Spears' salary as Health Officer to 1st of July, $15.00, and $2.50, his account for postage and stationery, be paid.—Carried.

On motion of Councillors Smith and Craig, it was resolved that no more assistance be given to Mrs. McEdward until ordered by the council.

A BY-LAW WAS PASSED

authorizing the Reeve to sign a contract with the Water Company for the placing of a hydrant just west of the Hunter street bridge for the better fire protection of the village. The bylaw made the provision that the pressure be equal to that in the town of Peterborough. The rate per year is to be $100, but if the village introduces the waterworks system with the municipality, then the rental per year of the hydrant will be reduced to the same rate paid on the others.

There was a long discussion on the advisability of introducing the waterworks into the village. The councillors were very anxious the system inaugurated this year, while labour was cheap and the water in the river low. $8,000 was the price asked, but the Reeve stated he was sure the work would not be undertaken this year, as already over $60,000 had been outlaid by the company already and it was hardly probable that any additional work would be undertaken until next year.

Councillor Smith stated that he had heard some complaints about the street watering. The citizens thought that as the streets were not watered on Sunday that the cart should make an extra trip late Saturday evening.

Councillor Smith also introduced the subject of

THE BATHING OF BOYS

in exposed places, and urged the council to take some action to mitigate the nuisance. Burnham's Point was a spot where boys were to be found at all times and those boating out in the lake objected to the practice.

The reeve pointed out that this was hardly an exposed point, as unless one was walking on private property just along the edge of the cliff, the boys could not be seen except from the water. No matter where the boys went they could be seen from canoes unless the canoeists kept far enough away.

The clerk was instructed to advertise for tenders for the laying of 1,000 feet of sidewalk.

A COMMUNICATION

was received from the village School Board, being the following resolution passed by the board at its last meeting:—

"Moved by Mr. Sheridan, seconded by Mr. Craig,—

"Whereas Dr. H. Spears has made a declaration that he is a Roman Catholic, in order to secure exemption from the payment of Public School taxes, and as we believe the statement contained in such declaration to be false, we would respectfully request the municipal council of the Village to take such steps as may be deemed necessary under section 42, chapter 227, Revised Statutes, to prevent the said Dr. H. Spears from securing such exemption, and thus preserve to the public schools of the village the taxes to which they are entitled."

On motion, the communication was referred to the village solicitor.

Dr. Spears, who was present, demanded a copy of the letter, but it was refused the doctor until such time as the council decided to act upon the suggestions contained in the communication.

The reeve read the statute referring to the matter and pointed out that a violation of the declaration involved the placing of the name of the trangressor back on the assessment roll and provides for the levying of a fine not exceeding forty dollars.

Dr. Spears stated that if he was not a Roman Catholic he was nothing else. He intended to take no fooling in the matter and wished it understood that in asking for a copy of the letter he had been acting advisedly.

The council, however, did not pass any resolution authorizing the clerk to forward such copy.

PAN AMERICAN CONGRESS.

The Programme Which the Committee has Published.

The committee in charge of the Pan-American Congress of Religion and Education have published in pamphlet form the programme of the proceedings, which commence on July 18th and close on July 25th, from which it will be seen that a very wide range of topics will be discussed. There will be two kinds of meetings, the general and the lectural. The former will be held in the mornings and evenings and the latter in the afternoons.

There are some people who regard with a measure of suspicion such meetings as these, but there seems to be no less reason for Congresses of Religion than for meetings of the British Association for the Advancement of Science. We have for a good long time past been accustomed to talk of the many aims common to all religious bodies. The organization of this and similar congresses will show to a world something sceptical of our professions that there is at least, however various its manifestations, a common spirit of devotion to God and man, marred it may be by human weakness and passion—amongst all those who "profess and call themselves Christians."

The railways are offering reduced rates to those attending the Congress, and it is hoped that Peterborough will not be without its representatives.

The programme is as follows:

That Tired Feeling

Is a common complaint and it is a dangerous symptom. It means that the system is debilitated because of impure blood, and in this condition it is especially liable to attacks of disease. Hood's Sarsaparilla is the remedy for this condition, and also for that weakness which prevails at the change of season, climate or life.

Hood's Pills act easily, yet promptly and efficiently on the bowels and liver. 25c.

The bidding was started by Mr. Madden who offered 8c. for selections Mr. Jones raised to 8 1-16 and named Lakefield, Central Smith, Fraserville, Bobcaygeon, North Smith and Peterborough, all of which refused.

On motion of Mr. Cook the Board adjourned for one week, owing to the unsatisfactory state of the English market.

A number of salesmen had not even boarded their cheese before the Board adjourned.

RAILWAY NOTES.

Sparks of News From the Whirling Wheels—Interesting Cinders for the Eye.

The freight business of the G. T. R. is booming so much that they are putting out new engines almost as fast as they can be had. Monday morning they sent out a new one, No. 640, in charge of Engineer McGregor.

A locomotive and fifteen freight cars loaded with stone went to the bottom of Lake Erie, at Kelly's Island, Saturday. The engineer, Louis H. Oover, was seriously if not fatally burned. The cars were ascending a steep incline dock, when the engineer lost control of the engine, and the entire train backed into the lake.

The gross earnings of the Canadian Pacific Railway for May, 1895, were $1,411,421.79, working expenses, $990,773.90, and the net profits $544,748.9, as against $513,538.80 net profits for the same month last year. From January 1st to May 31st, the gross earnings were $6,043,371.41, working expenses $4,101,447.70, and net profits $1,941,922.71, as against $1,849,273.23 net profits for the same period last year.

The Cobourg Post says it will be interesting to know that the projected railway from Cobourg to the C.P.R. is still alive, and every once and a while a step advancing the scheme is made. The latest was at Ottawa on Saturday last, when Mr. Guillet, M.P., and Mr. R. W. Leonard, engineer of the Cobourg, Northumberland and Pacific Raiway, secured the consent of the railway committee for the proposed road to cross the Central Ontario Railway at the Central Ontario junction.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

One pint of kerosene, at a cost of about one cent, will give a pure, healthy, clean light for two hundred or more hours; i.e., twenty-ten hour nights. Sold only by

A FLOOD OF DEVASTATION

200 Square Miles Laid Bare by Wind and Water.

St. Louis, July 7.—Thursday morning last telegraphic reports began to arrive in this city of rains at Western points. These reports grew in number Friday and covered a large territory, indicating that the entire eastern watershed of the Rocky Mountains, from the Nebraska and Iowa lines to Texas, was swept by a storm. Friday night the severest blow came. Reports of the loss of life and destruction of property came with every telegram, and the downpour which was at first regarded as a blessing grew into a wave of devastation.

Fields of grain that promised the most bountiful yield in many years are to-day swept bare of vegetation. In several instances the seas of rain were abetted in their work of destruction by tornadoes.

It is too early yet to sum up the loss, but the total must be appalling, and those to whom the angry elements spared life have little left to sustain it. The stories of storm are so similar that a statistical summary is all there is left to tell.

The storm's focus embraced an area of 200 square miles, with the southwestern corner of Missouri as the centre.

The greatest loss of life is reported from Winona, Mo., where 11 corpses have been found and as many more missing.

Baxter Springs, in Southwestern Kansas, five were killed and 11 seriously injured by a cyclone that accompanied the storm.

One was drowned at Columbus and two at Ottawa, Kas.

At Van Buren, Ark., a woman and her child were drowned.

A family of five were encamped on the bank of Fish Creek in the Indian Territory. Yesterday nothing of them or their belongings was found except a part of their wagon on a pile of driftwood.

At Thomasville, Mo., where the rain fall was four inches in an hour, five lost their lives.

Unconfirmed reports are received of loss of life as follows: Three at Fayetteville, Ark.; one at Paoli, Kas.; one at Richards, Kas.; and six of a hunting party in the Indian Territory. This gives a known and probable loss of 43 lives. This total will be increased when the receding water permits a thorough search.

The loss in property can be placed in the millions. Dwellings, fences and farm buildings were carried off, and a wagon and railroad bridges swept away. Thirty of the 80 buildings in Winona succumbed. Five residences, a church and a warehouse went down at Baxter Springs. Six bridges went out in Russell County, Kas. About Jefferson City, Mo., many square miles of growing grain were covered with debris. Traffic on the Fort Scott and Memphis Railroad is temporarily suspended.

Reports of damage to property other than above noted come from five points in Kansas, nine in Missouri, six in Arkansas and two in the Indian Territory. The storm spent itself in Illinois, but having lost its force, proved a blessing to crops. The above summaries give only a fraction of loss in property. The greatest burden falls upon the farmers, as the season is too far spent to plant new crops, and suffering must surely follow in the storm's wake. Details of individual suffering and experiences recall the horrors of the Johnstown disaster.

FASHIONS FOR THE FEET.

Pretty Things in Shoes and Stockings for Women's Wear.

Women may be as commonplace as they please when they go off on tramps in the country, or when they start out for a morning of shopping in town. They may, and they should, wear boots or shoes with square toes and low heels. In that way they will keep their feet well-shaped and in good condition for the pretty dressing which goes with the stylish home and evening gowns.

While black stockings are still more worn than anything else, and are imperative with black shoes and boots, tan and brown are worn with the serge

DRESS SLIPPERS AND CANVAS SHOES.

and russet shoes, while with the canvas shoes, that form an indispensable part of the light summer toilets, and with tinted satin slippers for dancing dresses the stockings must match.

The ribbed hosiery is the most highly favored, but for dress occasions they are embroidered or done in lace work until they are real works of art.

Silk and fine lisle thread are the chief wear, the latter when silk is not attainable. A good quality of lisle thread is better than an inferior quality of silk.

The shoes of the season are specially pretty. There is a return to the but-

toned shoe, which is showing favor with the laced one, and is liked for a change.

The toes are squarer than they have been for some seasons, and the vamp a little higher. In some of the new ones there are cloth tops.

The slippers are still in the Louis XV. style, with high heels and beautiful jeweled buckles, real works of art.

In fact, the shoes and stockings of the summer girl are no small part of her fitting out.

Not That Kind.

Scott's Emulsion does not debilitate the stomach as other cough medicines do; but on the contrary, it improves digestion and strengthens the stomach. Its effects are immediate and pronounced.

Great Faith in it.

DEAR SIRS,—I have used Dr. Fowler's Extract of Wild Strawberry when required, and think it is the best remedy to be had for all kinds of Summer Complaints. It has never failed in our family to cure any summer complaint, so we have great faith in it. MRS. FRANK STEPHENS, Chatham, Ont.

Heart Disturbance

There is more heart disturbance now than ever. Present day modes of living, hurry, excitement, worry, promote it. You needn't have heart trouble, because you can keep from having it.

Scott's Sarsaparilla

Palpitation or fluttering of the heart, smothering spells at night, swelling of the feet and ankles, shortness of breath, pain in the left side, fainting spells, mean that the heart is oppressed—circulation is out of order.

DELAY IS DANGEROUS

Note the papers daily chronicling the demise of some one by neglect of these warnings—result, total heart failure. Scott's Sarsaparilla cures heart disturbance by equalizing the circulation, restoring nerve power, supplying pure blood and relieving the heart of its burden.

AYER'S Hair VIGOR

Restores natural color to the hair, and also prevents it falling out. Mrs. H. W. Fenwick, of Digby, N. S., says:

"A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. Fenwick, Digby, N. S.

Growth of Hair.

"Eight years ago, I had the varioloid, and lost my hair, which previously was quite abundant. I tried a variety of preparations, but without beneficial result, till I began to fear I should be permanently bald. About six months ago, my husband brought home a bottle of Ayer's Hair Vigor, and I began at once to use it. In a short time, new hair began to appear, and there is now every prospect of as thick a growth of hair as before my illness."—Mrs. A. Weber, Polymnia St., New Orleans, La.

BEAUTY ON THE BENCH.

A Pretty Girl Once Sat With California's Supreme Court.

"Few People are aware that a woman once sat on the Supreme bench in California," said ex-Secretary of State Thomas Beck. A look of incredulity overspread the features of his listeners.

"It's a fact, nevertheless," continued Mr. Beck. "It was in—Well, never mind the year, but I was then secretary of state and court was being held in Sacramento. Judge Wallace was on the bench and among those in the capital city during the session was Col. Shafter and a number of his officers. The colonel was accompanied by his daughter, a very young, bright and handsome miss.

"One morning at the breakfast table in the Golden Eagle Hotel, Justice Wallace said: 'Miss Shafter, I feel quite slighted. Since you have been in Sacramento you have not deigned to visit me. Won't you come up this morning and sit with us in banc? My colleague, Judge Crocker, is absent, and you might as well occupy his seat.'

"'Oh, yes, I'll come,' returned Miss Shafter, and the subject was dropped and I am sure Judge Wallace never dreamed that the invitation would be accepted.

"About an hour afterward, Miss Shafter, accompanied by one of the officers of her father's staff, came to my office and said that she wanted to go to the Supreme Court. Would I take her? With pleasure. And away we went. A young attorney was arguing a case when we entered the court. He did not notice us as we quietly seated ourselves, and went on with most brilliant eloquence. Judge Wallace laid his hand on the arm of the empty chair and nodded to my companion to take it.

"'Shall I go up?' she asked of me.

"'Why, certainly,' I responded. 'It would be discourteous to the bench not to do so.'

"She hesitated a little, but as Judge Wallace regarded her with a smiling invitation and patted the chair provokingly, she arose and firmly and with the grace of a queen, walked up the aisle to the platform. The judges arose and gravely bowed. Wallace stepped forward, and, extending his hand, escorted her to the vacant chair and each justice was presented to her in turn and shook the tiny hand of their dainty associate. Miss Shafter was quite equal to the occasion, and, bowing, took her seat and let the case proceed. That young attorney, though, lost his head, and afterwards lost his case. Whether he wished to make an impression on the new associate or whether the strangeness of the proceedings rattled him, I never learned, but he got badly tied up in his peroration.

"What did Judge Wallace do? Why, at dinner that evening he conferred with the new judge and insisted upon her occupying the seat on the bench next day. After dinner he asked me to take a walk with him. 'Beck,' said he, 'if you bring that girl into court in the morning I'll have proceedings instituted to declare your position vacant.—San Francisco Call.

A Woman's Postscript.

"Why women write postcripts," is a problem that has been engaging the attention of one of the Lodon women's weeklies. The answers betray that the sex understands itself, and does not mind exposing its amiable weaknesses. All are from women, who ascribe, among others, these reasons: "Because they seek to rectify want of thought by an afterthought"; "because they are fond of having a last word"; "because they write before they think and think after they have written."

Our correspondent puts down the feminine P. S. to the same cause "which leads women to prolonged leave-taking in omnibuses, namely," and rather profoundly it appears to the casual observer, "that they lack organization of thought." Another woman comes to the defence of her sisters with the suggestion "that when women have anything special to communicate they know that their P. S. is equivalent to N. B.," and yet another friendly soul turns a neat compliment in her reason: "Probably because woman herself is the embodiment of the P. S. in the scale of creation—she—the indespenable—was added last."

To Save Lost Heat.

The scientific journals describe a series of tests lately made to determine the loss of heat from steam pipes due to radiation, three distinct conditions being observed in the calculations, namely, bare pipes, pipe covered with one inch of composition, and pipes overlaid with one inch of composition and three surfaces of hair felt, each half an inch in thickness. The steam pressure used was from forty-five to sixty pounds, and the results showed that, with one inch of composition, out of a possible loss of 100 per cent., eighty-three and one-half per cent. was saved, and, with the extra felt covering, eight and one-fourth per cent. additional marked the saving. It is remarked that, if a single pound of coal is required to evaporate eight pounds of water into steam at sixty pounds' pressure, then six and one-half hundredweight of coal would be needed every year to make good the loss of heat for every square foot of uncovered steam pipe.—The Sun.

New Ambulance Service for Paris.

Special arrangements are being made in Paris to cope with street accidents. The city is, it seems, to be mapped out into districts; an ambulance station is to be placed in each district; notice boards are to be put up at every conspicuous corner, indicating the nearest "first aid" station; near each notice board is to be installed a telephone by means of which the nearest ambulance station can be immediately communicated with, and an ambulance and, if need be, also a doctor, thus summoned to the scene of the accident without loss of time.

COOKING ON A TABLE.

The Kitchen Range can be Entirely Dispensed With Hereafter.

Electricity has worked changes as great in the kitchen as anywhere else. Below are shown two views of the latest methods of cooking. All operations of cooking except baking are performed

COOKING ON THE TABLE.

on a moderate-sized table and the oven for baking is shown in the second cut. On the table in the first cut are an electric griddle, for which great efficiency and cleanliness are claimed; frying pans and chafing dishes, a plate warmer, broilers and stewers.

To show the efficiency of the outfit and to prove how far-reaching the general introduction of cooking by electricity would be, a company of a dozen friends

THE BAKE OVEN.

was invited to a dinner of six courses, which was cooked in the dining-room of the host by the lady of the house, with the help of a butler, the entire preparation consuming less than an hour and a half, during which time the lady found time to converse with her guests and superintend the setting of the table besides. It must certainly be admitted that while taking up very little space, and insuring absolute cleanness, this way of cooking is superior to the old way in many respects. The total absence of heat in the room where the cooking is done cannot be praised too much, as every housewife will testify with pleasure.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the Erie Medical Company, Buffalo, N. Y., and asked for the little book called "Complete Manhood." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

DAVID DOIG

A LADY OF WATERFORD COMPLETELY CURED.

Suffered for Two Years from Indigestion and General Debility.

Unable at Times to Attend to Her Household Duties.

Treated by Nearly All the Doctors in the Town Without Relief

"Six Bottles of South American Nervine Cured Me," Says Mrs. D. A. Gray, of Waterford, Ont., Over Her Own Signature.

MRS. D. A. GRAY, OF WATERFORD, ONT.

Certain dates are epoch making. They mark transitions in the individual life that are never forgotten. Their impress may be pleasant or sad, or both. As Mrs. D. A. Gray, of Waterford, Ont., an estimable and highly respected resident of that community, goes back in memory to the year 1893, her recollections are not of the most roseate character. Can there be anything rosy to one who is a victim of indigestion? All is sombre and sadness. But there was a silver lining to the cloud, as we shall see. Previous to 1893 Mrs. Gray tells us she had been troubled very much with indigestion and general debility for a period of nearly two years. Hers was no ordinary case. At times she was prevented altogether from attending to her household duties. Waterford has a number of skilled physicians in its midst and their services were called in, but in her own language, "I cannot say that they relieved me in any way." An era of joy was ushered in when her mother read the story of a cure by South American Nervine in a case where the symptoms, as Mrs. Gray says, "seemed to be exactly like her own. I bought a bottle and found much relief. After taking six bottles I was cured." The date was an epoch making date in this lady's life.

What the symptoms of Indigestion are, too many know. What the trouble is in its worst forms thousands know. People lament the spread of insanity in the present day. How far removed from loss of reason is a case of aggravated indigestion? The world to every such victim is blue enough, black enough, so uninviting and depressing that no wonder they are beside themselves. And yet the remedy is within the reach of all. That great discovery, Nervine, will cure the most desperate case of indigestion, debility or nervousness. You ask for evidence. A cloud of witnesses in the Dominion of Canada are saying, amen, and amen, to the testimony of Mrs. Gray. Why suffer, fellow-citizens, friends and brethren?

TOTTERING TO ITS FALL.

(Continued From First Page.)

therefore, being unable to understand it, I am not capable of giving an opinion about it."

In the House to-day, Sir C. H. Tupper informed Mr. Grieve that Mr. John Connor of St. John received 10 per cent. commission on sales of Kingston Penitentiary binder twine.

Mr. Taylor moved the folowing motion: "That, in the opinion of this House, it is expedient that a few of the large islands in the River St. Lawrence which are yet undisposed of should be reserved for the use of the public as a Dominion park." Mr. Taylor accompanied his motion with a very strong statement of facts in support of his proposal. He pointed out that the charge had been made that these islands had been sold out to party friends of the present Administration, while as a matter of fact, during the Reform regime, islands aggregating 2600 acres had been sold at an average of $2.07 per acre, and the average price obtained since they went out of power was $86 per acre. If the principle of the resolution were carried out, several of the larger islands could be cleared of underbrush, equipped with landing stages, and thus made accessible to the general public.

Hon. Mr. Daly said that the Department of the Interior had reserved from sale 11 of the best and most desirable of the Thousand Islands. These islands being the property of the Indians, the Government could not take them over without depositing an amount equivalent to their value in the Indian fund. It would be for Parliament to authorise this expenditure or the expenditure necessary to clear off the underbrush and build the landing wharves.

Hon. Mr. Mills remarked that the Government had last year refused to assent to the park proposition. On motion of Hon. Mr. Foster, the debate was adjourned.

Mr. Davin offered the folowing resolution: "That, in the opinion of this House, it would be expedient to apply $30,000 to aid in establishing creameries and cheese factories in the Northwest Territories, and that this sum should be considered as an addition to the immigration grant. That, further, the Government should at once take into consideration the propriety of giving a bonus on butter exported to the London markets, as is done by some of the Australian colonies, and also of raising the customs duty of 4 per cent. per pound to 6 cents, in order to enable the Northwest farmers to compete with the Australian exporters in the British Columbia markets."

Mr. Rinfret (Liberal) moved, in amendment: "That this House cannot find any special reason for granting at the public expense protection to creameries and cheese factories in the Northwest which is not granted to the same factories existing in the other provinces of the Dominion."

Hon. Dr. Montague, after referring to the success that had attended the Government's efforts to develop the dairying industry in the Dominion generally, said that the same policy would be pursued in the Northwest, although in the present state of the finances he could not promise such a large expenditure as Mr. Davin's motion called for.

Hon. Mr. Foster, replying to Mr. Mulock, detailed the liberal allowances that had been made in agricultural interests.

Mr. Tarte thought the Northwest farmers should look after themselves.

Dr. Sproule moved the adjournment of the debate, which was carried by 62 to 57.

On motion for the third reading of the Toronto, Hamilton & Buffalo Railway Company bill, Mr. Coatsworth moved that the bill be reconsidered in committee of the whole and amended by substituting for one of the clauses a section enumerating the claims for material, construction, wages, board of men and teams, etc., which shall be paid before the charter becomes operative. It was explained that this stipulation was acceptable to all parties, and the bill was reported.

A lengthy discussion took place on the South Shore Railway dispute, the debate being again adjourned. The House adjourned at 10 o'clock.

The political situation was incidentally touched upon to-night in the Commons. On motion to adjourn, Mr. Laurier said: "I take advantage of this motion to ask the leader of the House if he can give any information in regard to the rumor that is now current that three members of the Cabinet have resigned this afternoon."

Mr. Foster replied: "I can give no information to my hon. friend, but I advise him not to put his trust in rumors."

Mr. Laurier: Then I inform my hon. friend that I shall renew this question to-morrow, and shall then take the opportunity of drawing the attention of the House to it.

Mr. McCarthy: I should like to ask the leader of the House whether there is the authority of His Excellency the Governor-General for the announcement made this afternoon as to the meeting of Parliament in January next. The hon. gentleman did not say whether he had such authority, and it seems to me that announcement that Parliament would be convened by a certain day, and another session would be called, is rather usurping the prerogative of His Excelency, unless the Government has such authority.

Mr. Foster: My hon. friend will be pleased to learn that we have not usurped the prerogative of His Excellency in this regard.

This closed the incident, and the members went home.

Hon. John Haggart gives notice of a bill respecting the Winnipeg Great Northern Railway, alias the Hudson Bay Railway. The company is entitled to $80,000 a year for 20 years when the line is operated to Saskatchewan, a distance of 300 miles. The measure to be introduced will be half the subsidy, making $40,000 payable when 150 miles of the road are in operation.

Sir Mackenzie Bowell received a cablegram on Saturday from the Hon. J. G. Ward, announcing his arrival in New Zealand, and referring in the highest terms to the character of the steamship service of the Canadian-Australian line. A peculiarity of this message was the fact that it was sent from New Zealand on the 7th, and received here on the 6th, which illustrates the great difference in time.

Hon. J. C. Patterson returned from California to-day.

Hon. W. B. Ives is still confined to his house at Sherbrooke. He has been ordered a sea voyage.

Harry Corby, M.P., has written some friends that since his arrival in London he consulted a specialist, who told him that his treatment up to date had been wrong, and that a change would be necessary.

Mr. R. W. Breadner has been appointed chief clerk of the new checking branch of the Customs Department, while Mr. R. R. Farrow has been appointed accountant of the same department.

THE RESIGNATIONS DISCREDITED.

No One in Montreal Believes That the Three French Ministers Have Stepped Out.

Montreal, July 8.—The announcement in the Ottawa despatches to the local papers that three French Ministers had tendered their resignations was not credited for a moment in French political circles, as no one could believe any such step would be dreamed of by experienced politicians like Sir A. P. Caron and Messrs. Angers and Ouimet. It is well known that these honorable gentlemen are in immediate touch with the Quebec electorate, and nothing that the trio of Ministers have yet received would for a moment convince them that the policy of deserting the national council chamber would be supported by the French Conservative party at large.

Your correspondent stated before and it can be repeated to-night that, outside of party newspaper offices in Montreal and Quebec, there is no excitement in this province over the situation at Ottawa, and there is nothing to be seen, either beneath or above the surface, to indicate that the people of Quebec manifest any more than a passing interest in what is just now taking place at the seat of government. There is no desire on the part of the Conservative electorate for the three French Ministers to vacate their seats at the council table, and your correspondent learns, in fact, that more than one member of the French-Canadian episcopacy has wired the ministers to remain at their posts at all hazards and fight it out to the end. They argue thus: These ministers have done all in their power to lessen the burdens of the Manitoba minority, and why should they be deprived of participating forever after in the general administration of the country? Bishops of this province know well enough that there is nothing in the Canadian constitution that gives so many members to this province and so many to that, and, like sensible men, they will one and all advise Sir Adolphe Caron, Mr. Ouimet and Mr. Angers to abide by the fate that awaits the Manitoba schools, whatever it may be, and above all not to forget that Her Majesty's government must be carried on.

It may also be said that a Royal Commission to enquire into the alleged grievances of the Manitoba minority is looked upon very favorably in political circles here.

Lord Aberdeen Returns to Ottawa.

Forced-to-Sell-Sale

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

Money on the Dolan Stock

Must be raised, regardless of cost, real value or positive loss. Read the prices we quote this week—read the bargains we place on sale—get an idea of the recklessly low prices—compare and investigate—reflect and act.

ATTEMPTS AT PEACE FAIL

A Demand for Remedial Legislation This Session.

QUEBEC M.P.'S THREATEN TO BOLT

Unless This Demand is Complied With.

REASONS FOR THE RESIGNATIONS

Mr. Laurier Moves a Vote of Want of Confidence.

The Motion Rejected By a Vote of 111 to 72—The French Members May Make a Statement in the House To-Day That They Have Been Deceived Too Often—Their Ministers Wanted a Written Pledge That Remedial Legislation Would Be Forthcoming, and Not Get It They Resigned.

Ottawa, Ont., July 9.—If anything, the political situation to-night is more aggravated than it was yesterday. Within the next 48 hours, however, the climax will have been reached and the country will know whether or not the difficulty has been tided over or the Ministry go under. The position of affairs is critical in the extreme. Some Conservatives pretend to say that everything will come out all right, but an unconciliatory spirit appears to prevail which bodes ill.

There was an exciting half-hour in the House this afternoon, but for another day at least the public will be deprived of an official announcement respecting the present crisis and the reasons which have led up to it. Your correspondent, however, is in a position to give what may be relied upon as an accurate statement of the position of affairs which led to the resignation of Mr. Angers and the practical withdrawal from the Cabinet of the two other Ministers, Mr. Ouimet and Sir A. P. Caron.

In drawing up at the Cabinet meeting the official statement which was read in both Houses yesterday, the three French Ministers desired a pledge inserted in it that not simply Remedial Legislation would be introduced into Parliament next session, but that such Legislation should take the form of the re-establishment of Catholic Separate Schools. The French Ministers conceded that no bill could be passed this session, but they desired the positive pledge before the country that Separate Schools would be re-established. They were outvoted in the Cabinet, and this led to a change of base on the part of the Quebec representatives. They did not hesitate to say that their colleagues were not keeping good faith with them, and they therefore asked that the promise, such as it was, given in the official announcement, should be embodied in a private document to be retained by them and signed by all the Ministers. In this they were again outvoted, or, to put the matter plainly, the request was refused. Then the French Ministers asked for 24 hours' grace before the official announcement was made in Parliament, in order that they might have an opportunity of consulting their supporters from the Province of Quebec. In this request, also, they were disappointed. The result was the resignation of Mr. Angers and the practical resignations of Sir A. P. Caron and Mr. Ouimet.

Negotiations have been in progress all day with a view of bridging over the difficulty, and it is reported that some headway was made, but your correspondent has reason to believe that the contrary is the case. Indeed, it is asserted late to-night that, in view of the action of their colleagues, the French Ministers will not now be satisfied to come into line again unless a Remedial Bill be actually introduced and passed this session. If this statement be correct, something is going to drop within a very few hours. The Premier, who during these trying days has adopted a most conciliatory spirit, is said to have gone so far as to offer to have introduced the draft measure submitted by Mr. Ewart, as counsel for the Catholic minority, some weeks ago, have it read the first time, and then allow it to stand until next session. Sir Adolphe and Mr. Ouimet were reported to be satisfied with this promise, but Mr. Angers, Senator Landry, Mr. T. C. Chapais (Sir Hector Langevin's son-in-law, who has been here some days), and other ultramontanes are not satisfied.

There have been many conferences during the day among the principals to the situation. His Excellency the Governor-General and Lady Aberdeen arrived here this morning, and made the Russell House their headquarters on their present flying visit.

During the day the Premier had a long conference with His Excellency, and in the afternoon the three French Ministers also talked over the situation with Lord Aberdeen. It is without doubt the desire of His Excellency -- endeavor to bring about an amicable settlement of the matter, but so far his efforts have not been successful.

Despite announcements that have been made, there has been no caucus of French-Canadian members. They are satisfied to allow their leaders to make their own terms, knowing that they will not sacrifice the rights of the Manitoba Catholics.

Unless, however, within the next 48 hours the breach in the Conservative ranks is healed, the country will see a motion of want of confidence in the Government actually submitted by a Conservative member. I hear that Mr. Joncas to-day notified Mr. Foster that he will present such a motion unless the Government come to terms with the bolters. If a vote of censure is brought up against the Government on the school question direct, it is pretty certain that it will not be a party vote on either side. If there is a defection in the ranks of the French Bleus, there is sure to be a defection among the English Liberals, who will stand with the Government to save their position in Ontario.

To add to the gravity of the situation it appears that the two French whips, Messrs. Frechette and Grandbois, have resigned.

The French members will make a statement in the House this afternoon. If the conditions on which they have insisted are not complied with, they will say that their withdrawal has been dictated by a lack of confidence in the statements of their colleagues. They claim in effect that they have been given pledge after pledge in the most solemn manner, only to be broken, and that after experience of this session they will be deceived no longer. They were promised, they claim, in the most explicit terms, Remedial Legislation this session. Now they are asked to have it postponed. They say that if they do not have the most explicit statement now a shuffle or something else will occur, and they will be dumped again. Mr. Angers is the most insistent of them all, and to save themselves Caron and Ouimet must go his pace.

The Conservative M.P.'s for Ontario are asking for a caucus before it is too late. They say they were promised at the last caucus that they would be called together again before the Government announced their policy on Remedial Legislation. But the announcement of yesterday was made without a caucus. That announcement is considered by many to have been bad policy, as it was made in knowledge of the fact that it was unacceptable to the French-Canadians, while it committed all the others to Remedial Legislation. The outlook of the next 15 or 20 hours is not at all encouraging for the Bowell Administration.

Another story flying around the lobbies is that the English Ministers sent word to their three French colleagues that unless a settlement be made within 24 hours they would resign. The reply, so it is said, was, "Do it."

The crisis was only incidentally touched upon in the Senate to-day. Mr. Scott asked the Premier if he was prepared to relieve the tension in the House and the country by making a statement regarding the uncontradicted reports of the resignation of Cabinet Ministers.

Sir Mackenzie Bowell said he was not in a position to gratify the laudable curiosity of his hon. friend. He, however, expected soon to be able to gratify that curiosity.

On the orders of the day being called in the Commons, Mr. Laurier rose and said: "I now renew the question which I put last evening to my hon. friend with regard to the resignation of certain members of the Administration."

Mr. Foster: Mr. Speaker, all that I can say to my hon. friend is this, that I have not any authority from His Excellency the Governor-General to make a statement other than this, that no resignations have as yet been received by him.

Mr. Laurier: Well, Mr. Speaker, I hardly believe that the statement just made by my hon. freind can be satisfactory to the House. Whether certain members of the Administration have placed their resignations in the hands of His Excellency or not, I assume the is not the case, since the hon. gentleman says he is not at liberty to say so, but whether the fact is official or not official there can be no doubt whatever that we are in the midst of a Ministerial crisis. His Excellency the Governor-General is here. His Excellency has cancelled a trip which had been announced for some weeks in advance, which was looked forward to and expected with great pleasure in that part

GRAND TRUNK WRECK

Thirteen People Killed, Twenty Nine Injured.

RAN PAST THE DANGER SIGNAL

Serious Smash-Up Below Montreal — One Train Loaded With Pilgrims Crashes Into Another Engineer on the Second Train Supposed to Have Been Asleep.

South Quebec, Levis Co., July 9.—An accident occurred at Craig's Road station at 3.45 a.m. A pilgrim excursion from Sherbrooke was being run in two sections. The first section stopped at Craig's Road to cross an up-train, when the following section ran into the rear of it, the engine plowing through the Pullman and first-class cars.

The driver, Hector McLeod of Richmond, and the fireman, Dick Perkins of the colliding train, were killed, and their bodies so far have not been found. Ten passenger cars and engine are wrecked.

The trains carrying the pilgrims were made up of residents from Sherbrooke, Magog, Windsor Mills and surrounding parishes.

The dead are:

Charles Bedard, mail clerk, Richmond.
Miss Bedard, Richmond.
Hector McLeod, engineer, Richmond.
Richard L. Perkins, fireman, Richmond.
Rev. J. L. Mercier, Richmond.
Rev. F. H. Dignan, Windsor Mills.
Mr. Cogan, Richmond.
Miss Valine, St. Joseph de Levis.
Miss Phaneuf, St. Joseph de Levis.
Mrs. J. B. Cayer, Danville.
Miss Delycourte, Shefford.
Aunt of Miss Varin, St. Joseph de Levis.
John O'Farrel, Capleton.

Among the injured is Bennett Bassler, a Pullman car porter, resident of Toronto.

Bennett is expected to die. His injuries are mostly in the chest and about the head. The right thigh is also fractured.

Mr. Quinlan, the traveling passenger agent of the Grand Trunk, and who was reported dangerously injured, will recover.

When the blinding clouds of steam had subsided the trainmen and priests rallied the men together, and the dead and injured were taken from the ruins and cared for wherever temporary quarters could be found. The women of the party ministered as best they could to the wants of the maimed pilgrims. They tore off their underclothing and made bandages for the gaping wounds, and tried in the absence of enough medical aid to go round to stanch the flow of blood and properly cleanse the hurts.

Word was also sent to Montreal, and orders from there were sent to Levis to send out a force of doctors from Quebec to attend the wounded, and a force of men to clear up the track.

The special train from there reached here at an early hour in the morning, and all of the wounded that could be moved were placed on board a car and sent east to Levis, where they were to be cared for in the hospital.

It is hard to say where the blame for the accident rests. It has been suggested that Engineer McLeod might have dozed off to sleep and thus missed seeing the semaphore, and was unconscious of his whereabouts. Indeed, this would seem to be the only theory that can be advanced, but a strict investigation will be held at once to determine where the responsibility rests.

Your correspondent saw the assistant general manager of the Grand Trunk, Mr. W. W. Wainright, and received the following statement:

"We have had a very bad accident. There were two special trains, containing 554 pilgrims, bound for St. Anne de Beaupre. One train left Sherbrooke last evening at 9.30, and the other Norton Mills, near Island Pond, at 2.30 p.m., and the two proceeded towards Chaudiere. This morning at 3.15, at Craig's Road crossing, 14 miles from Point Levis. The second train ran past the semaphore signal set at danger and telescoped the Pullman, which was on the rear of the first train. The driver and fireman of the hind train remained in their engine and died at their posts." Mr. Wainwright added that 20 minutes had elapsed from the time the first train left the last station, when the second train also proceeded on its way.

Chief Superintendent Stephenson took a special, and at once started out for the scene of the wreck, and wires that the semaphore was standing at danger, and was 16 telegraph posts in the rear of the first train, which likewise had three tall red signal lamps. The driver in charge of the second train was H. McLeod, who had been in the service of the Grand Trunk since 1867, and an engine driver since 1871. The fireman, R. S. Perkins, entered the service of the Grand Trunk in 1884, and the assistant general manager cannot conceive how such experienced men could have run past a danger signal, the penalty for which is dismissal without even a hearing. Both are dead and will never answer why, but Mr. Wainwright thinks perhaps the driver might have gone to sleep.

Continuing, the assistant general superintendent said: Our first report said that four were dead, then 11, and now it is 13, and we hope that this is the maximum number of the unfortunates. There are 29 reported wounded, all of whom were taken to the Quebec Hospital.

THE GOVERNMENT AND THE SCHOOL MATTER.

The Dominion Government after an exhibition of delay, dawdling and cowardice unparalleled in the history of any civilized administration, in connection with the Manitoba school question, have adopted a policy of crass stultification which is a fitting climax of their course of puerile and time-serving procrastination the past five years. The vacillation that has marked the Government's course on this question could have been ended at the present session of Parliament. Upon the receipt of the decision of the Privy Council, the Government issued the Remedial Order, which Manitoba refused to obey. Instead of promptly acting and framing a remedial measure, the government dallied with the question, twisting, turning and wriggling in every sort of manner which they thought would tend to perpetuate their hold upon office and doubtless it is by conciliating their supporters by the sop of $1,000 sessional indemnity that they have been able to keep their followers in order. The postponement of dealing with the question by referring it to an extra session in January is only aggravating the offence of the government's shifty and vacillating policy on the school difficulty. Another session will cost in the neighbourhood of $300,000, and all to deal with a question that should have been settled long ago. Besides it is not probable that a settlement will be reached any more at a January session than at any previous session. The government has made so many promises and broken so many that neither of the two parties to the school dispute, nor the electors nor their supporters can have any confidence in their bona fides. Next January Manitoba will doubtless be as firm in its attitude in regard to the remedial order as it is to-day. The government seems to have a weak hope that Manitoba will make concessions; if it does there is no necessity of an extra session, if it stands firm the question will be in the identical position it is in now. The Government trusts, as it has trusted any time these five years, that something will in the meantime turn up that will operate in its favour and improve its chances of hanging on to office. The expedient of a special session is an outrage. A parliament in its last hours, elected on the voters' lists of 1891, cannot represent the voice of the electorate of 1895. The present parliament is not fit to deal with a question that demands unbiased sentiment. Scores of the supporters of the Government have promises of office such as senatorships, customs collectorships, etc., and the condition of having these promises fulfilled is a thick and thin support of the government in whatever it proposes. Besides the promise of an extra session, when before the present session, dissolution was all but decided upon, is equivalent to a bribe of $1,000 a head to the supporters of the Government, (many of whom are not troubled with a surplus loyalty to the government) to stand firm. The Government is acting an unstatesmanlike and cowardly part in its attitude upon the Manitoba matter. It is either right or wrong to enact remedial legislation. If it is right, let the Government establish a precedent in its history and and take action because it is right. If it is wrong then why have another session of parliament with its enormous expense, and all to no purpose. Let the government show some backbone and grapple with the subject manfully. But this is too much to expect. It is only a few months ago that the Premier made the vaunting promise that when the time came to act in the event of the refusal of Manitoba to obey the remedial order, the government "would act in spite of the results"—and lo, the action is deferred to an extra session of parliament which may never be held.

The whole course of the government upon the question of Manitoba Schools has been in the direction of complicating it and making it more difficult of settlement, and their friends have helped to make the tangle more intricate. Many, doubtless, well-meaning persons favour the removal of the subject from the domain of practical politics, which is simply impossible. It is a political question, arising from the political acts of a political organization. Manitoba on her part has taken political action that has led up to the political connection of the Dominion Government with the question, and between these two political bodies, instructed by the electorate through their representatives, the solution of the question lies. Persons interested in the peaceful solution of the subject would, instead of praying that the Manitoba school question be removed from the domain of practical politics, pray much more to the point if they prayed that the question be entrusted to the hands of a government that had backbone enough to act manfully and fearlessly in dealing with it, and not like the present administration, make it a plaything and subservient to the mania of holding on to office and conciliating their supporters, independently of the interests of Manitoba and of the country at large and of our school system.

THE Dominion Government should take the example of city populations, this weather, and go to the country.

THERE is great anxiety over the political situation at Ottawa, and there is consternation in the Government camp. The split in the cabinet is not really caused by the school question, though that is the occasion of it. The members of the cabinet have been at daggers points since it was formed last December. The French ministers say they have no faith in their colleagues in respect of the promised remedial legislation. The situation has brought the Governor-General from Quebec to the capital.

IMPROVING THE QUEEN'S ENGLISH.

A Ministerial Amendment Introduced by Hon. Mr. Haggart.

This is from the Ottawa correspondence of the Toronto Telegram, a column usually well handled:—

To John Haggart is due much credit for having taken the initiatory steps towards so amending the English language so as to give it a new and rugged beauty. It was in the Public Accounts Committee yesterday that Mr. Haggart gave the first notice of the prosecution of the evangel of the new English. The committee were talking about some timbers used in the construction of the Sault Ste. Marie Canal.

"They are broken," said Lister.

Haggart rose to correct the statement. "The hon. gentleman said the timbers were broke," said this learned Minister.

"I said nothing of the kind," objected Lister, a smile flickering over his countenance.

"What! You deny it! You deny that you said these timbers were broke?" asked Haggart, in amaze.

"I do," answered Lister. "I'll tell you what I did say. I said the timbers were broken."

There was a howl of laughter. Haggart rose, and stolidly said:

"What's the difference? Both is right."

There is in Canada a prejudice against what is called "personal journalism," but it remains to be discovered that Mr. Haggart's statesmanship rises to a higher level than his English.

COMMENDABLE PROMPTITUDE.

A Resident of St. John, N. B., Makes a Successful Trial of Dodd's Kidney Pills.

St. John, N. B., July 8.—Mr. Robert Moore, residing in Indiantown, a suburb of this city, has recently made what is allowed by all who are acquainted with the facts to be a most remarkable recovery. He has been a sufferer from a serious complaint of the kidneys for over seven years, and during that time has suffered excruciatingly. He has also suffered considerably in pocket, having paid large sums for medical advice. Quite recently he happened to read of the many cures effected by Dodd's Kidney Pills, and with commendable promptitude made a trial of them, with the result that after taking three boxes of the remedy he was entirely restored to health.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalizer saved my life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, Liver, or Kidney trouble it excels. Price 75 cts. Sold by John Nugent, 399 George street

Coughs, colds, sore throat, asthma, bronchitis, and all lung troubles are quickly cured by Hagyard's Pectoral Balsam.

Mr. Jacob Wilcox of St. Thomas, Ontario, is one of the best known men in that vicinity. He is now, he says, an old man, but Hood's Sarsaparilla has made him feel young again.

"About a year ago I had a very severe attack of the grip, which resulted in my not having a well day for several months afterwards. I was completely run down and my system was in a

Terrible Condition.

I lost flesh and became depressed in spirits. Finally a friend who had been benefited by Hood's Sarsaparilla advised me to try it and I did so. I continued taking it until I used twelve bottles and today I can honestly say Hood's Sarsaparilla has restored me to my former health." JACOB WILCOX, St. Thomas, Ontario.

LIVE LAKEFIELD.

(From Our Own Correspondent.)

Mrs. D. Arnott and daughter, of Toronto, were in the village last week.

Miss Ada Leonard left on Tuesday for a visit among friends at Paisley.

Miss L. Thompson is visiting friends in Belleville.

Mr. W. Graham and family went up to their cottage last Friday.

Mr. M. Limbert, of Albert College, Belleville, is spending his vacation at home.

The following passengers were noticed among those enjoying a sail around Stony Lake on the steamer Golden City, on Monday.—Rev. A. R. McDonald and wife, Rev. W. Limbert, Mrs. Limbert and family., Rev. A. C. Reeves and wife, Mr. and Mrs. John Moore, Mr. W. M. Graham, Mrs. Reynolds, Miss Etta Reynolds, Mr. and Mrs. J. Hendren, Reggie Hendren, Miss Traill and Miss Muchaff, of Lakefield; Mr. Geo. A. Clerihew, wife and children, Miss Errot, Mr. D. W. Dumble, Mr. M. Geroux, Miss Laura Hughes, Miss Ida Beach, Miss Mary Hughes and Mr. D. Breese, of Peterborough.

Mrs. Baptie, sr., Miss Huffman, Belleville, Mrs. Geo. Baptie, and Miss B. Walton, Lakefield, are the guests of Mr. Peter Baptie at his island, "Forest Nook" on Stony Lake.

Mr. Kemp, who has been visiting his sister, Mrs. Capt. Reynolds, returned home on Monday.

Mr. Gordon Blackadar, of Ottawa, is the guest of Mr. W. M. Graham at their cottage "Viamed" at Julian, and on Monday landed a fine five pound bass at their wharf.

Miss Eva and Laura Gordon left here on Monday evening for Mountain Grove to visit their aunt, Mrs. Humphries.

Miss May Nelson returned home from Peterborough Monday.

The Orangemen will parade from their hall to the station, headed by the band, at 7.15 a.m., and will embark on the train at 7.30 for Millbrook. The fare for the round trip will be 75c. Return in the evening about 7 o'clock.

Anyone who desires to spend Friday, 12th of July, on the lakes can do so at a reduced rate per steamer Golden City, leaving on the arrival of the morning train from Peterborough and connecting with the train in the evening.

On Monday Dr. Bell was passing along Water street, near the village wharf, some boys brought him two birds to see what kind they were, they proved to be half-fledged wood-cocks and must have been hatched near where found. The Doctor got the boys to take them over and free them on the lower island.

On Sunday last, while Mr. T. Sullivan and wife, who live a short distance from Lakefield, were going into Douro on a trip to see his mother, he met with a very severe accident. It appears that while he was driving down a hill near Mr. M. Hynes' farm, the horse shied and upset the buggy, throwing the occupants out into the ditch, Mr. Sullivan striking his shoulder against a large stone, and breaking his left shoulder blade. Mrs. Sullivan was also considerably shaken and bruised, but not seriously injured. Dr. J. R. Fraser was summoned and attended the injured man, who will no doubt be laid up for a few weeks.

The following are the results of the recent promotion examinations held in the Lakefield public schools:

Brick School—Junior 4th to Senior 4th—Olive Thompson, Winnie Forsythe, James Deck, Bernard Dench, Myrtle Fitzgerald, Eva Wagner, Mary White, Minnie Gilroy, Jas. Quinn, Frank Grey, Ethel Cox, Gordon Hendren, Melville Strickland.

Senior 3rd to Junior 4th. — Blanche Graham, Cholmly Strickland, Georgia McIlmoyle, Lizzie Noyes, Annie Wannamaker, Ethel McIlmoyle, Ira Moore, Mabel Morden, Mabel Bates, Lillie Martyn, Carrie Payne, Florence Simpson, Tommy Carveth, Rollie Morrison.

Intermediate 3rd to Sr. 3rd.—Maggie O'Connel, Ethel Stabler, Ella Down, May Quinn, Mamie Ingram, Ethel Davis, Lillie Jewel, Reggie Blomfield, Rose Paul, Helen Smith, Reggie Hendren, Charlie Grey.

Jr. 3rd to Intermediate 3rd.—Ernest Balsdon, Henry Stubbs, John Ridpath, Emily Martin, Harriet Thompson, Amy Watson, Emma Smith, Mabel McDonald, Maggie Sullivan, Ada Richardson, Eva Bullock, Nora Foley, Edward Watson, Ina Millage.

Sr. 2nd to Jr. 3rd.—Arthur Leeds, Morley Sellens, Louise Bell, Charles Blomfield, Bert Hatton, George White, Willie Gordon, Richard Watson, Harry Wilson, Madeline Stone (on trial), George Whaley (on trial), Wesley Leonard (on trial).

Junior Second to Senior Second—Carrie Murduff, Carie Noyes, James Whatley Ella Moore, Joe Carveth, Maggie Charlton, Eva McCormack, May Nicholas, Lizzie Jarvis, Clara Davis, John Coughlin, Leo Quinn, Lorne Mason, Stella Freeburn, Michael Quigley, Geo. Sullivan, Letta Limbert, Gertrude Dunford, (on trial) Josie Forsythe, Chas. Watson, Ethel Murduff, Richard McIlwain.

Senior Part Second to Junior Second—Ethel Jackman, Norman Bell, Alice Hunter, Treemen Jewell, Emma Smith, Cephas Stinson, Rowena Scrimger, Allan Hunter, Agnes Wallace, Wilbert Leonard, Rollie Northcott, Chas. Gordon.

(The results in junior classes of Miss Cox's division not to hand.)

Ward School—Senior Part II to Junior Second.—Ada Badcock, Violet Crawford, Mary Foley, Tom Isbister, Roy Kidd, Austin Hanrahan, Willie Hanrahan.

Junior Part II to Senior Part II.—Gordon Ridpath, Wesley Hurl, Laura Edwards, Roland Crawford, Percy Fischer, Janet Charlton, Norman Moore, Allan Smith, Gussie Graham.

Senior Part I to Junior Part II.—Lily Noyes, Maggie Hanrahan, Mary Coughlin, Esther Robinson, Mabel Grey, Emily Morin, Roy Preston, Georgina Edwards.

Junior Part I to Senior Part I.—Willie Crawford, Willie Robinson, Bertha McIlmoyl, Florence Noyes.

Last Thursday was excursion day for Lakefield, and the day was a lively one. About 200 excurted on the Golden City under the auspices of the Baptist church.

An excursion from Madoc and Campbellford, the A. O. U. W., arrived in ten coaches and took the Columbian and Mary Ellen to the round trip to Chemong. There were about 600 on this excursion.

PLOT AGAINST THE CZAR.

Eight Arrests Made The Chief of Police Rewarded.

Paris, July 10.—The Journal's correspondent at St. Petersburg announces the discovery near Moscow of an extensive conspiracy against the life of the Czar. The chief of the secret police, after tracing the conspiracy for over a month, has succeeded in arresting eight of the conspirators, who include six recently-pardoned Nihilists. The Czar has rewarded the chief of police with a present of ten thousand roubles.

Russia Bulldozed China.

London, July 10.—The Morning Post prints a despatch from Pekin saying that it is stated there that China agreed to the Russian loan only under the threat that the Liactung Peninsula would be restored to Japan if she failed to agree. The China Government desired to pay the war indemnity immediately so as to save interest and the expense of the Japanese occupation, but this course was found to be impracticable, Russia insisting that no fresh loan should be negotiated within six months.

ONTARIO LOSES.

Philadelphia Cricketers Win By 2 Runs and 4 Wickets.

Philadelphia, July 9.—When play started to-day in the cricket match, Philadelphia was 37 runs to the bad, and at the conclusion of Ontario's second innings this lead had been increased by 136 runs, the result of the Canadians' batting venture.

Shortly before time was called for drawing stumps a final result was reached, Philadelphia getting for the six wickets which had been lost 175 runs, thereby winning by two runs and four wickets.

The score at this time stood: Philadelphia, first innings, 127; second, 175; total, 302.

Ontario, first innings, 164; second, 136; total 300.

CHOKED HER MOTHER TO DEATH.

A Daughter and Grandson Brutally Murder a Grand Haven Woman.

Grand Haven, Mich., July 9.—Mrs. Levi Pierce, the wife of a farmer, was beaten and choked to death in the Township of Talmage, near Berlin, yesterday morning, and her daughter, Mary Pierce, aged 18, and her grandson, George Chesbro, aged 17, are in jail here, charged with murder. It is alleged that Mary was unduly intimate with her nephew, and it is supposed that the mother and daughter quarrelled about this intimacy and that the old lady started to punish the girl, when young Chesbro came to his aunt's assistance, and in the struggle which ensued Mrs. Pierce was beaten and choked to death by her daughter and grandson. Both prisoners protest their innocence.

His Arm Torn Off in Pieces.

Ottawa, July 10.—A young man named Grosseau, in the employ of W. C. Edwards, was caught in the machinery of the saw mill and had his arm torn off in pieces and was otherwise so mutilated that he cannot live.

Fatally Injured at a Barn-Raising

Goldstone, Ont., July 9.—At a barn-raising on the farm of Mr. James Longman, con. 8, Peel, Peter Fleming was thrown from the top of the building, alighting on his head on a piece of timber, causing such injury that he cannot recover.

Crossing Fatality in London.

London, July 9.—An 8-year-old boy named Wharton of 603 Colborne-street, was struck by the C.P.R. express at the Colborne-street crossing about 8 o'clock this evening and instantly killed.

Forty Men Killed at Alexandria.

Alexandria, July 9.—A caisson of the big bridge now building at Nage Hama, by a French firm, collapsed to-day and 40 workmen perished.

Threw Himself Under a Train.

New York, July 9.—James McAvery, 39 years old, who shot and killed his wife last Saturday night, killed himself this morning by throwing himself in front of an elevated train.

Toronto Markets.

Toronto, July 10.—Trade dull, with straight rollers quoted at $4.25 to $4.40, Toronto freights.

Bran—Bran is firm at $14, Toronto freights. Shorts $17.

Wheat—The market is very dull and unsettled, there being little inducement to buy. White and red quoted at 83c to 84c outside, and No. 1 Manitoba hard at 86c Toronto freights, and at 90c Montreal freights.

Peas—Trade dull and prices unchanged at 58c to 59c west.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

THEIR EVIDENCE INADMISSIBLE.

Chief Justice Meredith's Ruling in the Hendershott Case Will Apply to the Grays.

(Toronto World)

A few days after the fire in which old David Scollie lost his life an inquest was held on the body, and Thomas Gray and his wife Hessie gave evidence. The crown is desirous of introducing their depositions at the trial. At the trial of Welter and Hendershott at St. Thomas an attempt was made to introduce the prisoners' depositions at the inquest, but Chief Justice Meredith held that under sec. 5 of 56 Vic., chap. 31, such depositions were inadmissible. A coroner's court being a court of record and treated as a criminal court, no admissions or statements made by persons thereat could be used against them.

Mr. Osler asked for a reserved case on the point, but as the prisoners were convicted of course the occasion for the appeal did not arise.

It is understood that Mr. Osler will be retained to prosecute the Grays at the trial in September.

THE POLICE COURT.

Quite a Few Cases before the Magistrate

George Ayling, a tramp, was sent to gaol for six months by the Magistrate this morning.

Frank Myers, drunk and disorderly, was fined two dollars and costs.

Dundas vs. Long was a case in which Dundas charged Long with assaulting him. Both the parties to the suit were boys. The case was dismissed.

Rickner vs. York, was a case in which Mr. York was sued to recover the amount of wages due two boys whom he employed to pull peas for him. The defence argued that the work was not properly done, and the case was dismissed.

Death of Mrs. Andrew Patullo.

The Examiner learns with deep regret of the death of Mrs. Andrew Patullo, wife of the proprietor of the Woodstock Sentinel-Review. Her death yesterday was due to an operation performed at St. John's Hospital, Toronto, where she died. A melancholy coincidence is the fact that Mrs. Patullo as secretary-treasurer of the Ladies' Aid Society, which assisted in the erection of the new hospital, died in a Toronto hospital on the same day the Woodstock institution was opened. Mr. Patullo will receive general sympathy in his bereavement.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. A. Mercer & Co., Tailors and Outfitters.

For Those Who Go Away or Those Who Stay.

Toilet articles for those who go away as well as for those who stay at home. The best perfumes, bleached and unbleached sponges, carefully selected combs, fine English hair, tooth and nail brushes, all the favourite lines of soaps, shaving cups and lather brushes, invalids drinking cups, improved rubber syringes, &c. You'll find the best of toilet belongings, carefully arranged for easy picking, at moderate prices, at John McKee's drug store, George street. Prescriptions carefully dispensed.

THE CHARLOTTE STREET METHODIST PICNIC.

A Most Successful and Enjoyable Affair.

The annual excursion of the Charlotte Street Methodist Sunday School was run to Jacob's Island on Monday and was in every way successful. There were no mishaps, everybody's behaviour was commendable, and everybody's enjoyment was great.

During the day, or course, a programme of sports was run off, and the following are the names of the winners in the several events:—

Boys' Race—under 15.—Geo. Giles, Geo. Fowler, A. Brundrette.

Girls' Race—under 15.—May Redmond, Edith Fuller, L. Grose, May Timmins.

Boys race, under 10—John Sanderson, John Fowler, Harb Kent, E. Wilson.

Girls race, under 10—Emily Sherwood, Beatrice Tovey, Maggie Buller, Florence Bestard.

Primary boys race—Addie Grose, Willie Darke, E. Tovey, C. Foy.

Primary girls race—Sybil Howard, Beatrice Best and Marie Lyle.

Young lady's race—Miss Fife, Miss Morrow, Miss Douglass.

All fours race—Bert Stock, A. Brundrette, W. Foy.

Boot race—H. Watts, W. Kennedy, F. Adlum, Jas. Squires.

Three-legged race—G. A. Rome and A. Turner.

A number of consolation races were run, and as a result almost every pupil of the school secured a prize. Impromptu football and baseball matches were also run off.

CHILDREN'S AID SOCIETY NOTES.

A Bequest to the Society.

The man who was summoned before the Police Magistrate by the Children's Aid Society on a charge of ill-treating his wife and children not appearing, a warrant was issued for his arrest this morning.

A leading lawyer casually informed the secretary that one of his clients left a substantial sum in his will to the Children's Aid Society of Peterborough. This is a fortunate circumstance, as the society, for lack of funds, is unable to undertake a large amount of work which is urgently demanded. No one should be deterred from extending financial aid by reason of the above mentioned bequest, which will, through the routine of law, not be available for some time. Funds for present work are much needed.

Infants' Bonnets Reduced.

Now is a good time to buy as the remainder of our select assortment will be sold at specially reduced prices to make quick sales and a quick clearance. Stamping linen a specialty.—Miss Melville.

Watermelons.

Just arrived, another big load of choice fruit, including watermelons, tomatoes, bananas, lemons, oranges, berries, currants. Also celery, cucumbers, beets, carrots, cabbage, onions, etc. A fine assortment of canned goods. Oke & Co.

If you buy the cloth, you can have it cut free of charge at the mammoth Forced-to-Sell Sale of T. Dolan & Co. stock. 5,000 yds. of splendid Tweeds and other cloths clipping up at half price, and the cutting thrown into the bargain. Anything to clear the stock in 30 days! If you're too busy, send your wife to buy the stuff, then come yourself and leave your measure at Dolan's corner store. If you don't, you'll perhaps never know the real value of your loss.

THE SITUATION AT OTTAWA.

The crisis at Ottawa is still on—the three Quebec Cabinet ministers are still on strike—discontented with the shilly-shallying of the Government whose latest attitude is considered a mere attempt at delay—unmanly and undignified subterfuge.

Friends of the Government take comfort from the fact the Hon. Mr. Laurier's motion of want of confidence was voted down, but many Conservatives who stood by the Government, remembering that a short January session means $1,000 clean cash to them, will retain confidence till then and no longer. Besides, there is the country to be reckoned with. The fact is, the Government itself doesnt know just "where it is at," and its supporters are in the same position—at sea and a very stormy sea, too.

And there is a great deal of kicking in the ranks. The Hamilton Spectator, the most devoted defender of every act of the Government, says:

"The situation is precisely what it was before, except that the Government has changed the imperious attitude it adopted towards Manitoba in the remedial order for the humiliating attitude of supplication, and now on bended knees asks Manitoba to do what a few months ago it was foolish enough to order that Province to do. Oddly enough, the Government follows its petition to Manitoba with a threat. 'Please do this, dear Greenway, and help us out of a hole, and we shall always thereafter be your servants and bondsmen,' pleads Sir Mackenzie Bowell; but, by the great horn spoon, if you don't give us what we are now begging for on our bended knees, we'll take it by force, d'ye hear, sirrah?' That is more like the petition of a sturdy tramp at a kitchen door than the utterance of a dignified Government."

The Toronto World, another staunch government supporter, says:

The Bowell Administration is pledged up to the hilt (to give remedial legislation) by the announcement of Monday, and pledged in such a way that the Government must be convinced that it means their almost certain defeat in Ontario. Either horn of the dilemma would seem sufficient for their destruction; impalement on both means a double death.

The Conservative party is in a most critical position, and the only way out of it is for some kind of Cabinet reconstruction, to be decided on at once. The Conservative party has got into a muddle by a discordant Cabinet trying to harmonize itself. The party is suffering from the errors and disagreements of some of its Ministers. Why do not these Ministers relieve the party of responsibility for their mistakes?

It's Poor Economy

To wear Ready-Made Clothing these days—it always was—its particularly so now—and you are not much better off in purchasing from the ordinary every-day custom tailor, who buys in small quantities, pays the long price to the wholesaler and with a limited output, must pay expenses—demand the big price from his customer.

IT'S ECONOMY

Of the right kind to patronize the big house which buys for cash, and sells the same way, where every garment is high-class, designed by experts, and put together by high-priced mechanics; where you can rely on having style, finish and honest material in every particular, nothing slighted in the inner work and trimmings where they can't be seen, but fair dealing all around.

THEIR EVIDENCE INADMISSIBLE.

Chief Justice Meredith's Ruling in the Hendershott Case Will Apply to the Grays.

(Toronto World.)

A few days after the fire in which old David Scollie lost his life an inquest was held on the body, and Thomas Gray and his wife Hessie gave evidence. The crown is desirous of introducing their depositions at the trial. At the trial of Welter and Hendershott at St. Thomas an attempt was made to introduce the prisoners' depositions at the inquest, but Chief Justice Meredith held that under sec. 5 of 56 Vic., chap. 31, such depositions were inadmissible. A coroner's court being a court of record and treated as a criminal court, no admissions or statements made by persons thereat could be used against them.

Mr. Osler asked for a reserved case on the point, but as the prisoners were convicted of course the occasion for the appeal did not arise.

It is understood that Mr. Osler will be retained to prosecute the Grays at the trial in September.

A few others, whose names are held over for consideration, will be notified regarding their standing at the opening of school on August 25th.

THE POLICE COURT.

Quite a Few Cases before the Magistrate

George Ayling, a tramp, was sent to gaol for six months by the Magistrate this morning.

Frank Myers, drunk and disorderly, was fined two dollars and costs.

Dundas vs. Long was a case in which Dundas charged Long with assaulting him. Both the parties to the suit were boys. The case was dismissed.

Rickner vs. York, was a case in which Mr. York was sued to recover the amount of wages due two boys whom he employed to pull peas for him. The defence argued that the work was not properly done, and the case was dismissed.

It's Poor Economy

To wear Ready-Made Clothing these days—it always was—its particularly so now—and you are not much better off in purchasing from the ordinary every-day custom tailor, who buys in small quantities, pays the long price to the wholesaler and with a limited output, must pay expenses—demand the big price from his customer.

IT'S ECONOMY

Of the right kind to patronize the big house which buys for cash, and sells the same way, where every garment is high-class, designed by experts, and put together by high-priced mechanics; where you can rely on having style, finish and honest material in every particular, nothing slighted in the inner work and trimmings where they can't be seen, but fair dealing all around.

THE NEW INSPECTOR OF OUR SCHOOLS.

MR. WHERRY OF WINDSOR IS APPOINTED.

Miss Spence is Appointed to Fill the Position of Teacher of Modern Languages at the Collegiate Intitute.

At a special meeting of the Board of Education last night, there were present Dr. Burnham, chairman, W. G. Ferguson, Henry Denne, W. H. Wrighton, J. J. Hartley, W. H. Law, Dr. Boucher, Jas. Edgecombe, Peter Hamilton, Dr. Caldwell, Jno. McKee and W. H. Hill.

The Board did not go into session until after nine o'clock, as the Committee on Appointments met first and had a lot of work on its hands of which to dispose. Two important appointments had to be made and they were filled by naming Mr. Alexander Wherry, of Windsor, for the vacant Inspectorate at a salary of $1,100 per year, and the appointing of Miss Frances Spence, of Port Perry, to fill the position lately occupied by Miss Marty as teacher of modern languages in the Collegiate Institute.

The following statement of

APPLICATIONS

for appointments on the teaching staff of the schools were received from Adeline V. Ames, Lillie Udy and Dorothy Hall.

Referred to the Committee on Appointments.

Miss Marty formally tendered her resignation as teacher of modern languages in the Collegiate Institute.

Received.

Miss Francis Spence applied for the position vacated by Miss Marty as teacher of modern languages in the Collegiate Institute.

Received.

THE COMMITTEE ON APPOINTMENTS

through the chairman W. H. Hill, reported as follows :

1. That the resignation of Miss Marty of the Collegiate Institute staff be accepted, and that Miss Frances Spence, B.A., Port Perry, be appointed as her successor at a salary of $800 per annum, services to begin at the regular school opening, August 26th.

2. That the resignation of Mr. Lewis of the public school staff be accepted, and that his position be filled by the appointment of Mr. Jas. D. Denny at a salary of $450 per annum, with annual schedule of increase as per minutes—services to begin at the next regular school session.

3. That in reference to the two applications from members of the Collegiate Institute staff for increase of salary, your committee for the present cannot recommend such increase, though the services of the gentlemen in question are highly valued and appreciated. Your committee believe that a system of graded salaries on lines something similar to that now in force in the public schools, can, with advantage, be adopted for the Collegiate Institute, and this question will be fully considered at a subsequent meeting.

4. Your committee have given the question of Inspectorship the fullest consideration and have decided to recommend that the position be filled on terms somewhat modified to those applicable to the first incumbent of the office. We believe that the true way to inspect and to give an intelligent report on the work done in the several classes, is to ascertain the status of each grade by devoting a very considerable time to teaching. The Inspector will thus, not only have an accurate knowledge of how the work is progressing in each room, but he will be in a position to convey to the teachers the most approved methods of imparting instruction and maintaining discipline. To carry out this theory in practice the office must necessarily be a dual one and the executive officer must act in the capacity—first, as a supervising principal not having actually in charge a class of pupils, and second as an inspector. Your Committee have pleasure in recommending for the position Mr. Alexander Wherry, Model School master of the city of Windsor, at a salary of $1,100 a year—$900 of which to be paid him for acting as supervising principal and the balance—$200 - for filling the position of inspector.

Mr. Wherry is recommended as being one of the most successful Model School teachers in the province.

5. That the Principal of the Central school and those of the different ward schools be known as Head Masters of their respective schools, and that they be appointed as such.

6. That the Public School teachers whose names are hereto attached be appointed at the salaries indicated, opposite respective names.

All of which is respectfully submitted.

W. H. HILL,
Chairman.

RESOLUTIONS.

On motion of Messrs. Peter Hamilton and John McKee, the Property Committee was authorized to ask for tenders for the heating of the new addition to the South Ward School, also for the colouring and striping of the outside walls, also any necessary repairs to the different schools.

On motion of Messrs. Peter Hamilton and John McKee, the treasurer was instructed to pay for the addition to the south ward school on the certificate of the architect signed by the chairman of the Property Committee.

It was moved by Mr. W. H. Law and seconded by Dr. Boucher, "That the Baptist Mission house in the south ward be rented at the lowest possible rate and that a kindergarten class be opened in said room (after the holidays) for the benefit of the children residing south of Dalhousie street."

The resolution was referred to the Supervision Committee with instructions to report at the next meeting.

The Board then adjourned to meet at the call of the chair.

Mr. Hank Smith, conductor on the line running between Charlotte and Rochester, returned home from Stony Lake with his party yesterday. They took with them three huge boxes of fish on ice.

Two old gentlemen from New York went through yesterday to Stony lake to fish. A small barrel, about the size of a pail, which they had with them was an object of curiosity. It was full of fish worms and the two old anglers had paid just five dollars for them. If they had waited till they struck Canada they might have got all they wanted for five cents.

An excursion went through this morning from Millbrook to Chemong. There were about 250 picnicers on the train.

THE WHEEL.

His Bicycle Light.

Each night I stand beside the gate
And listen down the street,
Whence dusky breezes bring the scent
Of locust blossoms sweet.
Of Summer eves and Winter nights
I wait in peace to see
The lantern on his bicycle
Shine up the road to me.

All cheerily the other lights
Stream out across the dark—
The lights of home, to which he rides,
The long days' happy mark.
And yet, for all their cozy glow,
Those lights are incomplete
Till the star upon his bicycle
Comes shining up the street.

Oh, light upon his bicycle,
Thou art my beacon star,
And, shining through and through my heart,
Sends grief and pain afar.
I leave no shadows on my face,
Nor worry any more,
To show within that light that comes
And lingers at our door.

If you want to avoid the dromedary position when riding see that about twelve inches of space exists between the peak of the saddle and the centre of the handle-bar.

If your riding develops kneeache elevate the saddle. When the reach is too short the rider sacrifices comfort and appearance to aches and increased labour.

Those who suffer from tender feet will find a rock salt bath of great benefit in toughening these members, so that no discomfort will be experienced, even when the longest rides are experienced on hot days.

Soaking a lamp wick in vinegar and drying it thoroughly before using will prevent a lamp from smoking.

Beware of an attempt to gain lightness in your mount by riding a feather weight saddle. Discomfort more often than pleasure is the price paid for the few ounces thus saved.

The back wheel hub needs the most oiling of any part of a machine.

Five thousand miles is the distance claimed for the tire on the rear wheel to travel before it begins to show signs of wear. The one on the front wheel should be good for nearly 7,000 miles.

To be comfortable and harmless a saddle should be perfectly straight; to tilt it forward throws too much weight on the hands and arms, while a backward slant is often even more injurious to the rider.

A spare chain link should find a place in the tool-bag of every rider.

Extreme cold or continued riding over rough roads will both cause enamel to chip off.

A new English lamp has a hollow lens which is filled with water. The result of all this is an increase of 33 per cent. in the illuminating power—at least the inventor says so.

When back-pedaling becomes very difficult owing to the steepness of the hill you are descending catch hold underneath the saddle, as though trying to lift the machine and yourself, and you will thereby increase the retarding power at your disposal.

On the beginner is entitled to have his saddle well back. When control of the machine is once acquired the saddle should be brought forward, so as to give full power to the downward stroke of the pedal.

Beware of a clicking sound in your machine. The chances are that it is caused by the ball in a loose bearing, and this demands immediate remedying.

Plumbago or black lead is better as a means of decreasing the friction between chain and wheel than as a lubricant for the joint of the chain itself.

Don't imagine it adds to your appearance to be smoking a pipe while riding.

Don't be dissatisfied with your wheel every time you hear about a new one.

Don't leave any but good impressions behind you when you depart from a town.

Don't have too many ribbons on the handle. It is regarded as rather effiminate.

Don't be prejudiced against a man who has a more expensive wheel than yours.

Don't take general advice as to the care of your wheel. If you do, it will be ruined.

Don't exhaust yourself trying to ride up hill. A little walking is a relief for the legs.

Don't undertake to doff your cap to a girl unless you can do it without falling off.

Don't ride to church on the wheel unless in need of the prayers of the congregation.

Don't lend your wheel, even to your uncle. It has the disappearing trick of the umbrella.

Don't imbibe on on the eve of a journey. There is no sympathy for whiskey on wheels.

Don't ask geographical questions that even local schoolmasters cannot answer.

Mr. Ross and his family are at present in town the guests of Mrs. Ross' parents, Mr. and Mrs. W. H. Wrighton, McDonel street.

Revival of Trade.

Reports from the United States support the view that trade interests have vastly improved recently and that the business outlook for the future is encouraging. This will be welcome news to the people of Canada, since our trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Painless Corn Extractor Times being dull everything not absolutely needed became a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proven the only safe, sure, and painless remedy for corns.

THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

One pint of kerosene, at a cost of about one cent, will give a pure, healthy, clean light for two hundred or more hours; i.e., twenty-ten hour nights. Sold only by

CANADIANS LOSE AT HENLEY.

A Terrific Race for the Stewards' Cup—Mishap to Anderson

Henley-on-Thames, July 9.—The Royal Henley Regatta opened to-day in threatening weather. At noon the sun came out and there was a refreshing breese on the Thames. Last year the attendance was enormous, but the crowds eclipsed all previous gatherings..

In the first for the Grand Challenge Cup the Trinity Hall crew drew ahead of the London Rowing Club's crew immediately after leaving the starting point, and at the head of Temple Island they were a quarter of a length in the lead. At the Rectory, about quarter of the distance to the finish, they were a clean length ahead. Their time at the Fawley Court boathouse, midway, was 3 minutes and 30 seconds. They were then two lengths ahead and kept increasing this lead until they won by a good four lengths. Their time was 7 minutes and 36 seconds.

The second trial heat for the Grand Challenge Cup was won by the Eton eight, who beat the Thames Rowing Club crew a length and a quarter. The Thames boat led slightly just after the start, but the Eton boys were a quarter of a length ahead at the quarter-mile, half a length at the Rectory and three-quarters of a length at the Farm. Their time at Fawley Court was 3 minutes and 32 seconds, when they were a length and a quarter ahead. The Eton boat was steered badly, being kept too much in the middle, but won by a length and a quarter, covering the course in 7 minutes and 34 seconds.

When the starting gun was fired for the third heat the Leanders, who were drawn to row against the Cornell eight, were not in position and ready to start and the Cornells rowed over the course alone. The wind was blowing strong off the Berks shore, which favored the Cornells, who had drawn a position on that side. When the umpire asked, "Are you ready?" the Leanders shouted "No," but apparently Willand did not hear them as he said "Go," and the Cornells went off. The umpire's launch did not follow for some time, but as the Cornells showed no signs of stopping the launch eventually followed them down the course, while the Leanders remained at the starting point.

The Cornells, after rowing at a pretty fast pace for a while, reduced their speed until their stroke became little better than paddling. They occupied 8 minutes and 11 seconds in going over the course.

The Argonaut Rowing Club's four and the four of the London Rowing Club rowed a terrific race in the first heat for the Stewards' Challenge Cup. The Argonauts reached a stroke of 42 to the minute and the Londoners rowed at a 40 stroke. There was never a distance of half a length between them, and first one led a few feet and then the other. Coming to the winning post the London crew made a final effort, and the Canadians, feeling the effects of their tremendous exertions, were beaten by about three feet. The finish was so close indeed that it was at first thought that the Argonauts had won, and reports to that effect were flashed broadcast by wire, while the crowds along the banks of the river expressed their regret that the Londoners had been beaten. The actual result was not known until it was officially announced. The London time was 8 minutes 11-2 seconds.

The first heat for the silver goblets (pair oars) was won by W. Broughton and S. D. Muttlebury of the Thames Rowing Club, beating A. J. Davis and L. H. K. Bushe Fox of Lady Margaret College, Cambridge.

The second heat was won by Vivian and Guy Nickalls of the London Rowing Club, beating W. E. Crump and C. M. Pitman of the New College, Oxford, Rowing Club, by three-quarters of a length.

The second heat of the race for the Diamond Sculls, which was contested by Guinness of the Leander Rowing Club and E. A. Thompson of the Argonaut Rowing Club of Toronto, excited great interest. Guinness had the Berks side of the course and Thompson the Bucks. The wind, although not strong, was more favorable for Thompson. But in other ways he was unfortunate, for at the 18th stroke his shell struck a pile and he narrowly escaped being upset. Guinness just at this time had a slight lead, which he increased in consequence of his opponent's mishap by a couple of lengths. Thompson, however, as soon as he had recovered himself settled down and began drawing up on his leader, gaining steadily until the Rectory was reached. At Fawley Court the boats were nearly dead level, the bow of Thompson's shell being about a foot to the fore. The time of the meeting at Fawley Court was 4m 10s. The boats remained on even terms until Bushey Gate was reached when Guinness showed just in front. At the mile he led by three-quarters of a length. Thompson now seemed quite done up and Guinness increased the distance between them rapidly. He was four lengths ahead at the Isthmian Club house and still increasing his advantage by six lengths. He covered the course in 9m 1s.

The Leanders have protested their heat with Cornell, and it remains to be seen whether the Cornells will be allowed to retain it or not. The failure of the Leander eight to start in the heat which they were to contest with the Cornell crew was a great disappointment to the Thames oarsmen. The Leanders were supposed to be the strongest crew on the river, and were thought to have the best chance to take the cup, and were consequently very heavily backed in the betting.

JOKED, THEN SHOT HIMSELF.

Chris Grieves of Montreal Spent His Last Night on Earth Jovially—Shot Himself Through the Brain.

Montreal, July 10.—By his own hand "Chris" Greaves, proprietor of the Liverpool House, 571 1-2 Craig-street, died shortly after midnight.

He shot himself in his right ear while in his bath room. The bath was full of water, and the unfortunate man was undressed, except for his shirt. "Chris" was cracking jokes in his own bar just a few minutes before his death. The bar was closed at 12 o'clock, and he bade "good-night" in the best of spirits to two or three of his oldest friends. The coroner was at once notified, and the body removed to the morgue.

The dead man was 50 years of age, and was in the perfect health of a well-kept Englishman. He came to Canada first in Her Majesty's Regiment, 19th Foot. He afterwards returned to England and joined the 78th Highlanders, and was made lance-corporal of that regiment. He bought his discharge and again came to Canada.

He was a prominent Mason and was also prominently identified with the Knights of Pythias.

MURDER IN MUSKOKA.

Two Italians Shoot Mr. Webb at Edgington—His Wife Also Seriously Wounded.

Rosseau, Ont., July 10.—Word was received here yesterday of a quarrel at Edgington, in which two Italians shot and wounded Mr. and Mrs. Webb of Edgington.

This afternoon the report was verified, and it was learned that Mr. Webb had died from the effects of his wounds. His wife is expected to recover.

The murderers are still at large.

AYER'S Hair VIGOR

Restores natural color to the hair, and also prevents it falling out. Mrs. E. W. Fenwick, of Digby, N. S., says:

"A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. Fenwick, Digby, N. S.

Growth of Hair.

"Eight years ago, I had the varioloid, and lost my hair, which previously was quite abundant. I tried a variety of preparations, but without beneficial result, till I began to fear I should be permanently bald. About six months ago, my husband brought home a bottle of Ayer's Hair Vigor, and I began at once to use it. In a short time, new hair began to appear, and there is now every prospect of as thick a growth of hair as before my illness."—Mrs. A. Weber, Polymnia St., New Orleans, La.

GROWING PRECIOUS STONES.

Pellets of Earth Forced Into Oyster Shells Develop to Pearls.

A pearl is the result of an oyster's effort to remove a source of irritation. If a grain of sand or some other hard substance finds its way into the shell the oyster begins coating it with nacre, which gives the irritating intruder a smooth exterior. The oyster deposits over the offending object as long as it remains a source of irritation, and the Chinese have taken advantage of this peculiarity of the solitary mollusk. They make little pellets of earth which has been dried and powdered with the juice of camphor seeds, and during May and June plant these in the oyster. The shell is opened with a mother-or-pearl knife, care being taken not to injure the oyster, and the earth peas are laid under the oyster's beard. The treated molluska are then placed in canals and pools, and left undisturbed until November, when they are dredged up, opened, and the nacre-covered pellets removed with sharp knives. The pellets ar usually found fastended tightly to the inner surface of the shells.

The Chinese pearl farmer then turns jeweler. He drills a little hole into the ed to the shell and removes the dirt. ed to th shell and removes the dirt. The cavity is filled with yellow rosin, and the opening sealed neatly with a tiny bit of mother of pearl.

But a Frenchman has improved on this method. He found that the Chinese killed many oysters by forcing the shell open to deposit the earth pellets. The ingenious Frenchman bored holes in he shells of pearl oysters with a small drill and then introduced through the opening little globules of glass. He plugged the holes with corks and then left the oysters alone to manufacture pearls. In six months the glass nucleus was covered with a pearly deposit, and the Frenchman reaped a beautiful harvest of pearls. He did not have to bore holes in the pearls to remove the centre, and the pearls brought higher prices than the pearls made by the Chinese.

These artificial pearls have much of the lustre and beauty of the real gems, but are sold at a much lower rate by honest jewelers. Experts can color pearls black, pink, gray and other colors by the use of chemicals. For instance, a pearl put in nitrate of silver turns black. But pearl raisers know a trick worth two of that. Certain kinds of fresh water mussels bear pink pearls, and pearl oysters produce different colored pearls according to the part of the oyster which is irritated by the foreign substance. The artificial pearl producer knows this, and plants his seed accordingly. In Washington is an artificial pink pearl as large as a pigeon's egg, and its heart is a bit of beeswax.

Perfectly round pearls which weigh over twenty-five grains each, are scarce and command large prices, but such pearls are natural. Artificial pearls are usually flat on one side.—Chicago Record.

What the Novel Reader Wants.

What novel readers like best of all, I believe, writes Sir Walter Besant, in London Queen, is a new setting. There must be young people and love-making in all stories except Louis Stevenson's. Blessed is the novelist who can find a new country with new flowers and new fruits and new colors and a new atmosphere in which his characters can walk and talk and make love.

Bonnets Light as Air.

Ladies who love to have bonnets "light as air" on their heads in hot weather, will be glad to hear that the coming kind are to be made of black horsehair or crinoline lace, embellished with small sequins. They will keep in shape, afford plenty of ventilation, and at the same time prove quite stiff enough to support all the fashionable trimmings.

CHILDREN'S GOWNS.

Designs of Sensible and Pretty Dresses for Girls of All Ages.

Children's gowns do not admit of such variety in style and decoration as those for their elders, but any little change is an acceptable hint for mothers who cannot buy the little dresses ready made. Challies, in both dark and light colors, make very sensible and pretty dresses for girls of all ages, and they are made simply with box-plaited blouse waists and satin ribbon collar and belt, or in a fashion more dressy, like the model, with a pointed yoke and epaulets of lace over a plain color and trimmed with bands of inch-wide satin ribbon of the color which predominates in the flowering.

Girls over 11 years of age wear the coat and skirt style of dress, with dainty washable shirt waists of silk, batiste and gingham. Such gowns are made of tweed, serge or any soft woollen goods. Finely crinkled colored crepons are much used for children's gowns, and are very dressy, even when made plain with the box-plaited blouse and ribbon collar and belt. A lace yoke arranged so that the plaits go over it, makes a very effective trimming. Chine silks are also used for waists with crepon sleeves, and crepon gowns for tiny girls under ten are made with a low waist and plainly hemmed skirt, to be worn over a guimpe of finely tucked lawn.

Little French gowns for girls between five and eight have long waists and very short skirts, reaching just below the knee, and little yoke dresses for infants are a little shorter than they were last year. Large collars are a feature of children's fashions this season, and they are made of lawn, linen, or pique, according to the gown they adorn.

Cream-white batiste collars, trimmed with lace insertion and edge, are used on crepon, taffeta silk and dimity gowns, and wide square collars of colored linen are seen on dark serge dresses.

Pique dresses for small girls are made with the plain round waist and skirt with a wide hem, and worn over a white guimpe, while for older girls there is a jaunty coat with a deep collar trimmed with embroidered muslin. A pretty little model for a pique gown has a vest of French embroidery and a collar trimmed with edging to match, and bands of pale blue ribbon are ar-

ranged on the skirt, with rosettes at the end. Another model for crepon or wool is draped at either side of the bodice in front over insertions of openwork embroidery, and satin ribbon makes the collar belt and rosettes. A blouse waist for a girl of fourteen is made of silk striped crepon in pale blue and shows the wide collar of lawn square across the back, pointed in front and trimmed with lace for its only trimming.—New York Sun.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

Relief in Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys and back. If you want quick relief and cure this is your remedy. Sold by H. S. Macdonald.

Fifty years of success in curing diarrhœa, dysentery, cholera, colic, cramps, bowel complaints of summer and fall, etc., stamp Dr. Fowler's Extract of Wild Strawberry as the best remedy in the market. It saves children's lives.

To destroy worms and expel them from children or adults use Dr. Low's Worm syrup.

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

"SUN" LIFE Assurance Co'y of Canada.

Explanation of the Company's System of Profit Distribution.

The method of profit distribution of most companies is to give a bonus or profit on the sum assured, irrespective of the premiums paid. The Sun Life of Canada allots its profits to policies in proportion to the premiums paid, which is considered to be the more equitable system. This accounts for the variations in the percentages of the accompanying results. The lower rates given below are, in most cases, on young lives. The examples are taken from the Company's claim register as at the end of 1894, for the first 5 years.

EYES TO SEE AND SEE NOT.

That is the case with many people. They need spectacles, and the strange part of it is the some folks never know how bad their eyes are until they have them tested. Have been going through life without seeing as much as they ought to see—perhaps suffering from headaches and tired eyes.

If you will call at Sanderson's Jewellery Store, George street, your eyes will be examined free of charge. If you need Glasses they will be supplied at a reasonable price. Do not neglect this matter and so be like those who have **EARS TO HEAR AND HEAR NOT.**

(Continued From First Page.)

of the country, which His Excellency has not yet visited. This in itself is sufficient to show the House that there is a crisis, and, moreover, here are two seats vacant, and two seats vacant yesterday. Though the hon. gentlemen who occupied these seats may not have handed officially their resignations to His Excellency, it is quite evident that they are no longer in harmony with their colleagues. Otherwise they would be in their places to discharge their share of the Government's business. There is another fact. Another gentleman who occupied a place in the Administration, and who sat in another House, was not in his seat yesterday, and, so far as I am led to believe, is not in his seat to-day.

Under such circumstances, again, I say that it would be simply trifling with the House for the hon. gentleman to say that we are not in the presence of a great crisis. I don't know, and I don't care, at the present time, what stage it has reached, but at all events here is the fact. In our system of government in the Federal system of government we have, it has been the unwritten law of all Administrations that all provinces, so far as practicable, should be represented in the Cabinet. No Administration would dare to consent to discharge the public business of the country unless all the provinces, at any rate all the great provinces—Ontario, Quebec, New Brunswick and Nova Scotia—were properly represented in the Cabinet, and, when it is known that at the present time three of the Ministers who represent one province, three of these gentlemen, who represent a great portion of the population of this country, are out of the Cabinet at the present time, whether officially or unofficially—are practically out of the Cabinet—I say we are not only in the midst of a great political crisis, but we are confronted with a position unprecedented in the history of Canada, where the Government would undertake to go on and carry on the business of the country, one great province, the second in the Dominion, being unrepresented in the Cabinet—(Opposition cheers)—I do say to my hon. friend that the position is altogether unprecedented. No; if my hon. friend were to call in a new Administration, if a new Administration were to be formed, by himself or anyone else, no Prime Minister would dare to come to this House and ask Parliament to transact the business of the country with one great province altogether unrepresented in the Cabinet of the nation. No, Mr. Speaker, I say at the present time, we are in this position, that the Government is not in the position in which it ought to be in, or to ask Parliament to transact the business of the country. The Government has no right to ask Parliament for a single penny for the administration of the government, and I conceive that there is nothing else to do but adjourn this House, and to give the Government the opportunity of either filling the vacancies that exist or being enabled to advise His Excellency as to the condition that exists, because, sir, I don't conceive that the hon. gentleman can allow the Chief Magistrate of the nation, the representative of the Queen, not to be properly advised that there is a political crisis. His Excellency has not received the resignations of his Ministers, but three of His Ministers, at all events, are not here to discharge the business which His Excellency entrusted to them, and for this reason I move, Mr. Speaker, that the House now adjourn. (Opposition cheers.)

Mr. Foster, who was received with loud cheers by the supporters of the Government, said: The hon. gentleman who has just taken his seat, if he did not start with this, closely followed his opening remarks with the statement that to-day witnessed a proceeding unprecedented, or a state of things unprecedented, in the history of the government of this country. I am quite willing to admit, with him, that this phrase was well chosen, although I would apply it in a different way from the application in which he evidently meant it should be made. I say it is a thing unprecedented in the parliamentary history of this country that an hon. gentleman leading Her Majesty's Opposition should, on the strength of mere rumor—(derisive laughter from the Opposition benches)—newspaper rumor, or common rumor, should come to the conclusion that in the first place any part of this country, any one of its provinces, was unrepresented in the Government, and that even if it were unrepresented that so long as there was a Government that held the confidence of the House, and had its majority, that, therefore, it could not carry on the affairs of the Government. Sir, my hon. friend, I stated, has nothing better than rumor on which to go. He asked me for authentic information. He received the whole modicum of authentic information that I could give, and he should have rested satisfied with that, should have restrained his ardent impetuosity to force the position, should have waited in a statesmanlike and calm manner—(Opposition laughter)—until he learned the truth from the authoritative sources in a full and explicit statement to the House, and then have taken whatever action seemed to him best in the premises. But, sir, he chose another position, and in doing that he made a grave charge, and followed that up by a serious motion. On mere rumor he has put himself in the position of taking a stand which is certainly unprecedented in the parliamentary history of Canada. Sir, he leaped to the conclusion from newspaper rumor that, because there were vacant seats in the Ministerial benches, that therefore the members who formerly were in those seats, and whom he would like to see there now, that these members were no longer members of the Government, no longer in union or harmony with the Government. And he leaped from that conclusion to a still broader conclusion, that one of the provinces of the Dominion was totally unrepresented, and that, therefore, the House could not proceed with their business. He was wrong in both. He has not the slightest foundation or authority for taking the position he did, and he could only have taken that position upon an authoritative statement made by the consent of His Excellency the Governor-General to this House. He is curiously inaccurate in his statement, even though his assumptions were warranted by facts, to the extent to which his inquiry went, because he must remember that the Province of Quebec has several representatives, and that if even he were correct in basing upon fact that which he has based upon rumor, he must still recollect that the Province of Quebec has members in the Cabinet with whose names rumor has not been busy, and in reference to whom he has no right, even upon the basis of rumor, to make the statement before this House.

He went on to state the doctrine that, if it ever happened in the government of this country that any one of these provinces was for the time being unrepresented in the Cabinet, that, therefore, there was no constitutional right, or at least by unwritten law there was no right, by custom there was no right, for the Government to base Governmental action upon, if it were in that position that it had a Government in which one, even of the smallest of the provinces of the Dominion, were unrepresented. It merely needs that, I state that to show its untenable character, and I imagine that in cooler moments, and when not acting under the excitement which is evidently pressing upon my hon. friend just now, he would not attempt to maintain that either as good constitutional doctrine or as good statesmanship. Sir, I have no intention of carrying on this discussion further. I have no intention of following my hon. friend on his devious pathway of rumor, of what he may have heard, of what may have been told to him, and whispered to him. In the due course of time, I shall be able to make an authoritative statement to this House, and when I make that it will be open for my hon. friend, possessing his soul in patience for the meantime, it will be open for him to accept the situation, as he has so often had to do on previous occasions. (Cheers and laughter.)

THE TRAVELLING DAIRY.

Representatives from about twenty of the best families of the Greystock section of Peterborough county turned out Monday to listen to a discussion of dairy topics from those who have charge of this travelling institution.

Mr. Blezard, M.P.P., occupied the chair, at the instance of those present, and in a pleasing and effective way opened the meeting and the subject, referring to the unusual dairy facilities possessed by the people of Otonabee township.

Mr Smithson supplied the cream and in every way endeavoured to make the meeting a success.

During the straining of the cream into the churn the question of "curd in butter, its effects," etc, was fully discussed, the lecturer explaining that the curd was not always the cause of white specks in butter, but that the care or lack of care in the handling of the cream might also be the cause of it.

The handling and ripening of cream received due attention, as did also the separation of cream from milk by the different methods in common use. The speaker did not forget to intimate to the farmers present that bad butter was not always the fault of women of the household, but that very frequently it was traceable to outside methods.

This the chairman supported in his closing remarks in which he dwelt upon several points of interest in connection with dairy work, emphasizing in particular the need of attention to the principles laid down by the dairy in relation to the working and marketing of butter.

A cordial vote of thanks was tendered the chairman, after which the people dispersed, expressing themselves as highly pleased with the meeting.

FOR THIS SENSATIONAL

Forced-to-Sell-Sale

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

Money on the Dolan Stock

Must be raised, regardless of cost, real value or positive loss. Read the prices we quote this week—read the bargains we place on sale—get an idea of the recklessly low prices—compare and investigate—reflect and act.

A flash light on the store shows values like these:—

BOWELL GIVES IN.

French Ministers Said to Have Carried the Day.

DEFINITE STATEMENT TO-DAY.

Rumor Has It That a Definite Pledge of Re-Establishment of Separate Schools Has Been Given—Yesterday's History of the Cabinet Squabble.

Ottawa, July 10.—In the Senate this afternoon, at the opening of the sitting, Senator Scott said: "Before the orders of the day are called I should like to ask the Premier if he is able now to relieve the tension of opinion on an important question, the rumors outside, which are somewhat confirmed by an empty chair. I think Parliament is entitled to some explanation under the circumstances. It is the usual practice in a British Parliament and our Parliament, when a crisis arises, that both Houses are taken into the confidence of the Government.

Sir Mackenzie Bowell: The hon. gentleman is quite correct as to the parliamentary and constitutional practice on questions of this kind. I am not, I am sorry to say, in a position to relieve the tension of the hon. gentleman's mind at the present moment, but I promise him that there is no doubt I shall be enabled to relieve him of all anxiety as to the matter to-morrow, at 3 o'clock.

In the Commons, Mr. Laurier said: "I would ask the Minister of Finance whether he can give any information to the House to-day with regard to the resignations of three prominent members of the Administration?"

Mr. Foster: Mr. Speaker, I think I will have to ask my hon. friend to cultivate the virtue of patience for a little while longer. To-morrow, when the House assembles, I shall make a positive statement in reference to the matter.

Mr. Laurier: My hon. friend has asked me so often to cultivate that virtue that I think I have it to perfection now. (Laughter.) As an evidence of it, I will wait until to-morrow. (Renewed laughter.)

The foregoing statements summarise all that is official to-day in reference to the political situation. They are the outcome of a series of conferences which have been in progress since yesterday, the most noteworthy of which was one this morning between the Premier and the three dissident Ministers. Messrs. Ouimet, Caron and Angers have, it is said, so far receded from the position which they took yesterday, when they asked that a Remedial Bill be passed this session, that they will now be satisfied to accept the mere introduction of Remedial Legislation as an evidence of the bona fides of their colleagues. This was the offer, request or ultimatum which they made to Sir Mackenzie Bowell this morning. The Premier informed them that he would give an answer to-morrow, whereupon, so it is reported, the Ministers consented to wait.

The nature of the conference which had taken place in the morning was carried to the French-Canadian caucus, which met between 12 and 1 to-day in Mr. Joncas' room in the Parliament buildings, and at which about 25 Quebec Conservatives were present. When the meeting broke up Mr. Joncas announced that the meeting had decided not to do anything until to-morrow, thereby showing that they were acting in concert with the three French Ministers.

Had Mr. Laurier moved a motion of want of confidence there would have been a solid Conservative phalanx against them. The Opposition leader, after his fiasco of yesterday, did not dare risk another adverse vote.

The report current during the morning that Messrs. Ouimet and Caron would make an official statement of their position to the House at 3 o'clock to-day had again the effect of crowding the galleries with eager spectators, but they were doomed to disappointment. The seats of the two Ministers in the Commons were vacant, but it seems to be certain that they will be in their places to-morrow, whether they are reconciled to their colleagues or not. Mr. Ouimet was within the precincts of the House during the afternoon transacting business with his deputy, but on leaving the building he never looked the way of the chamber.

The question which is now on every one's lips is as to what position the Government will take. Can they, in the face of the specific declaration of Monday, recede from it? The opinion of the English-speaking Conservatives is that the Government cannot deviate one iota from the statement of two days ago.

The slightest variation would be hailed as a victory for the Quebec Ministers, while the other provinces would regard it as a sign of weakness on the part of the Government; and yet to-night there seem to be indications of reconciliation, due possibly to the negotiations which have been in progress all evening.

Some idea of the supplementary statement which the Premier and Mr. Foster will make to-morrow has been conveyed to the Quebec Ministers, and it is said to be satisfactory to them. It is reported to be in the nature of an assured guarantee that Remedial Legislation will be introduced next session. This is quite a change from the position of affairs in the morning, when a very uncompromising attitude existed. In the course of an interview, Mr. Ouimet is reported to have said:

"Unless the Government before 3 o'clock this afternoon brings in a written pledge, signed by every member, agreeing to Remedial Legislation next session, I will take my seat as an independent member and move a want of confidence motion. My colleagues and myself are not school boys. The pledge, too, must be of the most emphatic character. I go so far as to demand a complete system of Catholic Separate Schools. I hinge everything upon section 93 of the B.N.A. Act, as follows: 'In and for each province the Legislature may exclusively make laws in relation to education, subject and according to the following provisions: (1) Nothing in any such law shall prejudicially affect any right or privilege with respect to denominational schools which any class of persons have by law in the province at the union. (2) All the powers, privileges and duties at the union by law conferred and imposed in Upper Canada on the Separate Schools and school trustees of the Queen's Roman Catholic subjects shall and the same are hereby extended to the dissentient schools of the Queen's Protestant and Roman Catholic subjects in Quebec. (3) Where in any province a system of Separate or dissentient schools exists by law at the union, or is thereafter established by the Legislature of the province, an appeal shall lie to the Governor-General-in-council from any act or divisions of any provincial authority affecting the right or privilege of the Protestant and Roman Catholic minority of the Queen's subjects in relation to education. (4) In case any such provincial law as from time to time seems to the Governor-General-in-council requisite for the due execution of the provisions of this section, is not duly executed by the proper authority in that behalf then, and in every such case, and as far only as the circumstances of each case require, the Parliament of Canada may make Remedial Laws for the due execution of the provisions of this section, and of any decision of the Governor-General in-council, under this section.'"

Hon. Mr. Ouimet authorised the statement that he and his two French colleagues had resigned.

Early in the day a report was current that Sir Hector Langevin had sent a friend to the Premier, intimating his willingness to take office in the event of the breach with the three dissidents not being closed up. The only stipulation that the ex-Minister of Public Works would make was that Remedial Legislation would be introduced as a Government measure. But he was willing to concede that Government supporters should be at liberty to go as they pleased on the bill. Sir Hector later in the day denied that there was any truth in the report.

Although it is known that he is keen to get into the Cabinet once more, many Quebec Conservatives say, however, that he would find a difficulty in carrying a constituency in the Province of Quebec if he sought re-election.

There seems to be little doubt that the Government can be reconstructed if Mr. Ouimet and his colleagues finally decide to quit. Mr. Girouard of Jacques Cartier and Senator Masson would likely take portfolios, and Mr. Curran might get the other, the French-Canadians having to put up with two representatives for the present.

One of the English Ministers said to-night that, rather than recede from the stand taken on Monday, the Government would advise His Excellency to immediately dissolve Parliament.

So far as the business of the House is concerned, little remains to be done. The order paper is nearly cleared, and about all that is left is the passage of 25 or 30 items in supply.

It is significant that, in order not to give their opponents a chance, neither yesterday nor to-day did Mr. Foster move the House into Committee of Supply.

The crisis is bringing back to Ottawa many members who had left for good. Among to-day's arrivals was a French Conservative, Mr. Carigan, who has been away nearly all session on account of illness. He is hardly able to get around.

The explanation given by one of Mr. Laurier's lieutenants of yesterday's move is that no vote of censure could be made until the House went into supply, and that a motion of adjournment was the only one in order at the time. When the Liberal caucus was in session at 2 o'clock yesterday afternoon it was not at all certain what course the French Bleus were going to take, so it was decided that the only possible course for Mr. Laurier was to move the adjournment.

Had it then been officially known that the resignations of the three Ministers were tendered the situation would have been very different. There is the best authority for saying that the Bleus had not settled on any course when the House met at 3 o'clock, and that they were wanting to hear the Government's explanation, and wanted to watch any move which might be made by the Opposition.

What occurred is this: As soon as Mr. Laurier had laid his motion in the hands of the Speaker, Mr. Dupont, M. P. for Bagot, went over to Mr. Ouimet's office and told him what had occurred. Senator Landry went over to Mr. Angers office with a similar message. Both emmisaries returned to the House in a few minutes, as the members were being called in, with the message from the Ministers that the French Bleus were to vote for the Government on that simple vote of adjournment. There was a double purpose in this. The first was to enable Mr. Laurier to bring on a vote of censure later on, and the other was to give Mr. Foster an opportunity of explaining the situation. The Bleus, therefore, all voted with the Government except Mr. Lepine. Three others remained in the corridors and declined to vote. These were Messrs. Lariviere, the Manitoba representative; Mr. Grandbois, one of the Quebec whips, and Mr. Joncas, member for Gaspe, who had the draft of a motion of censure in his pocket.

The Castor element in Senate, embracing Senators Debouchervilla, Armand, Bellerose, Ross and Landry, are all smiling over their stand so far. They declare that they have been instrumental in precipitating this crisis.

Lieut.-Governor Chapleau is not here. His presence, it is argued, is badly needed. It is learned that were he in town the whole question would be settled in three hours on an honorable basis.

Mr. Joncas, M.P., has shown around to-day the copy of a want of confidence motion he delivered to Hon. G. E. Foster last night. It is sweeping in character. Mr. Joncas adds that he will withhold it in favor of any motion Mr. Ouimet may deem fit to present. Messrs. Pope and Cleveland, Protestants from the Eastern Townships, and Hon. Thomas McGreevy say they will support it.

Later: It is reported that a supplementary announcement which will be made in both Houses to-morrow will promise that Remedial Legislation, which the Government will introduce next session will be in the nature of re-establishment of Catholic Separate Schools in Manitoba.

FELL ON HIS FACE AND SUFFOCATED.

Alfred Durham of Harrisburg Was Thrown From His Rig and Died in the Road.

St. George, Ont., July 11.—Alfred Durham of Harrisburg was found dead on the road between that place and St. George at 6 o'clock yesterday. He had started out to drive from St. George to his home at 10 o'clock on Tuesday evening and was met by an acquaintance, James Scott, driving furiously some time later. The body was discovered this morning within a few rods of the place where Mr. Scott met him. A little further on the horse was discovered fallen down and unable to rise. The presence of a tramp on the scene gave rise to some talk of foul play, but Dr Kitchen, who was summoned, gave it as his opinion that Mr. Durham had been thrown out of the rig, stunned, and then suffocated, owing to the fact of his having fallen on his face. An inquest will be held, but as everything pointed to an accident the tramp was allowed to go his way.

Decrease in Anglo-Canadian Trade.

London, July 11.—There were heavy declines in the Anglo-Canadian trade in June. The exports to Canada decreased 19 per cent. in that month and 8 per cent. in the six months up to July 1. The six months' imports from Canada decreased 26 per cent. in June, and there was a 12 per cent. decline in wheat in the six months named. This balances the increase in flour. Cheese declined $80,000, fish £50,000 and wood £210,000.

Has Debts in Two Hemispheres.

New York, July 10.—Justice Van Wyck, in the City Court to-day, appointed Harry B. Farjeon, receiver for Duncan E. Cameron, son of Sir Roderick Cameron and member of the Knickerbocker Club of this city, and the Bachelors' and Junior Carlton Clubs of London. The receiver was appointed in supplementary proceedings instituted by Henry Lewis to establish the financial condition of young Cameron, against whom Lewis has a judgment for $1360. The amount of the judgment was jewelry sold to Mr. Cameron by Lewis. Previous to the appointment of a receiver, the examination of Mr. Cameron in supplementary proceedings was filed with the clerk of the City Court.

The Embro Forgery Case.

Woodstock, July 10.—Robert Taggart, who pleaded guilty to forging Dr. Adams' signature to a note for $50, was committed for trial to-day. Taggart's defence is that he paid Dr. Adams $45, the understanding being that on paying another $5 the case would be dropped.

Daily Examiner.

THURSDAY, JULY 11, 1895.

PREMIER BOWELL is playing the role of "Old to-morrow—but its a very weak and flabby imitation of the astute original.

HON. THOMAS GREENWAY is in poor health and contemplates taking a sea voyage to Australia in hopes of receiving benefit to his health.

"SOMEHOW," says the Toronto Star, "the Conservatives always managed to patch up their quarrels for election day, and retained power." This is another way of saying that the desire for office and its emoluments and perquisites has been always more potent in the Conservative breast than any mere personal conviction in public matters.

LA PATRIE, a Montreal French journal, points out that the full strength of the government's majority in a full house of 215, is 59, which was reduced in Tuesday's division on Mr. Laurier's motion to 39, and that a change of 30 votes will overthrow the government. It also points out that there are 30 Conservative Catholic members.

MINISTER OUIMET, the leader of the kicking brigade at Ottawa, has, it is reported, authorized the issue of this ultimatim in regard to the Manitoba school question:

"We have resigned and are out to stay, unless we receive the written pledge of every member of the Government that legislation will be introduced next session and that it will restore to Manitoba a complete system of Separate Schools."

In an article yesterday THE EXAMINER estimated, without going minutely into the subject, that the cost of a January session would be in the neighborhood of $300,000. We under estimated. In fact, it will cost the country nearly $375,000 to help the Cabinet in its manœuvring. Here are some of the items that a useless extra session will involve, with many incidentals:

Indemnity to members	$215,000
Indemnity to Senators	51,000
Pages (Senate)	900
Sessional messengers (Senate)	1,750
Pages (Commons)	2,400
Sessional messengers (Commons)	11,250
Servants, bathroom, washroom, etc.	850
Charwomen (Senate)	1,600
Gasman during session	125
Charwomen (Commons)	850
Printing debates	40,000
Stationery	12,000
Postage	2,000
Miscellaneous and unforeseen	4,800
	$374,525

This is not all, but it will do. Surely there is some less costly way of letting the Government out of the pit it has digged. Flipping a copper might be suggested. It would be quite as rational and as certain in result.

MAJOR HUGHES ON THE CRISIS

Major Sam Hughes has been one of the fiercest opponents of remedial legislation. He can find in the government announcement none of the comfort which some more compromising anti-remedialists are taking out of it. To him it is simply "a cave in to the Church, a bowing of the knee to Rome." It is another illustration, he said Tuesday evening to a Witness correspondent, of the old man and his ass, who tried to please everybody and succeeded in pleasing nobody. 'What position does it place the government in?' continued he, contentiously. 'They have given a straight promise of legislation next January. There is one contingency between the promise and the fulfilment—an amicable arrangement with the Hon. Thomas Greenway. Suppose that fails and we come back here next January with the question in the same position it now occupies the government is pledged to legislation. That is what the announcement means. That is why it is a complete surrender to the Church. Did you not see those priests sitting in the galleries smile all over their faces when Mr. Foster made his announcement? What more could they want? The French ministers have not resigned. It is only a bluff on their part. I don't believe the announcement will be satisfactory in Ontario. What kind of a position does it put the government in to say that they do not intend to carry out a pledge which they make in this way?'

CANADIAN AND UNITED STATES BANK SYSTEMS CONTRASTED.

Mr. B. E. Walker, of Toronto, general manager of the Canadian Bank of Commerce, gave an address before the New York State Bankers' Association at New York—"A Canadian's View of the Finance Situation in the United States." His address was an able one and lucidly showed the superiority of the Canadian banking system to that of the United States. In speaking of the Canadian system, Mr. Walker said:

In a country where the money, accumulated each year by the people's savings, does not exceed the money required for new business ventures, it is plain that the system of banking which most completely gathers up these savings and places them at the disposal of the borrowers is the best. It is to be remembered that this involves the savings of one slow-going community being applied to another community where the enterprise is out of proportion to the money at command in that locality. Now, in Canada, with its banks with forty and fifty branches, we see the deposits of the saving communities applied directly to the country's new enterprises in a manner nearly perfect. The Bank of Montreal borrows money from depositors at Halifax and many points in the Maritime Provinces where the savings largely exceed the new enterprises, and it lends money in Vancouver or in the Northwest, where the new enterprises far exceed the people's savings. So perfectly is this distribution of capital made that as between the highest class borrower in Montreal or Toronto and the ordinary merchant in the Northwest the difference in interest paid is not more than one or two per cent.

CRITICISM OF THE U. S. SYSTEM.

In the United States, as we know, banks have no branches. There are banks in New York and the East seeking investment for their money, and refusing to allow any interest because there are not sufficient borrowers to take up their deposits; and there are banks in the West and the South which cannot begin to supply their borrowing customers, because they have only the money of the immediate locality at their command, and have no direct access to the money in the East, which is so eagerly seeking investment. To avoid a difficulty which would otherwise be unbearable, the western and southern banks sometimes rediscount their customers' notes with banks in the East, while many of their customers, not being able to rely on them for assistance, are forced to float paper through eastern note-brokers. But, of course, the western and southern banks wanting money, and the eastern banks having it, cannot come together by chance, and there is no machinery for bringing them together. So it follows that a Boston bank may be anxiously looking for investments at four or five per cent., while in some rich western state ten and even twelve per cent. are being paid. These are extreme cases, but I have quoted an extreme case in Canada, where the capital marches automatically across the continent to find the borrower, and the extra interest obtained scarcely pays the loss of time it would take to send it so far, were the machinery not so perfect.

CANADA LEADS THE WORLD.

There was a time in Canada, about twenty years ago, when some people thought that in every town, a bank, no matter how small, provided it had no branches, and had its owners resident in the neighbourhood, was a greater help to the town than the branch of a large and powerful bank. In these days, perhaps, the banks were too automatic, had not been taught by competition to respect fully the wants of each community. If this feeling ever existed to any extent, it has passed away. We are, in fact, in danger of the results of over-competition. I do not know any country in the world so well supplied with banking facilities as Canada. The branch system not only enables towns of 1,000 or 1,200 people to have a joint stock bank, but to have a bank with a power behind it generally twenty to fifty times greater than such a bank as is found in towns of similar size in the United States would have.

BIG SLUMP IN WHEAT.

A Drop of More Than Six Cents in August and More Than Five Cents in July, September, December—Corn Only Gently Weaker.

MONTREAL, July 10.—The big break of yesterday in the Chicago wheat market was supposed to have had its rise in the heavy shipments of Russian wheat, and also the decrease in the American visible supply did not act as a break, having offset by the increase of the European visible. It was hoped that the bullish weather conditions would take effect to-day and make the bears call a halt, but the contrary was the case, for after weakening about one cent during the morning, the market suddenly went down with a run and closed 5½ cents lower at 6½ cents July, 6½ cents lower at 6⅝ cents August and 5½ cents lower at 62⅝ cents Sept., and 64⅜ cents December. Corn closed weaker by from ⅜ to ½ of a cent; oats and provisions were lower.

COMMENDABLE PROMPTITUDE.

A Resident of St. John, N. B., Makes a Successful Trial of Dodd's Kidney Pills.

St. John, N. B., July 8.—Mr. Robert Moore, residing in Indiantown, a suburb of this city, has recently made what is allowed by all who are acquainted with the facts to be a most remarkable recovery. He has been a sufferer from a serious complaint of the kidneys for over seven years, and during that time has suffered excruciatingly. He has also suffered considerably in pocket, having paid large sums for medical advice. Quite recently he happened to read of the many cures effected by Dodd's Kidney Pills, and with commendable promptitude made a trial of them, with the result that after taking three boxes of the remedy he was entirely restored to health.

Nervous Prostration

It is now a well established fact in medical science that nervousness is due to impure blood. Therefore the true way to cure nervousness is by purifying and enriching the blood. The great blood purifier is Hood's Sarsaparilla. Read this letter:

"For the last two years I have been a great sufferer with nervous prostration and palpitation of the heart. I was weak in my limbs and had smothered sensations. At last my physician advised me to try Hood's Sarsaparilla which I did, and I am happy to say that I am now strong and well. I am still using Hood's Sarsaparilla and would not be without it. I recommend it to all who are suffering with nervous prostration and palpitation of the heart." MRS. DALTON, 58 Alice St., Toronto, Ontario. Get Hood's, because

ANOTHER SCANDAL.

Customs Prosecutions and How They are "Settled."

MR. LISTER MAKES AN EXPOSURE.

Importers Treated as Smugglers—Offenders Tried in Private by Customs Officials—Perjury Connived at and a Political Pull Does the Best—A Committee Asked For

Ottawa, Ont., July 10.—When the House met yesterday Mr. Laurier renewed his interrogation to the Government as to the resignation of the three French Ministers, but without result. Mr. Foster could do nothing but promise to make a positive statement 24 hours hence.

During the consideration of the bill of the Controller of Customs, legalizing the meetings of the Customs' Board in the absence of the Assistant Commissioner, Mr. Mills and Mr. McCarthy voiced the dissatisfaction of the business men of the country with the manner in which the appraisers interpret the Customs Act. They desired that the Customs' Board should be composed of competent experts to administer the law, rather than the Customs officers who now made up the board.

Mr. McCarthy said that the Customs Department treated the importers of the country primarily as smugglers.

Controller Wallace denied that this was the attitude of the department towards the importers. On the contrary, they were treated as honest, reputable citizens. He denied the statement that the boards of trade of the country had asked for the appointment of a board of experts. Toronto and Ottawa had declined to unite with Montreal in urging the adoption of such a proposal. He defended the Canadian system as more satisfactory than the United States stystem, where there is a board of experts.

Mr. Lister made a severe arraignment of the administration of customs. It was most remarkable that all over the country there was such a strong and general feeling of discontent and irritation among business men with the way the customs were administered. To illustrate the strength of feeling which exists, he read an extract from an article in a Montreal paper, which made a strong charge of general incapacity and inefficiency. In the course of his remarks Mr, Lister challenged the Controller to show a country where the customs department hired a manufacturer to go into a foreign country to gather information to be used to the advantage of the manufacturer's own business.

The Customs Department made arbitrary and intolerable use of its power was Mr, Lister's next charge. Spies were appointed, he said, who intruded into men's business places, demanding to see invoices and books and even into private houses, frightening women into paying them money for fear of being brought into the courts. It was monstrous, insolent and an invasion of every private right. They were told that the Customs Department was well managed. Let them look into it for a few moments. Let them see whether frauds had been committed upon the public revenues, whether there had been forged invoices, whether perjury had been committed. All this had occurred and the country had heard nothing about it. Trials of offences against the customs were not tried in the open court, but before a little coterie in the secrecy of the customs department. In the little office on the hill a word might be whispered in the ears of the Controller which may or may not influence the decision at which he may arrive. For example, perhaps, the controller had heard of the firm of Boyd, Byrde & Campbell. They were stationers who were supposed to be importing goods from James Stewart & Co., in the Old Country. In reality they did not import the goods, but by forged invoices to which Mr. Boyd swore they defrauded the country out of thousands of dollars. There were many forged invoices and false affidavits, and the controller knew it. An investigation took place in the little office on the hill. And although Montreal was a large city, containing many lawyers, the firm went to Toronto and got Mr. Fullerton, the controller's personal and political friend, to come and conduct the case. Were these offenders prosecuted?

Mr. Wallace: You do not know anything about it.

Mr. Lister replied that he knew a good deal. The truth was that these offenders were not prosecuted. Why? Because it was tried in the little office on the hill, and by the Controller's friend or counsel—(hear, hear)—it was settled. How was it settled and what was the punishment? Was it true, Mr. Lister asked, that the false affidavits were not kept in the department, but that they were given back so that every trace of the offences of these gentlemen should be destroyed? Let the hon. Controller ask for a committee. Was that the only case of the kind? Were the little smugglers to be punished and the rich importer who stole the public revenues to get off scot free? The hon. Controller knew the Hon. W. W. Ogilvie, miller, politician, friend of the Government and rich man generally. Mr. Lister declared that he had defrauded the Government out of thousands of dollars. Here, too, let the Controller ask for a committee. Mr. Ogilvie had imported corn into the country free of duty. He had represented, or his man Friday had represented, that the corn was to be kiln-dried and used for food, and was entitled to come in free. But it was crushed and used for animal feed. The duty in this case ran up into thousands of dollars. Affidavits were filed in the Department which were false. Was he sent to jail like Mr. McGreevy or Mr. Connolly?

An honorable member: Or Watters?

Did he ever pay any fine, Mr. Lister went on. He, too, was tried in the little office on the hill. Did the Controller give back the false affidavits? Had the man who committed the perjury been prosecuted? These were two cases which showed how the Department of Customs was being administered. There were more in reserve.

Mr. Foster: Bring them out now.

Mr. Davies: That is enough, I think.

Mr. Lister, continuing, declared that the statements which he had made were grave ones, and were made with a full appreciation of the responsibility which they entailed. If the Controller would give a committee, he would present the evidence which he had in his possession. These being the facts, was it a wonder that there was dissatisfaction over the country, was it any wonder that there was dissatisfaction with the Star-Chamber manner of administering the extraordinary powers placed in the hands of the administrators of the customs? The Controller had known of the offences of perjury and forgery having been committed against his department. It was his duty to have prosecuted the offenders. Instead, he had compounded the felony, and as the compounder of a felony made himself a party to it. He had thus made himself a party to the offence. If he had known that the affidavits were false and the invoices forged he should have retained the documents and prosecuted the offenders.

Mr. Foster and Mr. Wallace admitted the truth of the statements which had been made by Mr. Lister concerning the Boyd case, but they denied that there had been any collusion.

Sir Richard Cartwright said that a much better explanation should be given by the Controller of Customs and the Minister of Justice than had been given. No reason had been given why the grave offences committed against the Customs' Department had not been punished. He was far from desiring to see more than ordinary measures taken against offenders against the Customs Act, knowing what hardship the law imposed upon the business men of the country, but it was impossible to understand why no steps had been taken to punish the offences which had been shown to have been committed with full knowledge of fraud, perjury and forgery.

The fact was disclosed that the Controller of Customs has since he assumed office, failed to fulfil the requirement of the law, which calls for the occupation of the office of Assistant Commissioner of Customs. The bill was amended abolishing the office, after which it was reported. Before it receives its third reading the Opposition will insist upon further explanations of Mr. Lister's charges.

JONCAS GIVES HIS VIEWS.

Calls the Ontario Conservatives a Set of Fanatics.

Montreal ,July 10.—The following is the latest utterance of Mr. Joncas, M.P. for Gaspe: "Whatever may be the present necessity of a solid union of the French-Canadian members, several murmurers say that Caron, Ouimet and Angers would have done better to accept what the Government offered them. The people do not understand that it has become impossible for the Conservatives of our province to continue any longer their political union with the ultra Tories of Ontario; that there should be a limit to humiliating conciliatons; that it is time for us to affirm our independence and give these fanatics to understand that we will no longer endure their yoke, and that we can find allies elsewhere."

L'Electeur asks that the Baldwin and Lafontaine alliance be renewed in the interest of peace and harmony amongst the races.

THREE CANADIANS BURNED.

In a Livery Stable Fire in Detroit—Loss $100,000

Detroit, Mich., July 11.—In the livery stable of G. F. Case fire broke out this morning. All the employes were lodged and fed in the building. How many occupied beds last night is not definitely known, but five horribly burned and charred bodies are awaiting burial, and one other person is missing. The following are the victims:

John Shaw, driver, 35 years, came from Canada some time ago.

John Bowman, second cook, aged 30, formerly of Bay City.

Thomas Webb, painter, aged 55 years, came here from London, Ont., where he leaves a widow.

James R. Shaw, harness maker, aged 27, has relatives at Caledonia, Ont.

Charles Davis, barn man.

Edward Hughes, a hostler, has not been since seen. His body is supposed to be in the ruins.

There were about 80 horses stabled in the basement, all of which were gotten out with the exception of C. A. Greaves' Ethel G, valued at $1000, and one of less value. The total loss will be $100,000, partially covered by insurance.

Accident on the C.P.R.

Montreal, July 10.—A serious accident occurred on the C.P.R. to-day at St. Jerome at 8 a.m. Two men named Gendron and Page were working on the forward end of a ballast train which was passing St. Jerome station, and in order to save themselves a walk got off the train at the station while the cars were in motion, with the result that Gendron had both legs taken off by the wheels, and died at 10 o'clock this evening.

Page had one leg severed, and although he is very low hopes are entertained for his recovery.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

The Glorious Twelfth.

To-morrow the Twelfth of July anniversary will be celebrated for this district at Millbrook. In the morning, Peterborough will be the rendesvous for the several lodges of Peterborough and Lakefield districts, who will form in procession and march through the principal streets of the town to the Grand Trunk station, where they will take a special train at 9.30. There will be three bands in the local procession, —the Fire Brigade, Fourth Line Smith and Lakefield and eight or ten lodges. Jubilee Lodge of Prentice Boys, No. 7, town, and North Smith and Harvey L. O. L. will go to Fenelon Falls to-morrow.

Cooper's Record.

Cooper, the tramp who is alleged to have chased farmer Mulcahey's children in Otonabee on Monday last, and who was struck with a hoe by Mr. Mulcahey, was up before the magistrate this morning, charged with vagrancy. He is accused of pointing a pistol at Mulcahey and threatening to shoot him. He was remanded until Saturday. Cooper, it is understood, will take proceedings against Mulcahey for striking him with the hoe. This tramp was up before the magistrate about five years ago and sent to the Central for six months on a charge of vagrancy.

His Pastorate Ended.

Rev. Father Connolly, who was placed in charge of the Roman Catholic congregation in Campbellford less than a year and a half ago, must bow in obedience to the Right Reverend Bishop O'Connor, who has called him to Hastings. Father Connolly made the announcement in the church here on Sunday last, and spoke in the kindest terms of the people to whom he has ministered during his rather brief pastorate. He said he was not in a position to name his successor, but it would be made known next Sunday, when he would officiate for the last time in Campbellford. We have been informed that Rev. Father McCloskey, of Wooler, will succeed him. Father McCloskey held mass at the church at seven o'clock on Monday morning.—Campbellford Herald.

A Body Exumed.

An inquest is being held in Baillieboro to-day on the death of Mrs. Jos. Kennedy, who it will be remembered was thrown from her buggy on Tuesday, July 2nd, when returning to her home in Hope from Millbrook, along the road between the 1st and 2nd concession of Cavan. The inquest being held to try and determine whether the township is responsible in any way for the running away of the horses and consequent death of Mrs. Kennedy. The body has been exhumed and a post mortem examination made by Dr. Greer, of town, and Dr. H. A. Turner, of Millbrook, who will make a report to-day. A quantity of rails, which were lying along the roadside, are alleged to have caused the trouble and the jury will have it in its power to censure the municipality for the non-removal of the same.

Eight Days' Convention.

Services Sabbath morning at 11 o'clock and evening at 7 o'clock; also in the afternoon, weather permitting, an open air service in Inverlea Park at 3 o'clock. If the weather is unfavourable this service will also be held in the Tabernacle During the week service at 3 o'clock and 8 o'clock p.m. Object of the convention to set forth the sanctifying grace of God and the filling of the Holy Ghost, to be obtained by faith in Jesus Christ. The following ministers are expected to be present and take part in the convention: Elder Hallman, editor of the Gospel Banner, Berlin; Pastor Fisher, of the Christian Workers' church, Toronto; Rev. J. R. Aikenhead, Methodist church, Toronto; Rev. Thos. Webb, Congregational church, Toronto; Pastor Philpott, Christian Workers' church, College street Toronto. All are cordially invited.

A BEAUTIFUL ORANGE BANNER.

Made by Messrs. Fairweather & Co., for Col. Saunderson's Ulster Heroes.

Messrs. Fairweather & Co. have achieved a well deserved high reputation for turning out beautiful and tasteful society banners, especially those for the Orange order. They have, for the past five years, done a large trade in manufacturing these banners. This year they have made some eight or ten which have given the greatest satisfaction, and one noticed on their premises yesterday is deserving of special mention for its originality of design. It is made for Col. Saunderson's Ulster Heroes, L.O.L. No. 321 Downer's Corners, Otonabee. This banner is 4 feet by 5½ feet, made of crimson and imperial blue satin. The crimson face of the banner has a lambrequin of blue edged, with heavy gold bullion fringe and the blue side has a crimson lambrequin similarly trimmed. The crimson face bears a beautiful symbolical painting in oil, enclosed by scroll work in gold, bearing suitable lettering. The painting, which combines the various Orange emblems in an entirely original manner and includes the equestrian effigy of King William and the open Bible, is the artistic work of Mr. D. A. Shaw. The reverse side of the banner holds a painting also beautifully done by Mr. Shaw, of original design, a lion conchant, and the beaver beneath. The lower or free edge of the banner is deeply scalloped and adorned with gold button fringe and heavy tassels of gold bullion. The banner is a beautiful and artistic production, and the Ulster Heroes will probably carry the finest and most complete banner in the procession at Millbrook to-morrow. The work is a decided credit to Messrs. Fairweather & Co.

ILLUMINATED CANOE PARADE ON THE LAKE.

It Will be Held on Thursday Evening Next Under the Auspices of the Otonabee Canoe Club.

At an enthusiastic meeting of the Otonabee Canoe Club, last night, it was decided to hold an illuminated parade on the Lake next Thursday evening. The parade will not be limited to club members only, but all canoeists are invited to participate and embellish their craft in every possible way in order to make the affair as much a success as possible.

After the conclusion of the illumination, steam yachts will be in attendance to give the canoeists a tow.

This is the first affair of the kind which has been held in some time and it is hoped that the attendance will be large in order that success may attend the attempt to revive the interest in such occasions which used to be of such frequent and pleasant occurrence.

A handsome prize, consisting of a pair of the best paddles procurable, will be awarded to the most handsomely decorated canoe.

On the evening of Thursday, July 25th, the club intends to hold a regatta, when an interesting programme of races will be contested, concerning which later announcements will be made.

WHAT THE PEOPLE ARE SAYING.

That somebody should pray for rain.

That while no money is being spent on the outfall sewer extension, the law costs in Toronto, by some mysterious process, still go on.

That the bicycle meet on August 15th will be a scorcher, and attract all the flyers, as well as a big crowd.

That there will be cheap excursions by both railways in all directions to-morrow.

That the Sons of William will rise—early to-morrow and have fine weather for the Twelfth.

That ten thousand drums will have sore heads to-morrow.

That the band concert will attract a big crowd to Inverlea to-night.

That there won't be any Sunday school excursions to-morrow.

That the cold weather of the past two nights has had a blighting effect on the crops.

That Lindsay Cheese Board would be a great success if cheese could be sold without buyers.

THE SITUATION AT OTTAWA.

The Dominion Government have performed such a varied series of ground and lofty tumbling acts and contortions on the Manitoba school question that it is to be expected that they will easily perform another surrender on the part of the "No Surrender" Premier and his colleagues, and a clean succumb to the kicking Quebec ministers in order to maintain their precarious grip on office. Throughout the whole affair Premier Bowell has shown that he has no more backbone than a fishworm. He can't control his cabinet and it is to be expected that he will cave to the French ministers, and Micawber-like take his chances of something "turning up." It is a grievous misfortune that the affairs of the country should be in the hands of Sir Mackenzie Bowell and his college of incompetent and insubordinate ministers, who openly snub the venerable premier, countermand his declarations and mix up things in a remarkably muddled manner. This administrative rope of sand will soon fall to pieces of its own weight, that is if the individual strands have any weight. If the issues at stake were not so momentuous the present Dominion Ministry would hardly be worth discussing.

ST. JOHN'S PICNIC.

The Scholars Have Their Annual Outing Down the River.

St. John's Sunday school scholars were given their annual picnic yesterday. The objective point of the trip was Jubilee and fully five hundred went down on the City of Peterborough.

The scholars were given a free trip, but so well did Mr. Walkey and Mr. Conway arrange matters that there was still quite a profit accruing to the Sunday school funds from the trip.

The sports were run off at Jubilee under the direction of Rev. Mr. Davidson, Mr. Conway, Mr. Walkey and Mr. Harry Long with the following result:

Infant class—boys—1, Harry Jones; 2, Harry Kingscote; 3, Gerald Dunsford; 4, Charlie Kingscote.

Infant class—girls.—1, Katie Graham; 2, Gertie Bradburn; 3, Lily Carveth; 4, Audrey Carveth.

Boys, 8 years and under.—1, Ernie Hilliard; 2, Willie Morris.

Girls, 8 years and under.—1, Annie Vought; 2, Gertie McMullen.

Boys, 10 years and under.—1, Arthur Graham; 2, Sidney Byers.

Girls, 10 years and under.—1, Mabel Seymour; 2, Maud Carveth.

Boys, 12 years and under.—1, Elmer Smith; 2, Bob Goheen.

Girls, 12 years and under.—1, Ethel Wills; 2, Maud Carveth.

Boys, 14 years and under.—1, Eddie Graham; 2, Bert Cranfield.

Girls, 14 years and under,—1 Ella Byers, 2 Rosie Judge.

Ladies race,—1 Sarah Jones, 2 Serena Morris.

Three-legged race, boys,—1 Harry Lush and Elmer Smith.

Three-legged race, girls,—1 Lucy Woods and Elizabeth Taylor.

Men's race,—1 W. H. Walkey, 2 W. J. English.

While the sports were being run off many of the older people gathered water lilies in the pond where the only accident of the day occurred, when a couple of youngsters, both anxious to secure a particularly fine lily, upset their skift and took headers into the water. They were rescued without experiencing anything more serious than a thorough drenching, which did not seem to affect their spirits to any degree.

A PRACTICAL JOKE.

Two Local Men the Victims of a Capital One.

"Well! Well! You might as well kill a man as scare him to death!" exclaimed a well-known hotelkeeper, early yesterday morning, as he realized that he and a brother Boniface had been made the victims of a practical joke which, to them, had assumed a very serious aspect indeed at one time.

The two men were journeying down George street at about two o'clock in the morning, after attending a rather late session of the Hotel Protective Association, when they stumbled over the body of a man lying at full length across the sidewalk.

Thinking it merely a case of where a victim had imbibed too much "bug juice" they stopped to see who it was and were surprised to find that it was a young fellow well known to both, as most respectable and not a man to allow liquor to obtain control of him to this degree.

A closer examination convinced them that the young man was suffering from the result of a fit, but when they could not detect the beating of his heart or ascertain that he was breathing, there were two very much scared hotel men in that immediate vicinity.

There was no room for doubt. If the man's heart did not beat and he did not draw his breath he must be dead. One of them sat down on the edge of the pavement and tenderly supported the poor boy's head whilst the other ran hastily for a doctor.

A few minutes later the lone death watch recognized a familiar figure coming down the street and breathed a sigh of relief as he would have company in the performance of his uncanny duty. He quickly hailed the new-comer, but his voice seemed to have the effect of bringing the dead to life, as the supposed corpse leaped lightly to his feet and with a chuckle, headed for home like a deer.

The effect on the hotel man was startling and for a minute or two it looked as though there would be one corpse on the street anyway; but after recovering from the shock, Mr. Boniface saw the joke and was one of the first to laugh, though he was urgent in his beseeching requests "not to give the thing away to the boys." It was too good to keep, though, and had to come out.

IN BROTHERHOOD'S BONDS.

The First Duties of a Member of a Fraternal Order.

Here are a few items of interest for the fraternities, as gathered from the lip of an old member:—

* * *

No matter whether he is eloquent or not, the man who lives right will be listened to with interest by somebody every time he stands to speak in lodge.

* * *

Find out what you cannot do and cease to worry about that; find out what you are fitted for and and set about the doing of that with all your might.

* * *

One of the first duties of a fraternal brother is to visit the sick. Don't put it off from night to night, but go the minute you hear of a brothers sickness and brace him up with kind words and a cheereful presence. Do not talk to him about undertakers and grave yards, but gossip about picnics, pleasant visits and all that sort of thing.

* * *

Work wherever your lodge places you. If necessary, make some personal sacrifice to perform your duties.

* * *

We know of a brother who sat for a long time on the back seat. He criticised the officers of the lodge at every meeting and told every Tom, Dick and Harry just what he would do if he were in office. Bye and bye the whirligig of circumstances landed him in the presiding officer's chair—and, well, he couldn't put a motion properly, he couldn't decide the simplest question of lodge law without help from some of the officers he criticised, and the meeting grew smaller and smaller until at the end of his term there was hardly a corporal's guard present. He never knew what the trouble was poor fellow, and he went out of office with the "highest honours."

RAILWAY NOTES.

Sparks of News From the Whirling Wheels—Interesting Cinders for the Eye.

The mechanical department of the G. T. R., at Lindsay, has received orders for five air-brake engines to be used on special trains on the 12th.

An engine, a number of cars and crew left Lindsay yesterday to assist in ballasting the new electric railway which the Rathbun Co. are building at Oshawa.

The ballast train on the Coboconk branch finished its work on Monday night, and the engine and men have been pressed into freight service, running out of Lindsay.

Yesterday morning, between 7 and 8 o'clock, a cow by some means reached the centre of the Grand Trunk iron bridge, which crosses the river at Lindsay, and became fast, all four feet dropping between the ties. A couple of men noticed her and flagged the regular Port Hope freight, due at 8 a.m. It was with some difficulty that the animal was lifted up; she then had to be thrown on her back and drawn to the end of the bridge.

A good appetite and refreshing sleep are essential to health of mind and body, and and these are given by Hood's Sarsaparilla.

PERSONAL.

Mr. B. F. Ressor, of Lindsay, was in town on business this morning.

Miss Flossie Noice, of Minden, is spending a few days in town with friends.

The Campbellford Herald says:—"Mrs. Doxsee, late of Peterborough, has been very ill for some weeks past. Dr. Goldsmith, of that town, was lately called here to treat her.

Mr. and Mrs. George Matthews returned last evening from a wedding trip down the Hudson and through some of the principal American seaside resorts. They have taken up their residence on Dalhousie street.

Mr. Josephs, advance agent for the Sells Bros.' circus, was in town this morning, completing the contracts turned over to the company which he represents by the Barnum & Bailey combination. The circus will be along on August 24th.

Mrs. J. R. Stratton and a party of friends took possession of their summer cottages at Stony Lake to-day. They will be joined on Saturday by Mrs. Jas. Stratton, Mr. and Mrs. A. H. Stratton, and Mr. and Mrs. F. T. Matthews.

Rev. Father Scanlan, who has been assisting Vicar-General Laurent as curate of this parish for the past couple of years, received notice this morning of his impending transfer to the Cathedral, Peterborough. Rev. Michael McGuire, of the Cathedral, will fill the vacancy. The news will be received with regret by the large congregation, who have learned to appreciate Father Scanlan very highly.—Lindsay Post.

LINDSAY CHEESE BOARD.

No Buyers Present and no Sales Made Yesterday.

The regular meeting of the Lindsay cheese board was held yesterday. There was a large number of cheese boarded, but no buyers were present. Mr. J. D. Flavelle sent word from Toronto that he would arrive on the 11:20 train, and the members of the board waited until his arrival, The president, Mr. Thos. Robertson, said that the highest bid at Peterborough was 8 1-16c, and that the board would not accept.

When Mr. Flavelle came in he offered 8c for selections, but the board would not accept less than 8¼c, consequently there was no cheese sold. Some of the members thought that the price would rise within a week, as the pasture was scarce, and consequently the milk was also scarce.

Following is a list of the factories represented, with the number of boxes boarded:

THE WHEEL.

The track at the Driving Park is in very poor condition for fast riders. It is overgrown with weeds and is very sandy in places—in fact so sandy as to be dangerous for fast riding around the turns at the eastern extremity.

Some of the more enthusiastic of the wheelmen contributed towards the scraping of a path around the track, and for a few weeks the training went on merrily, but on Dominion Day the path was ruined as horses were allowed on the track and cut it up in a manner which practically ruined it as a speeding track.

Yesterday afternoon Mr. T. E. Bradburn was down to watch the boys training, and on seeing the condition the track was in, stated that he would see to the difficulty being at once remedied.

Trainer Bain, George Evans, Orville Shortly, Will Lytle and Walker were all photographed yesterday in their racing costumes. Mr. Gray had his camera down at the track and caught the boys in three positions, viz: a flying start, position on first lap and the finish.

SCULLS AND SHELL.

Concerning the regatta at Henley the Sporting Life says:—"Far and away the best race of the day was that of the London Rowing Club and the Argonaute of Toronto. The manner in which the Canadians held on suggested the tenacity of a terrier and a rat. The final burst of speed was worth travelling 100 miles to see."

The Chronicle joins in the universal praise of the Argenaut four's splendid contest, and says that they steered a beautiful course, while the London crew's steering was erratic.

The Sporting Life, commenting on the Diamond Sculls says: "But for Thompson's mishap there is no telling how the event would have gone. The way he went after Guinness was a caution. He gained three lengths in a furlong. This, coupled with his hard racing in the fours, took much out of the "Canuck," and he had to ease up in the last quarter mile. His pluck gained him much applause."

The Post says of the heat in the race for the Stewards' Cup between the four of the London Rowing Club and the Argonaut four that it was possibly the very best four-oared race ever seen at Henley.

When the Cornell men reached the finish line they were greeted with groans and hisses. They were rowed to a breakdown by Trinity and came in seven lengths behind. They made a miserable showing after the first half mile, nearly every man in the boat dropping his oar at different times. They rowed like a lot of school boys, and the spectators who lined the shore were delighted to see them in this dilemma after the unsportsmanlike manner in which they got the race from the Leanders. At the hotels the English oarsmen roundly dammed the Americans, and said they could expect nothing better from an American crew.

THE TURF

Harry B. won the first heat of a race at Windsor yesterday in 2 17¼. The race will be finished to-day. The prize is a purse of $300.

RANGE AND RIFLE.

Third League Rifle Match.

The third league match took place at the range on Thursday last, resulting in the scores given below. The light was very bright and the wind varying, which made the shooting rather difficult, though some good scores were made:

SOUTH MONAGHAN.

From Our Own Correspondent.

On Sunday last, at Welcome, was laid at rest Mr. Thomas Box, formerly of the township of Hope, but latterly of the township of South Monaghan. The deceased gentleman, who was about 60 years of age, was father of Mesdames William and Peter Dawson, with the latter of which he had resided since since the death of Mrs. Box, several years since. Mr. Box was a gentlemen of exemplary character and a devoted member of the Methodist church. He was thoroughly honourable in all his dealings and highly respected. His last illness, a fever, was only of a few days' duration; he was about in good health on Sunday and died on Saturday. On Sunday, July 21st, Rev. Mr. McKee, Fraserville, will conduct a memorial service in the Ballieboro Methodist church.

CAVAN.

The many friends of the widow of David Hall, Cavan, will regret to learn of her sudden death on Monday morning. She was attacked with illness on Sunday and died the following day. The funeral took place on Wednesday to the First church cemetery. The deceased, who was 59 years of age, was very highly respected in the neighborhood, where she had spent her life.

WHOLE FAMILY DROWNED.

Skiff Capsized by a Child and Five Lives Lost.

Rochester, N.Y., July 10.—By the overturning of a rowboat in ten feet of water at Kenka Lake this evening a father, mother and three small children were drowned.

The accident was witnessed by hundreds of people, but, as there were no boats at hand, assistance could not be given, and the family's death struggles in plain sight of the shore were a terrible sight.

Frank Tufts, his wife Mary and three children, whose ages range from 3 to 8, rowed out from their farm house at Gibson's Landing at 6 p.m. When near Bluff Point one of the children leaned over the edge of the boat and lost her balance. The mother tried to prevent her from falling into the water, but in doing this she capsized the skiff. Tufts was a good swimmer, but his efforts to save his wife, who could not swim, and the children, were unavailing. He made a brave struggle, but his strength gave way.

A SWINDLER IMMIGRANT.

Forged Bonds to the Amount of $120,000 and Then Skipped to Canada.

Urban, Ohio, July 10.—Banker and Stock Broker Z. T. Lewis' irregularities have now assumed a most alarming aspect. His bank at Ansonia, Ohio, suspended to-day. Depositors are only partially secured. The amount of forged bonds discovered thus far is $120,000, and it is thought there are many more. When last heard of Lewis was in Michigan, making for Canada. He is known to have at least $10,000 in cash.

Jilted, He Murdered Her.

New York, July 10.—While on her way to work this morning, Rose Finn, 19 years old, was cruelly murdered by her jilted lover, Michael McGowan, who was infatuated with her. The murderer escaped after killing the girl, and was arrested three hours later.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

One pint of kerosene, at a cost of about one cent, will give a pure, healthy, clean light for two hundred or more hours; i.e., twenty-ten hour nights. Sold only by

Scott's Sarsaparilla

IS A MOTHER'S REMEDY regulating and strengthening the maternal functions. It purifies the female system of ulcerative weaknesses and debilitating humors. It expels the first symptoms of hereditary humors in children and youths that may owe their origin to past generations. It searches out and renders the system free from disease-breeding germs.

"THE KIND THAT CURES."

There are not many forms of disease upon which Scott's Sarsaparilla does not act favorably, because pure blood carries to the diseased parts renewing and building up properties. This medicine makes pure blood which builds up where disease has torn down, and carries away the impurities upon which it feeds.

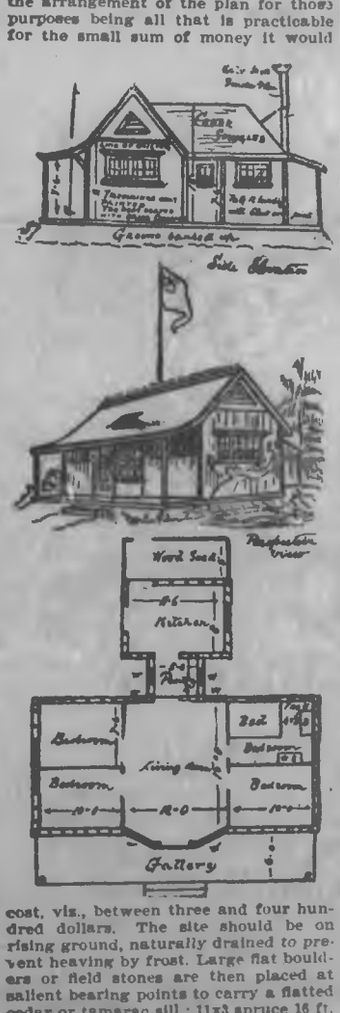
A CHEAP SUMMER COTTAGE.

Details of Plan for the Erection of a Cheap and Convenient Summer Dwelling.

With the advent of spring the problem of selecting a suitable rural retreat for the hot summer months again presses attention on the heads of families, the best medical authorities having laid it down as an axiom that a thorough change in the system of living from the city to the country is the best restorative and recuperative agency we possess.

Cosidering the many convenient health-giving resorts it is an easy matter to choose a desirable location, the next consideration should be a radical change in the style of habitation. The cares and anxieties incidental to ruling a city house or flat, with its sterotyped conditions, can find no better antidote than a few months free and easy life in a one-storey cottage or bungalow, with its attendant rustic and restful charcteristics. Unfortunately there are very few cottages possessing these advantages to let at a moderate rental, the charges asked for a season, $100 or more, being far too exorbitant for the average pocket. The design illustrated is intended as a suggestion to our readers of a very cheap, convenient and semi-portable cottage, the arrangement of the plan for those purposes being all that is practicable for the small sum of money it would



cost, viz., between three and four hundred dollars. The site should be on rising ground, naturally drained to prevent heaving by frost. Large flat boulders or field stones are then placed at salient bearing points to carry a flatted cedar or tamarac sill; 11x3 spruce 16 ft. plank lengths at 2 ft. centres, diagonally braced, form floor joists, the floor being laid with 1 in. tongue and grooved flooring, gallery floor 1 1-2 tongue and grooved on flatted cedars. A balloon frame of 4 in. x 3 in. dressed studding is then erected on sill, well spiked to same and strengthened with braces, intermediate and top sills. Over this, on the outside, 7-8 tongue and grooved sheating is laid horizontally, and 7 oz. tarred paper next the weathering, covering of wide tongue and grooved boards placed vertically, with a 2 in. x 1-2 in. strip over joints, thus forming a weather-tight siding, with the advantage of the dressed studding giving a pleasing appearance in the house. The roof is formed of rafters of 5 1-2 in. x 3 in. (dressed) 1 1-4 in. roofing boards, tarred paper and cedar or pine shingles, with wavy ridge piece, and projects over gallery supported by brackets and two 6 in. posts. The partitions between bedrooms and living room are of 1 1-4 tongue and grooved pine, with strip over joints. Doors, 1 1-4 in. four panel; windows, 1 1-2 in. casements. Ceiling joists at collar of roof floored with 1 in. tongue and grooved pine, with trap hatch for access, forms a receptacle for storage of furniture between seasons. Other explanatory notes and sizes are given on the drawings, which have been prepared by Arthur J. Cook,, architect, of Fraser Building, Montreal, and are offered as ideas to those desirous of building cheaply under the usual conditions met with in country districts.

Interesting to Farmers.

From 60 to 80 bushels of barley is grown per acre in Canada, and its price is often higher than that of wheat. Barley can be grown in any of the States in this region, and should prove an excellent crop to those who have been able to make a profit from wheat.

Lime has been used at some of the experiment stations on land intended for clover with most excellent results. The crops of clover on some plots have been increased over one-third in comparison with land that received no lime. As lime is the cheapest substance that can be applied to land, and gives good results on all classes of soil, its use should be more general.

The pistillate varieties of strawberries produce more runners and a greater amount of fruit than the varieties with perfect flowers (bi-sexual). This fact should be kept in view in selecting the kinds that are to be used. Some varieties produce large berries, but few of them, and also fail to fill out the rows from scarcity of runners.

Owns 35,000 Dogs.

The greatest dog-owner in the world is Gustav Jovanovitch, the cattle king of the Russian steppes. For the protection of his 1,500,000 sheep he employs no less than 35,000 shepherd dogs of various breeds.

Prince Charlie.

He was a young Prince Charming, beautiful, brave, capable of enduring hardships, and, till his misfortune soured him, not only kind, but of an uncommon and almost impolitic humanity. Well might Walton, the spy, pronounce him, with the blood of John Sobieski in his veins, "a far more dangerous enemy to the present establishment of the government in England than ever his father was."

In those days, when a king of some sort was a necessity, England seemed to have in Charles a king born to be adored. But the tendency of things was invincibly against him. He appears, I own myself, to have better qualities than any man of his line since the fourth James fell at Flodden. There was nothing in his Scotch expedition, till the fatal morrow of Culloden, that did not become a gentleman and a king. The Cameronians, a feeble, but virulent, remnant of the auld leaven of the Covenant, publicly blamed his "foolish lenity and pity" to the "redcoats whom Providence put into his hands."

If his courage is accused, so has that of Marlborough been, and the evidence of Malcolm McLeod, "never was a man not a coward so prudent, nor a man not rash so brave," may be taken as disposing of a childishly malevolent accusation. He was gentle and considerate till misfortune taught him suspicion, and hope deferred made the heart sick. The exposure which he bore so gallantly in the Highlands, and the habits of that country, taught him his fatal vice, which corrupted and debased a character naturally noble and generous.—Scribner's Magazine.

AYER'S Hair VIGOR

Restores natural color to the hair, and also prevents it falling out. Mrs. H. W. Fenwick, of Digby, N. S., says:

"A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. Fenwick, Digby, N. S.

Growth of Hair.

"Eight years ago, I had the varioloid, and lost my hair, which previously was quite abundant. I tried a variety of preparations, but without beneficial result, till I began to fear I should be permanently bald. About six months ago, my husband brought home a bottle of Ayer's Hair Vigor, and I began at once to use it. In a short time, new hair began to appear, and there is now every prospect of as thick a growth of hair as before my illness."—Mrs. A. Weber, Polymnia St., New Orleans, La.

BEDROOM EXERCISES THAT WILL PRODUCE GOOD RESULTS.

How to Secure a Renewal of Bodily Energy—The Best Time of the Day for Exercise—After a Few Weeks of the Drill the Arms Become Beautifully Rounded.

Take time for rest and time for exercise. Choose if you can, the morning after 10 or the afternoon before dinner when usually one is the most fatigued. Get into a perfectly loose gown or the customary gymnasium suit. The first exercise is for the arms. Let them hang at the sides as you stand erect, and then, instead of grasping dumb bells, clinch the fists energetically and make believe they hold weights. With all the nervous energy you are able to command and with a screw movement that turns the fists in, then out and draw them to the shoulders, the elbow remaining at the side. Screw again and the fists and arms go out laterally on a line with the shoulders. Double back then to the shoulders and the fists are screwed in front straight out from the shoulders; return again—and above back, down and at rest, nine movements, to be twice repeated, slowly, energetically and with precision. They are not intended to be "pretty to look at," but they call into play every muscle of the shoulders and arms and every particle of the grey matter in the brain is energized as well. A few weeks of it and the arms are beautifully rounded while the wrists appear to grow smaller and the knuckles are certainly not made lumpy by weights or bells.

Then for the legs: Gently raise the body on the toes to sink very deliberately, just resting on the heel each time—up, down, up, down. Nothing is so excellent for increasing the arch of the instep. I have seen insteps made to order by it. At first one feels the muscles of the calf of the leg drawing enormously and painfully; that is all right. It merely indicates that those muscles have been unused. If persisted in the contour of the thigh and calf grow firmer and one soon feels the feet grasping the pavement in walking with a security and elasticity of step that is astonishing.

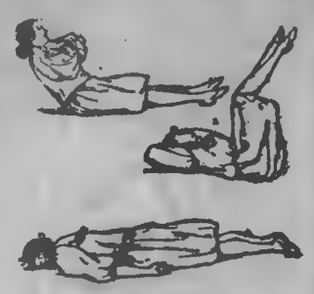
1.—For muscles of back and abdomen.
2-3.—For muscles of the legs.
4.—Energized arm drill.

Next for the hips and back: With the toe strongly pointed swing each leg alternately in a circular movement balanced, as soon as possible, on the stationary leg. The muscle along the inner leg will draw in a painful protest against such unexpected activity required of it.

To screw the heel gently from side to side, then backwards and forwards, does no harm, and really aids in filling out scrawny necks, while it gives a much-to-be desired freedom of movement and poise.

By far the most important of all movements are those calling into action the muscles of the abdomen and back. They are better taken under the supervision of a skilful instructor, but no harm can result if they are gradually pursued in the order given. Weak backs may be prevented by them, and cured. Rectal troubles and other organic difficulties are overcome by their use.

Stand upright with the feet rather well together. Have a feel—call it a "mental idea" if you are a man—of breathing up the arms by a strong inhalation; expand well the chest by throwing the arms over the head, then out, and with this energy transferrred to the torso, bend gently and slowly back. As the muscles of the back grow stronger throw alternately each leg backward and bend the spinal column



1-2.—For muscles of waist and hips.
3.—The Arabian method of rest.

very deliberately back as the ballet girls are taught to do, always avoiding extremes. Then, with a forward movement of arms and torso relax entirely, let both fall forward of their own weight. The rest from tension with the body in this position gives a delicious sensation of complete rest.

Bend then to the right with the left arm thrown up, the left toe poised to hold for an instant that side in slight strain; so with the other side.

Finally, standing upright with hips and arms (at sides) immovable, screw the torso and shoulders very slowly from the front to the left, then right. After a time and without a particle of strain, the shoulders can be moved to right angles with the hips. That means flexibility and strength of waist and hips and back and the inevitable result is grace, for all grace is no more than freedom of movement.

Then, to end, lie prone on the floor without so much as a pillow, as soon as you are able to do without. With the arms lightly clasped above the head—to a fly any temptation to use them—point the toes and life the legs gradually to right angles with the torso, using no muscular exertion except that required of the legs. When this can be accomplished without effort there will be an end to indigestion and backaches and protuberant stomachs.

Again, lying flat, fold the arms on the chest and move the torso to an upright position. Repeat each exercise. Then open wide the windows and cover yourself with a blanket, no matter how hot the day, cover over from chin to feet, and relax every muscle. Close the eyes. Let the arms fall at the sides dead weights. In the same manner lift and drop the legs. Squirm about on the hard floor much as your old pointer dog does, until you can feel yourself lying flat as a flounder, "giving up to gravitation" we call it in the gymnasium. Forget your body. Draw in deep, long draughts of fresh air in regular, rythmeic breathing. Empty the lungs each time, work hard over it until the rythm is established—action, reaction, action, reaction. It is the balancing of activity and relaxation, an equilibrium that stores energy and establishes greater activity. Before you finish turn over and lie on the abdomen as the Arabs rest on their long desert marches. Fifteen minutes of this physical and mental rest, and do not take a longer time for it if you can, will result in a renewal of energy that is amazing.

KATHLYN STALEY.

Married 100 years.

The Hundredth Man has a character of fiction, but it is reserved for sober fact and reality to instance the man who can celebrate his hundredth wedding anniversary. Such a celebration actually occurred during the month of April in a little village of Hungary, Zsombulga by name, the still happy bridegroom being one hundred and sixteen years of age, and named Jean Szathmary, and his bride but a few years his junior.

These people were peasants, and among the poorest in the little Hungarian town, but the fact of their having lived to celebrate so unique an occurrence as the hundredth anniversary of their marriage has made them the most honored citizens of the place. The little municipality of Szombulga has voted them a pension, and so long as they live they will be taken care of by the village. The Viennese journals sent correspondents to describe the old couple in the fullest detail.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

Relief in Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys and back. If you want quick relief and cure this is your remedy. Sold by H. S. Macdonald.

"The Triumph of Love is Happy, Fruitful Marriage."

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc,

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a carload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the Erie Medical Company, Buffalo, N. Y., and asked for the little book called "Complete Manhood." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

A Constantly Growing Force.

Every Day Gives Momentum to the Success of South American Nervine.

Canadian Citizens from Every Quarter Tell of the Extraordinary Results Following the Use of This Wonderful Remedy.

MR. C. G. CHAPIN, OF BURK'S FALLS, ONT.

There is encouragement in the knowledge that even after the skill of eminent physicians has failed, and many medicines have been used, a certain cure for the diseases of life is to be found in South American Nervine. This is a remarkable medicine, especially when the trouble is nervous debility, indigestion, dyspepsia, sick headache, or a general breaking-up of the system. It has made thousands of cures of Canadian citizens all over this beautiful Dominion, and they have not been slow to sing its praises.

The strength of South American Nervine rests in its being something more than a mere tonic. A tonic will give temporary benefit, but if disease is in the system something more is needed to remove it. South American Nervine possesses all the virtues of a tonic, but more than that, it is a disease-healer. It has been discovered that certain nerves have entire control over the stomach, liver, heart, lungs and indeed all internal organs. When disease comes upon the individual, if a careful analysis is made of the trouble, and things are not gone about in haphazard fashion, it will be shown that the disease has its origin in a derangement of these nerve centers. South American Nervine goes at once to the nerve centers and removes the disease. Then strong, rich, pure blood runs through the veins and gives health and exhilaration to all parts of the system. This is one secret of the power of South American Nervine. But it does not stop here. There is no medicine that is so great a nerve-builder, nor flesh-producer as Nervine. It purifies the system. It imparts to it health and vigor, and builds up the constitution.

Now, this is exactly what was done in the case of Mr. C. G. Chapin, a well-known jeweller, of Burk's Falls, Ont. He says: For years I had been much troubled with nervous debility, and believe I had tried all proprietary medicines, but none seemed to relieve me, until I used South American Nervine. To my surprise the first bottle gave me great relief. I am still taking this great remedy and must say I have not felt so well in years. I highly recommend it to all suffering from nervous disease, for it has made a great change in me."

Y.P.S.C.E. NOTES.

THE LOCAL EXECUTIVE

met Friday evening, July 5th, in the Y.M.C.A. parlours. Reports were received from members of the Executive appointed to visit the local societies. The many points brought out in these reports and the discussion that followed was helpful. It was thought advisable to continue these visits. It was suggested that the societies inter change with each other. That is, the entire society visit another society, the visiting society to take up the topic of the evening. A committee was appointed to look into this matter. The advisability of holding a local Endeavour picnic was also discussed. The matter is to brought before the respective societies of the union.

It was our intention to have published the Look-out Committee's work for the month of June of all Endeavour societies of town and county in this week's column. Many of the societies have thus far failed to send in the above mentioned report, but we hope all will respond in time for publication next week.

GEORGE STREET E. L. C. E.

There was a good attendance at the League meeting last Monday evening. In the absence of the president, the 1st vice-president, Miss Shortly, led the meeting. The topic, "The ten Commandments in our lives," was taken up by Miss Fife. She brought out many excellent lessons and all enjoyed her address. We were pleased to have Mr. Ward with us and to hear him say a few helpful words. Prayer was especially asked for the International Convention to be opened this week in Boston. May those who are not able to attend this great gathering think much and pray that great good may result from it.

NORTH SMITH.

The missionary meeting which was held on Thursday evening proved both interesting and profitable. The leader, Mrs. Graham, emphasized the advisability of having a definite mission in connection with our society. A short paper on the "life of Dr. Geddie" was given by one of the members. The pastor, Rev. A. C. Reeves, B. A., gave a brief explanation of the different mission schemes of our church. The questions "Why must Christians remain unsatisfied with anything short of the world for Christ and how can you prove that Christians in general are falling short of their duty with regard to missions f" were answered by Mrs. Anderson and Miss Preston.

The regular temperance meeting will be held on Thursday, July 18th, will be led by Mrs. Reeves. The topic for the evening being "A clean Life," which will be dealt with by Mrs. Greer. The pastor will also give an address on temperance. We hope for a good attendance.

MARK STREET SOCIETY.

On Monday evening was held our postponed business meeting. The attendance was large. Mr. Jas. Reid took the topic and spoke in an able manner. Reports were received from different committees, which showed a very satisfactory months' work. The membership of the society is constantly increasing. One new member was enrolled at our last meeting.

CHARLOTTE STREET SOCIETY.

Held its meeting on Sunday evening from 6.30 to 7 o'clock on account of the Sabbath School excursion Monday. The attendance was not as large as usual, but it was one of special interest. The topic, "The Ten Commandments in our Lives," was taken by Mr. H. P. Kennedy. Many points which were practical were brought to our view and discussed with great interest.

ST. PAUL'S SOCIETY.

On Monday night the monthly business was discussed in this society. The reports were bright, the prospects encouraging and a new interest in the committee work was manifest. The junior society has been closed for the months of July and August owing to the number of its members intending to spend the holiday season out of town. The temperance committee were authorized to assist in any temperance work taken up this fall by the local temperance organizations.

ST. ANDREW'S SOCIETY

held their business meeting on Monday night. The attendance was fair. Miss Forsythe, president, occupied the chair. After the opening exercises the reports of committees were received, which show a good work done, also an increased attendance, which we hope will continue. After the business was disposed of Rev. A. McWilliams gave a few minutes talk on the topic, after which a number took part. There were also two members proposed.

A Careful Analysis.

ONTARIO FACTORY ACT.

The Ontario factory act, as amended and improved during the recent session of the Legislature, has just been published by the Ontario Government and should have a wide circulation. There are a number of entirely new clauses. The first of these is designed to make more stringent the obligation upon employers to provide sufficient sanitary arrangements, the new act providing that where two or more persons occupy the same room or premises to carry on a business which employs in the aggregate six or more persons, each of the employers shall be responsible for the sanitary arrangements of the place. The next additional clause provides that except in the business of canning or desiccating fruits no boy or girl under fourteen shall be employed in any factory. New precautions against accidents are found in section fifteen, a clause being inserted ordering the most secure guarding possible of dangerous parts of mill gearing machinery, flumes, doors, bridges, etc., while considerable latitude in ordering precautions is given to the inspectors. More stringent fire escape provisions are made, a rope being ordered for every window in a factory above the ground floor. Other clauses direct that the inspectors must be notified of explosions and injuries within 24 hours under penalty of a fine of $30. The aprointment of a female factory inspector is authorized, and an extra clause added to make prosecutions more effective. These are the chief amendments to the act, which was previously a valuable charter of the rights of the workers and it should be in the hands of all interested in the matter.

BENEVOLENT SOCIETIES.

(From the Toronto World, 10th July, 1895.)

There was a lively time before the Banking and Commerce Committee this morning over the Independent Foresters' bill, which seeks to authorize the society to issue policies up to $5,000. Mr. Laidlaw, Q.C., solicitor for the I. O. F., startled the committee by the statement that the society could pursue one who had been a member, but had left the organization, in order to make up any deficiency in the endowment fund. Mr. Sutherland, M.P., said that if this interpretation of the law were correct, the sooner the Government introduced a special act governing benevolent societies the better it would be.

The committee had not reached a conclusion of the bill when the hour for adjournment arrived. The bill will be taken up again on Thursday.

Revival of Trade.

Reports from the United States support the view that trade interests have vastly improved recently and that the business outlook for the future is encouraging. This will be welcome news to the people of Canada, since our trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Painless Corn Extractor Times being dull everything not absolutely needed became a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proven the only safe, sure, and painless remedy for corns.

Fifty years of success in curing diarrhœa, dysentery, cholera, colic, cramps, bowel complaints of summer and fall, etc., stamp Dr. Fowler's Extract of Wild Strawberry as the best remedy in the market. It saves children's lives.

"Swapping Dollars."

All good housekeepers have a cleaning up time, whip all the carpets, "raise Cain," and turn things upside down generally. That's what we're doing; don't use any Pearline or Sapolio but a good deal of "soft soap and common sense." We've some odds and ends in Summer Hats, that we don't wish to carry over. If you've an odd dollar in your pocket, step in and we'll give you two for it. Here's how we do it :—

Ladies' Sailor Hats, trimmed with Navy blue spot, and some brown and drab, worth 75c, sell for 25c.

Boys' coloured and white Straw Hats, sold for 40c and 50c, sell for 25c.

Boy's fine coloured and white Straws, sold for $1.00, sell for 50c.

Men's High Crown Straws, very fashionable, sold for 75c, $1.00 and $1 25. sell for 50c. and 75c.

Boys' 'Varsity Caps, selling from 10c to 25c, worth from 20c to 50c each.

These Goods will surprise you with their cheapness.

FOR THIS SENSATIONAL

Forced-to-Sell-Sale

OF THE MAMMOTH

DOLAN STOCK

At a Mere Fraction on the Dollar.

When we must, we MUST—you may depend on it.

Causes which we can't control force as to make this deliberate sacrifice. Inside of 30 days this mammoth Dolan stock must be off our hands, and the money paid over. How is it to be done? Well, the way to do it is to do it "Gough's Way." Cost must not be our object—a fraction of cost will have to do this time. The loss will be pocketed without murmur.

Prices will be better salesman than necessity. One look will coax another. The fraction on the dollar we bought the stock at will only be discounted by the prices we sell at.

For 30 days we will be on the topmost pinnacle of big bargain giving, never before explored. For 30 days the most relentless annihilation of Prices Peterborough has ever seen will be made in **First Class Clothing, Cloths, Hats and Caps, Gentlemen's Furnishings, Tailors Trimmings, Store Fixtures, Show Cases, &c.**

Money on the Dolan Stock

Must be raised, regardless of cost, real value or positive loss. Read the prices we quote this week—read the bargains we place on sale—get an idea of the recklessly low prices—compare and investigate—reflect and act.

Drive Away Dullness.

Perhaps July is a dull month, but a little extra energy will manage to drive away dullness.

It's a mistaken idea that people lock up their purses during the summer months. If the right lever is used they open easily.

We make July a clearing month, and by so doing make friends for the Fall by very low prices.

Here's the lever we are using just now. We have planned for a stirring Seven Days

Small-Ware Sale.

Saturday morning we commence a clearance of our decks of every article in the Small Ware Department that has a suspicion of being lonesome, including:—

Straw Hats, Ribbons, Gloves, Hosiery, Veilings, Underwear, **Dress Trimmings, Parasols, Neckwear, Handkerchiefs, Belts, Buckles, Men's Furnishings**

All to be turned into prompt cash—that means a big slice off wholesale prices—such a slice as will make stock reducers in earnest. This store must never be dull.

"CEMENT OF OFFICE"

Brings Ouimet and Caron Back Into Line.

MISUNDERSTANDING, SAYS FOSTER

Angers Makes a Bitter Attack on the Government.

SEVEN MINISTERIALISTS BOLT

And Vote For Mr. Laurier's Motion To Adjourn.

The Pledge Given to Ouimet is Not Accepted By Mr. Dupont and Other Members From Quebec—Ontario Conservatives Tell the Government Plainly That They Will Not Support a Bill to Coerce Manitoba.

Ottawa, July 11.—It has been a great day in Parliament. Official announcements have been made in both Houses, and, summed up in brief, they are to the effect that Mr. Angers is irreconcilable and out for good, while his other two colleagues, Messrs. Caron and Ouimet, are satisfied with the renewed assurances which have been given them that Remedial Legislation will be the essential feature of the Government's policy next session, and they are in harness once more.

Public feeling in Ottawa in reference to the crisis had reached fever heat by 3 o'clock, and when prayers were over well-dressed men and women made a rush for the galleries of the Commons, and within five minutes every seat was occupied, while hundreds were content with standing room. As routine business was being transacted, the Postmaster-General entered the Chamber, and was received with laughter and derisive cheers from the Opposition. As he sat down friends behind him gave him an encouraging counter-cheer. A minute or two later Mr. Ouimet entered the chamber, when a like demonstration took place. Lady Aberdeen had previously entered the chamber, and was given a seat at Mr. Speaker's right.

Mr. Foster announced a message from His Excellency, signed by his own hand. It was the official reply of Manitoba to the Remedial Order. Then the interesting proceedings commenced. Mr. Foster was brief. When he statement was satisfactory. When he sat down the two returning Ministers said their say and justified the stand they took. The Opposition leader then took the floor and bantered the Ministry on the situation. Sir Charles H. Tupper replied to Mr. Laurier.

Mr. Dupont, an ardent Nationalist, declared himself a supporter of Mr. Angers, and must vote against the Government.

Then Dr. Weldon rose and notified the Government that he could not support Remedial Legislation. Col. Denison and Mr. McNeill made similar statements.

The debate was continued until nearly 11 o'clock. On the division there were seven Conservatives who voted with the Opposition.

To-day's settlement was brought about at a conference in Sir Mackenzie Bowell's office this morning, when there were present the Premier, Sir A. P. Caron, Mr. Ouimet, Mr. Girouard and Senator Masson.

It is stated to-night on authority that the portfolio of Agriculture will not be filled until after prorogation. Many members incline to the belief that it will be offered to Sir Hector Langevin.

It is likely that the school question will again occupy the attention of Parliament to-morrow, the Liberals having signified their intention of presenting an amendment.

There is a widespread desire to know what Clarke Wallace will do under the circumstances, but so far he has given no sign. He is billed to speak at the Orange gathering here to-morrow, and his speech will be awaited with interest.

On the orders of the day being called, Mr. Girouard (Jacques Cartier) arose and said: "I wish to put the following question to the leader of the Government: Will the negotiations to be entered into with Manitoba relating to the schools, unless they bring an acceptable arrangement in the lines of the Remedial Order, on the terms of the judgment of the Privy Council of the 29th January, 1895, preclude or postpone the introduction of the Remedial Legislation announced in your statement of Monday last?"

Mr. Foster: My answer simply is: They will not.

Mr. Laurier: I see that everything is serene once more in the atmosphere of the Cabinet. (Cheers and laughter.) Perhaps the hon. gentleman will be able to give us information as to the non-existing crisis which was supposed to exist.

Mr. Foster: I am glad that my hon. friend shows such skill in reading political weather predictions, if I may so denominate them. I have but very few remarks to make in reply to the question which has been put by my hon. friend on previous occasions and repeated to-day. Some differences arose between members of the Cabinet with reference to the question of Remedial Legislation. The statement which I made the other day to the House gave the position of the Government on that matter. The differences in the Cabinet arose chiefly on two lines. Some of our colleagues were of the opinion that it was useless, and consequently unnecessary, to prolong negotiations, or to enter into further negotiations, with the Manitoa Government with a view to the settlement of the question by that Government themselves, with the powers that they have. The other question of difference arose consequentially from that. They believe that Remedial Legislation should be introduced at once, starting from the promise that there was nothing to be hoped for from the action of the Manitoba Government, and Legislature itself. I need not reiterate the position of the Government. That was shown in the statement I made the other day in this House. Both these positions were taken in that statement. The one that we would grant to Manitoba a certain amount of time in the hope that negotiations would be entered into and an amicable settlement of this question arrived at. The other was that in so intricate and important a question the greatest deliberation was necessary in the perfecting of legislation in the matter, and that no Remedial Legislation should be introduced this session. Those differences of opinion were canvassed by the different members of the Government.

I regret to say that one of our colleagues, who has not a seat in this House, finds it impossible to accede to the view of the majority of the Government. He still holds very firmly and strongly to his view that Remedial Legislation should be undertaken and pressed to a conclusion at once, and as he finds it impossible to accede to the view of the majority in that respect, his resignation has not only been sent in but accepted, and he is now no longer a member of this Government, I regret to say.

With reference to our two colleagues from the Province of Quebec, who have seats in this House, I must say that they showed a disposition to canvass and discuss and look thoroughly into the grounds of difference between their own views and the views of the majority of their colleagues, as expressed in the statement I made the other day to this House, and in the end these differences proved to be rather a misunderstanding—(ironical laughter)— than a real divergence of opinion—(ironical Opposition laughter)— as regards the principles that were involved. At the most, it was simply a question of disagreement as to detail. As to the question of principle that Remedial Legislation was necessary, and that it would be introduced by this Government at the next session of Parliament, to be called before the 3rd of January, in the event of the Province of Manitoba not making a reasonable and satisfactory settlement of the question. With reference to that, I say it was a matter of divergence upon details, and not upon principles. On the principle all were agreed, all members of the Cabinet stood side by side with me, my two hon. friends upon the left, and my hon. friends have been enabled—and wisely and patriotically, I believe, acted in that line—to see that it was a misunderstanding or a disagreement simply upon details, and they have been able to come to the conclusion that in the statement which was made on Monday last by me, the Remedial Legislation was actually and positively promised, and that there is no "variableness or shadow of turning so far." That is for the special benefit of Mr. Charlton, that there is no intention of going on single jot outside of that statement, and that our intention is to carry out in perfect good faith the statement of the Government on Monday last. Having come to that conclusion, my two hon. friends, the Postmaster-General and the Minister of Public Works, have believed it to be their duty, which they owe to their party, to their country and to the cause which they themselves have deeply at heart, to work in harmony with their former and present colleagues, and that we should stand together and carry out the policy of the Government in this way. I do not know that it is necessary for me to make any further remarks at present, and my hon. friend I know, is anxious to take the floor and make sundry and various observations. (Cheers.)

Sir A. P. Caron: Mr. Speaker, I have very little to add to the explanations which have been made by the leader of the House. The question is one of the gravest which Parliament has been called upon to consider since Confederation. Believing, as I do, that minorities must be protected under the constitution, and being anxious for a settlement of this school question, after repeated interviews, and, to my mind, satisfactory assurances from the Premier and my colleagues, I consider that, in view of those assurances, my refusing to help the Government in carrying out Remedial Legislation upon the lines of the judgment of the Privy Council and the Remedial Order in council, I would have been sacrificing the interests of the minority, and jeopardizing the settlement of the question. This induced me to continue to act with the Government, and secure, as I believe, Remedial Legislation in accordance with the pledges given by the Premier and the leader of this House. (Loud cheers, followed by Opposition cries of "Next!")

Mr. Ouimet followed, being greeted with prolonged cheers and counter-cheers. Speaking in French, he said: I do not think I need add much to what has been said by my colleagues. I must say, nevertheless, that if I am at the moment occupying the seat which I formerly held, it is solely due to the sense of the duty I owe my country, to my party, especially to the cause, the success of which I have so much at heart. If I am here, it is because I have become convinced, after the repeated assurances which my colleagues have given us, and the warm sympathies which have been shown us by all our friends, that in delaying the settlement of this question we are hereby rendering the more sure its settlement in a definite manner and in a manner satisfactory to the country and to all those who desire to see justice done, who love peace, and who are devoted to the well-being of their compatriots. (Cheers.) I can assure you, Mr. Speaker, that if I have ever had a duty to fulfil, the importance of which, and also the painful character of which I felt and understood, it is that which I am fulfilling to-day, and in which I may appear, perhaps, in the eyes of the public, as sacrificing for my own personal interests something of the interests of my country. However, Mr. Speaker, I am above all that. I am above the accusations which will be levelled against me in the Province of Quebec and elsewhere. I am prepared to endure those attacks, in the hope that we will have our reply in six months—in the session which will be held on the 3rd January next. If, in the course of those six months, I should be covered with opprobrium and insult, instead of being covered with flowers and greeted as a hero, I console myself with the hope that this question will then be settled, and that I will then have not only the consolation but the happiness of being able to say to my compatriots that to-day I, by yielding somewhat in what regards my personal dignity, I have done so in the interests of my country and of those I represent in this House. (Applause.)

Mr. Laurier here arose, amidst great Opposition cheering.

Mr. Speaker: Do I understand the hon. Minister of Public Works to move the adjournment of the debate?

Mr. Ouimet: No.

Mr. Laurier: I move the adjournment of the House.

Mr. Laurier: Once upon a time, Mr. Speaker, not very long ago, in a country which I need not name, there was a rumor prevalent that the cat came back to the cream. (Cheers.) Feline nature will assert itself, and to-day we have a small family of kittens coming back to the Premier. Only a few days ago they started upon what they represented to be a crusade for a holy cause. But after three days' experience in the cold, far from the kitchen, exposed to the inclemency of the season, they have come back to the cream. And at once I must tender my apologies to my hon. friend from East York (Mr. Maclean), who, in his paper, The Toronto World, two days ago had a paragraph which I read as follows: "The French Ministers are said to have resigned, but the resignations are not confirmed, and may be a bluff." I confess, Mr. Speaker, having French blood, and only French blood, in my veins, that when I saw that statement made concerning my French fellow-members, who represented the majority of this House in the Cabinet, that their game was only a game of bluff, I could not help feeling indignant against the hon. member for East York. I must offer my apologies for that feeling of indignation. If this was not a game of bluff, what was it? It was simply a misunderstanding, my hon. friend says. There was only a misunderstanding during these three days, in which the country has been kept in suspense. We had supposed there was a grave crisis. We had supposed that a deep chasm existed between the hon. gentlemen, who had thrown up their portfolios, and the majority of the Cabinet. But it was simply a misunderstanding. The members of the Cabinet had been sitting together and discussing the question before them, not for days only, but for weeks, and I may say for months, and the more they discussed it with a view to a settlement the less they understood one another. But one section, it so happened, remained inside, and the other section remained outside in the cold. That cleared their understanding and convinced them that there was nothing between them but a very little matter, which was not worth resigning over. What was the misunderstanding? I understood that the policy of the Government had been laid down on Monday last by the Minister of Finance. Here in an announcement, if I was able to understand plain English, plainly spoken, it was stated that at the next session of Parliament, to be called not later than the 4th January, if in the meantime Manitoba had not been brought to terms, there would some legislation introduced to give satisfaction to the minority. I understood that this was binding upon the Government, and if I had been a member of the Administration I would have

BIKES, BLOOMERS AND TRUSTEE BELL.

Mr. Trustee Bell, of the Toronto School Board, is posing as a sumptuary censor. His righteous soul is vexed with the transgression of one of the female teachers in the employ of the board, who has been guilty of riding a bicycle, "dressed in male attire commonly known as bloomers." Mr. Bell thinks this is a dreadful example for a teacher of the children of highly moral Toronto. It would seem that Mr. Bell is straining a point. He should imbibe the spirit of the motto: "Evil be to him that evil thinks." The degree of dress or undress is altogether a matter of custom and occasion. A lady's decollette corsage, that would attract no attention and invite no remark, except from a cad or a libertine, at dinner, would be immodest and in execrable taste at breakfast or a picnic. A lady's bathing costume, with the most moderate abbreviation of skirts, which would be all right at the sea shore, would be *shockingly* out of place as a street costume; but if it were the fashion for street wear it would, after the novelty wore off, be regarded as proper as a skirt with a train a yard long, and in fact it would be in much better taste. The essence of good dressing is to wear an attire suitable to the circumstances in which the wearer finds herself. On this ground bloomers are a perfectly proper dress for bicycling. A lady looks better, and feels better, in this attire than in long clinging skirts which are a clog on the freedom of her limbs, and a direct detriment to her enjoyment of an exhilarating exercise. If bloomers become fashionable they will become quite proper—*custom* will sanctify their general use, and Trustee Bell might as well try to abolish the use of looking glasses by women as to abolish bloomers for bicycling or the promenade, if fashion decrees their use. If fashion sets the pace women will ride it in spite of an army of Trustee Bells.

After all, outside the human heart there is nothing bad in the world. All articles, engoyments, etc., are intrinsically good; it is only improper use that makes them bad. And a sensible style of costume that is intended to serve the use to which it is put, cannot be made improper except by the inate suggestiveness of the hypercritical and over-righteous. Those who decry bloomers, worn with an honest motive for legitimate purposes, because their narrow standard is not met, might remember the reproof of the roystering Sir Toby Belch to Lady Olivia's puritanical steward. "Do you think because you are virtuous there shall be no more cakes and ale?" It is a mistake to attempt to restrain persons in the legitimate exercise of their rights and, especially a women, in a case where a question of attire, that is becoming and convenient and above all, sanctioned by a decree of fashion, is concerned—

For when she will, she will,
You may depend on't,
And when she won't, she won't
And there's an end on't.

It is safe to back the belles against the Bells in the bike-bloomer contest at any odds.

THE CHRISTIAN ENDEAVOUR CONVENTION.

The largest, if not the most important gathering ever convened on this continent is in session in Boston now, the annual meeting of the Christian Endeavour Societies. It is stated that fifty thousand delegates from every part of the United States and Canada are in attendance. These represent two and a half million members of Christian Endeavour Societies. One thousand speakers will deliver addresses and necessarily many of the meetings will be simultaneous. As an evidence of Christian earnestness and of the subordination of creeds to Christian progress, the Christian Endeavour organization is the moral marvel of the nineteenth century. And its growth is also wonderful. It has hardly completed its tenth decade, but it has accumulated a mass and gained a momentum that is simply unprecedented in religious movements. This wonderful progress can hardly be ascribed to merely human energy—it must have behind it the power that radiates from the lonely hill in Palestine, where the Founder of Christianity gave up His life that the world might have the life that pulses in the hearts of nearly all the peoples of the world. To human understanding the Divine approval rests upon a movement that has been so abundantly blessed, both in the millions of workers it has enlisted under its banner, and in the mighty work that has been accomplished.

THE SURRENDER.

The "No surrender" Premier has surrendered to Messrs. Ouimet and Caron, and the "cats have come back." These gentlemen have returned to the fold, having received in writing a pledge that remedial legislation would be introduced at the special session next January. From their point of view they are perfectly justified in holding the Government to its repeated promises. But the circumstances place the Government in no enviable light. They have paltered with this question and deserve all the trouble that has come to them through their shuffling and cowardly policy. It is a striking commentary upon the honour of Cabinet ministers that they cannot trust each other without a written pledge. Verily affairs in Canada have come to a pretty pass when we see such spectacles in the highest council of the nation.

TO-MORROW and to-morrow and to-morrow creeps in the petty pace from day to day, and all our yesterdays have lighted fools the way to dusty d—issolution. (Shakespeare, according to the Bowell edition.)

OVER six and a quarter millions of voters are entitled to go to the polls at the coming general election in Great Britain, divided as follows:

England and Wales	4,905,302
Scotland	625,628
Ireland	737,951

It is unfortunate that the liberal measure of the "one-man-one-vote" residential franchise has not been passed. Thousands of the rich men have the right to vote many times in the one contest, thus killing the votes or their less wealthy neighbours. The man, not the property should vote. The Imperial statesman in the matter of franchise should take a leaf out of the Ontario Franchise Act.

MR. HUGH RYAN, contractor for the Sault Canal has already received on account of the work, $2,391,352, and expects some $400,000 more, and it is reported that the work is far from complete, or of first class character. When asked in the Parliamentary committee, if he had since 1888, contributed anything to the election funds of the Conservative party he declined to answer. This was natural. And the strength of his determination not to answer would increase in an even ratio with the size of his contributions to the boodle fund. The Dominion Government acts in respect of its prosecution of public works as if the people's money were to be expended to keep them in power and not for the primary object of public expenditure, the public good.

THOSE who will not learn in the stern school of experience must be dull indeed. Hardly had the last echoes of the pitch in and disaster at Agincourt on the Midland and on the Grand Trunk at Weston, last February died away than we have the same terrible drama enacted on a larger scale on the Grand Trunk at Craig's Road, Quebec, by which fourteen were killed and double that number seriously injured. It appears that the accident was due to the fact that one train was allowed to leave its station before the train in advance had cleared the next station ahead. If this rule had been observed the accident could not have happened: "No train is permitted to follow a passenger train from a station until it has passed the next station ahead." This as a rule to prevent such accidents is as simple of application as the withdrawing one's hand from the vicinity of flame to prevent burning.

COMMENDABLE PROMPTITUDE.

A Resident of St. John, N. B., Makes a Successful Trial of Dodd's Kidney Pills.

St. John, N. B., July 8.—Mr. Robert Moore, residing in Indiantown, a suburb of this city, has recently made what is allowed by all who are acquainted with the facts to be a most remarkable recovery. He has been a sufferer from a serious complaint of the kidneys for over seven years, and during that time has suffered excruciatingly. He has also suffered considerably in pocket, having paid large sums for medical advice. Quite recently he happened to read of the many cures effected by Dodd's Kidney Pills, and with commendable promptitude made a trial of them, with the result that after taking three boxes of the remedy he was entirely restored to health.

Great Faith in it.

DEAR SIRS,—I have used Dr. Fowler's Extract of Wild Strawberry when required, and think it is the best remedy to be had for all kinds of Summer Complaints. It has never failed in our family to cure any summer complaint, so we have great faith in it. MRS. FRANK STEPHENS, Chatham, Ont.

Fifty years of success in curing diarrhoea, dysentery, cholera, colic, cramps, bowel complaints of summer and fall, etc., stamp Dr. Fowler's Extract of Wild Strawberry as the best remedy in the market. It saves children's lives.

Weak, Tired, Nervous

Women, who seem to be all worn out, will find in purified blood, made rich and healthy by Hood's Sarsaparilla, permanent relief and strength. The following is from a well known nurse:

"I have suffered for years with female complaints and kidney troubles and I have had a great deal of medical advice during that time, but have received little or no benefit. A friend advised me to take Hood's Sarsaparilla and I began to use it, together with Hood's Pills. I have realised more benefit from these medicines than from anything else I have ever taken. From my personal experience I believe Hood's Sarsaparilla to be a most complete blood purifier." MRS. C. CROMPTON, 72 Cumberland St., Toronto, Ontario.

"CEMENT OF OFFICE."

(Continued From First Page.)

been disposed to take this as a pledge binding upon the Administration.

But, sir, if I am to accept an interview which was published in The Montreal Star yesterday, my hon. friend the Minister of Public Works, for one, and I suppose my hon. friend the Postmaster-General also, were not satisfied with the pledge given upon the honor of the Crown by the gentlemen who were the representatives of the Crown. This is what appears in The Montreal Star of yesterday, in the form of a solemn interview with the Minister of Public Works. The Finance Minister told me the other day—and in that he repeated only what had been said before—that not much dependence was to be placed upon the utterance of ministerial newspapers. But this is an independent newspaper, and, moreover, the interview has such an air of authenticity that it is difficult not to believe that it is not perfectly genuine. The correspondence goes on to say: "I had an interview with the Hon. J. A. Ouimet, Minister of Public Works, this morning. He looked in splendid fighting trim." (Great laughter.) I may say this seems authentic enough. This would not be disputed: "Seated in his library, with Hon. Joseph Royal, ex-Lieutenant-Governor of the Northwest Territories, and Mr. Joncas, M. P., who had just finished breakfast with him."

Dr. Montague: What did he have for breakfast? (Laughter.)

Mr. Laurier: These details give an additional character of veracity to the narrative.

He said: "You may announce through The Star that unless the Government at 3 o'clock this afternoon brings in a written pledge, signed by every member, agreeing to Remedial Legislation next session, I will take my seat as an independent, and move a want of confidence motion." (Laughter.)

This language referred to yesterday, but yesterday my hon. friend did not appear in his seat; to-day, however, he appears in his seat, apparently satisfied. Who has signed the pledge? It was only a misunderstanding, after all, as we have been told by the Minister of Finance. The pledge had been given on the faith of the Crown, but that was not satisfactory to the Minister of Public Works, and he wanted the written signature of every member of the Cabinet. Well, to me, the honor of the Crown would have been sufficient. Not so to my hon. friend the Minister of Public Works. He wanted to have the individual signatures of my hon. friends the Minister of Finance and his colleagues. Has my hon. friend the Minister of Finance taken a new pledge? Has he signed the pledge? (Laughter.) If he has signed the pledge, who knows but at some future time he may say that he did so in a moment of weakness? (Opposition laughter.)

Has my hon. friend the Minister of Justice signed the pledge also? Has my hon. friend the Minister of Railways, the Rupert of this Dominion Parliament, signed the pledge also? Has my hon. friend the Secretary of State, who has just come through an election in Haldimand, signed the pledge also?

Dr. Montague: Before the people of my constituency I expressed my opinion on this subject, but the hon. leader of the Opposition in a hundred speeches has failed to express his opinion.

Mr. Laurier: Well, Mr. Speaker, if my hon. friend spoke so clearly in a hundred different speeches the Minister of Public Works is hard to satisfy if, after listening to all those speeches, he has to have the written signature of the Secretary of State. I have read those speeches of the Secretary of State, and the more I have read of them the stronger became my conviction that he had learned Talleyrand's famous saying that speech has been given to mankind to disguise thoughts. And my hon. friend the member for Huron (Mr. Patterson), fresh from a milder climate, has he also signed the pledge? And what about the Minister of Militia, has he also signed the pledge? And also my hon. friend the Controller of Customs—(Opposition laughter)—I apologise to my hon. friend; he is saved by his position from the necessity of giving his signature.

Now, sir, I imagine we have seen the last of this misunderstanding. There is a grave lesson, however, in all these proceedings, and the lesson is this, that these gentlemen who sit together as statesmen in the Government of Canada, why they have so little confidence in each other that unless they are backed in writing one of their own colleagues will not take their word. This is the Government of Canada that we have in this House. You may search in vain the annals of any British country, nay, of any civilized country, to find the like of that. There is one thing, however, which binds the hon. gentlemen together, and that is not the signature of the hon. gentlemen which was demanded by the Minister of Public Works, but the cement of office; and, sir, if such be the case, I now beg to move the adjournment of the House. (Loud applause.)

Sir C. H. Tupper spoke at length in reply to Hon. Mr. Laurier.

Mr. McCarthy followed. I am not, he said, concerned in answering the challenge, nor have I a right to answer the challenge which the Minister of Justice has thrown down to my hon. friends who sit on the Opposition side of the House, but I am here to say, speaking, I hope, still as a Conservative, as I claim to be, speaking in the name and as representing the feelings of a great number of gentlemen on this side of the House, on the matter—(Conservative cheers)—we shall see before the session is over whether my statement in that regard is correct or not; but we know now, at last, where the Government stands and where the Government stands unitedly. I cannot, for my part, understand what this three or four days' trouble has been about, what this difficulty has been, if the explanation which is offered to the House is all that is to be told about it. Why, sir, a very clear and definite statement was made to this House on Monday last that the Government would call an early session for the purpose of implementing the Remedial Order by a bill which the Government, as a Government, would press to a conclusion. But we are told now that, because the Government intimated that they would correspond with the Province of Manitoba, and endeavor to see whether Manitoba would obey the order and comply with it, or, rather, do what was just to the minority, a misunderstanding arose. Was that misunderstanding justified? Was there any secret statement made? Was there any subterfuge on the part of the majority which gave rise to the course taken by the hon. Postmaster-General and the hon. Minister of Public Works? The pretence is that the majority of the Cabinet might have accepted something else than the Remedial Order, something less than the contemplated bill, and if that was the idea which prevailed, if that was the subterfuge which underlay the statements, they think the hon. gentlemen from Quebec were right in having an explicit statement and an explicit and clear understanding with their colleagues, and I cannot imagine there could have been anything less than that subterfuge, or we would not have had three or four days' interregnum.

Now, we know where we are. The province which has told us in plain but yet in firm language, in answer to the order of His Excellency, that they will now take the responsibility of carrying that order into effect, is to be invited again to stultify itself, and to say that it will carry the order into effect. We know perfectly well that that is hopeless. And what of the 39 gentlemen from the Province of Ontario, who have told the Government that they were not prepared to endorse and support the Government which will carry out the Remedial Order by a bill in this House? These gentlemen have now, it seems, to give in to their leaders from the Province of Quebec. These gentlemen, who brought their pressure to bear with such effect that the Government dare not introduce a Remedial Bill this session, although the bill was ready cut and dried to their hands, and has been since March last, these gentlemen are now, forsooth, to take what is administered to them (for the second time in the history of this Parliament), from the Province of Quebec. They are to take the statement made here by the Minister of Finance, and the deliberate answer given to the question of my hon. friend from Jacques Cartier (Mr. Girouard), that there is to be a pretence of asking Manitoba, that which it is known Manitoba cannot comply with, and then the great Conservative party, forsooth, is to be pledged in the interest of minorities to force upon the small Province of Manitoba, through the Federal powers, a hateful school law, which, I trust, will never by this Parliament be placed upon that or upon any other community.

Mr. Joncas: I do not reproach the Government, but, putting this fact and others together, I see no hope of a settlement of the school question.

Mr. Jeannotte said he would vote with Mr. Joncas, not that he had any confidence in the Liberals, but he wished to punish those who had not settled the difficulty.

Mr. McNeil and Col. Denison gave notice that they would oppose Remedial Legislation.

Mr. Belley (Conservative) said he would vote against the Government for the reasons given by Dupont.

Mr. Beausoleil entered into a review of the school question and the circumstances which led up to the present situation. He said Mr. Ouimet had declared in his presence in Vercheres County that Remedial Legislation would be passed this session. Now it appeared that the French Ministers had weakened in face of the threats of the 40 Ontario members who would vote against Remedial Legislation. (Opposition cheers.)

The House then divided on Mr. Laurier's motion to adjourn, which was negatived on a vote of 116 to 82, a majority of 34 for the Government. Messrs. Lepine, Joncas, Dugas, Turcotte, Jeannotte, Dupont and Belley (Conservative), together with McCarthy and O'Brien, voted with the Opposition.

A Marvellous Result.

Mr. A. R. took out ordinary 10 Pay Life Policy No. 6332 in Canada Life Co. for Five Thousand Dollars in the year 1868. He was then 25 years of age.

The Premium paid was $181 a year for 10 years.....$1,810.

Notice the Result.

The total profits added to the Policy to end of 1894 and for which he holds a certificate amounts to the enormous sum of.....$3,281

The holder therefore has been credited not only with every cent paid for premiums, but also Fourteen Hundred and Seventy One Dollars in addition, besides receiving a fully paid up policy for the original Five Thousand Dollars, which still participates in profits.

Now This is What we Want to Know!

This is a Peterborough Policy! Is there any citizen of Peterborough with an ordinary 10 Pay Life Policy either in Canadian, British or American Co, which shows anything like as large profits as this one?

If there is, we should esteem it a great favour if we are allowed to see it, as we have been looking for such a one for years and so far have not been able to find it.

The Fruit Crop.

A Toronto fruit merchant is authority for the statement that the crop of plums this season will be a short one. This will be rather sorrowful information to the ladies whose duty it is to see to the stocking of the larders, as plums are a favourite fruit for putting down. It is said that in some sections of the country, where there has usually been a good crop, there is none at all to speak of this season. Peaches also are reported as short, but to what extent is rather problematical as yet. To the frost is to be attributed to a great extent the failure of the crop of this fruit.

A Rose by any Other Name.

Would smell as sweet. It's not the name but the thing which the name stands for, which counts. It is not the high priced label on the bottle, but the wine in the bottle, with which the public is concerned. And yet the wines are excellent. They have age; they have robustness; they have bouquet. Wine for the poor man at last; a wine which will not hurt him, but rather build him up. THE GRAY CASE.

The Prisoners do not Make an Appearance in Court.

County Magistrate Edminson remanded Thomas and Hessie Gray this afternoon until Tuesday next, at 12.30 o'clock, when they will be given a preliminary hearing. Quite a crowd had gathered in the court room and were considerably disappointed at not seeing the prisoners.

SERIOUS ACCIDENT AT THE G. T. R. STATION.

John Hoben is Pinned to the Earth by a Huge Stone.

Mr. John Hoben, of Cedar street, one of the many teamsters employed in drawing the stone for the Rosa's bridge from the flat cars in the Grand Trunk yards here met with a most serious accident at about ten o'clock this morning.

Mr. Hoben had just succeeded in placing a very heavy stone on his wagon from the car, and standing on top of it was just about to drive off when the stone moved on the rollers on which it was placed on the wagon and threw him to the ground. Before he could move away the big stone was on top of him and pinned him to the earth.

As the Orange excursion train was just being loaded up there were plenty of men around willing to lend a hand and the great weight was lifted off the unfortunate man, who, though he suffered intensely, never gave way or uttered a groan.

G. T. R. Station Agent Hayden instantly telephoned for a hack and Mr. Hoben was taken to St. Joseph's Hospital, with Drs. Pigeon, King and Brennan in attendance.

An examination showed that a comminuted fracture of the thigh bone had been received as well as a fracture of the knee-cap. The fractures were reduced and the leg placed in splints, but it will be many weeks before Mr. Hoben will be able to leave his bed.

Father Scollard, hearing of the accident, drove to the station and it was an unusual sight to see the wearers of the gay regalia of the Orange Order shoulder to shoulder with the good priest in endeavouring to allay the sufferings of the injured man.

INQUEST ON MRS. KENNEDY'S DEATH.

Breaking of the Harness the Indirect Cause of the Tragedy.

The adjourned inquest on the death of Mrs. Kennedy, of Hope, who was killed by being thrown from her buggy on Tuesday, July 2nd, was continued yesterday at Baillieboro.

Dr. Greer, from town, was present and submitted the result of a post mortem examination, which showed the cause of death to be from the effects of a violent blow on the head, driving in a portion of the skull about two and a half inches square. The doctor ventured the opinion that such a blow could be caused by a kick from a horse.

The object of the inquest, as stated before, was to ascertain if the township was in any way responsible for the death. The jury after hearing the evidence brought in a verdict stating that the death was the result of a runaway, caused by some part of the harness giving way at the top of the hill. The parties leaving the rails in the ditch were censured, and the jurors recommended that the law regarding the placing of obstructions in the road be hereafter more rigidly enforced.

Centreville Presbyterian Church.

"We took a drive out to Centreville on Sunday evening last," says the Millbrook Reporter, "and heard the Rev. Mr. MacWilliams, of Peterborough, preach the anniversary sermon in the Presbyterian church. He gave a powerful sermon to a large audience. We must congratulate the Presbyterians upon their handsome and commodious place of worship, and their excellent choir, whose service of song added much to the spirit of the meeting. We were also struck with the preponderence of good looking ladies in the congregation."

The Planet Venus.

This planet which has for some months adorned our evening skies, is about to leave us. Yesterday morning she was to have reached her greatest elongation east of the sun, but as her position will be about eleven degrees south of the sun's place, she will not be so favourably displayed as in recent months. The planet in her orbit will now come towards us, as she will pass between the earth and the sun in September. Though she will, to us, appear to approach the sun, eventually to be lost in his rays, her brilliancy will increase until the 14th of August, when she will set only forty minutes after the sun.

TWELFTH OF JULY OVER IN MILLBROOK.

PETERBOROUGH CONTRIBUTES A BIG CROWD.

Almost a Thousand Took the Grand Trunk Special This Morning to Assist in Celebrating the Day—A Brilliant Pageant.

It apparently needed more than the very ominous appearance of the skies this morning to dampen the ardent spirits of King William's followers and their wives, children and sweethearts, as every incoming train contributed its quota to the crowds which had arrived in town earlier by driving in from the country. Since early morning the streets were alive with the local members of the Orange order, who were kept busy in receiving their brethren of the country lodges. The Fire Brigade band which had been engaged for the occasion escorted the members of the outside lodges as they arrived, to the local Orange headquarters.

The lodges along the Lakefield branch of the Grand Trunk disembarked at Ashburnham, and headed by the band marched gaily over into town to the tune of the Protestant Boys.

THE SPECIAL TRAIN

taking the Orangemen to Millbrook left the station at half past nine and prior to that time the streets were alive with gaily uniformed Young Britons, Loyal True Blues, Black Knights of Ireland, etc. and their bright and glittering jewels on their sashes and collars made the scene a gay one. The ladies wore favours of orange ribbon and a bright bunch of orange lilies adorned more than one waist belt.

The procession which took place in town was headed by County Master Edward Kemp, of Peterborough, and District Master H. S. Armstrong, Peterborough District and Wm. Dunsford, District Master of Lakefield. The lodges followed in the appended order:

Peterborough Band.
L. O. L. No. 80, Bro. Jos. Jones, W.M.
Lakefield Band.
L. O. L., No. 49, Bro. J. Hamilton, W.M.
Smith Band.
L. O. L., No. 321, Bro. J. Saunders, W.M.
L. O. L., No. 457, Nassau,
Bro. Robert Campbell, W.M.
L. O. L., No. 178, Smith, Bro. J. Ackison, W.M.
L. O. L., No. 122, Lakefield,
Bro. Wm. Preston, W.M.
L. O. L., No. 1365, Lakefield,
Bro. T. Bickle, W.M.
Rising Sun, Loyal True Blues, No. 7,
Bro. George Duncan, W.M.
Queen's Own True Blues, No. 48,
Bro. Wm. Tremain, W.M.

IN THE PROCESSION

were Bros. Joseph Batten, County Marshhall; Bros. S. B. Weir, Deputy District, Peterborough District; Bro. W. Chase, District Deputy of Lakefield, and Bro. R. Weir, Supreme Grand Master Royal Black Knights of Ireland.

Preceptory No. 261 Royal Black Knights of Ireland was headed by Bro. Joseph Saunders, Preceptor.

The able Marshal for the occasion was Bro. Geo. W. Hall, County Director of Ceremonies.

The procession was a brilliant pageant, indeed, the chief officers being mounted on white chargers, and every participating member being arrayed in fine regalia, with silk hats. The worshipful masters walked ahead of their respective lodges, bearing the charters and followed by the standard bearers, supporting many beautiful banners owned by the individual lodges.

There was considerable delay caused at the station, owing to the fact that the local Orangemen

HAD VASTLY UNDER-ESTIMATED

the crowd which would go to Millbrook from the Peterborough and Lakefield districts, and in consequence extra coaches had to be procured to accommodate all who wished to go. Between eight and nine hundred residents boarded the train, whereas not more than five hundred at the outside were expected. Though extra coaches were attached to the train many of the passengers had to stand in the aisles of the cars. Had the day been brighter it would have put the Grand Trunk to a severe test to provide transportation. It was almost half-past ten when the train pulled slowly out of the station for Millbrook, leaving quite a crowd on the platform, who will go on the regular train at noon.

If the rain holds off the day will doubtless be a red letter one for Millbrook, but it is safe to predict that the members of the many rural lodges which are in attendance would be more than willing to take a wetting provided their crops were also accorded a liberal drenching. A rain today would mean thousands of dollars in the pockets of Peterborough's farmers.

In the procession the new banner carried by Col. Saunderson's Ulster Heroes, was particularly admired.

NEWS NUGGETS

Paragraphs Picked Up and Pencilled for Public Perusal.

—Prof. Lee, the hypnotist, presented a most enjoyable entertainment last night at the Opera House, and will put on a game of hypnotic baseball to-night.

—Thos. Williams was up before the Magistrate this morning, charged with allowing his horse to run at large. He was dismissed with a warning.

—The Mission Band of the George street Methodist church, to the number of about forty, picnicked yesterday afternoon in Jackson Park. Mrs. Kendry and Miss Butcher, the officers, were in charge, and a most enjoyable afternoon was spent.

—Mr. D. Lunday was to-day served with a subpœna to attend the police court in Toronto to-day, to give evidence concerning the dress suit which was stolen from his premises on Dominion Day, and recovered in the possession of a Toronto crook by the police of that city.

To Finish Up.

In about another week we expect to desert our present store to occupy our new and most commodious premises, now nearing completion in Burnham's block. In the meantime we will have plenty of excellent bargains every day before removing. A lot of new and desirable lines not intended for sacrifice have been turned out on our bargain tables, such as waterproof coats, umbrellas, etc. These, together with a large quantity of gentlemen's furnishings, shirts, underwear, gloves, suspenders and short lengths of splendid cloths, will be cleared out at prices to save removal. THE MURRAY STREET BAPTIST CHURCH.

The Children Excurt to Jubilee and Have a Most Pleasant Day.

Of the many picnics down the river this year, that of the Murray street Baptist Sunday School yesterday proved one of the most enjoyable. It was well patronized and the children had a more than pleasant time at Jubilee.

The races, which took place after a liberal dinner had been enjoyed, were most interesting and resulted as follows:

Girls under 7—1 doll, Lela Haskell; 2 ball, Ruby Mimma.

Boys under 7—1 mouthorgan, F. Hall; 2 watch, W. Graham.

Girls under 10—1 brooch, Mary Trotter; 2 beads, Velva Hunter.

Boys under 10—1 ball, H. Ellis; 2 knife, Joe Kemp.

Girls under 13—1 cup and saucer, H. Trotter; 2 fan, M. Anderson.

Boys under 13—1 hard ball, J. Ellis; 2 soft ball, G. Hardell.

Boot race—1 crayons, W. Kemp; 2 doll, J. Ellis.

Girls under 18—1 cup and saucer, M. King; 2 pencil, A. Walton.

Boys under 18—1 cuff buttons, B. Hutchinson; 2 knife, J. Ellis.

Girls three legged—1 2 silk handkerchiefs, Velva Hunter and Birdie Taylor.

Boys three-legged race—1 two balls, W. Kemp and J. Ellis.

Consolation race—1 10c, Alf Kemp; 2 ball, Bert Hardell.

Refreshments were again served on the return trip and the City of Peterborough arrived at her wharf between eight and nine o'clock with a thoroughly pleased crowd of excursionists on board. The many beautiful water lilies brought home were a subject of considerable comment.

Re. Violation Separate School Act.

To the Editor of the Examiner:

DEAR SIR,—My name appeared in your issue, 9th inst., concerning a supposed violation of the Separate School Act, Sec. 42. Having by means of a written request obtained a certified copy of the statement read by the Reeve at the council board, I desire the public to be correctly informed. In compliance with the public school monthly report on the 4th January, I wished to consult the principal and received the following written replies: "The questions in physiology have been mislaid, hence I cannot mark the answers. However it makes no material difference." January 11th—"Miss Burt has just shown me your note about detaining Connie at home until I comply with some demand of yours—what you now expect me to do is more than I can understand, but perhaps you can explain it to me if you see fit—M. W. Matchett." Endeavouring to do so I communicated with the chairman of the Board but received no reply and wrote the Public School Inspector with same result. On 13th June I appealed to test my financial and religious status, thus, all of which is respectfully submitted for the decision of His Honour the County Judge. By inserting the above once in your daily and weekly papers you will oblige,

Yours sincerely,
HUGH SPEARS.

RE TOWN TREASURER.

To the Editor of the Examiner:

SIR,—I observe that you and some correspondents of your paper object to unite the offices of Town Clerk and Town Treasurer. I entirely agree in the opinions expressed. The check of the Clerk on the Treasurer is very important, and should not be lost by making one incumbent for both offices. I also notice that a clerk (Accountant) in the bank in which the town's money is deposited is applying for the position of Treasurer. An appointment of that kind would be altogether improper. Judges have, before this, in reference to other municipalities, condemned most emphatically such appointments when brought to their notice. The reasons for this are obvious to the least thoughtful, and under no circumstances should the applications of persons, connected with the town's banker, for Treasurer, be entertained. If possible, it would be worse than giving the dual position to one officer.

Your obedient servant,
OBSERVER.

Revival of Trade.

Reports from the United States support the view that trade interests have vastly improved recently and that the business outlook for the future is encouraging. This will be welcome news to the people of Canada, since our trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Painless Corn Extractor Times being dull everything not absolutely needed became a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proven the only safe, sure, and painless remedy for corns.

Leave Your Orders.

The earlier the better, if you want cherries, currants, gooseberries and raspberries. The crop is short and the demand is large. Everybody served in their turn. You can get watermelons, pineapples, oranges, lemons, etc., fish and vegetables in abundance, now and during the season.

CHALLENGE TO THE GORCERY CLERKS.

Owing to several challenges which the grocery clerks have given to the clothing clerks since the disputed hookey match of last winter the clothing clerks do hereby challenge the grocery clerks for a game of lacrosse to be played on any grounds in the town for fun, money or marbles. If the grocery clerks wish to prove their superiority, it will be hoped that they will arrange a match at a near date as the clothing clerks' lacrosse team intend taking a tour through the eastern provinces and playing matches with some of the senior teams. The grocery clerks if they have any sand in them, can arrange a match with the undersigned.

PETER CORKERY, Capt.
GEO. BARKWORTH, Sec.
July 12th, 1895.

LACROSSE.

In speaking of the Port Hope vs. Cobourg lacrosse match, which took place Wednesday, the Guide says:—

"The Port Hopers took the first two games in about nine minutes play. Forty-four minutes it took before Umpire Britton's hand went up awarding the game to Cobourg. The Ontarios scored their third game in about five minutes. The remaining five minutes was played without either team scoring.

"From a spectator's point of view is was a nice game of lacrosse, characterized by the best of good feeling, and rough or foul play was happily conspicuous by its absence. The one noticeable feature of the match, however, was the weakness of the home division of the Ontarios. The absence of Weir and Coleman would account for this in some degree, but holding the ball and circling the flags instead of passing was so prevalent that it became monotonous.

There has got to be a decided change in the tactics of some of the Ontarios if the approaching games with Peterborough and Madoc are to be won. One instance of the play will suffice to explain the remark:—A certain player gets the ball, circles all around the flags, gives the opposing defence time to mass and instead of passing to a man uncovered near the flags transfers the rubber to some one at centre field.

This play lost opportunity after opportunity to score, and will continue to do so until it is shut down on. Every other man on the home division does this kind of work. The defence have played ragged lacrosse all season, and the team as a whole are not up to last year's standard.

QUOITING.

The Heather Quoiting Club, of Toronto, have challenged any ten men in Canada to play a friendly match on their grounds on a date to be mutually agreed upon; will also agree to play a return match. Address J. J. Coulter, Secretary, 12 West Market street.

THE BLACKFOOT RESERVE.

Miss Turner, of Millbrook, Returns From the West.

(Millbrook Reporter.)

Miss Turner returned last week from the Blackfoot reserve where she had been engaged in the English church Mission during the winter. She brought with her a thoroughbred young Blackfoot boy, aged one year, whose mother had died and thus the youngster was left to the tender mercies of the mission. The ever present newspaper reporter (from the Globe office) was doubtless struck with the novelty of the travelling pair at Toronto on the home journey and managed to make out of a short interview, a four column sensational report for that journal. Whether Miss Turner felt flattered by so much prominence we are unable to say, at the time, the matter of the uprising having also been brought up in parliament as a result of the interview, but the account of the uprising amongst the superstitious red man in that far west part of our Dominion is interesting, although much to be regretted. The mission is closed in the meantime, but we hope the self denying work of Rev. Mr. Tims and his associates there may not be entirely lost.

THE SITUATION AT OTTAWA.

And the cats came back. Hon. Mr. Ouimet boasted that he could command, and circumstances have shown that his boast was no idle one. He has brought Premier to his knees and secured a promise in writing to the effect that remedial legislation will be brought in at a special January session, and in consequence Mr. Ouimet and Sir Adolphe Caron have resumed their places in the Cabinet. It is difficult to say what other influence has contributed to the reconciliation. Hon. Mr. Angers, the other bolting Quebec minister, has stayed out, and his doing so is neither here nor there. He brought little influence to the Government, and he takes little away. In order to show how sorely pressed the Government is to keep its ricketty ranks unbroken, the most probable successor of Mr. Angers spoken of is Sir Hector Langevin, who controlled a corrupt department, which his successor kept up to the same mark. It is a pity that Mr. McGreevy's claims are overlooked. He possesses to a high degree the qualifications demanded in a Conservative cabinet minister. But the trouble is not over at Ottawa yet. The Government has made a cast-iron pledge, which it will have no little trouble to carry out. But after its long series of broken pledges that will be but a small matter, except for the fact that their failure to implement their pledge will plunge them into new trouble.

Old Men and the Bicycle.

Not less pleasing than the sight of the young women and young men on their bicycles is the sight of the old chaps. Lots of graybeards can be seen along the up-town avenues wheeling at a speed that must be admired. Two or three of them challenged a squad of their juniors to a race yesterday, and beat them badly, beat even the energetic damsels who joined in the race. They sat erect, got a good grip, and worked their thews from the finger tips to the shoulder blades, from the big toe to the ilium, and even, it seemed, up to the ribs. A determined old chap on a bicycle can often give points to the youngsters.

A good time for bicycling at this season of the year is the early morning, as early perhaps, as 4 o'clock, when the air is cool and the weather fair. One may start at that hour, or at 5, after a solid sleep of eight or nine hours, and after taking a cup of coffee, or a tumbler of hot water, with a crust of bread or a hrad ship cracker, or, better still, a half of one of those little round, hard and crisp crackers. It is best not to take too long a run then—well, say a half hour's run; for the business of the day must be attended to, and one should not waste his strength before beginning it. It is far better and healthier for a bicycler to go out soon after dawn than at night, when it is dark. A spectacle of 5,000 or 10,000 wheelers, men and women, on the Boulevard, at 5 or 6 o'clock in the morning, would be worth looking at.—New York Sun.

The First Railroads.

The Stockton and Darlington line in England (the first complete railroad in the world), was open for traffic on the 27th of September, 1825, and one of Geo. Stephenson's engines was tried. It was attached to a train consisting of six waggons loaded with coal and flour; after these came twenty-one passenger coaches, and, lastly, six more waggons of coal, making in all a train of thirty-eight vehicles. The first railroad in America was the Mohawk & Hudson railroad. The length of this road was sixteen miles, and it extended from Albany to Schenectady, N. Y. A charter was granted the company until 1830. It was finished in 1831. Both locomotive engines and horses were used on this road. At first stationary engines were used. They were placed on the top of the hills, and the train was hauled up the hill or let down, by a strong rope. The brakemen used hand-levers to stop or check the train. The first steam railroad passenger train was run on this road in 1831. The engine was named John Bull. It was imported from England; its weight was four tons. The engineer was John Hampson, an Englishman. Among the fifteen passengers who rode in the two coaches were James Alexander, president Commercial Bank; Charles E. Dudley, of the Dudley observatory; Jacob Hays, high constable of New York; ex-Gov. Joseph C. Yates and Thurlow Weed.

Pale Pink Gowns for Evening Wear.

Pale pink is the popular color in undressed kid gloves for evening wear, and pale yellow and very light tan are worn in the afternoon, with a darker shade of tan for morning and traveling. To be quite fashionable all gloves must fit loosely. Summer gloves for bicycling purposes are of silk and lisle thread, with leather on the inside of the hand to make them serviceable.

Ontario Cricketers in Philadelphia.

Philadelphia, July 10.—The Ontario cricketers started their final match scheduled for this city at Haverford today, their opponents being a strong Merion Cricket Club team. Captain Saunders' time was not successful in calling the fall of the coin, and as a result the home team had a wicket to bat on which proved to be a good run-getting one, the inning putting on 284 runs, the largest score yet made against the Canadians in this city. When the visitors took the bat there was little playing time remaining, but they were able to get 38 runs for one wicket before stumps were drawn, Saunders and A. F. R. Martin being not out for 12 and 15 respectively.

Gladstone's Message.

London, July 9.—The Westminster Gazette a few days ago asked Mr. Gladstone to write a message to the people, to be displayed upon magic lantern slides, together with cartoons and election news, at the National Liberal Club. Mr. Gladstone complied with the request by sending the following: "Hawarden, July 5, 1895.—Above all other present purposes, vindicate the rights of the House of Commons as the organ of the nation, and establish the honor of England, as well as consolidate the strength of the empire, by conceding the just and constitutional claims of Ireland."

MAKING GOOD CHEESE.

The record of the Vermont Station dairy herd for the year seems to warrant the following conclusions:

First—The average annual cost of keeping a dairy cof is $38.

Second—A herd of cows bred on dairy lines, well fed and carefully handled, will produce on an average 6,400 pounds of milk per year at a cost of 62 cents per 100 pounds and 12 1-2 cents a pound for butter fat.

Third—A herd of good dairy cows well fed and carefully handled will produce on an average 300 pounds of butter fat each year, which is equivalent to 365 pounds of butter per cow.

Fourth—The average cost of a pound of butter will be 10 1-2 cents.

Fifth—Taking the entire herd the average cost of a pound of butter fat during the winter months is 13 9-10 cents.

Sixth—The productive capacity of a cow depends more upon type and conformation than upon size or breed. Those of the beef type produced butter fat at a cost of 17 -12 cents per pound; those carrying a medium amount of flesh produced butter fat at a cost of 15 1-10 cents per pound; the spare cows lacking in depth of body produced butter fat at a cost of 14 6-10 cents per pound and the spare cows having deep bodies produced butter fat at a cost of 12 1-10 cents per pound.

What is a "Quick Meal" Gas Stove?

It is a solid, but light, pretty contrivance, fed with gas instead of coal or wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. They are made of cast iron and wrought steel; nicely japanned and handsomely ornamented with fine nickel-plate and tile. The price of a small "Quick Meal" is small and the cost of gas is but little. All expense ends with extinguishing the flames We would like to have it understood "RIGHT HERE," that on a "Quick Meal" you can accomplish the same as on the best wood or coal stove, baking, roasting, broiling, cooking, washing, ironing and everything else. THE GLOW NIGHT LAMP.

It is an established fact that there has never been a night lamp on the market that was odorless, and most of the night lamps that are sold to-day absolutely poison the air in a close room. THE GLOW LAMP is the only night lamp that positively emits no odor when in operation, and is the only night lamp that should ever be used when it is necessary to burn a light all night, as for instance in the nursery or sick-room. It is a miniature gas-house, gasometer and gas-burner combined, automatically making and consuming its own gas.

One pint of kerosene, at a cost of about one cent, will give a pure, healthy, clean light for two hundred or more hours; i.e., twenty-ten hour nights. Sold only by

READ BY THE MOUTH.

LIVES OF MEN AND WOMEN REVEALED BY THEIR LIPS.

Many Historical Examples—Beware of the Rosebud, But Pin Your Faith to Her of the Mile Mouth.

Let me look at a man's eyes and I will tell you what he might have been. Show me his mouth and I will tell you what he has been." Thus wrote an Italian of has been." Thus wrote an Italian of the fifteenth century, and a wiseacre of his day, for it is certain that no feature of the human face so reveals the past life of its possessor as the mouth. If you are not already skilled in the physiognomy of the mouth, you will find it an interesting study. Mark, if you will, the irrefutable record of indulgence and loss of will power of the drunkard's mouth—see the weakened,

GEORGE SAND.

tremulous lower lip, the downward curves at the corners, with the flacid droop and the tendency of saliva accumulations which degenerates into drooling when the unfortunate is deep in his cups. Drunkenness leaves its traces all over the face—in the eyes, the skin, the bloated, changed contour—but on the mouth it writes its tragic story in a silent language which admits of no argument. Under the hateful spell of alcohol the most brilliant of mental giants will lose the muscular control of his mouth, and the droop of the lips is the inevitable result of the relaxed muscles. Firmness and self-control are denoted by the rigidly compressed lips—the very opposite by the relaxed condition of the mouth of the tippler. Great

VENUS DE MILO.

acts of physical and mental courage are performed always with sternly closed lips. Imagine either a Sandow performing one of his herculean feats or a Nathan Hale yielding up his life for his country or a Lincoln signing the document which loosened the chains of a race of human beings with a half open mouth or with drooping, flaccid lips.

The gaping mouth, or, as the French call it, "bouche beante," frequently seen in children and too often also in young men and women, is not to be confused with the drunkard's mouth—it is indicative of stupidity alone. The boy or girl with the gaping mouth is always in a state of surprise—they usually stumble over every possible obstacle and never, by any chance, look

VENUS DE MEDICI.

whither they are going. They are frankly tiresome, and blunder in and out of life, having served no particular purpose, unless it may be to develop the patience and resignation of all who come in contact with them. The gaping mouthed species are usually endowed with clumsy feet and hands, and are continually destroying order and symmetry wherever they come in contact with it. They frequently are gifted with long upper gums and short, small teeth. The "bouche beante" never can keep anything; they lose every chance, literally. Children should be trained to keep their mouths closed, except when speaking or eating.

In direct contrast to the stupid, gaping mouth is the retreating mouth, with thin lips, indicative of shrewdness, amounting frequently to deceit. The possessors of such mouths are reticient, sharp, and often very caustic

ADA REHAN.

and cynical Voltaire had this mouth. This same mouth, with the lips thin, and tightly drawn over the teeth, forming, when closed, a straight line across the face, indicates great order, exactness of detail, economy and avarice. The French characterize this as the "old maid's mouth." The sensual mouth is full, large, the lips thick and red, the under lip drooping—this is the mouth of Oscar Wilde. Much modified, but of the same type, was George Sands' mouth.

The perfectly beautiful mouth of the Greeks is of medium size, bow shaped, the lips neither thick nor thin, the expression in repose dignified and tender. The Venius de Milo has such a mouth, revealing in every adorable curve the gentlest, noblest, most beautiful type of womanhood. It is a mouth to trust one's very soul to; happy the man whose heart is in the keeping of a woman with the Milo mouth, and unfortu-

nate the mortals who have staked their life's peace on the woman with the tiny rosebud mouth in a Medici. Beware of the rose bud mouth in a mature woman. It indicates cruelty, deceit and utter and complete selfishness, and, with drooping corners, a catlike slyness which leads its possessor to torture human beings precisely as a cat will torture a mouse. Women with very small mouths usually have also tiny, shell-like ears, small, grasping hands, with little, eager-pointed fingers and small wrists, and often beautifully formed and aristocratic feet, with tiny ankles and pretty insteps. Look out for them; and if, with the tiny mouth and pretty hands and feet, you find near-sighted, round and convexed pale blue eyes, shun their owner for your life; such a mouth and such hands and feet and such eyes had Lucrezia Borgia. Such women have usually small, cat-like teeth also. I never knew but one woman of just such a type. She was worthy of her physical attributes. One man whom she had ensnared and cast off shot himself through the heart outside her door, and the unfortunate

MRS. JAMES BROWN POTTER.

whom she married cut his throat within a twelve-month after he linked his fate to hers. Two young relatives intrusted to her care are inmates of madhouses, and she herself thrives physically, like a poisonous plant, in the noxious atmosphere of her own creating, which is death to purer natures.

A celebrated physiognomist declares in the following bitter language, a very small mouth the worst of afflictions:—"There never was," he says, "a very small mouthed person with a frank, honest nature and loyal spirit, and the women who "make mouths" always do so to wheedle and deceive and always in the operation contract their lips—the very act of false representation is usually accompanied by a contraction of the mouth—the smaller the mouth the less of an effort for it to bear false witness. Never select a small-mouthed man or woman for a position of trust

or honor—they are betrayers naturally. Men and women with medium-sized mouths are, following the usual course of "le juste milieu," more reliable—

AYER'S Hair VIGOR

Restores natural color to the hair, and also prevents it falling out. Mrs. H. W. Fenwick, of Digby, N. S., says:

"A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. FENWICK, Digby, N. S.

Growth of Hair.

"Eight years ago, I had the varioloid, and lost my hair, which previously was quite abundant. I tried a variety of preparations, but without beneficial result, till I began to fear I should be permanently bald. About six months ago, my husband brought home a bottle of Ayer's Hair Vigor, and I began at once to use it. In a short time, new hair began to appear, and there is now every prospect of as thick a growth of hair as before my illness."—Mrs. A. WEBER, Polymnia St., New Orleans, La.

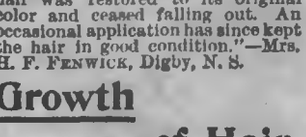
they are rarely people of great genius, but are even tempered, honest, truthful and steadfast. You may pin your faith to the owner of a medium-sized, well-formed mouth."

A large mouth denotes generosity—and where the upper lip projects a little over lower, a disposition to prodigality. The bow-shaped mouth with upward curves at its corners indicates vanity, self-conceit, haughtiness and pride. Such a mouth was the most notable feature of the aristocratic face of Lady Hermione Duncombe, the Duchess of Leinster. A witty Londoner one day spoke of the beauty as "Lady Admire Me Duncombe," and the sobriquet clung to the cold and beautiful



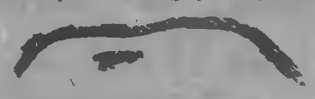
LILIAN RUSSELL.

Duchess through life. Emma Eames has a perfect mouth of most patrician form—every line speaks of purity, pride and tremendous self-respect. The projecting mouth, when extreme, is called by the French "donkey jaw" and denotes stupidity and often gross brutality. With this "donkey mouth" you may look for a receding forehead. The equine or horse mouth projects slightly, is broad and big and filled with large sized, rather long teeth. This mouth denotes courage, intelligence, force and power. George Eliot had an equine mouth, and in a modified form has Henry Irving.

It is not a beautiful mouth, from an aesthetic point of view, but it often

MRS. LANGTRY.

accompanies genius. Mme. Recamier, the most beautiful woman of her day, had a small mouth, "opening like a flower," and a smile of transcendent loveliness. Adelina Patti in her prime had a beautiful and gracious mouth, neither strong nor forceful, but sweet and womanly. Cora Urquhardt Potter, Jane Hading and Sarah Bernhardt have the poetic mouths of our contemporan-women. Such a mouth had Sappho and Aspasia and Rachel—mobile to the most exquisite degree, but never descending to sensuality. Mrs. Langtry, fifteen years ago, had a mouth such as one sees in the statues of Greece in its golden days—but time has changed the Jersey Lily's mouth, and it has degenerated into a shrewd, mercenary and not altogether pleasant feature of to-day. Mrs. Langtry to-day, with



GLADSTONE.

that eternal diamond crown upon her head, has a mouth which tells a story easily read, of the difficulties of acquiring the jewels of a princess without a birthright to the same. Lillian Russell has the good-natured, indolent mouth of a pleasure-loving woman—the upper lip is too short, so are her teeth, and in smiling Miss Russell in private life displays her upper gums.

Women with these mouths are rarely steadfast, either in their affections or in business matters. They do not seem to be able to hold on to anything. The mouth indicating the greatest self-control and mental strength is liberal in size, the upper lip arched in youth, the lower meeting squarely when closed—this is the exceptional mouth, and dentists say is rarely found, for in most cases one or the other jaw will project to a greater or less degree. Gladstone has such a mouth. The "Hapsburg mouth," so called because it was a distinguishing feature for many of that celebrated family, has the under jaw noticeably projecting—the upper teeth when the mouth is closed are in extreme cases nearly half an inch inside the lower set—this is an ugly deformation and denotes stupidity and insensibility. The upper lip of Thackeray's mouth was beautifully formed, arched, mobile and sensitive, the lower jaw projected very slightly—the ensemble was a mouth denoting the sweetness of nature and the exquisite sensibility so characteristic of the man—the slight weakness indicated by the projecting lower jaw being more than balanced and compensated for by the superb brow and the wonderfully intellectual framing of the eyes.

Malformation of the jaw and lips, resulting from birth or accident may be frequently remedied. As early as 1830 Professor Nicholles reports the case of a "rabbit-jawed" girl, "who was so disfigured by her ill-formed mouth as to be repulsive in appearance and an object of insurmountable aversion even to her mother." By the use of a mechanical appliance invented by Nicholles this "rabbit-jaw" gave place to a well-formed mouth, and the patient was returned to her parents "a very comely young person." This science of kilioplasty has resulted in late years in many wonderful transformations of mouths which were deformities and have been remodelled into symmetrical features. Harelips are cured and made perfect by an operation so simple that one wonders at the recollection of the afflicted children of one's own acquaintance of twenty-five years ago.

Thin lips may easily be made fuller by the use of slightly irritating washes

JULIA BARLOW.

and by manipulations—for exercise will develop the lips, just as it will the arms or legs. The drooping under lip may be cured in youth by a very simple mechanical contrivance worn at night, and a treatment of astringent washes. Biting the lips is invariably caused by nervousness or anxiety—the remedy is obvious. Muscular twitching of the lips, mouth and throat is cured by electricity. The best ointment for the lips to be used for chaps or fissures is the French unguent called snow cream.

Melt three ounces spermaceti, two ounces white wax and twelve ounces fresh oil of almonds in a water bath; put into a marble mortar and stir briskly to prevent granulation; when of the consistence of butter, triturate until the mixture has a white, creamy appearance; then during continued trituration, add by degrees a mixture of one ounce odorless glycerine; incorporate one ounce odorless glycerine; incorporate for twenty minutes, and add ten drops essence of roses, heat for about half an hour, put into pots or jars and close air tight.

A STRANGE CASE.

Mr. H. McCarron of Detroit Completely Cured of Blood Poisoning.

Detroit, Mich., July 1.—A very curious incident has occurred here, and one which will be of continental interest. Mr. Hugh McCarron, a well known notary public, has been a sufferer for many years from a peculiar form of blood poisoning inducing the most frightful pains in the breast and back. The best doctors were consulted without being able to give any relief and Mr. McCarron decided that his case was hopeless. He was finally recommended to make a trial of Dodd's Kidney Pills, and did so with the faint hope that they might have some effect in his case, the peculiar nature of which did not lead him to associate it with Kidney complaint. To his surprise the effects of the remedy were noticeable from the very first, and he is now thoroughly restored to health by this means.

Every Man Who Would Know the Grand Truth.

The Plain Facts; the New Discoveries of Medical Science as Appplied to Married Life.

Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure The Wonderful Little Book Called

"COMPLETE MANHOOD And How to Attain It."

"Here at last is information from a high medical source that must *work wonders* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it.*

A despairing man, who had applied to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N. Y., and asked for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

"SUN" LIFE

Assurance Co'y of Canada.

Explanation of the Company's System of Profit Distribution.

The method of profit distribution of most companies is to give a bonus or profit on the sum assured, irrespective of the premiums paid. The Sun Life of Canada allots its profits to policies in proportion to the premiums paid, which is considered to be the more equitable system. This accounts for the variations in the percentages of the accompanying results. The lower rates given below are, in most cases, on young lives. The examples are taken from the Company's claim register as at the end of 1894, for the first 5 years.

EXAMPLES OF PROFITS AND BONUSES

For Five Years, Ending 31st DECEMBER, 1894.

Policy No.	Age.	Amount Assured	Date Issued.	Cash Profit.	Bonus Addition.	Temporary Reduction for 5 Years.
ORDINARY LIFE POLICIES.						
27,940	18	$1000	1890	15 70	$64 00	$3 45
28,038	68	1000	1890	138 25	189 00	35 80
10 PAYMENT LIFE POLICIES.						
27,937	22	1000	1890	27 70	111 00	6 10
28,063	50	1000	1890	76 60	124 35	18 15

NOTICE THE ABOVE RESULTS.

We invite comparison by ANY and ALL companies doing business in Peterborough to give examples of results as paid at their LAST division at similar ages and on similar plans.

Any Company that can show better results than those indicated is well worthy of being patronized by the insuring public.
